Completion of the Washington Monument-A Structure that Far Overtops Any Other in the World-Ceremonies Attending the Setting of the Cap-

(By Telegraph to the Morning Star.) Washington, Dec. 6.—The long expected completion of the Washington monument obelisk was accomplished this afternoon by setting in place the marble capsione and its pyramidal apex of aluminations. nium. The ceremonies were few and simple; an elaborate celebration of the event being reserved for Washington's birthday. Shortly after 2 o'clock Col. Thomas L. Casey, Government engineer in charge, and his assistants, Capt. Davis, U. S. N., and Bernard R. Green, civil engineer, together with master mechanic McLaughlin and several workmen, standing on the narrow platform built around the sloping marble roof near the summit, proceeded to set the capstone (weighing 3,300 pounds) which was suspended from a quadruped of heavy joists supported by the platform and towering forty feet above them. As soon as the cap stone was set, the American flag was unfurled overhead and a salute of 21 guns was promptly fired by Major Hanne-man's militia battery in the White House grounds. Far below the sound of cheers also came up faintly from the crowd of spectators, gathered around the base of the monument, while numbers of invited guests on the 500 feet platform and in the interior of the monument at that level, spontaneously struck up the "Star Spangled Banner," and other patriotic songs. A steady down-pour of rain had given place a little while previously to a brisk gale of wind—at this elevation and blowing about fifty-five miles an hour—and very few of the invited guests cared to avail themselves of the privilege of climbing the nearly perpendicular ladder from the 500-foot platform to the dizzy height of 533 feet from which three or four ournalists and half a dozen other adventurous climbers witnessed the setting of the capstone and subse-quently as-cended to the pinnacle. Meanwhile, the Washington Monument Society represented by Dr. Joseph M. Toner, Hon Horatio King, Gen. Wm. McKee, Dr. Daniel B. Clark and T. L. Harvey, Secretary, held a meeting on the elevator plat-form, at the height of 500 feet, and when the artillery firing announced the setting of the capstone, adopted a resolution offered by Gen. Dunn, "congratulating the American people on the completion of this

enduring monument of our nation's gratitude to the Father of his country.' Among those present to day at the completion of the structure was one of the master mechanics who laid the cornerstone of the monument more than thirtysix years ago and the old watchman of the monument who has been continuously employed in that capacity during nearly the whole of the intervening period. The flag over the monument floated to-day (and will remain for several days until the timbers are all removed) from the flagstaff, the top of which is exactly 600 feet from the ground, thus displaying the American colors at the greatest height of construction ever yet known in the world. The monument itself, with its total height of 550 feet, far overtops every other structure of human

The aluminum apex of the monument is engraved with inscriptions as follows: On one face—"Chief Engineer and Architect Thomas Lincoln, Colonel Corps of Engineers. Assistants—Geo. W. Davis, 14th U.S. Infantry; Bernard R. Green, Civil Engineer; Master Mechanic P. H. McLaughlin."
On another face—"Corner-stone laid on the bed of the foundation July 4, 1848. First stone at the height of 152 feet laid August 7, 1880. Capstone set December 6, 1884.' On the third face—"Joint Commission at the setting of the capstone-Chester A. Arthur, W. W. Corcoran, Chairman: W. E Bell, Edward Clark, John Newton, Act of August 2, 1876." And on the fourth face the words "Laus Deo."

Internal Revenue Collections-Alabama & Chattanooga Railroad Claims. [By Telegraph to the Morning Star.]]

Washington, Dec. 6.—In the case of the Alabama & Chattanooga Railroad Company, claiming under grant of June 3rd, 1856, certain odd numbered sections of lands in Alabams, lying opposite and with-in six and fifteen mile limits of that company and Deal county, Georgia, the Secretary of the Interior has rejected the claims of the company, holding that it is inadmissable under the terms of the grant, and that the amount of the granted lands must be determined by the length of the road in the State of Alabama.

The collections of Internal Revenue for the first four months of the fiscal year ending June 30th, 1884, were \$38,375,677; the collections during the same period of the previous fiscal year were \$40,999,470: decrease \$2,623,794. There was an increase of \$390,873 in collections from fermented liquors and a decrease of \$2,581, 859 on spirits; \$274,912 on tobacco and \$157,396 on miscellaneous items. The aggregate receipts for October last were \$1,596,675 less than for the same month of

CONNECTICUT. Trouble Among the Hatters at South

Norwalk. (By Telegraph to the Morning Star.) New Haven, Dec. 6 .- A dispatch from South Norwalk, regarding last night's trou-bles, says: "For the last few days proprietors have made desperate attempts new hands, but the violence of the strikers

has prevented them. Becoming desperate, James H. Knapp and Wm. Palmer—the former of the firm of Crofut & Knapp, and the latter superintendent of the Hat Form ing Company—appeared on the streets with revolvers in their hands and threatened to shoot any of the strikers who attempted to disturb any of the imported laborers from going to work. This naturally aroused the ire of the strikers and so work.

going to work. This naturally aroused the ire of the strikers, and so very effectually that they in a measure rebelled, but offered no violence. It was through this that untruthful reports of riot were started. The strikers claim that a compromise could have been effected but for the reason that there had been an effort on the part of the bosses to destroy their organization."

BRIDGEPORT, Dec. 6.—The striking hatters at South Norvalk held a large mass meeting in Music Hall last night, for the purpose of laying the case before the people of the city. About 2,000 men and women were present. Speeches were made by half a dozen or more of the strikers, in which they denounced the proposed importation of laborers by employers to take the place of those on the strike. They also claim that the reduction of from 10 to 33 per cent, among the sizers, cut-

ters, trimmers and shavers, is unjust and outrageous, on the ground that employes are now getting the same price for hats as before; and still further, that bosses propose to continue the reduction until June, 1885. The manufacturers claim that prices heretofore paid in many cases have been too high. They desire to regulate differences since the published reduction, which they do not deem permanent. The strikers have been offered work if they will relinquish the Union, which ordered the strike, and attend to business as before. Large numbers seem willing to return to work, but the Union stands in their way. Sheriff Schwartz has sent the following dispatch: "The report in the morning papers in regard to a labor riot are greatly exaggerated. We had some excitement last night, but no riot. All is quiet at 12.15 p. m., and from the outlook is likely to remain so." A dispatch was sent to Gov. Waller this morning, saying that there was no need of military interference, nor had there been from the start. The citizens were law abiding and interested in maintaining quiet. The dispatch sent to the Governor last night was done in the heat of

Depressed State of the Shipping Trade in England-The Cause of Business Being Unsettled in India.

By Cable to the Morning Star. London, December 6.—Ship builders on the Tyne, Weir and Mersey, have decided to ask their workmen to submit to a reduction in wages to the amount of 71 per cent. of the rates now received. This action is accepted as an indication of great depression in the shipping trade. This is borne out by the state of affairs at Liver-pool. Docks which have been set apart by the harbor board for the use of vessels lying up, are already full and the board are unable to meet the demands made upon them to accommodate unemployed vessels without using other docks.

Miners Sent to Hocking Valley to Take the Places of Strikers.

By Telegraph to the Morning Star. PITTSBURG, Dec. 6 .- A. W. McCracken, superintendent of the Hocking Valley Coal Mining Company, is in this city for the purpose of securing men to fill the places of strikers. Two hundred miners have already gone from this vicinity, and as many more will be sent within a few days. Fifty leave to night. Superintendent Mc-Cracken says they have 1,800 men now at work, and expect to have two mines run-ning full before the end of next week. At the present rate, he says, the men average \$73 50 per month.

THE FLORENCE NIGHTINGALE OF THE NURSERY.—The following is an extract from a letter written to the German Reformed Messenger, at Chambersburgh, Penn.: A BENEFACTRESS. Just open the door for her, and Mrs. Winslow will prove the American Florence Nightingale of the Nursery. Of this we are so sure, that we will teach our "Susy" to say, "A blessing on Mrs. Winslow" for helping her to survive and escape the griping, colicking, and teething siege. Mrs. Winslow's Sootenne Syeur relieves the child from pain, and cures dysentery and diarrhea. It softens the gums, reduces inflammation, cures wind colic, and carries the infant safely through the teething period. It performs precisely what it professes to perform, every part of it—nothing less. We have never seen Mrs. Winslow—know her only through the preparation of her "Soothing Syrup for Children Teething." If we had the power we would make her, as she is, a physical saviour to the infant race. Sold by all druggists.

Fayetteville Observer. ON THURSDAY, FEBRUARY 8TH, 1883, THE undersigned will revive the publication of the FAYETTEVILLE OBSERVER.

The OBSERVER will be a large 28-column weekly newspaper, and will be mailed to subscribers, postage paid, at \$2 per annum, always in advance. It will give the news of the day in as ample form as its snear will rewrit and both reample form as its space will permit, and both regular and occasional correspondents will contribute letters from the Capital on State politics

and affairs. Democratic in politics, the OBSERVER will la-Democratic in politics, the Observer will labor, first of all, to assure the prosperity of the Town of Fayetteville, to develop the vast agricultural resources of its own and the neighboring counties, and to promote all that concerns the welfare of the people of North Carolina.

Opposed to such innovations on the homely ways of our fathers as, in the guise of progress, harm society, the Observer will be found in full sympathy with the new things born of the changed condition of the South which sound judgment or enlightened experience find to be also good.

As to the rest: it will strive to deserve the reputation of the name it inherits. feb 9 tf E. J. HALE, JR THE LANDMARK. PUBLISHED AT

STATESVILLE, IREDELL Co Leading Newspaper in Western North

Carolina.

It is the only Democratic Paper published in Iredell County—one of the largest and wealthiest counties in the State—and has attained a larger local circulation than any paper ever heretefore published in the county. Its circulation in Alexander, Wilkes, Ashe, Alleghany, Yadin, Davie and Iredell, is larger than that of any two papers in the State combined; and is rapidly acquiring a strong foothold in Forsythe Surry, Rowan and western Mecklenburg.

It is the only paper in Western North Carolins that employs a Regular Canvassing Agent, and thus keep constantly before the people. Unacr this system a rapidly increasing circulation is the result, making the Landmark. THE BEST ADVERTISING MEDIUM
