TOTHE NEW YEAR.

New Year, what hast thou that is new-What themes and schemes to mark thy What great event, what social bent. What pleasure new and what new pain?

What crazes new, what new resorts: What whims to prove esthetes au fait; What book, what song to please the throng; What crowning scandal of the day?

What new device for killing time, And what for one another's killing; What new surprise in cant, in crime; What last new trick to turn a shilling?

And what new march on virtue's side-Against the meanness, mockery sinning; What rise in that slow, silent tide Where hope and faith are surely winning?

What knowledge new to bless the race, To solace suffering, stem decay;

What beauty new, what grace evolved From virtue's everlasting laws; What purer thrills, what nobler wills;

What firmer bands with fairer cause?

What farther step, what clearer view To prove old things shall pass away. That all things are becoming new?

OUR STATE CONTEMPORARIE S.

We believe that the best remedy would be the separation of the criminal from the civil jurisdiction of the Superior Courts, and the creation of a Criminal Court whose Judges, to such number as may be deemed slaves, and the reduced cost of appeals, throws a vastly greater amount of business upon the Supreme Court than formerly. This should be provided for and met by increasing the number of Judges to five, and by restoring the attorneys' tax fees. The salaries of the Supreme Court Judges should be increased to \$8,500 per annum; and of the Superior Court Judges to \$8,000.

How would it do to have one Judge appointed to hold special courts in any part of the State upon application by the county of the State upon application by the county authorities every county as now paying the cost of said court? And how would it do to have one or two Judges to try in all parts of the State capital felonies, the trial to take piace within say thirty or sixty days after the arrest of the party? This would satisfy the people in their demand for the speedy trial of hardened criminals.—Warrenton Gazette.

The negro is generally a renter, and he has the fences to make. The adoption of the no-fence law would relieve him from much toil, and give him time to collect and use fertilizing material for improving his crops. Buffalo Lithia Water FOR MATARIAL POISONING.

USE OF IT IN A CASE OF YELLOW FEVER.

DR. WM. T. HOWARD, OF BALTIMORE. rofessor of Diseases of Women and Children in the University of Maryland. Dr. Howard attests the common adaptation of this water in "a wide range of cases" with that of the far-famed White Sulphur Springs, in Green-brier county, West Virginia, and adds the follow-

"Indeed, in a certain class of cases it is much superior to the latter. I allude to the abiding debility attendant upon the tardy convalescence from grave acute diseases; and more especially to the Cachecia and Seguels neident to Malarious Favers, in all their grades and varieties, to certain forms of Alonic Duspepsia, and all the Affections Peculiar to Women that are remediable at all by mineral waters. In short, were I called upon to state from what mineral vaters I have seen the great est and most unmistakable amount of good accrusin the largest number of cases in a general way I would unhesitatingly say the Buffalo Springs, in Mecklenburg county, Va."

DR. O. F. MANSON, OF RICHMOND, VA., Late Professor of General Pathology and Physio-logy in the Medical College of Virginia: 'I have observed marked sanative effects from the Buffalo Water in Malarial Cachezia, Antonic Dyspepsia, some of the Peculiar Affections of Woman, Anamia, Hypochondriasis, Cardias Palpitations, &c. It has been especially efficacious in Chronic Intermittent Fever, numerous cases of this character, which had obstinately withstood the usual remedies, having been restored to perfect health in a brief space of time by a sejourn at the Springs."

DR. JOHN W. WILLIAMSON, JACKSON, TENN. Extracts from Communication on the Therapeutic Action of the Buffalo Lithia Water in the "Firginia Medical Monthly" for February, 1877.

"Their great value in Malarial Diseases and Sequelas has been most abundantly and satisfactorily tested; and I have no question that it would have been a valuable auxiliary in the treatment of the epidemic of Yellow Fover which so terribly afflicted the Mississippi Valley during the past summer. I prescribed it myself, and it gave prompt relief in a case of Suppression of Urine, in Yellow Fover, and decidally intigated other distressing and dangerous symptoms. The patient recovered, but how far the water may have contributed to that result (having prescribed it in but a single case) I, of course, cannot undertake to say. There is no doubt, however, about the fact that its administration was attended by the most beneficial results."

It will be remembered that the Swift Specific Co. has donated quite an amount

Swift Specific Co. has donated quite an amount of their famous medicine, to be distributed by Mr. Campbell among the poor of the city; hence his remark. He sadi:

"I have just seen a lady who has been greatly annoyed by a tetter in one of her hands. It had given her much trouble and pain. She said she had been treated by several physicians during the past three or four years with the old remedies, but without giving any relief. I suggested Swift's Specific and she took four bottles and is now apparently perfectly well. Her hand is smooth and not a single sign of the disease is left. It is marvelous how this medicine renovates the system."

left. It is marvelous how this medicine renovates the system."

"What about the other case?"

"Well, that was a lady also. She had been badly affected with eczema for four years. Her face, hands and arms, as well as her body, were covered with sores and scabs. It was one of the worst cases of this terrible disease that I have ever seen. The suffering of this poor creature was beyond expression. She tried every remedy at hand, including mercury and iodide of potash, but she only grew worse. She was in this condition when I first saw the case. I soon had her taking swift's Specific, and she has now only taken two bottles, but every mark of the disease has almost entirely disappeared. Her general health has greatly improved. It is one of the most remarkable cures that has come under my notice, and in a ministry of sixty years I have mingled with every class of society and observed closely the variety of diseases which affect humanity. Blood diseases are the most numerous and the most difficult to remove. To overcome these diseases, it is my deliberate judgment that Swift's Spec fic is the grandest blood purifier ever discovered. Its effects are wonderful, and I consider them almost miraculous. There is no medicine comparable to it.

The Wilmington STAR has entered on its twelfth year. It is a most excellent newspaper, well edited, a compendium of all the news of the day, and an honor to its city, to North Carolina and to North Carolina journalism.—Charlotts Observer.

The Wilmington Star is now taking the regular midnight Associated Press reports, and has besides increased the amount of its reading matter. The Star is an excellent paper. Its prosperity is not surprising since it is so deserving.—Charlot's Observer. The Times cannot say a word too good for the Wilmington Stan. It has just reached one of its

The Wilmington STAR, we are pleased to notice, still continues on the high road to success. We esteem the STAR very highly, regarding it as one of the very best of our exchanges, and consider it the peer of any journal published in the South.—Oxford Free Lance.

Why is it that all the papers with the name of Star are such bright little journals? The Wilmington (N. C.) Star, the Washington Star, the Fredericksburg Star, New York Star, for example. There must be something in a name after all.—Richmond (Va.) Stats.

The Wilmington STAR has entered uponits 12th volume, and we are pleased to notice still continues on the road to success. We esteem the STAR very highly, regarding it as one of the very best newspapers that comes to this office. Its news columns are always a little fuller than those of any other of our exchanges, and its editorial deartment is conducted with much ability.—Mergenter Blade.

Humble in its beginnings, as was inseparable from an enterprise begun amid the wreck of fortune that attended the collapse of the Southern Confederacy, the STAR has steadily "waxed" until it now beams resplendent in the full glow of a constantly brightening prosperity. As a newereper it has few equals, and no superior, for arraspriate selection and judicious arrangement, and we are proud to rank it among our most accepts ble exchanges.—Hillsboro Recorder.

The Wilmington Mornine Star has entered upon the thirteenth year of its existence, and we take this opportunity to congratuiate it upon its prosperity and deserved popularity. The remarkable success of the Star is due to its strict attention to business. The boast of the Star (rightfully too) is that it always has the news, and this is the first thing in journalism. Otherwise the paper is all that the term of "good newspaper" implies, and its corps of editors and reporters are thoroughly educated newspaper men. May the healthy, moral influence of the Star never be retarded, and may its genial enterprising proprietor enjoy many more happy years of usefulness.
