TWO POINTS. Dr. York was a strong friend when in the Legislature of the present system of County Government. He is now a Radical and is urging on every stump its abolition and a return to the Canby-Bayonet system that wrought so much ruin and caused so much robberv.

Dr. York is in favor of placing twenty-seven counties in North Carolina, New Hanover among them, under the control of negroes. He favors making negroes the financial bosses and managers of those counties.

Dr. York now pretends to be the true friend of the common schools. But he is not sincere. Actions speak loader than words. A homely maxim that is loaded with truth. His Legislative record gives the he direct to all of his professions. In the session of 1871.'72 the following oc-(See House Journal, page curred. 1 51.)

"The bill to raise revenue being under consideration, Mr. Loftin moved to insert 'a special tax of four cents on the hundred dollars valuation of property for the sup-port of public schools.' The ayes and noes were ordered. Dr. York voted NO!"

He also voted against establishing Normal Schools. These schools are of much importance. Without them our common school system must remain inefficient and because of the inferiority of teachers. They are training schools for teachers. But York said No.

### THE TWO COUNTY GOVERNMENT SYSTEMS CONTRASTED.

The great, primal question with all of the counties in which the negroes are strong is County Government. The STAR has again and again presented the importance of this subject to our people. In the last two or three elections this discussion has been forced upon us, and in this campaign we have several times considered it. We must once more call the attention of our readers to its impor-

If the negro counties do not put forth their best efforts to save the

When the Canby-bayonet system came to an end in 1876 those 27 counties had a debt of \$545,108.00. The Democrats then took charge and in three years reduced it to \$266,-198.00.

the actual increase in property valu-

ation in these 27 counties is nearly

\$13,000,000.

To show how these counties improved under Democratic government take two years to contrast with each other. In 1878 the Democrats had had control for two years. In that year the personal property of the above 27 counties aggregated

\$19,506,527. Two years later, under Democratic rule, it had increased to \$22,321,993. Here is a gain of nearly a million and a half a year. But let us come nearer home. Let us take New Hanover county, and see how Radicals and Democrats have managed the public finances, and under which party there has been the best government-the most economy. Tax-payers read the following, and then vote as your interests require.

The negroes had possession for three years. The county expenses aggregated \$160,360.00. The debt created in that time amounted to \$59,900.00. The Democrats came in under the present County Government system and what was the result? The expenses were in 1880, \$24,735.61; in 1881, \$29,226.04; in 1882, \$25,042.49 and in 1883 \$21,-761.44.

In the last three years the expenses have been \$78,384.36, against \$160,-360.00 for three years of Radical control.

Under white government the expenses are less than one-half what they were under negro government. Why return to the negro rule? Have you any money to throw away? Do you desire that the taxes for county purposes shall be doubled?

The debt of nearly \$60,000.00, created in three years by negroes has been cut down to \$6,000, and the money to pay that sum is in the bank drawing interest. Can the people of, New Hanover afford to go back to the corrupt, oppressive, vicious Canby-Radical system ?

We need honest, just, economical government. We did not have it under the Bayonet system; we have

WM. M. EVARTS AND, THE SOUTH.

Mr. Keitt, of South Carolina, Asks a Pertinent Question-How Much ? Ellison S. Keitt, of South Carolina, at the Democratic ratification meeting held under the auspices of Tammany Hall at No. 106 Third Avenue, last evening, answered Wm. M. Evart's attack upon the South as follows: "I read in the Tribune a speech delivered a few nights ago in Brooklyn by Mr. Wm. M. Evarts. He said: 'The South is solid and has no interest whatever in the present issue.' I am from the South, and I tell you no part of the country has greater interest in the present issue than the South. No section is more united to the Union than she is. She has had a baptism of blood and fire. She knows what despotism and corruption is, and she knows what honest government is. I tell you the intelligence and character of the South is solid. It is solid for honest government. It is solid against the fraud of the ages-a stolen Presidency, when the rights of 50,000,000 were trampled

in the dust. Mr. Wm. M. Evarts was the master champion of that fraud. He had his price. It was the highest position in the gift in the fraudulently seated President. As such he will go down in history. What now moves Mr. Evarts to speak for corruption and fraud, when good men of all parties are coming together for honest government? Is it the mission to England or France? Mr. Evarts had his price in the past. He has it now."

OUR STATE CONTEMPORARIES.

The Republican orators of this State, from Dr. York down, are constantly charging that the Democrats are opposed to education, schools, &c. They know it is a lie -they \$now that the Democratic party has done all that has ever been done in this State to build up schools and promote education. The Republicans while in power squandered the educational fund and shut up the school houses. And yet they harp on the Blair bill as if there was something in it. Ask them who objected to taking up and passing the bill. Ask them who is Mr. Hiscock, of New York, and if he is not the Republican who defeated the Blair bill? -Salisbury Watchman.

York is a tall wiry-looking man, with rather angular features, reminding one very much in appearance of a cunning old rat, looking out of a hole. We mean no unkindness by this reference to natural history but to refer to the fact that the characteristics of certain animals impress themselves upon the features of men when they have long adopted the habits of those animals. Dr. York is said to be an exceedingly cunning man. So is an old rat. Dr. York has small gray eyes set close together in his head. So has an old rat. We have no doubt their similarity of disposition has produced similarity of personal appearance. Any how, all who were present will remember the resemblance. Dr. York does not speak the king's English, but we will make no point of that, except that some persons do not like to hear their mother tongue murdered. But that does not matter. But Dr. York is a good speaker, an energetic, forcible, emphatic speaker. Senator Vance was asked recently, what sort of a man was Dr. York. He said: "York is the biggest liar north of hell and east of the blue ridge." Excepting the boundaries of York's bigness, we think the Senator was not far out of the way. In conclusion, York's speech was the most adroit, the most cunning, the most wicked and the meanest we have ever heard in our court house.-Elizabeth City Economist.

POLITICAL POINTS. \_\_\_\_

- Mr. Blaine made his last stand in Ohio at Lancaster. Still old Fairfield county came up with a broad grin on its countenance and a Democratic gain of 184. -Cincinnati Enquirer, Dem.

- There is one satisfactory thing about this campaign-after it is over the public will probably be spared the infliction of those articles which the New York Sun used to shoot off with such vigor on the indecency, imbecility, inconsistency and un-fairness of the partisan press.-Philadelphia Record, Ind.

- Out of 1,400,000 spindles in the mills at Fall River, Mass., 1,000,000 are to be shut down and thousands of operatives thrown out of employment. This is a spe-cimen of that splendid prosperity which the Republican party has brought to the coun-try.—Jacksonville (Fla.) Times-Union, Dem.

- When the new Postmaster General Hatton was editor of the Burlington Hawkeye he delivered himself in this style on the subject of Blaine: "Mr. Blaine's political intimates were and are the representatives of all that is tricky and insincere in

government economically administered. [Applause.] That is what President Arthur said two years ago. It is what the Democratic Convention said in July at Chicago. That is the first proposition of our platform. The second is that taxation shall be only for public purposes, and not for private purposes. The third, that in the adjustment of taxes great care should be taken that labor and capital are not hurt; and fourth, taxation shall be heaviest on articles of luxury and lightest on articles of necessity. [Applause.] This is the banner that the Democratic Convention placed in the hands of Grover Cleveland and Thos. A. Hendricks in July last irenewed applause]; and that great Convention said carry this banner before the people, and stand or fall with that banner. [Renewed applause and cheers.]

After elaborating these points the speaker said Blaine advocated higher taxation instead of a reduction, and the taxing of luxuries and the relief of necessities. He then said there ought to be a change of administration, and showed that the Republican party had been guilty of extravagance and corruption.

Speaking of Gov. Cleveland, in conclusion, Mr. Hendricks said, "I can say of Grover Cleveland what can be said of no other nominee of any party. For the first time in the history of politics, Grover Cleveland has the endorsement of the best men of the opposite party. [Applause]. High toned Republicans, the most true of their party, those who have no stain of dishonesty upon them, loudly and carnestly assure their fellow citizens that Grover Cleveland is qualified for the high office that he is nominated for. [Applause]. For him then and for myself, I simply bring before you the banner of Democracy, equal laws, economy of appropriations and economy of expenditures, that the people shall have all the money in their own pockets and in the channels of trade which the government economically administered does not require." [Great applause and cheersl

Appearance of Cholera in the Lower Seine Region of France-The Pope and the English Government. (By Cable to the Morning Star.)

ROME, Oct. 30 .- The appearance of cholera in the lower Seine region in France has led Italy to establish a quarantine against all ports from Dieppe to Cherbourg inclusive.

A cable dispatch from America stated that Bishop O'Harrell, of Trenton, respond ing to words welcoming him back from Europe, last Sunday, said, alluding to the audience which he had with the Pope on the Irish question, that his Holiness assured him that he felt sympathy for the Irish people, and he hoped that they would soon be able to free themselves from the government of England. This statement the As servatore Romano pronounces absurd. If says: "It is impossible to suppose that the Pope expressed himself in such a manner concerning a government with which he desires to maintain the best relations."

I prescribed it myself, and it gave prompt relief in a case of *Suppression of Urim*, in sales to-day of 14,000 bales, of which 2,000 were for speculation and export; receipts 15,000 bales, 13,900 of which were American. Futures very firm; uplands, 1 m c Yellow Fever, and decidedly mitigated other di reason rever, and decidedly mitigated other dis-tressing and dangerous symptoms. The patient re-covered, but how far the water may have contri-buted to that result (having prescribed it in but a single case) I, of course. cannot undertake to say. There is no doubt, however, about the fact that its administration was atlended by the most besch-ded results. RICHMOND, VA. For several years I have used no other llair Dressing than the Xanthine, which had been warmly recommended to me by a friend who had tested its value. It has, in my experience, accom-plished all that is claimed for it as a wholesome preserver and restorer of the natural color of the hair, and a thorough preventive of dandruff. CHAS. II. READ.
