An American crew beaten in a Boat Race at Southampton—Affairs at Hong Kong—Floods in Spain—The Cholera Epidemic in Naples—Mortality from the Disease in France—Business Troubles in Liverpool.

LONDON, Sept. 18.—An exciting rowing match occurred yesterday at Southampton between the crew of the cutter Uncle Sam, of the U. S. flag ship Lancaster, and a local crew. The Uncle Sam has fourteen crew, and the rival boat has eighteen. The distance rowed was five miles, and the amount of money at stake was sixty pounds. At the start the Uncle Sam was in the lead, but the local crew soon passed ahead of them. The race was continued for 27 minutes and 27 seconds. In the evening the amateur club of Southampton entertained both crews. Bailey, coxswain of the American crew, in replying to a toast, said that the Uncle Sam had never been beaten before. The crew of the Lancaster were prepared to back the Uncle Sam by £100 to £1,000 against any other boat in England. The match excited great interest.

A dispatch from Hong Kong says that the French man-of-war Atlanta boarded the regular Hong Kong trading junk and threw its cannon guns and ammunition overboard. This occurred in the immediate vicinity of the harbor. The Atlanta's crew were greatly irritated. Junking is the only trade left, and junkmen are afraid to venture far outside the harbor without cannon for fear of pirates. Governor Bowen is absent in Japan on a furlough. Deputy Governor March does not intend to interfere with the city since the epidemic became serious, and is beginning to disappear, and the streets are regaining their customary activity. Some alarm, however, is felt at the increase in the number of cases of the cholera, and the municipal authorities are postponed making any change in the present quarantine regulations.

MADRID, September 18.—Heavy floods are destroying crops in many parts of Spain. NAPLES, September 18.—Excessive heat prevails, but the general condition of the city is improving. The gloom and depression which have been weighing on the city since the epidemic became serious, are beginning to disappear, and the streets are regaining their customary activity. Some alarm, however, is felt at the increase in the number of cases of the cholera, and the municipal authorities are postponed making any change in the present quarantine regulations.

ROME, Sept. 18.—Young ladies belonging to the aristocratic circles have been holding a fête in aid of the cholera sufferers. Other young ladies are volunteering as nurses in the hospitals. A report is current here that Signor Mancini, Minister of Foreign Affairs, has submitted to the Powers a scheme for an international sanitary code, with a lazaretto on the Red Sea, and the compulsory isolation of each State in which cholera appears.

PARIS, Sept. 18.—One death from cholera has occurred at St. Ouen, a suburb of Paris. In Perpignan and vicinity yesterday there were eighteen deaths reported; at Marseilles two, and at Toulon none. During the continuance of the epidemic in France there have been 10,000 cases and 5,000 deaths.

Encouraging Reports as to the Business Outlook. (By Telegraph to the Morning Star.) BALTIMORE, September 18.—The Baltimore Manufacturers' Record will publish tomorrow special reports from all parts of the South as to the prospect for fall and winter business. It is shown that the outlook is very favorable for an active trade. The cotton crop will be less than was expected a month ago, owing to drought, but this is largely counterbalanced by larger crops of corn, wheat and fruit than for some years. Owing to the enlarged production of food stuffs the South will not have to purchase so largely of wheat, corn and provisions from the West as heretofore; the difference in this as compared with last year being fully \$50,000,000. The late stringency in the money market, according to many of these reports, prevented planters from borrowing as freely as usual in the spring and forced them to close economy, so that the cotton crop has been raised at a much lower cost than in other years and planters are less in debt than at the corresponding time last year. In manufacturing and mining enterprises rapid progress is being made.

S. Court, had decided to be fundable dollar for dollar, with six per cent. interest. The Legislature, during the late extra session, passed a bill amending the Middleberger debt bill so as to stop this leak, but between the time of Judges Hughes and Bond's decision and the passage of the act \$300,000 of the said coupons had been tendered, and under another decision of Judge Hughes \$100,000 of them had been funded. This funding is now stopped, and the case will be appealed to the U. S. Supreme Court. If the whole amount of \$300,000 of the coupons is funded the State will lose \$280,000.
