outnumber the whites, and before fifty years, then it is almost certain that there will be the deadliest race conflicts, or the colonization of the negroes by Federal legislation must result. To talk of the voluntary exiling of the whites from their homes and States is an absurdity. The men of the Teutonic race never yet fled before the white nations of the earth, much less before the African. It will be war to the hilt whenever the negroes are numerically the stronger, or it must be colonization.

If race conflicts come in the future the negro race would melt away as snow under the fierce rays of the sun, or as the Red Men disappeared be fore the aggressive and irresistible will of the Anglo-Saxons.

At present negro labor answers fairly good purpose in the South. As long as the whites are strong in numbers as compared with the negroes serious race troubles will be averted but when the anticipated superiority in numbers comes then there will be conflict on a broader scale and all reflecting and observant men know what that means.

The New York Journal of Com merce, the most conservative of pa pers in its Friday's issue says:

"An Associated Press dispatch received at 1:30 o'clock this (Friday) morning says official returns from Westchester county uve a Democratic gain over previous igures of 488. This makes Cleveland's plurality in the State 117."

This is the majority that even the dectored "Press dispatches" give But in fact the majority is more than 1,000. The Herald's figures are 1,986. The New York Times's figures are 1,276, not counting, we suppose, the error corrected above. This would make its figures 1,764. The World claims 2,500. The Philadelphia Times, Ind. Rep. claims by 2,000 or more. The PhilaA DANGEROUS GAME.

N. Y. Times, Rep., Friday. The people of this country may well ask how much longer an andacious gang of sharpers will abuse their patience with false returns of the most important Presidential election ever held in the United States. There is no shadow of doubt that Grover Cleveland has been elected President, Our returns from the counties of New York are complete, | cite Republicans to resort to violent and they show a Democratic plurality of 1,276. The returns by districts given out by the Associated Press during the day yesterday were misleading and though the latest of these worthless reports issued up to the present writing show a Democratic plurality of only 117.

For the past 48 hours Mr. Jav Gould has been using the Western Union Telegraph to spread abroad through the United States false information as to the result of the election in the State of New York. The proof of this is well known to every intelligent journal in New York. Mr. Gould did the same thing in October with reference to the election in Ohio, when not one specific statement capable of verification or exposure was always to pass over the Western Union wires for more than thirty hours, and when the statements that were sent were shown within two days to be conspicuously and intentionally false. As to the vote of New York the plot has been nearly identical and has been carried out with even more persistence.

The motives of the Gould-Blain combination are obvious. They have determined to keep back the truth, to confuse the public mind, and to inflame the passions of their followers or dupes, in hope that by fraud and corruption in Virginia, in West Virginia, or in Indiana, they could secure enough electoral votes to dispense with New York. They have be an opportunity to falsify the vote in this State, and, if every device efficacy to moral principles; it elsewhere failed them, to steal the controls the affections, and makes Presidency.

majority of the people have voted for Cleveland and Hendricks. We also belive that Gould and Elkins are conspiring to cheat in the count. Our council is for peaceful methods

and careful abstinence from any others till the last extremity. But if the Republican National Committee's call for "resistance" is meant to inmeans to defend frauds on the pretext of preventing them, upon the heads of Elkins and his fellow members of that committee rests the responsibility for the stirring up of any violence that may ensue. The people of the United States have been cheated once by the Republican party in a Presidential count, and have submitted when the cheat was ratified by an arbitration. In the fifty-five million inhabitants of this country there are not fifty-five thousand, if they can read and write, who to day do not feel in their hearts that from March, 1877, to March, 1881, the two men who exercised the offices of President and Vice President never were elected to them fairly. There will be no arbitration this time, nor any submission.

The Lone Star State Wild with Enthusiasm over the Election of Cleveland-The Feeling Among the Negro Population.

(By Telegraph to the Morning Star.) GALVESTON, Nov. 8.-The receipt of elegrams yesterday afternoon that Go vernor Cleveland had carried the State of New York, caused the greatest excitement in this city. The Democrats gathered on the streets in large numbers, vociferously cheering and giving vent to the most extravagant manifestations of joy. The Galveston artillery fired another salute of one hundred guns in honor of the Democratic triumph, flags were flying, bonfires blazing. and the population seemed wild with ex-

#### LABOR AND RACES.

There is no question of greater importance to Americans next to religious and civil liberty than the question of labor and races. It is because of the deep importance that such periodicals "as the Atlantic Monthly, published in Boston, and the North American Review, published in New York, are devoting space and time to its discussion. The Northern view of the negro question is generally one of ignorance. Professor Shaler, among Northern writers, appears to be an exception. He takes in the main a correct view of the negroes, and evidently understands their capabilities. Professor Edward Winslow Gilliam, is discussing the negro problem in the North American Review with insight, fairness and ability. We shall at another time refer more particularly to his discussion. He was reared in North Carolina, and, therefore, has a proper comprehension of the negro and the disturbing element he is in Southern progress. He believes that colonization will become a necessity and by act of the General Government. But we will consider his discussion at another time.

The race and labor question is discussed with good sense by the Memphis Avalanche in an editorial of the 2nd of November. It rather accepts the fact of permanent race antagonism, and shows how the labor question will be different in the South from what it is in the North. It holds it to be a fact that under no circumstances will the superior race be displaced by the inferior. It points out the Northern system, and correctly says that all men who are "not capitalists and proprietors' are to be embraced in the working classes. The same thing applies to the South. In the North the system lifts up men, giving them a chance, and, therefore, "makes life conditions pleasant and permanent." But in the South the system is different. Race antagonism prevents

It says even the Associated Press gives Cleveland a majority of 117. The Sun gives Cleveland the election. We copy some good reading elsewhere.

The editor of the Washington Post writes to his paper from New York on the 6th, as follows:

"I have asked Mr. Barnum what word should send to the Federal Capital. 'Tell your readers,' was his reply, 'that we have fairly elected Cleveland and Hendricks and intend to inaugurate them.

That is the right ring. They have been fairly elected and five millions of Democrats and Independent Re publicans will see that they are inducted into office at the right time. Either that or a conflict that will shake up things all around. No more cheating and bulldozing are to be allowed. A free ballot and a fair count or a fight. That is the meaning of it.

Blaine telegraphs to his managers in New York-"Claim everything." Of course. This is very like the rascal that traded his patronage for pelf when Speaker and wrote the infamous letters to Fisher and others.

# CLEVELAND IS ELECTED

Phil. Times, Ind. Rep., Nov. 7. The Times is fully warranted in | ler, Surveyor General, Attorney Genannouncing that Grover Cleveland is elected President of the United States, and he will be declared elected and inaugurated.

After practically conceding New York to Cleveland until a late hour yesterday, the Republican leaders under the direction of Jay Gould and the manipulation of Johnny Davenport, have decided to claim the State in the face of the ascertained majority of 2,000 or more for Cleveland

Gould controls the telegraph sys tem of the State, with which the Associated Press has close connections, and visibly colored and confused returns have been presented from that source since Wednesday evening. The fraud was soon detected and the New York Times promptly exposed and denounced it. The Democratic National and State Committees have verified the returns and have conclusive epidence of the fraud, as they have secured the full and correct vote.

No need for alarm. The people As this second attempt at a theft have elected Grover Cleveland Presiof the Presidency must pass the or-deal of a Democratic Board of Can-the morning be will take possession

mind.

New York World, Friday.

The Kelloggs of the Blaine party are not confined to Louisiana. There are some politicans in this State who are quite as bold and unscrupulous as that indicted but untried rascal. They would doubtless be quite as ready to cheat the Democracy out of the election in this State as Kellogg was to steal the election in Louisiana in 1876.

But fortunately we have no Louisiana Returning Board in New York. Fortunately, too, the people of this State, warned by the great crime of and very emphatic check to any attactics into New York elections,

Certified transcripts of the regular returns in every district of the State, as found at the close of the polls, are in the hands of the State Committee. There are courts to appeal to in case frauds should be attempted. The Board of State Canvassers, consisting of the Secretary of State, Comptroleral and Treasurer, stands four Democrats against one Republican. I is not probable that in canvassing the votes cast in the several counties and "determining and certifying the persons elected," this Board would allow any returns known to them to be

fraudulent and false to subvert the will of the people of the State. Neither is there any danger that the people can again be cheated at Washington. Senator Edmunds presides in the Senate. He is an honest Republican who could not be induced to lend himself to fraud. The House of Representatives is Democratic, and in case the election should be thrown into the House would confirm the choice of the people and

elect Cleveland. Above all, there are the American people themselves, who will never again allow corrupt and unscrupulous politicians to rob them of the right to elect and inaugurate the President of their honest choice.

special attention to the heart-the internal. "God is a spirit, and they that worship him must worship him in spirit and in truth." A man may be ever so refined and polished, but the religion of Christ makes no account of this unless it be a polish that flows from within and affects the exterior.

We have entirely too much reli gion that is not heart religion, and it does not find pleasure in serving the Lord with the whole heart. God is worshipped as though he were a being who had an ear only for cultivated expression in prayer and music, and could not hear and did not delight to hear the simple petitions, the heart-felt music of the more humble. A pure heart goes for more in God's eyes than the fairest exterior.

## The Right Bing. Phil. Record, Ind. Friday.

There are reasons to fear that some of the Republican leaders will attempt to repeat the tactics of 1876. and accomplish by purchase and fraud what the people have failed to do for them at the polls. They may 1876, are prepared to give a sudden as well understand first as last that no such outrage will now be permittempt to introduce Returning Board | ted. If of the electors fairly chosen on Tuesday last a majority are for James G. Blaine, he will be inaugurated on the 4th of March, 1885 without murmur of dissent from any man who has the good of his country at heart. If a majority are for Grover Cleveland he will be inaugurated with the same unanimity of sentiment. The reputable citizens of every community have too much at stake to permit any interference with the plainly expressed will of the majority, which, in the present temper of the people, could only lead to civil war. No Jay Gould will be permitted to enact the role of a Louis Napoleon. Let the just verdiet of the polls be known, and by it all parties will stand.

## The Threat-The Answer.

Phil. Times, Ind. Rep., of Friday.

After the carefully tabulated returns from all the counties gave New York to Cleveland by from 2,000 to 3,000, the Republican National Committee is reported as claiming the State by 4,000.

This is simply a feeler of the public pulse in shape of a threat to reverse the majority of the State, by methods that were learned in Louis. iana and Florida in 1876.

The answer comes timely and pointedly from Mr. Manning, Chairman of the Democratic State Committee, assuring the friends of honest government and honest elections that, as the State has voted for
