- A Raleigh special in the New York Times: The mining interests of the State will be more fully shown at the State Exposition than any State has attempted heretofore. The display of timber will ex-cel that of any other State in the Union. Chatham county alone will exhibit 70 varieties. In the Department of Agriculture from Washington there will be a gem parlor, and the roof will be thatched with mica. There will be pyramids of gold and copper ores. The fishing exhibit will be the largest outside of Smithsonian Institute. There will be an exhibit from the Department of Education in Washington. A signal station will be erected on the grounds. A bureau of information as to boarding houses has been established. Information as to the Exposition has been sought from most of the Northern States, and there will be weekly excursions from Boston, New York, and Carlisle, Penn. There will be no gambling or horse racing. Only wine and beer will be sold on the grounds.

De 110 Wilmington STAR. It has just reached one of its many birthdays. As a newspaper it is a favorite with the State press and is sought after by the people. Long and prosperous life to it.—*Reids-*ville Times.

The Wilmington STAR, we are pleased to notice, still continues on the high road to success. We esteem the STAR very highly, regarding it as one of the very best of our exchanges, and consider it the peer of any journal published in the South.-Oxford Free Lance.

Why is it that all the papers with the name of Star are such bright little journals? The Wilming-ton (N. C.) STAR, the Washington Star, the Fred-ericksburg Star, New York Star, for example. There must be something in a name after all.-Richmond (Va.) State.

The Wilmington STAR has entered uponits 12th volume, and we are pleased to notice still contin ues on the road to success. We esteem the STAR very highly, regarding it as one of the very best newspapers that comes to this office. Its news columns are always a little fuller than those of any other of our exchanges, and its editorial de-artment is conducted with much ability.—Mcr-emicon Blade. ganton Rlade.

Bumble in its beginnings, as was inseparable from an enterprise begun amid the wreck of for-tune that attended the collapse of the Southern Confederacy, the STAR has steadily "waxed" un-til it now beams resplendent in the full glow of a constantly brightening prosperity. As a newsra-per it has few equals, and no superior, for appra-priate selection and judicious arrangement, and we are proud to rank it among our most accepta ble exchanges.—Hillsborg Becorder.

ble exchanges.—Hillsboro Recorder. The Wilmington MORNING STAR has entered up-on the thirteenth year of its existence, and we take this opportunity to congratulate it upon its prosperity and deserved popularity. The remark-able success of the STAR is due to its strict atten-tion to business. The boast of the STAR (rightful-ly too) is that it always has the news, and this is the first thing in journalism. Otherwise the pa-per is all that the term of "good newspaper" im-plies, and its corps of editors and reporters are thoroughly educated newspaper men. May the healthy, moral influence of the STAR never be re-tarded, and may its genial enterprising proprie-tor enjoy many more happy years of usefulness. —Goldsboro Messenger.
