PENNSYLVANIA. Salt Manufacturing Works Damaged by Fire-The Coal Miners Strike

About to End. [By Telegraph to the Morning Star.] PITTSBURG, Sept. 30.—News from coal miners' camps along the Monongahela river indicates that the days of the strike are numbered and that the men who struck would be compelled to return for smaller rates than they received when the strike

was inaugurated. A mass meeting was held last night in the Fourth Pool, at which the sentiment was strongly in favor of accepting the operative's terms. Another meeting will be held to-morrow to take decisive action. Two of the most extensive operators on the river who have been running their mines with non-Union men shut down yesterday, having filled all their contracts.

A destructive fire occurred at Natrada, twenty miles from this city on the West Pennsylvania Railroad, at an early hour this morning, by which the Pennsylvania Salt Manufacturing Company's acid manufactory at that place was damaged to the extent of \$100,000. The company, which is the largest of the kind in the United States, has property there valued at \$100,-000 and is engaged in the manufacture of all kinds of acids, carbonates and sulphates of sods and oil of vitriol. The fire started at 12 o'clock in the vitriol department and the building—230 feet long, 85 feet wide and 55 feet high—together with valuable machinery was entirely destroyed. Fortunately the night was calm or the destruction would have been much greater. All the officials are Philadelphia parties and the main office is located there. The building burned was fully insured.

Cholera Reports-Investigations into the Epidemic at Marseilles-The Marquis of Salisbury to Visit Glas-

(By Cable to the Morning Star.) MARSEILLES, September 30. - The cholera commission appointed to examine the epidemic here have submitted their report. They state that they followed the progress of the disease by hourly examining the blood of persons stricken with it, and found that in each case at first few of the globules presented an unhealthy appearance; then one third were affected; then one-half; then two-thirds, and finally death resulted. The important fact was developed that all the globules were not simultaneously affected.

London, September 30.—The Marquis of Salisbury, Conservative leader in the House of Lords, has started for Glasgow, where he will deliver an address to-morrow. [By Telegraph to the Morning Star.] WASHINGTON, September 30.—It is estimated that the reduction of the public debt for September is a little over thirteen million dollars.

Inspection service at Sansabe, Arizona Territory, has been discontinued, owing to the decadence of yellow fever. Reports received by the Surgeon General of the Marine Hospital Service show that the fever has almost disappeared from Hermosillo and entirely so from Guayamas. A telegram was received to-day from

Apalachicola, Fla., saying that the bark Wm., Fisher, from Aspinwall, with Chagre's fever on board, has been sent to Ship Island quarantine station. There were four deaths on the ship.

The U. S. Consul at Mazatlan, Mexico, reports that there were twenty deaths from yellow fever in that city during the first twenty days of August and that the fever is spreading but is confined mainly to persons recently arrived.

MARINE DISASTER.

Loss of a British Steamer. (By Telegraph to the Morning Star.)

Boston, September 30 .- A Halifax dispatch, dated yesterday, says the British steamer Finchley struck and went down off Isaac's Harbor yesterday morning. The steamer is a total wreck, having struck on the middle ledge of the southeast breaker of Foundry Harbor and sunk in ten fathoms of water. The captain and crew are at Isaac's Harbor. The Finchley was from Coosaw, with phosphate rock, bound for the United Kingdom, and was to call at Sydney Fort for coal. She was owned by Edmund H. Watts, of Sunderland.

The property includes 30,000 acres of timber land in New England, and tanneries and other property in Maine, New York, the province of Quebec and New Brunswick.

A Financially Embarrassed Firm at

Dallas. [By Telegraph to the Morning Star.] DALLAS, September 30.—Mitchell & Scruggs, extensive dealers in agricultural implements, are financially embarrassed. Attachments aggregating \$40,000 have been laid against their stock. The assets are estimated at \$200,000. The firm hopes to resume shortly. An extensive line of country credit is the cause of the embarrassment. A branch establishment at Fort Worth has also been closed by attachments amounting to \$15,000.

Blaine's Electioneering Tour - National Convention of the Irish League at Cincinnati.

(By Telegraph to the Morning Star.) Toledo, September 30.—At about 7 o'clock Mr. Blaine was driven to the depot with ex-Senator B. K. Bruce, Emory Storrs, ex-Gov. Foster and Judge Who, and Senator Blumb of Farmer who was added to tor Plumb, of Kansas, who was added to the party of yesterday. At the depot there was some delay, and it was nearly 10 o'clock when the special train started for Tiffin and other points south. Quite a crowd had gathered, and there was the usual cheering as the train moved out.

Close of the Great September Corn Corner-Excitement on 'Change. [By Telegraph to the Morning Star.]

CHICAGO, September 30.—The September corn corner ended in the usual whirl of excitement. The trading floor on 'Change was crowded, mainly with a disinterested lot of people who perched themselves on the sample table and in windows to witness the culmination of the great squeeze. As a matter of fact there was very little tra-ding during the closing half hour, and while Mr. McHenry, chief broker for the bull manipulator, offered to purchase fabulous amounts of corn at figures ranging from 85 to 90 cents, ivery few trades were made at these figures. In the afternoon, just before the close, a broker offered a dollar for cash corn, but it is not thought that this will be urged as the settling price. The medium figure for the day was about 83 to 85c, upon which basis the shorts will probably be compelled to settle. Other futures attracted very little attention, and were generally weaker, but the latest quo-tations of the day show very little change when compared with those of yesterday, October closing at 56\\(\frac{1}{2}\), November 46\(\frac{1}{2}\), the year 39\(\frac{1}{2}\), and May 39\(\frac{1}{2}\). Wheat ruled weak for a brief period upon the announcement of the visible supply reported, which showed an increase of 2,300,000 bushels. November went down a point, but a reaction again set in and the closing prices in the afternoon were about the best of the day and higher than the close of yesterday. ---

Proceedings of the Republican State Convention.

[By Telegraph to the Morning Star.] DOVER, Sept. 30.—The Republican State Convention was heid here to-day. David J. Murphy presided. The platform adopted accepts the national platform. Blaine's letter of acceptance is the true exposition of that platform; declares the nomination of Blaine the result of a spontaneous demand of the party. A request of the Temperance Alliance Committee for the introduction of a local option plank, was rejected by the committee on Resolutions.

After Electors were chosen N.B.Smithers and Anthony Higgins, of New Castle, were placed in nomination for Congress Mr. Smithers made a speech accepting the nom-ination. The first ballot resulted—Higgins 100, and Smithers 52. Mr. Higgins' non ination was then made unanimous. Mr. Higgins is a prominent member of the Wilmington bar. He has always' been active in politics and in 1881 received the complimentary vote of the Republican members of the Legislature for the United States Senatorship.

hibition of local pride. SYRACUSE, Sept. 30.—Dr. Abram Bab-cock, the notorious abortionist, committed suicide with morphine in a cell at the court house last night. He was found in a dying condition at six o'clock this morning. He was under indictment for an abortion on a woman named Hannah F. RINDSKOPF BROS. & CO., 616 & 618 Broadway, New York, September 19, 1884. Mr. I. Shrier, Wilmington, N. C. Mr. I. Shrier, Wilmington, N. C.

Dear Sir:—By the time this reaches you, you will no doubt have been informed through the daily papers that our house has failed; the assignee is taking charge, and the goods will have to be disposed of at once, as he wants to realize the cash for them. There is a very large stock in the house made up for this season, and I would say to you come here at once and you can have first choice to select the best goods, and at prices so that you can sell them to your customers way below what the same goods cost other merchants, and at the same time make a nice profit. Allow me to remark that the assignee will only sell the goods for spot cash.

Hoping to see you here soon, I am with best regards, yours truly,

On receipt of the above we started for New York City, where we bought an immense stock, which will be sold 50 per cent. less than any other house in this city can do.

The following from the New York Herald will explain the failure of the largest Clothing House in the world:

AN OLD HOUSE GOES UNDER.

"The sea of overproduction yesterday swallowed up the wholesale clothing house of Rindskopf Brothers & Co. After an honorable existence of over thirty five years, during which it has built up a very large business throughout the country, the firm went down yesterday, leaving behind debts in the neighborhood of a million dollars and an unknown quantity of assets.

"The firm has lately been located at No. 618 Broadway, one door above the huge buildings occupied by the Bronners, those comets in the clothing business. Several floors were occupied for the manufacture, storage and display of goods. About one hundred and fifty cutters, markers, makers and other employes found work on these various floors."

This is the first time a sale of this kind has ever taken place in Wilmington, and may never occur again. In order to show what extraordinary bargains will be offered a few prices are mentioned: Men's suits for \$5.50, really worth \$8.50; a fine all wool Cassimere suit for \$10, worth \$16.50. In suits at \$15, \$18 and \$20 we have a full assortment and guarantee a saving of fully from \$8 to \$10 on a suit. In Boys and Children's Clothing we can save you at least 50 per cent. on the dollar. Don't fail to call and examine this great sale of wholesale at retail. It costs nothing to call in and see for yourself. A chance to get such bargains will never occur again at This is the first time a sale of this kind has ever
