(By Cable to the Morning Star.) PARIS, September 13.—Prime Minister Ferry, yesterday, after the conference with the secretaries of war and marine - General Campenon and Admiral Peynon-telegraphed to Admiral Courbet to resume warlike operations at once. General Campenon refused to assent to the dispatch of more troops from the cadres in France unless war against China should be de-clared. His advice was that the number of reinforcements should be limited to 1,000 men, and that these should be sent fron Algeria. Admiral Courbet, on the receipt of M. Ferry's dispatch, left Matzon with his whole fleet and started for the

Paris, September 13.-A Cabinet council was held to-day, in accordance with previous announcement, for the discussion of the Chinese question. Prime Minister Ferry distinctly confirmed the report that China had not declared war. The Chinese question was the only subject discussed. The question of convoking the Chambers was left to be de-cided by the Cabinet council of September

Kellogg Delegates Elected to the Third District Republican Convention-A Court House Robbed.

[By Telegraph to the Morning Star.] NEW ORLEANS, Sept. 13.—At the primary elections to-day for delegates to the Third Congressional District Republican Convention, which meets at Plauquemines Sept. 23rd, nearly all the parishes voted unanimous for Kellogg delegates. The utmost harmony prevailed, except in the parishes where there was a division upon local matters. This, however, had no influence upon the main question, as both fac-

tions voted for Kellogg delegates.

A special from St. Martinsville says: Last night the files of all the civil and criminal suits now pending, the minute books and dockets, were mysteriously taken from the court house. A genera search warrant will be issued.

Mr. Thos. W. Strange President of the FROM ALL PARTS OF THE WORLD Club, called the meeting to order, and after giving a brief review of the work of the Club in the last campaign, spoke of the importance of the work to be performed by the Club in the present, saying that it was peculiarly fitting that the young men should exert themselves in the fight before them, as the President of the National Convention, Hon. Wm. F. Vilas, ascribed his election to his elevated position as a compliment to the young Democracy of America; and when the name of Grover Cleveland was presented to the Convention for the nomination to the Presidency it was as one of the young Democracy.

Mr. Strange is a pleasant and fluent speaker, and made a most favorable im-

Mr. T. W. Meares was then called to act as temporary secretary in the absence of N. N. F. Parker, Esq. Mr. Meares then read the minutes of the last meeting, and after their approval, read the Treasurer's report, which showed a balance to the credit of the Club.

A New Invention in Bee Hives.

We examined yesterday a very ingenious invention, by Mr. Wm. Simpson, of this city, in the shape of a bee hive, which he has just patented. The specimen before us was a model. The invention is styled "Farmer's Moth-Proof Bee-Hive." The full-size hive is about 25 inches in height and 12 by 12 inches in width, and stands about four inches from the bench. There is an upper and lower compartment. In the latter the bees have their residence, as it were; as in it they keep their winter food, and feed and breed. They can be seen through a glass front, which is usually shut from view. When the bees are first hived they enter through a small door underneath, which is afterwards kept closed, and the bees thereafter make their exit and entrance through tin tubes in the rear of the hive. There are two small holes in the top of the hive, through which the bees make their way at will into a box above, part wood and part glass, in which the honey is made, which the inventor claims is very white and beautiful. The box can be of any size, to hold from one to thirtyfive pounds. This box is surmounted by a cap, which is kept closed except when the box is to be emptied and replaced. One important feature in connection with the hive is its perfect adaptability for shipping. One of the patent hives will be on exhibition at the State Exposition.

A New Enterprise. We were shown at Mr. Geo. W. Huggins' jewelry store, yesterday, a very handsome and valuable piece of machinery in the shape of a lathe for the manufacture or repair of watches and jewelry. It is called the Waltham Lathe, as it is the same kind of a lathe used in the manufacture of the celebrated Waltham watches, and Mr. George Darwin, who operates it, was formerly assistant foreman of the Waltham establishment in Massachusetts. where the watches are made with this lathe and the case of machinery which accompanies it. Mr. Darden can make any part of the delicate works pertaining to a watch, or he can manufacture a watch entire. In repairing watches it saves a great deal of trouble and vexation of spirit. It is said to be the only piece of machinery of the kind south of Baltimore.

Wilson Advance. The Democrats of Edgecombe held their county convention Tuesday of this week. It was largely attended and its session was harmonious. Judge H. A. Gillam was the presiding officer. By invitation F. A. Woodard, Esq., of Wilson, nominee for Congress, was present and made a forcible and vigorous speech. The following county ticket was nominated: For the Senate, John L. Bridgers; for the House, G. M. T. Fountain and Geo. W. Howard; for Sheriff, John R. Staton; for Register of Deeds, H. C. Bourne.

Special Correspondence of Norfolk Vir-RALEIGH, N. C., Sept. 11 .- Col. Lot W. Humphrey, a member of the National Republican Executive Com-mittee, is taking a very prominent part in politics. He, not Dr. Mott, will hold the purse. He has gone to Washington after funds for use in this State. Republicans here say he stands little show of getting any money. There is a growing coolness among the Republicans. Charges are made that James H. Harris, one of the most prominent colored members of the party, sold out for \$300 at Chicago.

Frazier got into a difficulty, when the former was stabbed in three places, from the effects of which he died in a few hours. Frazier was arrested and lodged in jail. Cawthran was 28 years old. - Charlotte Observer: Judge Mc-Koy's bearing on the bench makes him s great favorite everywhere. — Prof. W. H. Neave, of Salisbury, has been selected as chairman of the committee of judges to determine the degree of proficiency of the various bands that will take part in the Exposition Band Tournament at Raleigh, on Oct. 2nd. Prof. Bauman, of Raleigh, has also been chosen. The bands will select the third man, — The fast mail and passenger train that pulled out from Charlotte Wednesday afternoon for the north was yesterday morning to be seen on the side track at High Point, emptied of its pas-sengers. The engine that pulled it had its cab torn off, the postal car had a great hole knocked in its end, and every car step and axle box on the left side of the train was knocked off. The sides of the cars were torn and the Pullman cars had their outside ornamental woodwork carried away. The train had met with a lively accident, caused by running into the caboose of a freight train that was standing on the side track, but not sufficiently clear of the switch to allow the passage of a train on the main line

At 12 o'clock last night Officers Irwin and Orr, of the city police force, were seen walking through Independence Square. Between them walked a young mulatto boy, and as the two passed under the gas lamp the glitter of handcuffs shone upon the wrists of the negro. The officers had captured him fifteen minutes before, at the cotton seed oil mills, on the northern outskirts of the city. Just before they caught the negro, they pulled the dead body of a legro man named Lee Turner out of a ditch that runs by the oil mill. Turner had been stabbed to death by the negro who the officers had in custody. Anthony Allen, the prisoner, and Lee Turner, met last night at a negro bawdy house in the vicinity of the oil mills, and pretty soon became involved in a quarrel. Turner left the house, followed by Allen. As they reached the ditch at the mills Allen drew a large butcher knife and plunged it through the heart of Turner, who fell dead.
