Report of the Investigating Committee of the Associated Press on the Alleged Tampering with Election

Returns.

[By Telegraph to the Morning Star.] NEW YORK, November 26 .- A meeting of the Joint Executive committee of the New York Associated Press and the West-ern Associated Press, called in New York to investigate published charges of partisanship in their dispatches during the cam-paign and their collection of election re-turns, was attended by members as follows: Charles A. Dana, of the New York Sun, chairman; Whitelaw Reid, of the Tribune, secretary; James Gordon Bennett, of the Herald, represented by Dr. G. W. Hosmer; Richard Smith, of the Cincinnati Commercial Gazette; W. N. Haldeman, of the Louisville Courier Journal. After thorough investigation of the work, including circulars of instruction, correspondence with agents by letters, and telegraph correspondence with candidates, complaints from both Democratic and Republican sources, dispatches sent out, returns received by telegraph and the originals filed by senders in several telegraph offices, Messrs. W. H. Haldeman, of the Louisville Courier-Journal, and Richard Smith, of the Cincinnati Commercial Gazette, were appointed a subcommittee to summarize the conclusions reached by members. They presented the following report, which was unanimously adopted, and the Chairman and Secretary of the Joint Executive committee were in structed to sign the same and transmit it to members and clients of the two associations. To members and clients of the Associated Press: The joint executive committee did not deem it advisable during the sharply contested campaign to take public notice of the misrepresentations and unwarranted criticisms published against the Associated Press. Observation shows that during such seasons of excitement men are moved

following statement: A meeting of the committee was called for the 25th inst., to which D. M. Smith, expert, of the N. Y. Associated Press, and Hon. Joseph Pulitzer, of its executive committee, were invited. The latter was unfortunately out of the city, but Mr. Stone attended and gave nmittee the benefit of his counsel and experience. A careful review of the work done and of the official records warrants the statement that the high character and non-partisan fairness that give the Associated Press its hold upon public confidence in the past, have been firmly maintained and that no improper influence, political or otherwise, has been permitted to enter into the management. The work, strictly confined within the limits prescribed by rules which experience has proved to be safe and just to all parties, has been larger than in any previous campaign. This was due to the greater number of divisions and to the demand of the press for fuller service. The State conventions, nearly a hundred in number, and the National conventions of all political organizations were reported with thoroughness and rapidity surpassing anything ever before attempted.

by passion rather than by reason. Now

that the party contest is closed the commit-

tee deem it their duty to make public the

subsequent official action of party committees, addresses and movements of candidates were carefully provided for under instructions similar in language and spirit. It has never been considered as within the legitimate functions of this non-partisan Association to report ordinary campaign meetings or to transmit scandals that spring up during such heated periods. All such have been rigorously ex-cluded from the Associated Press dispatches. The charge that election returns in the State of New York were withheld is disprovd by the fact that out of a total of 1,099 wards and towns in the State the Associated Press received on election night returns from 630; whereas, in 1876, returns were received from only 254, and in 1880, from only 293. The extent, rapidity, and substantial accuracy of this service was never equalled before in this State, the total vote of which, in 1884, reached the enormous number of 1,167,003-so nearly divided between the two great parties as to leave to the victor only about eleven hundred of plurality. Investigation shows that while there were some serious errors in the telegraphing of our reports-especially from private points-due in part to their being transmitted over different lines of telegraph, and while much of the errors in the main diminished the apparent strength of Cleveland, there was but one error of importance in the office of the Associated Press This was in a bulletin issued on

the percentage of Democratic gains as been done before, undertook to estimate the actual plurality, and by this process figured out a plurality of 473 for Blaine. The sub-agent in charge of the office sent this out without sufficient scrutiny, but it was corrected as soon as its inaccuracy was positively ascertained. In regard to this error the committee find no evidence of any intentional wrong-doing on the part of the sub-agent. From the first to the last there was no effort to control or affect the returns by any member of the committee in any interest, nor any inter-ference of any sort, and the general instructions under which the work was done were strictly fair, non-partisan, and more

KENTUCKY. Reports of a Terrible Plague Rayag-

ing Counties on the Virginia Border." By Telegraph to the Morning Star. LOUISVILLE, Nov. 26 .- The Courier. to investigate the reported ravages of a dread disease in Eastern Kentucky and West Virginia. The correspondent sends the following from Williamsburg, Ky.: W. C. Lester, a prominent attorney of this place, has just arrived from Mount Pleasant, the county seat of Harlan, where he has been for two weeks past at court, as acting pros-cuting attorney. Mr. Lester has informa-tion of the prevailing plague, principally from Harlan, Letcher, Perry, Leslie and Pell counties. He says that in Harlan it appears worst and is most fatal, and pre-vails to the greatest extent about the head. waters of Poor Ford and Clover Creek, in the mountains, about twenty-five miles from Mount Pleasant. This large territory is being terribly afflicted; people dying very rapidly. In one neighborhood twelve persons died in a single day in the latter part of last week, and there were scarcely well people enough to make their coffins and bury them. On Bramer's Creek, which rises in Harlan, the disease is raging with frightful fatality and there is no means of keeping a record of the dead. All along the bank of the stream people are sick and without physicians and medicines, outside of herbs and roots. The epidemic is rapidly

spreading in Harlan county. In the dis-

trict covering the southern portion of Letcher and Perry, the whole of Leslie and the southwest portion of Bell counties, the plague has obtained foothold, but reports as to its virulence are conflicting. Mr. Lester thinks the deaths run up into the hundreds while the number of those attacked cannot be estimated. The disease does not prevail at Mt. Pleasant Mr. Lester further prevail at Mt. Pleasant. Mr. Lester further says that no one seemed to know the exact nature of the pestilence. Most of the people call it "flux," and it is probably a very aggravated form of that disease. It begins with griping pains in the stomach, followed by debilitating diarrhea and swelling of the throat, and if not fatal in three or four days the patient as a rule recovers. All reports agree as to the cause of the epidemic, it being attributed to the use of impure water by the natives, the streams as a rule consisting only of small threads of murky foul-smelling and foul-tasting water.

The corn crop in all the counties named above is good and starvation and want only streams. exist because people can spare no time from the sick to gather it. No mills are running on the smaller streams. My informant had no news except in a general way of the prevalence of the plague in Virginia or West Virginia.

WASHINGTON.

Congressmen Returning to the City.

(By Telegraph to the Morning Star.) WASHINGTON, Nov. 26.-About fifteen Senators and twenty Rrepresentatives have returned to the city, and most of the others are expected here by Saturday night. It is the opinion of a number of those who have returned, that a majority of the members of Congress will visit the Exposition at New Orleans. They are in doubt, how-ever, as to whether both houses will take an carly adjournment for the purpose of making the visit. Of the Congressmen who have returned a number were at the Capitol to-day and were congregated in their respective committee rooms. Their attention was directed to private matters, and to conversations about the result of recent elections. In some of the committee rooms improvements have been made during the recess. A number of the Senate rooms have been ornamented with frescoed ceiling and new and handsome carpets have been added. The usual recess clearing of the Senate Chamber and Hall of Representatives is not yet completed. All work, however, will be finished by Saturday night.

The Kings County Penitentiary Broken into and Robbed by Burglars.

(By Telegraph to the Morning Star.) NEW YORK, November 26.—Burglars last night broke into Kings county penitentiary and robbed the safe of the shoe shop of \$3,000 which was brought there yesterday to pay off employes. The money be-longed to the Bay State Shoe and Leather Company. That the burglars effected the job without making noise enough to rouse the guards in the penitentiary is a surprise

The OBSERVER will be a large 23-column weekly newspaper, and will be mailed to subscribers, postage paid, at \$2 per annum, always in advance. It will give the news of the day in as ample form as its space will permit, and both reample form as its space will permit, and both regular and occasional correspondents will centrature letters from the Capital on State politics and affairs. and affairs.

Democratic in politics, the Observer will labor, first of all, to assure the prosperity of the Town of Fayetteville, to develop the vast agricultural resources of its own and the neighboring counties, and to promote all that concerns the welfare of the people of North Carolina.

Opposed to such innovations on the homely ways of our fathers as, in the guise of progress, harm society, the Observer will be found in full sympathy with the new things born of the changed condition of the South which sound judgment or enlightened experience find to be also good.
