The remark is often made that people are worse than they used to be. But this is not so. The human nature of the present is the human nature of the past. It is the same in all ages. Because one sees more evil, hears and reads more about the bast country, is no evidence that people are nat urally worse than formerly. In olden times they had no telegraphs, railroads, daily newspapers and other facilities for getting information quickly from all sections. Cou sequently, they knew but little about what was going on in other quarters. Now, intelligence of all kinds of crimes is sent dai'y and hourly over the country; and comin. in the aggregate, the reader is apt to won der and to take up the idea that the world is growing worse. - Chadbourn Times.

a North Carolina Democratic newspaper, will be commenced.

The Register will be printed weekly until the great political campaign of 1884 begins. It will then be issued twice a week, or as often as may be useful or necessary to the Democratic party in North Carolina. It will be printed from new and beautiful type, on good white paper, and though it may not be large enough to hold all at once all the good things that glowing prospectures sometimes promise, yet the application of a thorough knowledge of how to use them will put into its thirty-two broad columns all the news, much good reading, and a complete history of what is done in North Carolina.
