THURSDAY EVENING, OCT. 16, 1884

EVENING EDITION

WAGES-DECEIVED WORKINGMEN

We verily believe that the greatest fraud practiced in this country is that practiced upon the laboring men concerning wages. The Republicans of the Blaine-Porter school make the most misleading statements possible relative to wages in this country and in Europe. The first deception is, in insisting that Protection necessarily causes better wages. To this the reply is manifest: first, that wages in England, where the Tariff is placed upon but few articles, are nearly double what they are in the High Tariff countries on the Continent, namely, France and Germany. So High Protection does not always make high wages. Second, in the United States there has been High Protection for twenty-three years, and to-day tens of thousands of work ingmen are on half rations or are at a starvation point.

· But the Protectionists, in their studied attempt to deceive, manipulate figures in such a way as to induce the workingmen to believe that they are paid very much more in wages than the corresponding class in England. They are made to believe that a carpenter or butcher or weaver in England does not receive half as much as this class receive in the United States.

1

The manner of comparing is very deceptive. Mr. Porter, who does up the misleading business for the Republicans, tries to impress upon the laboring men that a change in the present High Tariff would bring them to starvation wages. Protection really seems to have done that already for some hundreds of thousands of Republican voters.

Bnt what are the facts? Turn to Minister Lowell's reports as to the prices of labor in England. He is a Republican office-holder of the highest character. Compare his figures with the census reports for the United States. Here is the comparison and you can see for yourself: Iron and steel-

Blast furnaces, Eng...\$1 04 U.S..\$0 86 Bloomeries, Eng.... 1 00 U.S.. 0 88 Bulle France 1 95 U.S. 1 95

pounds..... Beef, pounds..... 5 rea, pounds 2 Sugar, pounds.....10

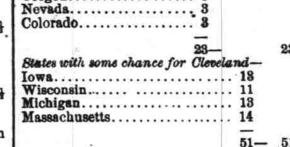

Not only are wages much lower in Protective Germany than in Free Trade England, but the purchasing power of one dollar is much less in the low wages country than in the high wages country. Free Trade makes wages high in England, if it be true, as is claimed by the Protection orators and writers in this country, that it is the Tariff and nothing else that affects wages. The Herald puts it thus:

"If Protection does influence wages, then its advocates must account for the fact that wages in Germany are as much below those of England as those paid in England are below those paid in the United States."

And now another view: Protection in excess has been given.in the United States since 1861. The Tariff until recently reduced to 43 per cent. average was 46 per cent. What | Total supposed vote in 1884...... 327,750 has followed? Has it caused the country to be really in a healthy condition? Are the varied industries year you may know that nearly 80, flourishing in fact? Are the workingmen happy, contented, prosperous, well cared for? The New York

Graphic gives the following summary which tells the tale. Mark you, it was on the 13th of September it published the following, and the outlook is much worse now than it was then:

"During the past three months cotton mills with 107,000 looms in them have been shut down. Fall River alone has 27,000 idle looms. What about idle men and wo men and children who go hungry? In the woolen trade there are at least 25,000 idle looms with over 5,000 sets of cards. The hosiery and knit goods are apt to close. Iron mills and foundries are only partially employed; there are 182 stacks with a capacity of nearly 2,000,000 tons now idle, and eighty more having a producing capacity of 1,000,000 tons, all to be shut down. The building trades of our great cities seem to be the only ones that continue fully employed. At the mills during the last week in August they turned out 14,000 less barrels of flour than the week before, and the millers propose to reduce production still more. That is, less food produced and higher prices for what is in the market and less pay for labor and larger outlay for food. The lumbermen of the Northwest were at Chicago in convention recently, trying to agree to shut down their mills, huge gormandizers of our forests and consequent creators of terrene desolation and increasing aridity. All these things are bad, and don't help the Republican claim to the support of the industrial masses on the ground

Cleveland may receive 250 or more lectoral votes.

In our article on the whites and negroes in North Carolina we relied upon figures in the first volume of Compandium which we added up. In first volume, page 560, there is summary which gives the figures different from those we published. The difference is small but it is well

enough to copy: Whites in North Carolina over 21

These figures are not far wrong. I the vote does not exceed 250,000 this

000 men have refused to vote.

CURRENT COMMENT.

- The work of carrying Indiana four years ago by the application of "soap" under the supervision of Dorsey and the practical direction of Dudley is well remembered. Its effect upon the standard of public morality was not confined to the people of the State. It defiled the pub ic service in Washington, where Commissioner Bently, an efficient and experienced officer, was removed in order that Dudley might have his reward. It even entailed obligations to Dorsey which had much to do with the failure of the efforts to bring him to justice for his participation in the Star Route frauds, This year the October election has made Ohio the scene of a shameful exhibition, which fails to produce its legitimate effect on the popular judgment because in its main features it is too familiar .- N. Y. Times, Rep. ---- The Sun, one of the most

hopeful of Mr. Blaine's supporters, says of that candidate's tramp through the West: "In winding up his Obio tour he finds that he has visited forty eight counties and seventry cities. He has seen upon a moderate estimate, since he has start-

the lead and with odds largely in his favor. With Ohio saved only the most violent party efforts, Indiana 18 not a doubtful State. Her vote will be given to Cleveland; and Illinois, Michigan and Wisconsin will tremble in the balance. New Jersey may be counted as safe for Cleveland: New York and Connecticut will be desperately disputed, with Blaine ou the outside track, and New Hampshire and even Massachusetts will demand desperate Republican effort to hold them to Blaine. The

contest of our political history.

vote of New York will now decide the great Presidential battle of 1884 as it settled the desperate struggle of of 1880. The present outlook promises a majority of from 30,000 to 50,000 for Cleveland in New York, and the aspect of the contest must be essentially changed if Grover Cleveland shall not be elected President in November.

STARVATION IN NEW ENG-LAND.

NORWICH, Conn., Oct. 12 .- The large Falls Cotton Mills of this place shut down over six weeks ago and the outlook is that they will remain closed all winter. Between 400 and 500 operatives were thrown out of work, and six weeks of idleness has reduced most of them to destitution. For a while they were allowed "trust" at the company's store, but within a week or two that source of supply of daily necessaries has been shut off. What they are to do they do not know. They have no money with which to migrate to other mill towns. and even if they had the money the universal industrial stagnation throughout New England promises only a change of scene and equal or greater wretchedness. Most of the operatives have large families, who are ragged and hungry. They have no money to buy food and clothes with, and they cannot keep warm or cook by the blaze of the Blaine torchlight processsions, which noisily tramp through the mill settlements almost nightly, brandishing illuminated mottoes: "Do you want to retain our. prosperity? Then vote for Blaine and Logan."

These people will have to starve this winter, or apply to the town for help. They have begun to apply already. Rows of women and halfgrown girls, many of them weeping, are seen at the Selectmen's office daily asking for a dollar or two tobuy food with. In all the mill villages in this part of New England the situation is pretty much the same. In all mill villages the help have to "live from hand to mouth." That is what they call it, and they mean that at the end of each week their earnings belong to the storekeeper or the manufacturing companies.

tal of 1,400,000 employed on print goods. It will throw ten thousand persons out of work for a week, and the prospect is that unless the market improves the shut-down will continue indefinitely. The shut down includes every cotton goods mill in the city except those making fancy goods and few large print cloth mills controlled by a combination of capitalists, which can afford to run during the dull times. The loss in wages by the stoppage of these mills will be \$75,000 weekly.

Heavy Fall of Snow-First of the Season.

[By Telegraph to the Morning Star.]

BOSTON, Oct. 16 -Quite a heavy fall of snow is reported this morning from New Ipswich, Exeter and the neighboring 2.30 P.M.—Good uplands 5 #d; middling uplands 5#d; low middling 5 5-16d; good ordinary 5 1-16d; ordinary 4#d. Good mid-dling Texas 5#d; middling Texas 5#d; low towns in New Hampshire. It was the first of the season.

A destructive fire occurred at Cresfield,

Md., this morning. A number of oysterhouses, stores and dwellings were consumed, together with about forty dwellings occupied by colored people.

POLITICAL POINTS.

- Major Blaine, of the "Salvation Army," is encamped in Michigan. He is breathing easy, but there is lots of hard work ahead of him yet + New York World. Dem.

- Ohio is saved, though as by fire; the President has returned to Washington; Frank Hatton is Postmaster General, and the circus may now go on.-Philadelphia Times, Ind. Rep.

- Despite the liberal expenditure of money and the presence of Blaine and Logan, the Republicans have failed to "maguetize" West Virginia. And this is one of the Southern States on Mr. Blaine's list.-New York World, Dem.

-The Republican majority in Ohio will be less than half the majority in the Garfield year four years ago. And Mr. Blaine claims to be the heir to all Garfield's popularity intensified by his martyrdom.-New York World, Dem.

- Mr. J. Gould and Charles Francis Adams boast that the election of Blaine would boost Union Pacific, now quoted at 51, up to 75. There appear to be various channels in which Mr. James G. Blaine can be exceedingly useful to railroad mo-nopolists of the Jay Gould variety.—Chicago Times, Ind.

Ayer's Sarsaparilla is the quickest cure for all blood diseases. Its effects are felt immediately. WHITE CYPRESS & YELLOW PINE

But Blaine and Logan and "Pig- Iron" Kelley go around telling the old, old misleading story and the workingmen are imposed upon and bamboozled. The Boston Post says: "American workingmen have been fooled time and again by the Republican politi- cians who thrive on their credulity. Are they to be fooled once more? The 'free trade' spock ought to be about played out by this time. There is free trade in this country now, but only in labor, and it will be many, many years before there will be free trade in any thing else. In the marble quarries of Vermont hard working down	Republican legislation." Since September 13th, scores of mills have closed and many of these are in the South. The "blessings" of Protection are turned into curses. Read a paragraph printed elsewhere on "Starvation in New England." "DEAR SANBORN." James Fisher Blaine is not a mer- ciful man. He is treacherous to his friends. His treatment of his friends in Maine and other States show this. He inveigled his friends, or those that confided in him, into specula- tion and then used them to feather his own nest. Mr. Sanborn, of	heard a great deal about Blaine's "magnetism." It is said to be over- whelming. Its effect upon voters is supposed to be similar to the effect of Capt. Scott's rifle on coons. It compels unconditional surrender. To have failed in this indicates that the magnetism is of a Brummagem char- acter. In 1880 the Republican Oc- tober majorities were: For the Re- publican Secretary of State, 19,005; for Judge of the Supreme Court, 23,- 047; for the Board of Public Works, 23,052; average Republican majority, 21,700. To this was to be added this year the natural increase pre- dicted by the Tribune and MAG- NETISMN. Y. World, Dem. Mr. Hindsight still as Wise as an Owl. Boston Post.	Logan's Aggressiveness. Atlanta Constitution. It seems that Black Jack not only wasted a second-hand quid of tobaeco on the West Virginian who charged him with raising a confederate regi- ment, but he also threatened to offer the colored porter of his sleeping car a quarter to whip the plain-spoken citizen. It is wrong in Logan to re- vive his old war methods in these piping times of peace. Three Cents' worth of Gold. Somebody who calls himself a scientist has discovered that every ton of sea-water contains three cents' worth of gold. The bother is how to get the gold out. In or- der to getenough to buy a bottle of Brown's Iron Bitters, he would have to sort over just thirty-three and one-third tons of the briny fluid. By that time he would be so played out that the contents of at least one bottle would be necessary to restore him. But it is a great restorer, and cures com-	GUARANTHED AS GOOD AS THE BEST.
