The New Parliament Building at Quebec Injured by a Dynamite Explosion-Two Persons Slightly In-

[By Telegraph to the Morning Star.] QUEBEC, Oct. 10.-About 1 c'clock this afternoon an explosion occured at the new Parliament buildings, destroying a con-siderable portion of the masonry and windows of the new structure, which was just being roofed in. The explosion was at first supposed to be that of the boiler of the engine used for hoisting material, but this proved not to be the case, neither can it be attributed to gas. The general impression appears to be that the explosion was caused by dynamite; but as none of that material is used on the work, the mystery is, how it came there. An investigation is now being held. The workmen all being away at dinner, none but one man was injured, and he escaped with a slight cut from a piece of stone. The shock was very severe and was felt all over the city. Windows of houses in the vicinity of the explosion were badly shattered.

At 3 p. m. a second explosion occurred at the Parliament House, but the building sustained no damage of any consequence. Carpenters at work on the building say they noticed a box lying all the morning close to the wall, where the first explosion took place, but they supposed it was placed there by plumbers. After the explosion no trace of the box could be found. It is now believed the box contained dynamite and an infernal machine. The second explosion was about thirty feet from the place where the first one occurred. The new building is said to be so badly cracked from the first shock that it is feared about one half of it will have to be taken down and rebuilt. After the first explosion men were sent all through the buildings to look for other suspicious boxes, but found nothing. The cause of the second explosion is as great a mystery as that of the first. The explosions did considerable damage to windows in the vicinity of the Parliament House and almost all the windows in the house, in the section under construction where the explosion occurred, are shattered. The only persons injured are Mr. Martel, a workman, who was struck by a small rock, a portion of the shattered wall, and Mr. Charlebois, contractor, who suffered a slight bruise on the hand. The damage by the first explosion is considerable. A hole about twelve feet high by five feet wide was blown out of the wall on the third story from the basement and immediately over the right entrance to the assembly chamber and near the place where the speaker's chair is situated. The second explosion occurred in the northeast corner of the same building. The corner stones forming the support of the building are badly bulged, and is doubtful if it can be repaired, without taking down the whole wall. Whatever the reason may be for wishing the destruction of the building there is no room to doubt that dynamite was used. A searching investigation into the cause of the explosion is now in progress. Everything is quiet in the neighborhood and a portion of battery A. are patrolling the grounds around the Parliament buildings. The Government were only awaiting completion of the building to call the house together for the dispatch of business. The building had been so far advanced that only a part of the roof re-mained unfinished. It is not known whether or not the explosion will delay the meeting of the house in December,

Advices from Egypt-The Massacre of Col. Stewart's Party - Cholera Reports-French Operations in China.

[By Cable to the Morning Star.] CAIRO, October 11.-A messenger from Aveberkal reports that after Gen. Gordon returned to Khartoum, a boat with forty Europeans and Egyptians, accompanied by five negroes and three servants grounded at Salamat. The Shiekhs offered hospitality to the party and enticed them to their houses, where they massacred all but fourteen who are now prisoners. It is unknown whether there are any Europeans among

Paris, October 11.-Admiral Courbet telegraphs from Kelung as follows: "I am erecting defences for the troops to occupy at the post and mines. They will take several days to complete. Landing parties from Admiral Lespes' squadron at Tamsin reconnoitred the posts from which Chinese torpedoes were fired. They found that the posts were defended by a large number of infantry, which were ambushed in dense thickets. An engagement took place. Three of the reconnoitering party were killed, including a naval lieutenant. The harbor is defended by torpedoes. Only the shallowness of the water prevents the approach of large vessels. I am making an effective blockade of the only points available on the island of Formosa for the landing of reinforcements."

For the Star. JUDGE BENNETT.

Judge Bennett is to speak here, according to announcement, on the 17th inst. The report has been made current in the District, no doubt instigated and exaggerated by the Radicals, that New Hanover county Democrats, disappointed that one of our distinguished citizens did not receive the Congressional nomination, will "scratch" Mr. Bennett. This is a misrepresentation and brings into question our party fealty. Judge Bennett may not have been our first choice for the nomination, but he is an able and staunch Democrat, whose loyalty has been tried and proven, and he stands prominent among our public men for integrity of character and faithfulness in the dis charge of public trusts. He is the representative of the Democratic platform and deserves and will receive New Hanover county's full vote.

But we are placed by this report, at the outset of our relations with the counties now constituting the Sixth District, in the attitude of being indifferent to the success of our party nominee, because not our first choice, and unless the report is contradic ted by our action in giving to Mr. Bennett, upon his coming, a handsome and enthusiastic reception, and inNovember a fullDem ocratic vote, it will go far towards destroying-and deservedly destroying-that influence which New Hanover county may exert hereafter in the district nominating conventions; for, the county which does not abide gracefully by the result of a nominating convention and rally to the nominee is not a county whose delegates will be influential in naming candidates. New Hanover has always stood squarely up and polled her full vote for the De mocracy. The writer has no fear of a contrary result now. The proper authorities should see, however, that arrangements are mande to extend to Mr. Bennett a cordial greeting, as an assurance to our sister counties that their choice is now our choice, and every Democratic organization and every citizen should participate in a grand procession and rally when he comes. Such action would place us in pleasant accord and strengthen our influence with our sister counties. It would gracefully testify that over and above our personal preferences, we are always

WHO IS MRS. WINSLOW?—As this question is frequently asked, we will simply say that she is a lady who for upwards of thirty years has untiringly devoted her time and talents as a female Physician and nurse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge, obtained in a lifetime spent as a nurse and physician, she has compounded a Soothing Syrup for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do asse up and bless her; especially is this the case in this city. Vast quantities of the Soothing Syrup are DALLY sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its immortalized her name by this invaluable article, and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will share its benefits, and unite in calling her blessed. Millinery Department we shall open a few more new cases of

Trimmed Hats and Bonnets selected by us personally from the leading Pa risian fashions. While rich and elegant to the extreme, inspection will prove that the general effect accords more thoroughly with the subdued tates of American fadies than is usually the case with Parisi in designs seen in this market; hence our reason for selecting them, with others to fol low. In addition to the above we will show full lines of LADIES' AND CHILDREN'S TRIMMED AND UNTRIMMED HATS AND BONNETS from our own work room, which we are confident will not only be found equal to the 5th Ave., N. Y., styles, but considerably lower in prices.

A full line of School Hats, School Stockings, School Bags, School Handkerchiefs, &c., &c., a very low prices. No one urged to buy, but come

Last Week.

WE GAVE OUR ATTENTION TO THE BOYS last week, and not a few called and bought their SCHOOL SUITS from us; and while the run was good one still we have an UNBROKEN STOCK, and those who have not bought will find our selection the LARGEST and MOST VARIED OF ANY HOUSE IN THE CITY. This week we will show some splendid Suits

for MEN at \$8 00 and \$10 00, all wool, and for service they cannot be surpassed by the average \$12 00 or \$15 00 Suit.

We have a handsome line of YOUTHS' SUITS and the YOUNG MEN who don't have their Suits made will find our selection the LARGEST OF ANY HOUSE in the STATE, and our prices attract the closest buyers,
We invite a call to examine our stock of FURNISHING GOODS, which is large and attractive.
We are watching prices closely, and are determined to lead all our competitors in this great and always attractive feature.
