MORNING EDITION

OUTLINES.

The Legislature of North Carolina met and organized yesterday, with Thos. M. Holt Speaker of the House and E. T. Boykin President pro. tem. of the Senate. -During the year just closed 18,600 new manufacturing and mining enterprises were organized in the Southern States, with an aggregate capital of \$105,269,500. - A. E. Edwards, wholesale confectioner, and R. P. Vaight & Co., wholesale grocers, Norfolk, Va., were burned out: loss \$40,000. - Negroes are going from Lynchburg, Va., to take the places of striking miners in the Hocking Valley. - Steamer Belle, of Shreveport, sunk in the Mississippi; one passenger was drowned. -W. S. Fleming. general store, Greenville, N. C., has failed. -A church, convent and fifty houses destroyed by an earthquake in Spain, Monthey last; in Malaga the panic is extreme; many people are ill from pure terror. The Nicaraguan treaty has been reported back by the Senate committee with recommendation that it be ratified. - Gen. Perry inaugurated Governor of Florida: R. W Davis was elected Speaker of the House.

- Col. McClure, of the Philadelphia Times, is in Raleigh, N. C., and will be tendered a public reception. . -New York markets: Money 1@11 per ren' .: cotton firm at 111@114c; southern flour steady at \$8 40@5 40; wheat, ungraded red 83@984c; corn, ungraded 45@ 58c; rosin steady at \$1 221@1 271; spirits turpentine steady at 31c.

The public schools of New York City cost \$4,000,000.

It is to be hoped that the new Administration will have an able and livel organ in Washington.

Gen. Hancock will be Chief Marshal at the Cleveland Inauguration. He took a prominent part when Garfield went in.

Gough claims that since he began his lecturing tours he has delivered 8,500 lectures, and he does not suffer

from sore throat either.

The London Times, Tory, - and News, Radical, demand a change of Ministry. The Telegraph rebuked these papers for their course.

The losses by fire in the United States in 1884 aggregated \$112,000, 000. Excepting 1871 and 1872 it was the most destructive year.

The bicycle is growing rapidly in public favor in this country, and in a year or so the number in use will

probably rival that of England. Sau Francisco is a nice place. 1884 there were only 392 divorces in that city. That would be good mis-

sionary ground for old Cannon and his troupe. Ho 1101 by the Cla Jim Blaine spends his days not upon that romance, called history by way of courtesy, but in fostering op-

Col. Thomas M. Holt, of Alamance, has been elected Speaker of the House. He has had legislative experience, is a popular gentleman and will preside, no doubt, with fairness and dignity. Our friends Cameron and Furman, of the Asheville Citizen, are re-clected to their old clerkships. They are efficient officers. Mr. Boykis, of Sampson, was made temporary Chairman of the Senatel He is one of the leading men in the House. The compliment is merited. We hope the Legislature will begin work at once and in earnest. Usually the first two weeks are wasted and the work of the session is crowded into the last two or three weeks.

E. R. Duffy, formerly in the cavalry service, now living in Washington, writes on the 2nd inst. to the New York World as follows concerning Wilkes Booth:

"It is only supposed he was shot. Cor-poral Corbett was promoted for shooting Booth, but he nor nobody else knows whether it was Booth or not. If Booth's remains were buried in the sea why did his relatives make application (and were said o get them) for his remains to bury them intheir family plot. The only evidence to prove where Booth's remains are or whether he is living or dead is to be had from his relatives. But they are still upon the subect, and must remain so. I am doubtful if Booth was ever shot."

Frank Hiscock's attempt to reduce fifty millions of tax on the vices, that the tax on household necessaries may be kept up, failed in the House, as it ought to have done. The Philadelphia Record says:

"The incident is eminently satisfactory to people who desire an honest, effectual and thorough reform of the revenue system.

The Baltimore American, Rep. Protection, says of the Beck proposi

"One decided advantage that the Com-mission will have, should it go into effect, will be that it will stop all tinkering at the tariff during the present session, and post-pone all legislation on the subject until 1886. By that time the danger of unwise legislation will be considerably reduced."

- The Norfolk Ledger of Monday last contained the following: Saturday last a gentleman from Edenton, N. He was a good man and true christian. — At 121 o'clock this morning the new art gallery of St. Mary's School was discovered to be on fire. The buildwas discovered to be on fire. The building was of wood, two stories high, and rested on a brick foundation. The Rescue and double tank chemical engines responded to the alarm, and did some effective work. Water was obtained from the large resorvoir near the building. The building, together with its contents was entirely destroyed. The loss is about \$12,500, with no insurance.

- Elizabeth City Falcon: A terrific blood and thunder current report of the killing of two negro highway robbers by Senator-elect James Parker, served to amuse a good many people. It was a first-class fable, decidedly creditable to some one's inventive facilities, if derogatory to is reputation for veracity. —— It is said that Judge Pool comtemplates taking charge of the Carolinian newspaper. The broad fact dawns on us that this is pre-eminently a coon county. As a clincher we merely mention that Charlie Glover. the live Fearing street dealer in hides, &c., made a shipment on the 15th of December of 1,100 coon skins, and now has on hand 600 or 700 accumulated sines that time.

— On Christmas night Dennis Parr, the the messenger at Guirkin & Co,'s bank and telegraph office was shot in the leg by the carelessness of some unknown person. The wound was not of a serious character, its worst effect being to confine him to his bed for several days. — One of the saddest deaths it has been our painful duty to chronicle was that of Mr. William W. Pailin, who died at the residence of his parents in this town on Christmas morning. He was in his twenty-fifth year. He was found dead in bed.

- Raleigh Chronicle: Mrs. W. T. Blackwell, of Durham, had the misfortune last night of being severely injured while asleep by the plastering falling on her. She narrowly escaped death. So great was the weight of the plastering that the bedstead was badly broken. — The awful example of Mr. Price and Mr. Moring will rise to warn the successful candidate for Speak er against the shortest road nowhere that can be found in North Carolina. - Mr. H. G. Connor, one of the Democratic Senstors from Wilson, Nash and Franklin, has been pronounced by a prominent lawyer who has frequently met him at the bar as one of the most brilliant young attorneys n the State. Mr. Connor is yet young, and his work this session will be his first experience as a politician. — Senator E. T Boykin, of Sampson, a veteran while ye in his youth, was educated at Trinity Col-lege, where he gave promise by his industry tained. He is the foremost young member of the Clinton bar-a man whose influence has steadily grown, and whose grasp on his profession and his community constantly becomes stronger. He narrowly missed (for so young a man) the Democratic nom-nation for Congress from his district two years ago.

Charlotte Observer: The house tops, trees, pavements and streets were covered Sunday morning with a solid coating of ice, one quarter of an inch thick. The house had been broken into by thieves during the night and robbed of it contents, which amounted to 300 pounds of choice, well cured hams and sides. Mr. Nick Smith returned to his home from the city last Saturday afternoon to find his dog convorting around the premises in a manner that left no doubt that the dog was mad. The rabid animal had bitten a calf and a bog, and further developments are anxiously awaited. Bob Graham was bitten by Smith's dog, but as the dog fast-ened its fangs into Bob's peg leg, no seri-

The Late Capt, Robert Tait. Alluding to the death of this gentleman

the Lumberton Robesonian says: "Capt. Tait was born in the city of Hadington, Scotland, on the 25th of March, 1882. He was educated for the law, but preferring a more active life, he turned his attention to the United States, arriving in New York 4th of June, 1850. He went to Canada and spent two years; from there he came to Wilmington, N. C., and there remained until the year 1855, when he came to Bhadenboro, N. C., and embarked in the turpentine and mercantile business. year's experience in that business satisfied him that it would pay, so he permanently located. During the years that he was looking up a permanent business there was on the other side of the deep blue sea, in the city of Hadington, a beautiful young maiden by the name of Elizabeth Barton Vert, faithfully and patiently awaiting the promised welcome message, come on the promised welcome message, come ch!

Molasses Thefts-Charge not Sustained -Another Arrest. William Walker, colored, whose arrest on the charge of the larceny of a parrel of molasses was mentioned in Tuesday's paper, had a hearing before Justice Millis yesterday morning. It seems that the Messrs. Kidder had lost two barrels of molasses, and Officer John Statcher was on the look out for them. He ascertained that Walker had sold a barrel of molasses to a groceryman, but had not received his pay, although the molasses had been delivered. The groceryman was posted, and when Walker appeared for the money he was arrested. The evidence went to show, however, that Walker was only acting at the request of another party; had never seen the molasses, and had no hand in its delivery. Walker proved an excellent character, and as there was no evidence to convict him of the larceny of the molasses, and it had never been

in his possession, he was discharged. John Rivers, colored, who is now charged with being the guilty party in the transaction, had his case continued until this

morning. To no work a state of The investigation thus far has developed the fact that Mesers. G.W. Williams & Co. also lost two barrels of molasses, and the barrel recovered proves to belong to that firm instead of to the Messrs. Kidder. It was identified by the color of the barrel head, which is painted red, while the Messrs. Kidder's are blue.

An Outrage.

On Sunday night last, as we learn from persons resident in the vicinity, the house of a widow in the southern section of the city was made the scene of a dastardly outrage. It appears that a man entered one of the windows, procuring a cheese box to stand upon in order to reach it, and ransacked the house, securing what money he could find, but without awaking the woman, who was the only occupant. The first she knew of the presence of the intruder he was at her bedside and the light was out. A struggle ensued, during which she was severely choked and badly bitten on the shoulder. She was a stout, strong woman, and proved so hard to handle that the fellow finally beat a retreat, receiving as a parting salute a blow in the breast with both feet which nearly knocked the breath out of him. It was so dark in the room that it was impossible to say whether the man was white or colored.

News was received at police headquarters, yesterday afternoon, to the effect that Mr. B. Smith, who keeps a grocery on the corner of Ninth and Bladen streets, north of the W. & W. Railroad, had been found dead in his store. It seems that the store was not opened yesterday, as usual, and the curiosity of the neighbors finally became aroused, when an investigation took place with the above result. The Coroner was notified, who sent an officer to look after the remains until he could make arrangements for an inquest.

Deceased was well known in the community, having married some years ago the daughter of the late W. M. Harriss, Esq. He was a native of Germany.

The coroner's inquest will be held this Pertinent.

The vital question now before the coun try is bread. This pertinent query in the New York Herald finds wide-spread application: "As you have taken an interest in the working classes, will you please ask why it is that with the low prices of whea and flour the bakers make no larger size bread and yet do not reduce their prices?

WHO IS MRS. WINSLOW: —As this question is frequently saked, we will simply say that she is a lady who for upwards of thirty years has untiringly devoted her time and talents as a female Physician and nurse; principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge, obtained in a lifetime spent as a nurse and physician, she has compounded a Soothing Syrap for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do hiss up and bless her; especially is this the case in this city. Vast quantities of the Soothing Syrup are DAILY sold and used here. We think Mrs, Winslow has immortalized her name by this invaluable article and we sincerely believe thousands of children have been saved from an early grave by its timely use, and that millions yet unborn will share its benefits, and unite in calling her blessed. No Morriss has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup Try it, mothers—Tar rr now.—Ladies Vision, New York City.
