WASHINGTON.

The Office of Secretary of the Treasury Vacant-Speculations as to the Appointment-Consular Reports on the Cholera Scourge-China's Exhibit at the New Orleans Exposition-Resident Laborers Threatening Trouble Bechuse of the Introduction of Foreign Low-Priced Labor. [By Telegraph to the Morning Star.]

Washington, September 24.—The term of C. E. Coon, as Acting Secretary of the Treasury under special designation by the President, expired at the close of business to-day. All business which by law must be transacted by the Secretary, such as the signing of warrants and vouchers, appointments, making and approving contracts, approving bonds, deciding questions under the customs and other laws, waiving regula-tions of the Department, etc., will therefore have to be held in abeyance until an appointment is made to fill the vacancy. Two assistant secretaries and other officers of the Department will be in attend ance to morrow and every day until the office is filled, and will transact the current business of the Department, except in cases requiring the action of the Secretary. It is not expected that this practical cessation of the business of the Department, so far as the Secretary's office is concerned, for one or two days, will prove particularly injuri-ous to the public. A longer delay, how-ever, can only result in complications and embarrassments which would undoubtedly

prove serious. Among other speculative stories current here regarding the vacant Secretaryship, is one to the effect that Postmaster General Gresham is to be appointed Secretary of the Treasury for a brief period, or until the President is prepared to fill the office permanently; when Mr. Gresham will retire and assume the seat on the bench vacated by Judge Drummond. The fact that Geo. H. Sharpe is actively engaged in preparing for his South American tour, is regarded as an indication that he is not a candidate for the Treasury portfolio.

The Chinese Government has applied through Mr. Young, our minister at Pekin, for 3,000 square feet for its display at the approaching New Orleans Exposition. Director General Burke has been written to upon the subject by the Department of

The State Department has received an interesting report from the United States Consul at Genoa in regard to the cholera scourge which made its appearance on the 22nd of August. He says that on the outbreak of cholera at Toulon and Marseilles, Spezia was selected as the place to quarantine all Italian fugitives from those cities. Those brought to Spezia at the expense of the Italian Government were kept on board a ship until the days of quarantine expired. The report has not been contradicted that afterwards refugees were allowed to take their mattresses and other bedding on shore, and that they disposed of them to the highest bidder. Another report was that many of the refugees escaped during the night time and took their infected clothing with them.

There is prospect of serious trouble in this city between resident laborers and a gang of Italian and Hungarian laborers, imported from New York by Thomas McCann of that city, who has a contract for \$300,-000 or \$400,000 worth of sewer construc-tion in this district. The laborers here, principally colored men, have been receiving \$1.50 per day, and it is said by them that the imported laborers are only to be paid 75 and 90 cents per day. A gang of two hundred of the foreigners is encamped in Gale's woods, just outside the city limits, and is employed on the boundary sewer. To-day Robt. C. Hennitt, representing the resident laborers, and Wm. H. Mahler, contractor of this city, called on the District Commissioners to see if anything could be done to prevent the importation of foreign low-priced laborers. They informed the Commissioners that if foreign laborers were allowed to come here and crowd out Washington laborers, the District would be obliged to support the latter this winter as paupers. Mahler, who was a bidder for sewer contracts and whose bid was next to the lowest, said that the District contractors in making their estimates of the cost of the work had based them on the current rate of laborer's wages in the District, and that they thought it unfair that a foreign bid-der, who had evidently based his estimates for wages on the rate paid to these imported laborers, should be allowed to compete with them. The Washington laborers are very indignant over the importation of foreign laborers and are making threats. A picnic of colored laborers is to be held on Monday next in Gale's woods, where the foreigners are encamped, and trouble is anticipated if the foreigners are not removed from the vicinity.

Convention of the People's Party-Ben Butler in Attendance-A State Ticket

[By Telegraph to the Morning Star.] WORCESTER, Sept. 24.—The Convention of the People's party was called to order at 11 o'clock by Col. A. C. Drinkwater, who welcomed the delegates to the "first convention of the People's party and the true Democratic party of the country." He welcomed all, no matter what their former political affiliation might have been, and then alluded to the wonderful campaign made by Butler last year, notwithstanding all the opposition concentrated upon him by the self-constituted leaders of the Demo-

cratic party, press and pulpit.

Joseph O'Neal, of Boston, was made temporary chairman. In his speech on taking his seat O'Neal said the personnel of the People's Convention was a source of congratulation. The People's Convention was not made up of professional politicians and men who made a living by their wits. It was composed of men of toil, who could not afford the time and expense of spendng two days at a convention.

It was announced that Gen. Butler would reach worcester at noon. The Convention accordingly resolved to take a recess for the purpose of going in a body to the rail-road to escort Butler from the station to the hotel.

The usual committees were appointed. The committee on Credentials reported that 21 cities and 294 towns were represented by 1,480 delegates.

At noon the Convention adjourned until 2 p. m., and 1,500 delegates marched to the depot and escorted Gen, Butler to the Bay State House amid great enthusiasm.

One of the platforms proposed for the committee was published in a Boston

paper this morning; but the committee will not adopt that one.

At precisely 2 o'clock the Convention was called to order, and the chair stated that as soon as the business was completed Gen. Butler would make his appearance. On reassembling the committee on Credentials reported 1,528 delegates present

dentials reported 1,020 delegace pathis afternoon.

The committee on Permanent Organization reported as follows: For President—Col. Noah A. Plympton, Worcester; First Vice President—Hon. M. J. McCafferty,

Worcester: Owing to the extreme length of the list of vice presidents a laugh was raised by a delegate who moved that all delegates he made vice presidents. The Convention is in good humor. When a proposition was adopted to adjourn for the purpose of escorting Butler to his hotel, some delegate moved that a band of music be procured. Many favorable voices were heard, until the question was raised, how would the band be paid? One delegate said, "Tve got a dollar;" another, "I have two;" a third, "the People's party needs no band." The laugh at this sally drowned the voices which asked for music and the matter was dropped.

matter was dropped.

Judge McCafferty was nominated by acclamation as the candidate for Governor; John T. Marsh, of Springfield, was nomi-nated by acclamation for Lieutenant Governor. The balance of the State ticket was completed.

Labor Troubles in France-The Cholera-Irish Murder Trials and Informers-The British Lords and the Franchise Bill. (By Cable to the Morning Star.)

LONDON: September 24.-Apropos of the popular agitation in favor of the Fran-chise bill, Truth editorially says: "The Cabinet are greatly impressed by the attitude of the country, and they have resolved to create fresh peers, if a small majority of the House of Lords rejects the Franchise bill a second time. If, however, the bill is rejected by a large majority, Parliament

will be asked to express its views regarding the future constitutional positions of the House of Lords, either by resolution or by an address to the Crown. If a dissolution of Parliament is brought about this autumn the country will be consulted, not regarding the Commons, but regarding the Lords." Truth believes that this policy has been assented to by the Queen, and that the royal dukes will vote with the Liberals when the Franchise bill is brought before the House of Lords again this autumn. Dublin, September 24.—Carey's confession in regard to the Woomalsana murder

trial is duplicated by the recantation to-day of Cole, the principal witness in the Smythe murder case at Barbavilla. This recantation was made in the presence of three priests, who propose to impeach the evi-dence on which those accused of complicity in the Smythe murder were convicted.

ROME, Sept. 24.—Reports from differ-ent ports of Italy for the past twenty-four hours give a total of 441 fresh cases of cholera and 203 deaths. Of these, 264 cases and 75 deaths occurred in the city of Naples. This shows a slight increase in the number of cases at Naples over the preceding twenty-four hours, but a large falling off in the number of deaths. Paris. Sept. 24.—Workingmen of Lyons

have presented an appeal to Prime Minister Ferry, urging him to open the Govern-ment ship building yards and so provide work for starving laborers. Prime Min-ister Ferry replied that he had no power in the premises, but would refer the question to M. Waldeck Rousseau, Minister of the Interior. It is stated that thousands of workingmen are out of employment and there are apprehensions that rioting may occur.

THE BLANNE CIRCUS.

Grand Western Tour of the Great Republican candidate for the Presi-

[By Telegraph to the Morning Star.] NEW YORK, Sept. 24.—Blaine started on his Western tour this morning over the New York Central road in a special train of two drawing-room coaches and combination. The rear platform of the train was arranged to be used as a speaking stand when the train stopped at stations along the route. About thirty newspaper men and prominent Republicans were on board. Great crowds awaited the train at every station where notice had been given that a stop would be made. At each of these Blaine appeared on the rear platform and briefly addressed the multitude. As a rule his remarks were confined to acknowledgments of gratitude. Occa-sionally one of the accompanying friends would take the platform, and it sometimes

happened that the train moved off while they were speaking, leaving before they had reached a conclusion. At some of the larger cities, such as Poughkeepsie, Hudson. Albany and Utica, the stoppage was more extended and time was given for political speeches. The party will rest at Syracuse to night.

Two Young Girls Brutally Murder their Half-Brother. By Telegraph to the Morning Star.

ST. Louis, Sept. 24.—The story comes from Ottawa, Kansas, that on Monday last Carrie and Bessie Waterman, aged 12 and 14 years, daughters of James Waterman, a farmer, tied a rope around the neck of a half-brother, six years old, dragged him about and beat him with sticks until he was dead. The girls stated at the coroner's inquest that they hated the child and wanted him dead. They were held for murder.

Attempted Wife-Murder and Suicide at Cleveland.

(By Telegraph to the Morning Star.) CLEVELAND, Sept. 24.—Darwin N. Gardner, formerly a police clerk of this city, which office he held for nine years, this morning shot his wife and then shot himself. Gardner is fatally wounded; his wife is wounded in the temple and will probably recover. The two were alone in a room at the time, and nobody seems to know the motive for the act.

a North Carolina Democratic newspaper, will be commenced.

The Register will be printed weekly until the great political campaign of 1884 begins. It will then be issued twice a week, or as often as may be useful or necessary to the Democratic party in North Carolina. It will be printed from new and beautiful type, on good white paper, and though it may not be large enough to hold all at once all the good things that glowing prospectuses sometimes promise, yet the application of a thorough knowledge of how to use them will put into its thirty-two broad columns all the news, much good reading, and a complete history of what is done in North Carolina. Mr. Hale will be editor of the Register.

Favetteville Observer. ON THURSDAY, FEBRUARY STH, 1883, THE undersigned will revive the publication of the FAYETTEVILLE OBSERVER.

The OBSERVER will be a large 28-column weekly newspaper, and will be mailed to subscribers, postage paid, at 32 per annum, always in advance. It will give the news of the day in a sample form as its space will permit, and both regular and occasional correspondents will contribute letters from the Capital on State politics and affairs.

Democratic in politics, the OBSERVER will is bor, first of all, to assure the prosperity of the Town of Fayetteville, to develop the vast agricultural resources of its own and the neighboring counties, and to promote all that concerns the welfare of the people of North Carolins.

Opposed to such innovations on the homely ways of our fathers as, in the guise of progress, harm society, the OBSERVER will be found in full sympathy with the new things born of the sympathy with the new things born of the shanged condition of the South which sound judgment or enlightened experience find to be also good.

As to the rest: it will strive to deserve the reputation of the name it inherits.
