France to Declare War Against China -King Humbert at Naples-Fearful Ravages of the Cholera-Egyptian Affairs-A Belief that Khartoum has Fallen.

Paris, September 9.—Prime Minister Ferry returned to this city to-day. He will convene the Cabinet Ministers and decide when the Chambers shall be called together. Government circles are disturbed over the financial war prospect. The deficit in the revenue of the current year is estimated at \$8,000,000, and it is believed that this will neessitate the negotiating of a war

London, September 9.—The first instalment of thirty boats for the Nile expedition has started. One hundred and thirty more will follow in a few days.

The Telegraph prints a private letter from Cairo, which refers to an impression there that Khartoum has fallen and that the Gordon letters were spurious. It says that Gen. Gordon ordered a sealed letter to be sent to Cairo to be forwarded. Its arrival has not been acknowledged, and it is supposed to have fallen into the hands of El Mahdi.

PARIS, Sept. 9.-It is officially stated that war will shortly be declared against China. The scheme of occupying Formosa has been abandoned. A fresh expedition of more important nature than previous ones has already been prepared. The whole question will be discussed at Saturday's Cabinet Council. The National today says: "There are certain incidents of which the public are unaware, which will shortly compel the government to take an important decision in regard to operations in China and necessitate the summoning of the Chambers."

NAPLES, Sept. 9.-King Humbert gave audience last evening to the municipal authorities. Orders have been issued for troops to leave the Maddalena barracks and encamp outside. The barracks will be converted into a cholera hospital. The Royal party is visiting the poorer quarters of the city to day. A riot occurred yesterday among the sellers of mineral waters because their traffic was restricted. The epidemic continues to make great rayages.

the past twenty-four hours shows the number of fresh cases of cholera in the city of Naples to be 633, and the deaths 275. The condition of the people is most har rowing. King Humbert has been profoundly affected by the sufferings he has seen. He has made a first donation to the relief fund of \$20,000. The Italian Navigation Company's steamers will call henceforth at Castellamare, instead of Naples. The workman taken to the hospital in

Rome yesterday showing cholera symptoms is expected to recover. Another suspected ease was taken to the lazaretto to-day and

A Little War Raging in a Newspaper Office in Detroit. (By Telegraph to the Morning Star.)

DETROIT, September 9.-War is raging in the office of the Evening Journal, of this city. A few weeks ago C. M. Hubbard, general managing editor, was discharged by Floyd Breeze, editor-in-chief. Hubbard claimed to be held by his contract until January and refused to consider himself discharged. Having secured a majority of the stock of the paper, he, yesterday, accompanied by friends, entered the office and declared the positions of the directors vacant, and elected himself and friends to their places. Breeze gathered the office employes together and threw the intrnders out; but later they were admitted as stockholders. Last night both factions were holding the fort and claiming the victory. Hubbard has sworn out an injunction, claiming to be in possession of the office; that Breeze was interfering. To day the Journal comes out under Breeze's management and recites the history of the case. It claims that Hubbard perjured himself, and states that he has never been in possession

Prediction of a Shorter Cotton Crop than that of Last Year. [By Telegraph to the Morning Star.]

GALVESTON, September 9.- The News today publishes crop reports showing the prospective cotton out-turn for the year 1884 '85. It says: In some few sections of the State-but the sections are limitedthe prospect is averaging fair; yet, taken as a whole, the outlook is far from flattering. The cotton acreage is estimated at from 10 to 15 per cent. increase, but the general condition at this time is perhaps 20 per cent. worse than it was last year. The recent rains have come too late to be of much advantage. It is possible, with a very late fall and extremely favorable conditions from now on, that some cotton may be benefited therefrom, but the great bulk of the crop is cut irretrievably short The indications point to a shorter crop in 1884-'85 than that of the year just closed. A good estimate would strike somewhere between a million and eleven hundred thousand bales.

Public Offices Closed-A Policeman Killed by a Negro. (By Telegraph to the Morning Star.)

WASHINGTON, Sept. 9.—To-day being the day of the funeral of the late Secretary Folger, all the executive departments of the Government and District offices are closed.
Policeman Fowler was shot and killed to day by a vicious negro named Langster. The latter was in the chain-gang cleaning the streets, and endeavored to run away. Fowler was in charge of the gang and re-captured Langster, who showed fight. The policeman drew his revolver and fired one shot. The negro, who was a much strong-er man, wrenched the pistol from the offi-cer's hand and shot him. Langster was captured, and at the station house laughed and sang, and said, "God told him to do

Benton & Co., wholesale tobacco and cigar dealers, the Suggy Boot and Shoe Company, and Rust, Harris & Co., wholesale and retail dealers in hardware, &c., have assigned. Republicans Claim 15,000 to 17,000 Majority for their State Ticket.

[By Telegraph to the Morning Star.] PORTLAND, Sept. 19.—Later returns show that the Senate will stand 31 Republicans and no Democrats. The House, as far as heard from, will have 82 Republicans and 21 Democrats.

Augusta, Sept. 9.—The following telegram has been sent by postmaster Manly to Secretary Fessenden, of the Republican National Committee: "On a full vote we have swept the State and reelected Robie by 15,000 majority. Blaine's own city has given a majority of 252 greater than was ever before thrown, and his county gives 3 400 majority. 3,400 majority.

AUGUSTA, Sept. 9.—The following dispatch was sent to Gen. Logan to day:
"Gen. John A. Logan, Chicago, Ills.: The result of the election may be thus summarized: The Republicans have carried every county in the State with the possible exception of Knox, which is very close. They have elected 29 Senators and the Democrats have only chosen two, and four Democrats have only chosen two, and four-Democrats have only chosen two, and four-fifths of the representatives in the Legisla-ture are Republican. They have elected four Representatives in Congress by large majorities, and have given to Gov. Robie a popular majority of 17,000. The Republi-can vote will reach very nearly eighty thousand—four to five thousand larger than was ever cast before. Our majority is the largest we have had since the Presidential election of 1868, and far exceeds our most sanguine hopes.

Raleigh Register. Early in February—as soon as the printers receive the necessary material—the publication of the

a North Carolina Democratic newspaper, will be commenced.

The Resister will be printed weekly until the great political campaign of 1884 begins. It will then be issued twice a week, or as often as may be useful or necessary to the Democratic party in North Carolina. It will be printed from new and beautiful type, on good white paper, and though it may not be large enough to hold all at once all the good things that glowing prospectness sometimes promise, yet the application of a thorough knowledge of how to use them will put into its thirty-two broad columns all the news, much good reading, and a complete history of what is done in North Carolina. Mr. Hale will be editor of the Register.

The price of the Register. Will be \$2 a year; \$1 for six mouths. Pay for your home paper, and then remit for the Register. Those who remit \$2 to this office will receive as A PREMIUM, \$1 either volume ordered of "Hale's Industrial Series." Two volumes are now ready:

The Woods and Tineers of North Carolina. Reports, supplemented by accurate County Reports of Standing Forests, and illustrated by an excellent map of the State. 1 volume 12mo. Cloth, 273 pp., \$1.35.
