Appointments - Postal Affairs - Recommendations of the First Assistant Posimaster General Concerning the Free Delivery System.

By Telegraph to the Morning Star. WASHINGTON, November 22.—The President has appointed Rev. William W. Hicks, of Florida, to be Surveyor General of Florida, vice Malachi Martin, deceased; and Wm. C. Wells, of Alabama, Register of the Land Office at Huntsville, Ala., vice John M. Cross, term expired. Hicks was Guiteau's spiritual adviser.

The acting First Assistant Postmaster General, in his annual report, says the number of new postoffices established during the year was greater than for several years. Of the free delivery system he says, long experience has shown this system of deliv-ery more acceptable to the people than the old mode of office delivery; that it is more accurate and thorough; that it reduces the number of dead letters, stimulates mail and local correspondence, and lates mail and local correspondence, and increases postage on postal matter, saves time and money to the people, and yields a larger surplus postage on local matter alone above its cost, notwithstanding this class of matter for which it gets credit is only about 25 per cent. of the matter handled by the carriers. "In view of these facts," he says, "I do not hesitate to advise that the law governing the establishment of that the law governing the establishment of this system be so changed as to authorize its extension to places of 10,000 inhabitants, provided the postal revenue for the preceding fiscal year at such places amounted to \$10,000; also, that in case of several postoffices in the same city or place, the revenues from all offices may be aggregated and taken as the standard entitling such places to this system, and provided it has the required population. I would also call attention to a class of towns in the densely settled portions of the country, within short distances of one another, each with its separate postoffice, which cannot be reached by the law as it now stands, having in the aggregate the required popu lation and revenue, but none of which singly reaches the requirements of the law. viz: 20,000 postal population and \$20,000 postal revenue. The law should be extended. This could easily be done by establishing service at the most, important and central office and discontinuing the others, or substituting branches of the central office. The result would be a diminution in the number of offices and; a more intelligent, economical and s

CHICAGO, November 22.-In the Lemon. Brand State Senatorial contest, in which there have been allegations of fraud, application was made this morning before Judge Blodgett, of the U. S. District Court, for an attachment to compel the County Clerk to go before the Federal grand jury with ballots and poll lists. This the court declined to do, but issued an order directing the County Clerk to show cause on Monday next why an attachment should not be issued. The County Board of Canvassers this afternoon decided that it could not go behind the returns, and that the vote would have to stand as returned, giving Brand, Democrat, a seat in the State Senate, and allowing the Democrats a majority in both houses—leaving the Senate itself to decide as to the question of fraud in the returns. Whether the proceedings in the Federal Court have any bearing on the case as it stands is not known. The returns will probably go to the State capital to-night.

The Lemon-Brand State Senatorial Contest. [By Telegraph to the Morning Star.]

Sr. Louis, Nov. 22.-The Cattle Men's Convention adopted a resolution with reference to arid lands lying between the 98th meridian and the Sierra Nevada mountains, urging the sending of a memorial to Congress for legislation permitting cattle men to lease lands or tracts of suitable size for grazing. A committee to present the memorial was appointed, and the Conven-

Let us not forget the little orphans. — Wanted—A crowd of young gentlemen (?) to stand in front of each church in this place as the congregations leave each Sunday morning

time for electing the township constables throughout the State. Instead of their election being held at the time of the general election, it ought to be a special election, held by itself, as was done before the war.

He was suddenly halled by two men who rose up before him in the darkness and who called upon him in threatening tones to surrender. The policeman could see the forms of the men but could not recognize their features. In response to their com-mand for him to surrender, he drew his pistol and fired two shots at them in quick succession. One of the men fled, but the other fell to the ground with a dull thud. Investigation revealed the fact that it was Jenkins who had been shot down and he

was suffering from a bullet wound in his left breast just over the heart. Our Church Calendar.
