Alfred Tennyson, the great English Laureate, will soon publish a

volume that is said to contain "one poem, of the same length as "Enoch Arden," with several unpublished lyrics and some short pieces, including the Leopold memoriam." He is now in his 75th year and still his muse is capable of melodious verse if not of verse of the splendor and force of an earlier day.

In Petersburg, Va., a Baptist minister, Rev. J. M. Pitcher, went before the Mayor and swore out a warrant against the Academy of Music for posting pictures of a female troupe that were "too indecent to expose to view." The manager paid the costs and was warned not to offend again in that way. The pictares were taken down. Here is a lesson for all respectable Southern cities.

Ward Beecher was reported to have determined not to support Cleveland as his congregation was dissatisfied at his course. The Herald 88Y8:

"Investigation of the authenticity of hese rumors shows that, so far far from its being true, it is a fact that there is a general approval of his independent atti-tude in relation to the Presidential question, and that he has reiterated to the leading members of his congregation his firm conviction that Mr. Cleveland should be heartily supported for the Presidency."

On Wednesday of next week the State Exposition opens at Raleigh. It will continue until the 28th of October, and will be an occasion of great interest to the people of North Carolina. It will be a fine success, and will reflect credit upon all concerned. All who can do so ought to attend, and all who have anything to contribute to the display ought to do so at once.

The discharge of the blast of course shattered the tree, but a large piece of the trunk was secured and can now be seen at the Central Hotel. The piece shows the bark on the outside, the grain of the wood and a portion of the heart of the tree. Judging by the piece secured, the tree must have been about two feet thick, and was hollow. This fragment of the petrified tree has been secured by Dr. Chas. Wheeler, the eminent mineralo gist of this city, who will have it on exhi-

boro for a month, and his wife's mother, who lived in the house, was employed during the daytime, working for a family in the neighborhood of the City Hall. She was on her way home when she heard the alarm. Jones says there was no fire in the room during his wife's absence, except so much as would be contained in a lighted lamp. Therefore he thinks the fire was the work of an incendiary. Jones had insurance to the amount of \$800 on the building, and \$500 on the furniture and wearing apparel, in the Virginia Home, represented by Messrs, Atkinson & Manning, which he does not think will cover his loss. All the furniture removed was badly damaged, and he saved only s suit or two of wearing apparel.
