Tenders of solid Nonparell type make one square.

All announcements of Fairs, Festivals, Balls Hops, Pic.Nics, Society Meetings, Political Meetings, &c., will be charged regular advertising rates.

Notices under head of "City Items" 20 cents per line for first insertion, and 15 cents per line for mach subsequent insertion.

No advertisements inserted in Local Column at No advertisements inserted in Local Column

any price.

Advertisements inserted once a week in Daily will be charged \$100 per square for each insertion. Every other day, three fourths of daily rate.

Twice a week, two thirds of daily rate.

An extra charge will be made for double-column triple-column advertisements. Notices of Marriage or Death, Tribute of Repect, Resolutions of Thanks, &c., are charged
for as ordinary advertisements, but only half rates
when paid for strictly in advance. At this rate
of cents will pay for a simple announcement of
Marriage or Death.

Advertisements to follow reading matter, or to occupy any special place, will be charged extra according to the position desired Advertisements on which no specified number of insertions is marked will be continued "till for-ild," at the option of the publisher, and charged up to the date of discontinuance.

Advertisements discontinued before the time contracted for has expired, charged transient ates for time actually published.

Amusement, Auction and Official advertisements one dollar per square for each insertion.

All announcements and recommendations of candidates for office, whether in the shape of communications or otherwise, will be charged at Payments for transient advertisements must be made in advance. Known parties, or stranger with proper reference, may pay monthly or quar-terly, according to contract.

Contract advertisers will not be allowed to ex-seed their space or advertise any thing foreign to their regular business without extra charge at

Communications, unless they contain impor-tant news, or discuss briefly and properly subjects of real interest, are not wanted; and, if accept-able in every other way, they will invariably be rejected if the real name of the author is withheld.

The Morning Star.

By WILLIAM H. BERNARD.

WILMINGTON, N. C. MONDAY EVENING, Oct. 6, 1884.

EVENING EDITION.

POPULAR EDUCATION - A LYING RADICAL DOCUMENT.

We have before us a pamphlet of six pages that was sent out from Washington City. It is a more false and impudent document if possible than the manufactured slanders upon Cleveland, or the certificate of character Blaine sent to Mr. Fisher to sign, and which he did not sign.

The following is the title of this villainous document: "Democratic Hostility to Popular Education, Blair's Educational Bill defeated by the Democracy. North Carolina's share would have been \$5,725,-371.04."

Now as to the Blair bill we shall not have much to say. Our readers know the opinion of this paper. It is an unconstitutional bill and hence the STAR has steadfastly opposed it. But in point of fact the Democrats of North Carolina are not opposed as a party to the Blair bill. The North Carolina delegation supported it. The bill is still before Congress, and has, therefore, not been "defeated," as the lying pamphlet asserts. It will come up at the next session and will no doubt pass, as it seems impossible that principle in these times should withstand the alherements of money.

The bill would have passed the last session but for Republican objection. This is of record and the man. who says otherwise is either ignorant or worse.

The Democratic party in North Carolina, through the State Convention that met at Raleigh, made this deliverance:

"Resolved, That the course of the Democratic party in furtherance of popular edu-cation, by efficient public schools in all sec-tions, and the establishment of graded and normal schools in the larger towns and accessible centres, is a sufficient guarantee that we favor the education of all classes of our people, and we will promote and improve the present educational advantages so far as it can be done without burdening the people by excessive taxation;

WHEREAS, There is now more than hundred millions of dollars in the treasury of the United States, wrung from the people by unjust taxation on the part of the Republican party, therefore,

Resolved, That we accept such distribution

of said surplus revenues of the government for educational purposes as may be made by the Congress of the United States; provided always, that the same shall be disbursed by State agents, and not accompanied by objectionable features and embarrassing conditions."

This is the plank of the State Platform upon which the party as such is conducting the campaign. Of course there are Democrats who do not believe in that deliverance, and who are opposed upon principle to the violation of the spirit and letter of the Constitution even for \$5,-725,371.04, but the party in North priation, just as the Radicals are

two parties in North Carolina upon Education, and which party has and you will see how false, unfair and slanderous is the lying document | test. sent out from Washington by some fellow, whose nose is stuck in the swill tub, that tells the ignorant that the "Democratic party is hostile to

popular education." In 1869, the Republican party was in power, taxes were enormously high, the people were bled by the suckers to an alarming extent, and yet there was not one cent expended by that party for "popular education." What sort of friend to humanity-what sort of friend to "popular education" do you call that? "By the fruits ye shall know

Again, in 1870, the Radicals were n power in North Carolina. How much money did they expend for "popular education?" The answer is, the magnificent trifle of \$42,862, Do you call that manifesting faith by works? It was a great shame and fraud the Radicals were guilty of in those two damning, oppressive

After 1870 the Democrats had control of the Legislature. What have they done to show, not "hostility," as the lying pamphlet asserts, but friendship and favor for "popular education?" Here are the figures that tell the story. The Democratic Legislatures have appropriated the following sums which have almost entirely been raised in taxes upon the whites, and which have been distributed fairly, equitably between the

1	races:
	In 1877\$289,213
	In 1878 324,287
١	In 1880 352,882
	In 1881 409,656
	In 1882 509,736
	In 1883 725,000
ŝ	

that the sums voted for the education of the negroes, including every thing, in the last seven years, aggregate very nearly one and a half million dollars. This large sum has come from the pockets of the Democrats of North Carolina since they got control of the State Government. In seven years some \$3,000,000 has been expended upon the common schools and by Democratic Administrations. Does this look like "hostility" to "popular education?"

Read the following, which is stricty true. We copy from "Document

"The result of four years of Democratic administration of the public schools was sufficiently encouraging to ensure the re-turn to the Legislature of 1880-'81 of a body of men thoroughly convinced that the peo-ple wanted good schools, and means pro-vided to make them good schools.

"The Legislature added fifty per cent. to

the taxes for public schools, which are now 121 cents on the \$100 of property and 371 cents on the poll. "The University was enabled by an appropriation of \$5,000 annually to under-take the free education of 96 students, who

are to repay the State by becoming teachers 'Eight Normal Schools conveniently located for teachers in every section, four for each race, were added to the two already in existence, and \$8,000 is appropriated to them annually, thus securing \$2,000 more from the Peabody fund. Two thousand

eachers, each year, are thus directly reached and greatly benefited. "Two thousand more are reached by the nstitutes authorized by the act, and now held in nearly every county and paid for with about \$4,500 from the school funds. "The State's liberal and progressive ac-

tion has also secured for four years past, and now, twelve Peabody Schorlships, good each for two years at the Nashville Normal College. Each of these Scholar-ships is worth \$200 per term of eight months, with free tuition for the special professional training of teachers for the public schools of the State. The aggregate amount therefore expended for teacher-training is about \$22,000 annually.

"The State Superintendent was made a Superintendent in fact, and with a clerk provided at a very moderate expense (\$600), and a modest provision (\$500) for his own travelling expenses, he has been enabled to leave his office and thoroughly canvass the

"The County Superintendents, too, have been most important factors, and with very few exceptions have deeply interested them-selves in their duties, and done much in the hort time since their appointment to sysematize, unify and energize the State's efforts to give to its children the elements of

"Graded Schools, generally of very high merit, have been established at Charlotte, Salisbury, Greensboro, Durham, Fayette-ville, Raleigh, Goldsboro, Wilson, Rocky Mount, Wilmington, Franklinton, High Point, New Berne, Kinston (2), Magnolia, Faison, Winston, and other towns and villages. Many other towns are moving in the same direction, and if our system be not changed by unwise changes, or once more overthrown by the return of Republicanism to power, the day is not distant when every North Carolina town, with the aid of the State and county school funds, will establish and maintain its own good

We must again remind the reader that the Radicals literally blasted the University and robbed the Common School Fund, by wiping out the \$600,000 invested in certain stocks, and by squandering and misapplying \$125,000 of the fund received from the U. S. Government for education. In other words, when the Radicals were in power they closed the Uni-Carolina is fighting for that appro- versity; they practically closed all of the common schools; they stole or fighting for it. So much for the wasted or fooled away \$725,000 that

of friends and what sort of friends they were "to popular education." proved itself to be the friend of ed- So much for the false and lying pamucation? Take this official record, phlet sent out from Washington by some fellow sucking the Government

NABLE ADDRESS BY A SCANDI-

We have an address in pamphlet form of Gen. C. T. Christensen, delivered in New York before the Independent Scandinavian Cleveland and Hendricks Club. Gen. Christensen is one of the most distinguished men of his race in the United States. The speech was a clear, vigorous, manly presentation of the reasons why a life-long Republican could not support Blaine and would support Cleveland. The speaker said:

"At the convention in 1876 and 1880 the party leaders endeavored to foist Mr. Blaine upon us, but they were unsuccessful; and now, with the blindness born of utter recklessness, and in the face of the openly expressed opinions of many of the leading Republicans, whose pure motives have not and cannot be questioned, they have pre-sented to the people a name which for years has been in the realm of politics a synonym Ways that are dark, and tricks that are

He then thoroughly ventilated the Republican candidate's record and showed most conclusively that no honest Scandinavian could support the "Plumed Knave." We copy a passage or so from his eulogy upon Cleveland:

"From his unobstrusive career as a counselor in private and successful practice he was, without seeking or desire on his part, called in an emergency to be the chief magistrate of the city of his home; and the reputation which he gained in that office as a man of eminent executive ability, and of fearless and unswerving honesty, made his name so famous that when a like emergency occurred in the election for Governor of the State, he was chosen to that position by a majority of unexam-pled magnitude. And he has in all things and under all circumstances proven true to the confidence reposed in him. Modest and simple in his ways, of genial and gen-tle manners, approachable by all, he has ever been the staunch, watchful, untiring friend of the people's rights and interests, and no political or personal consideration has ever been known to make him swerve a hair's breadth from his firmly estab-In previous articles we have shown | lished convictions of right and justice."

the election of Gov. Cleveland and urges his countrymen to work hard for victory and for Reform.

THE \$7,500 BRIBE.

Our readers must be kept informed as to the Herbert account of what Bergner said of the \$7,500 that Blaine received from W. H. Kemble for his valuable services while Speaker of the House of Representatives. Mr. Herbert caused himself to be indicted for libel and the case came up again on the 2nd of October at Harrisburg. An account telegraphed says:

"The first witness was B. F. Myers, editor of the Harrisburg Patriot, who said the first knowledge he had of the matter as printed was when Herbert showed it to him and told him his authority was Samuel Kunkel and Major Elbridge McConkey, and that his report was based on their statements alone. The matter was printed, and Mr. Bergner contradicted it. Witness continued: 'I told Bergner he had told me the same story, and he said he had, but said nothing about checks. I told him he had said that Kemble had stated at Cincinnati that he had to pay Blaine twice to rule in his favor while Speaker of the National House. Mr. Bergner said he could not vote for Blaine, because he knew him to be corrupt man. He said the Democrats would like to see Blaine nominated, because it could be proved upon him that he is a corrupt man.'

Mr. E. McConkey is Resident Clerk of the House of Representatives. His testimony was to the effect that in a conversation with Bergner he "deprecated the nomination of Blaine as unwise and predicted his defeat, telling at the same time the Kemble check story, and saying that it could not be disputed; that he (Bergner) was present at Cincinnati, and saw Kemble show the two checks he had given to Blaine, and remarked that they were paid to buy Blame. Mr. Bergner said he had seen those checks and had them in his hand."

Mr. D. W. Seiler confirmed all that McConkey had said as Bergner had told him the same thing. Other witnesses will be examined.

THE STATE EXPOSITION. Cotton and Woolen Goods, and Building Stones.

Raleigh News-Observer. The display of cotton and woolen goods as manufactured at the great number of factories in the State is made to advantage. It gives perhaps the best idea yet given at a glance of the extent of the enterprise in North Carolina in this direction. There are several hundred specimens, from cassimeres to plaids,

from over fifty factories. Superb is the word to be used in describing the exhibit of building stones. These take a wide range, from serpentine to marble, and the points of location in the State are as wide. The specimens are all shown polished and in the rough. This display was one of the marvels at Boston-it is now even finer than as then made. It consists of marbles, serpentine, shell rook, soapstone, granite, red granite, olive granite, orbicular granite, syenite, black granite, mottled quartzite, gray sandstone, red sandstone, striped gness, leopardite. The counties represented by

ren, Gaston, Rowan, Wilson, Anson, Davie, Durham, Moore, Buncombe, Mecklenburg, &c.

CURRENT COMMENT.

- As a candidate Blaine is all things to all men. At county fairs or railroad stations he has abundant and particular sweetness for every place and for all people; he advertises his affiliations with all religious sects which have votes, and every politi-cal question which he dares not face he dodges as a "local issue". He denies to nature the credit of her bounty and to labor the credit of its toil and skill, that he may claim for a party and a policy the welfare of a country happily too prosperous to be rained by all the mistakes of politicians. Around him flock the worst men of both parties. Finally, to quote his own organ on Mrs. Mandelbaum, the noted fence, he adopts a line of defense always in great favor at the Tombs. That is, not to establish one's own innocence, but to prove some one else's guilt. This is the real Blaine-Blaine as drawn by himself, in his own words and acts. He is all of a piece. His letters are only the typical confession of an unworthy career. He is the worst possible ideal for the rising generation of America. It is for this man that self-respecting Republicans are asked, for the sake of the party's past, to vote. Can they do it?-New York Times, Rep. - When one man with new and

cheap mechanical appliances, for which this country is famous, turns out more goods than eight or ten men were accustomed to produce, his employer can well afford to give him better wages than he gave before. But here, again, we are met with the request to sing an anthem in praise of war tariff taxation. The writings of Robert P. Porter and the speeches of William D. Kelley are full of just such humbug as this, claiming for high taxes the results of invention. Porter is an intentional deceiver. Kelley is self-deceived and too bigoted to learn. But the voting masses, on whom the essays and speeches of Porter and Kelley are being showered by the million, ought to have sense enough to detect the fraud .- . Wash. Post, Dem.

BETTING STILL.

There is a great deal of betting in the Stock Exchange on the result of the Presidential election. Mr. George Dickinson yesterday made a bet of \$2,500 with Mr. Goicuria that Cleveland will be the next President .- N. Y. Herald.

NEW YORK, Oct. 3-A wager of \$10,000 was made last night at the Hoffman house by two well-known eporting men. The wager was divided as follows: \$1,000 that Cleveland will have 25,000 majority in New York county; \$1,000 that he will have 15,000 majority in Kings county; \$1,000 each that Cleveland will carry New York, New Hampshire, Connecticut, Ohio and New Jersey; \$1,000 that the fusion ticket will be elected in Michigan; \$1,000 that Blaine's vote in Ontario county will not be as large as Folger's; and \$1,000 on the general result.

More About the Mulligan Letters.

NEW YORK, Oct. 4.-The World to-morrow will publish an electrotype letter written by Warren Fisher to Gustav Kobbe, of this city, as

In April or May, of 1880, Blaine sent word to have me meet him at Fifth Avenue Hotel. He then authorized me to get the letters from Mr. Mulligan and pay \$10,000 if I could not get them for less, and then he wanted Mr. M. and myself to go to Europe, remain until after election, all at his expense. Mr. Mulligan declined the offer. He said Blaine had stolen his letters in Washington and he never should have what he now had at any price.

Yours &c., WARREN FISHER. Windsor, Vt., July 12, 1884.

COTTON.

N. Y. Commercial and Financial Chronicle NEW YORK, Oct. 3 .- The move ment of the crop, as indicated by our telegrams from the South to-night, is given below. For the week end ing this evening (Oct. 3) the total receipts have reached 168,721 bales, against 118,463 bales last week, 80,-737 bales the previous week and 42,624 bales three weeks since; making the total receipts since the 1st of Sept., 1884, 425,646 bales, against 484,968 bales for the same period of 1883, showing a decrease since Sept. 1, 1884, of 59,322 bales.

The exports for the week ending this evening reach a total of 70,246 bales, of which 57,010 were to Great Britain, 580 to France and 12,656 to the rest of the Continent, while the stocks as made up this evening are now 301,612 bales.

To-day Liverpool was reported decidedly higher, and this market opened slightly dearer, but depression followed, and the close was but little changed from yesterday, though compared with last Friday at a decline of 6@15 points. Cotton on the spot has met with a fair demand for home consumption, and stocks are still small, but quotations were reduced 1-16c. on Saturday and ic. on Monday, with new cotton le. be. low the regular figures. To-day the market was quiet and unchanged at 10 c. for middling uplands. The total sales for forward delivery for the

week are 677,500 bales. A CARD.—To all who are suffering from errors and indiscretions of youth, nervous weakness, early decay, loss of manhood, &c., I will send a recipe that will cure you FREE OF CHARGE. CONNECTICUT.

Election for Boards of Registration and on a Constitutional Amendment -No Political Significance Attaching.

(By Telegraph to the Morning Star.) HARTFORD, Oct. 6 .- The town elections in Connecticut occur to day. The princi-pal political interest in the election for town officers is in the boards of registration, consisting of selectmen and town clerks; the boards decide on the qualification of voters. The officers elected to-day do not assume their duties until January 1st. There is also a vote to day upon a constitutional amendment providing for biennial sessions of the Legislature, the elections for State officers being already biennial. Five years ago a similar amendment was voted down by the people by a majority of 24,589, in a total vote of 67,449, about half of the full vote of the State. The amendment was carried in the last Legislature by a very large majority, and it is possible that the people will this year reverse their judgment. There will be no party or political significance to the vote, whatever it may be, both parties being divided upon it. Gov. Waller opposed it in his last message. Speaker Harrison, now Republican candidate for Governor, favored it in a speech in the House of Representatives last winter. The towns also vote upon the question of liquor license.

FOREIGN.

Royal Spanish Decree Relative to Duțies on Cuba Sugars—A Cable Broken by an Iceberg-Cholera Reports-The War in China. (By Cable to the Morning Star.)

MADRID, Oct. 6.—King Alfonso will to-day sign a decree abolishing the duties levied by Spain on Cuba sugars; creating differential flag duties upon West India sugars imported into Spain in foreign vessels; increasing the duties on all foreign sugars; and discriminating in favor of sugars from nations having treaties with Spain, and against nations, like England and the United States, which do not have treaties with this country.

London, Oct. 6.-The Bennett-Mackay cable, which was only recently laid between Europe and America, is broken. It is supposed the breakage was caused by ice-

CATBO, Oct. 6.-It is rumored here that Col. Stewart has been killed at Berber. Rome, Oct. 6. - During the past twentyfour hours there were 36 fresh cases of cholera and 12 deaths in Naples. In Genoa there were 27 fresh cases and 22

deaths during the same time. SHANGHAI, Oct. 6.—It is reported that the French have occupied Tamsui.

Fire-Loss \$130,000. [By Telegraph to the Morning Star.]

Boston, Oct. 5. - One of the most serious fires that ever visited Holvoke, broke out in the basement of No. 2 mill, belonging to the Newton Paper Company, on Saturday morning. Eight heating engines and two machines were burned, leaving one machine and three engines. Their stock houses were burned, in which were stored about 500 tons of rags. Treasurer Clark states that the value of the property which the fire reached, mills, stock-houses, stock, &c., was \$150,000. Of this amount perhaps \$20,000 may be saved, leaving a total probable loss of about \$130,000. The fire is presumed to have resulted from spontane ous combustion. Insurance \$45,000. It is understood that the mills will be rebuilt.

VIRGINIA.

Stoppage of Cotton Mills on Account of the Drought-Large Number of Operatives Reduced to Want. [By Telegraph to the Morning Star.]

Petersburg, October 5.-The closing of all of the cotton factories in this city and vicinity, in consequence of the scarcity of water, occasioned by the long continued drought, throws out of employment over seven hundred men, women and children, nearly all of whom are actually suffering for want of the necessaries of life. "Pinafore" will be produced next Friday night, at the Academy of Music, by a number of ladies and gentlemen of this place, for the benefit of these operatives.

Buffalo Lithia Water FOR MAI ARIAL POISONING.

USE OF IT IN A CASE OF TELLOW FEVER

DR. WM. T. HOWARD, OF BALTIMORE. Professor of Diseases of Women and Children in the University of Maryland. Dr. Howard attests the common adaptation

this water in "a wide range of cases" with that of the far-famed White Sulphur Springs, in Green-brier county, West Virginia, and adds the follow-ing: "Indeed, in a certain class of cases it is much superior to the latter. I allude to the abiding debility attendant upon the tardy convalescence from grave acute diseases; and more especially to the Cachecia and Sequels incident to Malarions Fevers, in all their grades and varieties, to certain forms of Atonic Dyspepsia, and all the Affections Peculiar to Women that are remediable at all by mineral waters. In short, were I called upon to state from what mineral vaters I have seen the greatest and most unmistakable amount of good accrue in the largest number of cases in a general way I sould unhesitatingly say the Buffalo Springs, in Mecklenburg county, Va."

DR. O. F. MANSON, OF RICHMOND, VA., Late Professor of General Pathology and Physio logy in the Medical College of Virginia: "I have observed marked sanative effects from the Buffalo Water in Malarial Cacheria, Antonic Dyspepsia, some of the Peculiar Affections of Women, Anæmia, Hypochondriasis, Cardiac Palpitations, &c. It has been especially efficacious in Chronic Intermittent Fever, numerous cases of this character, which had obstinately withstood the usual remedies, having been restored to perfect health in a brief space of time by a sojourn at the Springs."

DR. JOHN W. WILLIAMSON, JACKSON, TENN. Extracts from Communication on the Therapeuli Action of the Buffalo Lithia Water in the "Virginia Medical Monthly" for February, 1877.

"Their great value in Malarial Diseases and Sequels: has been most abundantly and satisfac-torily tested; and I have no question that it would torily tested; and I have no question that it would have been a valuable auxiliary in the treatment of the epidemic of Yellow Fever which so terribly afflicted the Mississippi Valley during the past summer. I prescribed it myself, and it gave prompt relief in a case of Suppression of Urine, in Yellow Fever, and decidedly mitigated other distressing and dangerous symptoms. The patient recovered, but how far the water may have contributed to that result (having prescribed it in but a single case) I, of course, cannot undertake to say. There is no doubt, however, about the fact that its administration was attended by the most beneficial results."

Springs now opens for guests.
Water in cases of one dozen half gallon bottles
to per case at the Springs.
Springs pamphlet mailed to any address.
For sale by W. H. Green, where the Springs
pamphlet may be found. ap 10 tf nrm Buffalo Lithia Springs, Va
