### THINK OF IT NOW

Although much is said about the importance of a blood-purifying medicine, it may be essible that the subject has never seriously aimed your attention. Think of it now! Almost every person has some form of scrofnlous poison latent in his veins. When this erelops in Scrofulous Sores, Ulcers, or Eruptions, or in the form of Rheumatism, or Organic Diseases, the suffering that ensues is terrible. Hence the gratitude of those who discover, as thousands yearly do, that

-The Current. "COUNTING OUT" IN NEW YORK.

New York Times, Thursday. While the Western Union Company was in use yesterday to fabricate monstrous untruths which it pretended merely to transmit, many

people were talking of the chance that the vote of New York might not be counted as it had been cast. There is no danger of this result. A miscount could only happen, under the laws of New York, if there were any election district in which there was no minority, and therefore no representative of the minority to watch the count, or if that representative had been bribed to acquiesce in a false count. The

law provides for an inspector of election on the part of the minority in every election district of the State. and such a representative was, as a matter of fact, present in every election district of the State on Tuesday night. The inspectors are not permitted to pass upon the legal sufficiency of the ballots dropped in their boxes. They are to forward a specimen of each kind of ballot used. with their return, to the supervisors of the country. A record is kept of the announcement of the count in every election district, and as the function of the supervisor to whom the reports are made is simply to add the totals of election districts, any discrepancy between the vote as announced by the supervisors and the sum of the district totals would be detected and exposed at once and would subject the supervisors to severe punishment. No doubt upon proof of the discrepancy a court would issue a mandamus to the su-

metical principles and not upon partisan sentiments. The function of the State Board of Canvassers is also ministerial Their duty is simply to add up the county totals. Of course, any failure here would be visible to the whole State. A question as to the formal sufficiency of the ballots may be raised by the protest of any member of the State Board, which is filed with the return made by his associ-

pervisors to make a recount on arith-

The whole business of counting the votes is done in the daylight from the first step to the last. Election frauds in this State have been generally confined to this city, and to cases in which the inspector appointed on behalf of the minority has been in collusion with his associates. There is absolutely no fear that the vote of the rural districts will not be counted as it is cast.

CURRENT COMMENT.

- An armful of nauseous, or silly, or vulgar novels is as great an affliction as a number of happy, reasonable, and wholesome stories are a delight. Love is the legitimate object of romance. We are no longer young; but a novel without a love story is an abomination to us. Nevertheless, there are many other things in life-a great many-besides love, and he or she is a poor practitioner wko can do nothing but ring the changes upon that one episode of existence whether in the form of the strictly virtuous but highly unreasonable quarrellings which kept two lovers apart for two volumes, the misunderstandings which any reasonable person could clear up with half a dozen words, or in the more questionable shape of uneasy and hair-breadth balancings upon the edge of vice. We have a great deal too much of this in contemporary fiction. Our brethren of the weekly press who lay down the law upon the subject, and part of whose capital and stock in trade, when they begin the exercise of their profession, is a series of short essays upon the female novelist, would have us believe that she is the sinner, and that the inherent viciousness which makes women desire to read Greek and study medicine is at the bottom of this degradation of the art .- Black-

wood's Magazine. - There having been a revival of interest, both antagonistic and otherwise, in Darwin's theories, an excerpt from John Coleman's reminiscences of Charles Reade, published in Lippincott's, may be considered pertinent as revealing something of the great novelist's philosophy of life, regarding which there has been much dispute. In the course of a conversation with Mr. strated to their own satisfaction that protoplasm is the beginning, when Darwin has shown that the great

Tho N. Y. World on the Election.

From Thursday's Issue. Despite the impudent claims set up yesterday by the Republican managers - after the manner of 1876-the fact remains that the people have chosen Grover Cleveland to be President. New York will give her 36 votes to him without a shadow of doubt. Indiana and Connecticut and New Jersey are as solid as adament in the Cleveland column. The hopes of the Blaine managers yesterday were nowhere realized. The "Solid South" was not broken. The faithful States of the North were

not shaken. Cleveland will be President.

PERSONAL. - Mr. Ruskin is thinking of entertaining the world with a short autobiography.

- M. Theodore Roustan, French Minister to the United States, left Paris for this country on Friday last. - Mr. George B. McClellan is still only a middle aged, almost a youthful-

ly appearing man, without a gray hair in his handsome military moustache. - John Ruskin, now lecturing on "Pleasures in England," refuses to use the word Celtic, lest he shall be kompelled to kall it Keltic, and he fears he may be

forced to say St. Kekelia. - In Henry Irving's absence from London, William Barrett appears to the public as the most prominent player, particularly as Hamlet, and when Irving, on his return, finds this formidable rival, he

may grin and Barrett. - Malmesbury's just published "Memoirs" are making a good deal of fun in England. He pictures Disraeli on one occasion as appearing desperately low and despendent, and adds: 'He told me the Queen had just sent him her last new book."

- Gen. Booth has displaced Maj. Moore from the head of the American branch of the Salvation Army and has sent out from London as a substitute Major Smith to take command, so that the Salvationists in this country will see less of Moore and more of Smith.-N. Y. World

I was attacked last winter with inflammatory I was attacked last winter with inflammatory rheumatism of severe type—my first serious illness since 1876. I had various kinds of treatment with only temporary partial relief. After seven weeks I was reduced in weight 35 pounds, had no strength or appetite, and was growing weaker every day. In this connection I began Swift's Specific, and in three days began to improve, and in three weeks I was free from disease and up attending to my regular business. My appetite returned and I rapidly regained my fiesh I have waited this long to be certain that my cure was permanent.

MINERAL POISON!

I have suffered untold misery for many years from poisonous effects of mercury, which at once developed into an ulcer on my leg, which refused to heal. Finally I used Swift's Specific, and it has entirely disappeared, and I am in better health than for years. It is the best blood remedy in the world.

T. H Morsan, Oglethorpe, Ga., Aug. 25, '84.

Rhoumatism 20 Years!

I have been a sufferer from rheumatism for twenty years, at times with almost intelerable pain. I had the best medical treatment, and took all sorts of medicines, but without relief. Being reduced almost to a skeleton, and not being able to walk even with crutches, I was induced to try Swift's Specific, and it acted like a charm, and I am entirely relieved. Have thrown away my crutches, and am in excellent health. I believe Swift's Specific will cure the worst cases of rheumatism.
