OHIO. Ohio votes on the 14th of October for minor State officers and for members of the House of Representatives. It is very important election and both parties are putting forth extraordinary efforts to capture the State. The fight thickens, and from now until the election will increase in fierceness. The Republicans will do all that is possible to prevent defeat. They carried it in 1880, by the free use of money, and their main hope now is "soap." If they can raise a mil lion or two of dollars they will freely apply it to buying up voters and thus debauching the ballot.

Ohio has been a Republican State by from 10,000 to 30,000 majority. but Garfield carried it by very nearly

50,000 majority. If the Republicans should fail to carry it the loss would be utterly disastrous to their candidate, for he would have no showing whatever in the November election. If they should carry it by only a few thousands the effect would neces sarily be very depressing to them, for Ohio has been one of the steady, staunch States in the past. It has never gone Democratic but once in some twenty years. It never went Democratic in a Presidential year. The Republicans cannot afford to let it go Democratic this year. It would simply ruin them.

But, on the other hand, if the Democrats should fail in October it wi

VICTORY AHEAD.

The change that has taken place in the prospects of Gov. Cleveland since the 20th of August is very great, almost phenomenal. If the election had come on then it is known to our friends that we had the gravest fears that Cleveland would be defeated. But the outlook is very different now. It is positively bright and is growing brighter every day. We sincerely believe that unless there is a reaction before November unfavorable to the Democracy that Cleveland and Hendricks will be elected. New York is all right now. The STAR, Tammany's organ, is out for the ticket since Tammany wheeled into line. The outlook in the West is full of encouragement, and Indiana is safe we think. In New Jersey and Connecticut we have a good showing. Read the article from the Philadelphia Times

published elsewhere.

The hard times are working good in one direction. The extravagant and absurd prices for seats in the various Exchanges are tumbling. In the New York Stock Exchange prices have come down from \$32,000 to \$25,000; in the Produce Exchange prices have declined from \$4,700 to \$3,000; Cotton' Exchange from \$5,000 to \$3,025; Mining Exchange from \$3, 300 to \$500; Maritime Exchange from \$250 to \$100; Mercantile Exchange

from \$400 to \$300; Metal Exchange

they carry both Ohio and West Virginia in October they believe that Mr. Blaine's defeat is certain, but if West Virginia goes Demo-cratic, and the Republicans carry Ohio by a small majority, they think that the remainder of the contest will be extremely hot and bitter, with

the final result in doubt. In a word, they regard Ohio as indispensable to the Republicans, but not to a Democratic victory. Their reason for this belief is that Ohio has never been lost to the Republicans in a Presiden-tial year, and that the Republican

managers are evidently preparing for an "aggressive" canvass. Four years ago the Republican candidate for Secretary of State had 19,000 majority in October, and the smallest Republican majority at the State election in the previous Presidential year was 6,633, in 1875.

REGISTRARS AND JUDGES OF ELECTION.

Raleigh News-Observer. The matter to which attention is directed by Mr. Chairman Battle, in the following letter, is of importance, and it is hoped that other papers will publish it, to prevent possible confusion in some counties. The Board of Commissioners for Wake county meets to-day, for appointment of election officers.

RALEIGH, N. C., Sept. 12, 1884. MR. EDITOR: It has been suggested to me as probable that the com missioners of some of the counties may have failed to appoint registrars and judges of election, at the meet-ings held the 1st Monday in this month, and that if called meetings are not held before the 1st Monday in October (the 6th) the registration books cannot be kept open for thirty days before the day of election (November 4th), as the law requires. (The Code, section 2,675.)

As "called meetings" can be held upon the request of one member of the Board of Commissioners after advertisement for six days. (The Code, section 706), there is time to cure the ommission, if any of the boards have failed heretofore to make the appointments.

In the interest of the people, I hope you will call attention to this matter in your paper and suggest to other newspapers of the State to do the same.

The Committee also named a full electoral ticket, but one half of their electers are to be dropped in a fusion with the Republicans. At a joint session of both committees last night the general situation was discussed, and it was decided to open the fusion campaign at Barnville, Sept. 20, when speeches will be made by several leading Republicans and Greenbackers. It was also decided that the State ticket should be called the anti-Bourbon ticket. The matter of naming a joint electoral ticket of eight nominees to be selected from each party was deferred to a future meet-

TAXATION AND THE SURPLUS. All voters should understand that in this country there is a division in the application of the Tariff. The difference of application is so great it might be likened unto two different systems. This is seen in this: portion of the tax collected goes in to the U.S. Treasury and is applied to the maintenance of the Government. The remainder-and th larger part-goes directly into the pockets of manufucturers. This sum is taken from the pockets of the laboring classes in the increased price of necessaries, and is given by a way of bounty to a small class that they may grow rich and flourish. The poorest man has a portion of the fruits of his toil transferred from his pockets into the pockets of an other. All have to pay the tax. No man is exempt. There can be no proxies or substitutes here. All must serve: Like death the Tariff exacts this sum from all.

This system, unfair, unequal, unjust as it is, was first set up on the plea of building up home industries. It was urged, and is still urged by the monopolists, that without this tax levied upon all that the few engaging in manufacturing could not possibly compete with foreign manufacturers. The result of the system is to force men-all men at that -to pay more for goods than they would pay if the tax did not exist.

the voters and they are divided in opinion. The one class is strongly in favor of keeping up the high tax indefinitely. Like Blaine and Logan they believe that high taxes are a positive blessing, and that the more you pile up the taxes the greater guarantee there is of prosperity. Of course this is a monstrous doctrine, and no man of fairness and sense ought to be caught defending it. In all lands taxes are regarded as a great and necessary evil. Tariff taxes are of this class. The present High Tariff averages 43 per cent

tax on thousands of articles. There is another class, and Cley

be no loss, as in all the calculations they make they do not claim the electoral vote of this State. But still they are making a very earnest fight for victory, and the tidings that come from that State are full of cheer.. The German vote, in the main, it is believed, will be cast for Cleveland, and if it can be secured for the Democrats in the State elec-

tion all will be well. There lies the difficulty. The Germans are for the most Republicans, and they may divide on the State ticket and thus give the vote to the Republicans. But if they are really anxious to defeat Blaine, and they will consider the importance of carrying the State in Ohio, they would vote with the Democrats.

TIMELY. The Norfolk Virginian is doing faithful service in behalf of good morals and decency in protesting against the immoral plays and exhibitions at the Academy of Music, Such

performances are very hurtful and do an immense harm to the young.

No one can behold nastiness portrayed on the stage without having the mind tainted and the moral standard lowered. A familiarity with vicious exhibitions is certain to bring forth vicious fruit. Let our people frown upon all indecent and immoral shows and performances. A writer in Norfolk sends a hearty communication of indorsement to the Virginian for its course in denouncing vicious shows of all kinds. The writer. There are also two classes among who evidently has at heart the welfare of the young, justly says:

"The theatre at this day is a potent factor in education, and does much to form the character of our young people. People will attend the opera and drama, and every effort should be made to improve and elevate the moral tone of the performance Nothing should be allowed upon the stage which would bring the blush of shame to which would bring the blush of shame to the cheek of virtue; nothing be said that would be considered improper in the social circle. Right thinking people will support you in your efforts to elevate the tone of the performances and will commend you for your action in this as well as the Rentz-Santley affair. It is the duty of the press to strike at the root of any social evil, regardless of consequences, and such you have done."

The press is a power'in this as in other things, and if it would unite in severe condemnation of all lustful.

from \$600 to \$120; Naval Stores and Tobacco Exchange from \$226 to \$70; Wine and Spirit Exchange from \$10 to \$25; Importing and Grocers' Exchange \$1,000 to \$250; Hay and Produce Exchange from \$250 to \$35. Everything has been on a false basis and the balloon business has been overdone.

The Democratic Campaign Text-Book is now ready. It contains 250 pages. It is very full, and politicians and speakers will find in it all the matter they will need for campaigning. Lives of Cleveland and Hendricks, Blaine's record, the platform and a discussion of every topic that enters into the campaign will be found. Representative Hewitt's speech on honest money and honest labor, the independent tidal wave, (George William Curtis's speech on this subject,) Thomas Jefferson's inaugural address, William Allen's definition of Democracy, and Samuel J. Tilden's farewell letter are given.

CURRENT COMMENT.

- There is a growing conviction among all classes of Americans that it is high time the tariff was treated from the point of view of the business interests of the country and freed from the confusion in which greedy politicians have purposely wrapped it. It was this sentiment

that compelled a Republican Congress to undertake a reduction of \$70,000,000 in the revenue by the bill based on the Tariff Commission's report. It is this sentiment which compels sharp and ambitious men like Mr. Lodge, and ambitious but not very sharp men like Mr. Rice, to confess that the real reduction (some \$42,000,000) effected by that bill was not sufficient. It is to this sentiment. on the other side, that Mr. Hend ricks makes his pertinent argument. So powerful and obvious is the force of this sentiment that it is not at all improbable, no matter which party may have control of the House or elect its President, that a substantial reduction of the tariff may be made by Congress this winter.-N. Y. Times, Rep.

· Very respectfully yours, R. H. BATTLE, Ch'n Dem. Ex. Com. THE WESTERN PARTY

BREAK-UP. Phil. Times, Ind. Rep.

The first broad and manly confession of the revolutionary tendencies of the contest that comes from a party organ, may be found in a leading editorial from the Chicago Inter-Ocean copied in to-day's paper. The Inter-Ocean is one of the ablest and most earnest Republican organs of the West, and it is finally forced to blurt out the truth, in the face of ancompetent or inefficient National Committee and of the regulation reckless promises of dependent organs.

Instead of proclaiming Illinois as safe for the Republicans and painting the progress of the campaign in glowing colors, the Inter-Ocean is forced to proclaim the truth and summon the party leaders to extreme measures to halt the revolution that is gravely threatening Republican success in Ohio, Illinois, Michigan. Wisconsin, and even Iowa and Kansas.

The party leaders and party organs have assumed that this campaign would be controlled by the same issues and agents that have controlled the strictly party battles or the last quarter of a century; but they now see, when nearly if not quite too late, that old issues have. lost their force, and that new issues, new energies, new batteries and new guns must be brought to the front.

Judge Woods Refuses to Compel the Plaintiff to Answer the Interrogaterles.

INDIANAPOLIS, September 13.-In the U.S. District Court to-day, a motion for a rule to compel the plaintiff to answer interrogatories in the Blaine-Sentinel libel suit came up before Judge Woods. The Judge stated in advance of any argment that interrogatories had long been pro-hibited in the practice of the Courts in the U. S. Circuit, and while he would personally like to see the rule. changed, he would not take the liberty of setting it aside at this time. If, however, with this preliminary statement, attorneys desired to argue the question he would listen to them. Senator Harrison stated that the interrogatories would be answered. but when Mr. Tupie asked him when he declined to answer. The argument was then proceeded with, and

NEW YORK, Sept. 14 .- Joseph and John Kluber, who arrived in this country from Alsace, about nine weeks ago, had several drinks together on Saturday night. Joseph had to drag his brother along the street to his home in Christopher street, as the latter was intoxicated. On the way both fell, and two hours later they were dis covered by a policeman. John was dead, and Joseph was asleep on his body. During the evening the brothers had visited John' wife, a servant employed on 59th street. Joseph was held to await the action of the coroner.
