

EVENING EDITION

BLAINE IN WAR PAINT.

Major Jeemes Blaine, who did not go into the war but hired a negro substitute and has never paid him for risking his life in his stead, is now on the war path in Indiana. At Terre Haute he appeared in full war paint, feathers and all. His theme was the terrible South. He gave the old shirt a great many shakes and flaps and then enveloping his "tattooed" form in the sanguinary gar ment he danced a war dance and crooned a war song and told his braves that the country would be eternally swamped and "busted" if the awful Democrats got into power. It would be a bad time for the rascals and rogues, but honest men could have no fears. If Jim Blaine thinks that in 1884, the bloody shirt is the weapon he only shows his stupidity. That instrument has had its day. It shows how desperate is his chance when he suddenly pulls out the old moth-eaten garment and tries to make votes by displaying it. The bottom is about knocked out of the Blaine campaign.

We have no doubt that Blaine hates the South. He has never failed to manifest his extreme dislike of our people when ever he has had opportunity. For years in the Congress he was in the habit of making ferocious assaults upon the Southern people and he did it often when in the House without reply. But when he was transferred to the Senate to prevent him from being tried for his official rascalities, he found a foeman in the late Senator Hill, of Georgia, who was more than his match in all the essential elements of oratory. Hill soon took Blaine's scalp and won it at his wampum. It was a pleasant thing to see the Maine bully flayed alive by the incomparable surgery of the skilful Hill. Blaine's independence and "magnetism" were of no avail when the manly and able Georgian met the "plumed knave" in the arena of debate.

The New York World has an indignant and pointed rebuke of Blaine's foolish and, ill-timed "revolutionary threat." It is so good we

his old party friends with whom he pretended to affiliate for so long a time and of whose feasts he partook. He is engaged in the ugly, mean, degrading work of misrepresenting his old party and in indeavoring to bring back into power the old Radical party that plundered the people, oppressed and misrepresented them, and even attempts by Civll Rights to degrade them to the level of the

negro. Young fussy Winston is out for free schools for negroes and white but in the same rooms and with the same teachers. He is for the two races being taught together. York is with him, we may well believe.

We have not heard York. He is said to be capable of making low demagogical appeals to the negroes and what he calls "the poor whites," and endeavors to arouse their prejudices and hatred in hostility to the Democrats generally.

But Dr. York is not fit to be Governor for other reasons we derive from his official record.

He was against all railroad improvements. He voted against the completion of the great Western and North Carolina and he refused to vote for the Cape Fear & Yadkin Valley Railroad, in which this and other sections are so much interested. He voted against the Colored In-

sane Asylum at Goldsboro. He voted against the Western Asylum at Morganton.

He voted against the establishing of the first Normal School, and he voted against the establishing

of additional Normal Schools. He has shown himself the pertinacious enemy of the leading measures in the last ten years that were intended to develop the resources of the State, to alleviate human suffering and calamity, and to advance the educational status of the people. He has not a single element of statesmanship. He is a demagogue, he is ignorant, he is an enemy to

genuine and enlightened reform. He is now a Republican tricked out in the nebulous, gossamer garment called "Liberal," and he is utterly unworthy of the confidence and support of any white man in North

in must do their share toward insuring the success of the party which put them in and which alone will keep them in. 'They are not doing their share by simply talking and voting for Blaine and Logan. Thousands of patriotic men all over this land are doing and will do these things, and they neither hold nor expect to hold office. He is a poor party man who, deriving his sup port from an office conferred upon him by his party, refuses to contribute money for its support.

Mr. McSweeny, the Irish-American citizen who was imprisoned in a British jail for fourteen months, and Blaine, as Secretary of State, would not try to have liberated, in his

speech in New York a few nights ago, concluded as follows:

"I have to night laid before you the plain story of my wrongs and I leave it to the good sense of my fellow countrymen to say whether, after hearing the story of how an American citizen of Irish birth has been treated by Mr. James G. Blaine when he had the power to protect me-I leave it to their common sense to say whether they will trust him in the future with the power to again assist the British Government in administering the outrageous and tyrranical provisions of the coercion act on their unfortunate countrymen in the beautiful island which they all claim as their mother-

RALEIGH, N. C., Oct. 22, 1884. To the Democratic Press of North Carolina:

At the close of the campaign I have to invoke your aid, which has been so cordially and efficiently given for the success of the party, to secure a full vote at the coming election. While our success seems assured, we will make it overwhelming and triumphant if we can get out a full vote. And I ask that you urge, through your columns, the people everywhere to fay all other business aside on election day and go to the polls and see that their neighbors go to the polls and give one day to their

State and their country. At this critical time, when the election of a Democratic President seems almost certain, let every Democrat in the State do his full duty.

R. H. BATTLE, Chairman. A TERRIBLE WARNING.

Raleigh Chronicle.

There is one fact that is universally admitted in North Carolinaviz: that the negroes of this State when left to their own impulses are not inclined to violence. Another fact is equally self-evident-viz: that as the tools or victims of party lead-ers they are inflammable. The danger of the negro consists, of course, in his ignorance, but chiefly in his susceptibility to being the victim of improper influences.

When, therefore, an

be convincing. The editors seemed to consider him unfit to be President of the United States, and, as I had confidence in the integrity of my friends, the editors of the local Republican press, these things reduced my estimate of Mr. Blaine to what it now is. The personallity of a man or his character gives immense weight to what he says or does. Take Gen. Hawley's paper, for instance, and what it has said of Blaine in the past. 1 consider I am a mugwump constructed by Gen. Hawley.

We learn from the Executive Committee that the Presidential and State tickets have been sent to every county. Applications should b made for them from every precinct to the chairmen of the county com mittees should telegraph at once to Chairman Battle.

Congressional tickets are furnished by the candidates for Congress in their respective districts who should be notified if they have not been distributed. [Democratic exchanges please copy.

Dr. Grissom's Opinion of York.

This is an unusual crisis; and while I am not ambitious to any claim to consistency, save in a love for North Carolins, and the interests of all her people, I am especially de-voted to the unfortunate afflicted among whom the best years of my life have been passed, and hence cannot support York.
