Mr. Sam Randall is to visit Charleston in March or April.

Mr. Sam Randall openly declares that there is no constitutional warrant for Protection for the sake of Protection.

Why is it that the health statistics for 1884 are not published? The statistics of other and larger cities have been published weeks ago.

Richelieu Robinson is said to declare that the Edmunds anti-devildynamite bill is mere flunkeyism s that dynamite is a divine institution.

In Washington an extra session of Congress is thought to be probable. It is not believed that the needed legislation will be got through with by the end of the session on March

Editor McClure is having a "bully time" in the South. His supply of taffy is said to be inexhaustible. He lays on the praise with a trowel and the South is delighted at the coating. The South is very easily tickled some

It is to be hoped that the Legislature will not disregard the claims of the State Board of Health. That Board has struggled manfully and has done a good work for the State. It deserves the support of all enlightened legislators.

The STAR is of the opinion that good morals require that the marriage license should be much reduced to not more than 75 cents, which was the price thirty years ago. Marrying is enough of a luxury without oppressive legislation on the subject.

In copying Mr. Paul H. Hayne's poem a few days ago the printer made him say a very rediculous thing of a venerable and highly revered gentleman he was eulogizing. In the sonnet to Mr. Corcoran the poet is made to begin:

"O, grany old man."

That was a very shameful liberty to take, especially when "grand old man" was so appropriate.

Dr. Todd's attack on Tale College excites comment. Among other things he said this:

"I do not believe there is a Professor in Yale College to-day who can translate at sight and without recourse to thumbed lexicons a page of Greek or Latin with which this be true, as it certainly was in my college days, what can you expect from the students themselves."

Prof. Whitney is master of sixteen languages. Surely he can read any Greek or Latin.

Cannot the Legislature do something to prevent the burning and killing of children while parents are absent, they having locked up their offspring and gone off to church or some neighbors or some where else. Dozens of negro children are burnt to death in North Carolina every year through the carelessness or inhumanity of parents. Let some law to punish be passed, and let us see if the cruel practice cannot be stopped.

THE MORNING STAR.

VOL. XXXV.--NO. 108.

WILMINGTON, N. C., WEDNESDAY, JANUARY 28, 1885.

Col. McClure writes from New Orleans that the Louisiana sugar interest must be either protected or annihilated. Here is what this Protectionist writes:

"We are now paying some fifty millions annually in Tariff duties, to protect little more than one-tenth that amount of product; and as sugar enters into the daily consumption of all classes, rich and poor, the continuance of a protective policy is naturally antagonized even outside of free trade theorists, by considerations of interest. After all our theories about protection and free trade, we all want to get the most we can for our products and want to buy the products of others as cheap as possible. The question of interest is, therefore, the underlying principle that impels different sections with different industries, to help or hinder conflicting theories of statesmanship. The Pennsylvanian wants protec-tion for from and for coal and for the proucts of factories; the cotton planter of the South who buys everything he consumes and sells his whole harvest without importing competition, wants free trade; and the sugar and rice planters who skirt the cotton fields toward the coast, want protection, and they must have it or abandon the utterly unequal contest with foreign producers. Large as the protection now is for sugar, it is inadequate to the maintenance of the sugar industry.

O'Donovan Rossa" is in communication with the dynamite devils in London. He received the following cablegram:

"LONDON, January 24.—House of Commons shattered. Terrible consternation in London. Some say it is as well to stop work for a while to see if the enemy will give Ireland a native Parliament.

"NUMBER ONE." "I am glad to hear the news," he said; 'but the fact is," he went on to say, "the Houses of Parliament ought to have been blown up years ago. I have been preaching and collecting money to fight England with for the past five years. Do I know anything about the explosion to-day? If I did I wouldn't tell you anything about it. No, sir; I am not telling reporters what I know about this business to-day. All I have got to say is that the sooner England is crippled the better."

This lark lives in New York.

There is said to be a great desire in certain quarters that ex-Senator McDonald shall go into the Cabinet. That is very easily done. Let the Legislature instruct Mr. Cleveland and it will be done. That may not be the most modest way, but it is deemed by some to be the most certain way. By all means instruct. Mr. Cleveland has no right or business to form his own Cabinet. Legislators can do it so much better. If Mr. Cleveland yields, it is no sign he has been buildozed. Oh, no! He has only been led into the right way. That is all. Can't you see?

We are indebted to Senator Chadbourn for favors which we appreciate. We learn from a gentleman of this city, a staunch Democrat, who has been to Raleigh, that Senator Chadbourn is regarded as a most valuable member of the Finance Committee. The chairman of that committee speaks highly of his qual-

- Raleigh Visitor: The Rev. Johnson Olive, a well known Baptist minister in this State, died at his residence in Apex on Saturday last.

- The Chronicle says that it has cost the people \$2,000 to discuss the mar-riage fee in the Legislature. It will take some 700 marriages to make up that loss.

- Newton Enterprise: Farmers complain of a bad stand of wheat. The dry fall and defective seed are the cause of it. It looks anything but well just now.

- Danbury Reporter: We learn that petitions are being circulated in different parts of the State asking the Legislature to pass a general stock law for the whole

- Durham Reporter; A colored man was found dead in his bed in the western suburbs of the city Thursday night. He had been sick for some time, but his friends did not think he was so near dead.

- Beaufort Telephone: The oyster trade is seriously affected by the general depression of business, and the shipments have been smaller this season than for many years. — Died, in Morehead City, on the 1st day of January, 1885, Mrs. Lydia A. Bell, wife of William Bell.

- Raleigh Chronicle: "No, sir," said a member of the House in a quiet Sabbath talk about dogs, "if a dog law were proposed, when the time for voting came I should be absent. I may cut my own political throat, but I prefer to commit suicide for some more important reason

- Stonewall Enterprise: On last Saturday about noon, during the heavy wind prevailing at that time, Allen Green, aged 12 years, residing with his aunt, Mrs. 8. A. Miller, in the Mill Pond section of this county, was killed by the falling of a dead tree. The little fellow lived only a short time after the accident.

- Warrenton Gazette: Mrs. Bettie Hopkins, daughter of the late Wm. Eston, Sr., died in this place on Tuesday night last, at the residence of Capt. Turnbull, in the 66th year of her age. — Major Thomas, father of Dr. C. A. Thomas, of our town, died suddenly on Monday last, of paralysis, at Covington, Ala., where he had been on a visit to his son.

-Salisbury Watchman: The North State Mining Company, of Baltimore, have made an assessment of five cents per share for the purpose of obtaining working capital with which to operate their mine in Guilford county. — William F. Wat-son, Esq., of Locke township, died very suddenly at his place of business, a few miles of this place, Thursday night last, of abscess of the throat.

- New Berne Journal: The cor.

Hearne, whose letter we republished a few days ago on the lighthouses, etc., left out a very important item, one of considerable interest to all vessel owners in this section, namely: "Pilotage." The Legislature has regulated the matter so long that many people have come to believe Congress has no jurisdiction in the case.

- Warrenton Home: Yesterday morning, about 11 o'clock, the roof of the Episcopal church was discovered to be on fire, having caught by a spark from the stove pipe. The pulpit, carpets and a number of benches were removed, and somewhat damaged. The excellent organ was almost entirely ruled, and the beautiful "Plummer" memorial window was slightly broken by the removal. The damage to the roof and the furniture will amount to upwards of three or four hundred dollars. - Charlotte Observer: Through

citizens of Cabarrus who were in Charlotte yesterday, we learned of a destructive fire that occurred near Concord, at 7 o'clock yesterday morning, when the milling property of Mr. Jacob Dove was burned to the ground. The property consisted of a cot-ton gin, grist and saw mill, engine house and several store houses, machinery and lumber. The total loss is estimated at \$6,000, upon which there was no insurance. - Raleigh Chronicle: Mr. Wil-

liam G. Upchurch, of Raleigh, has obtained the consent of the late Judge George E. Badger's children and the Trustees of the University to place in the new Memorial Hall of the University a marble tablet to his memory. — The Legislature begins the fourth week of its sesion to day. It costs the State \$1,000 a day. Yet it has done nothing of great importance; and the work of great importance that it will do could be done in ten days if it could go hastily about it and keep continually at it.

- Wilson Advance: J. F. Ferrell killed 6 hogs the other day which weighed 1,830 pounds. - D. W. Thorp made \$684 on his crop of tobacco, made on five acres of land. - When a man is tossed on the stormy ocean of financial misfortune he finds it difficult to buffet and escape the bill ows. - Col. Wm. Pope, of Nash county, was in town this week, and attracted, as he always does when here, a great deal of attention. He is now 35 years old, and weighs only 82 pounds. He enjoys good health, and seems to be on good terms with all the world.

- Greenville Reflector: Mr. E. Andrews, one of the most prominent and enterprising business men of Bethel, died on Sunday. -- We have been requested by the Bethel mail driver to state that the public road from this place to Bethel is in very bad condition, at somn places being almost impassable. - Mr. B. C. Pearce tells us that while stopping near Bell's Ferry on last Wednesday night he saw a house burn down in which three children were burned to death. It was the house of Wiley Cannon, a colored man living on the land of Mr. G. B. McCotter. He was away from home at the time.

Lectures on Astronomy. Prof. James H. Carlisle, President of Wofford College, in a letter to the Carolina Spartan, of Spartanburg, S. C., thus speaks of Prof. Proctor, the eminent lecturer, by whom the people of Wilmington are to be entertained on Thursday and Fri-

"Prof. Proctor has a high rank among iving English astronomers. He has writ ten a great deal and always writes well and clearly. He has made several lecturing tours in various parts of our country. It is not often that men of his position in the scientific world bring to our doors the fruits of their long years of study. Prof. Proctor is now in the prime of his working life, being about forty seven. He was born in Chelsea, England, and is a graduate of Oxford. The story of his life, if fully told, might encourage the young men of our day. While in college he had no special fondness for astronomy or mathematics. A few years after graduation, in a time of affliction, he wished something to give him employment and determined to take up the study of astronomy. When he first offered articles on this science to the periodicals they were rejected. But he persevered. To day any magazine in England or America is glad to rank him among its con-tributors. We have as good stars here in Spartanburg as are to be seen in any part of the world. Indeed, we can show the English professor a beautiful star of the first magnitude (Canopus) that never can be seen from an English observatory.

Sudden Death.

A colored woman by the name of Lucy Campbell, residing in the same house with Celia Osborn, living on Fourth, between Church and Castle streets, died very suddenly yesterday morning, having been found seated in a chair in front of the fireplace, with her head leaning forward and quite dead. She had previously been supposed to be in her usual health. Deceased was a native of Brunwick county and was aged about 50 years. Coroner Jacobs was notified, who declined to hold an inquest, but had the remains interred.

Personal. We had the pleasure of meeting yesterday Maj. Carlton, of the Carlton House, respondent of the Messenger, Major W. A Warsaw, which has recently been refitted.

Assaulting and Threatening to Shoot a Woman.

Or or about the 10th inst., it is alleged, one Jerre Pascall, colored, met the daughter of one Samuel Manning, colored, on the public road in the neighborhood of Jumping Run, near this city, when he commenced a violent assault upon her, knocking her down and beating her severely, and then drawing a pistol and threatening to shoot her and a boy that accompanied her. It was Sunday evening, and the same night the girl went before Justice Millis and made affidavit to the above effect, when a warrant was issued and placed in the hands of an officer, who failed to find the man, who was said to have left the city. The accused continued at large until Mon day last, when information was received to the effect that Pascall was concealed in a certain kitchen in this city. Thither Officers Strode, Holmes and Nichols repaired, but were met at the start by the information that he was not there. The officers proceeded to investigate, however, and finally discovered the man they were look ing for under a bed, with a flerce-looking dog tied in such a way as to serve as a sort of intimidator. Pascall was induced to come forth for fear that a dangerous-looking weapon pointed in his direction might accidentally "go off," and was finally lodged in jail, where he is to await a hearing before Justice Millis this morning.

Jurors for the Superior Court of New Hanover.

The following bill to provide jurors for Superior Courts of New Hanover county, passed both houses of the General Assembly and was ratified January 26th:

A bill to be entitled an act to provide for the Superior Courts of New Hanover County.

The General Assembly of North Caro-

lina do enact Sec. 1. That in addition to the regular venire provided for in Section 1,727 of the Code, there shall be a special venire for the Superior Court of New Hanover county. the number of which shall be designated by the Presiding Judge, and which shall be drawn from day to day of each term of said court under the supervision of some member of the Board of County Commissioners and the clerk of said court, by a boy of not more than ten years of age from box containing the names of the qualifled jurors of said county to be furnished by said Board; and the special venire shall be drawn and the list given to the Sheriff to be summoned, not later than the day before that one which such jurors are required to serve. And in case both the regular venire and the special venire for any day shall be exhausted the Judge may order a sufficient number of talesmen to be summoned by the Sheriff. All jurors drawn under the provisions of this act shall receive the same pay as tales jurors. Sec. 2. This act shall be in force from

and defying the policeman who warned her to behave herself. She was fined \$5. Samuel King, the colored man who made an attempt to shoot Charles Owen (not John Owen, as previously reported), on Monday afternoon last, an account of which appeared in yesterday's STAR, had a preliminary hearing before the Mayor and and was required to find security in the sum of \$50 for his appearance at the next

term of the Criminal Court.

Death of a Well Known Citizen. Mr. George O. VanAmringe, one of our well known citizens, died Monday night, about 11 o'clock, after a lingering illness, during which he was a great sufferer. Deceased had been for years a prominent broker on the wharf, and possessed business talent of a high order. He leaves a large circle of relatives and friends to mourn his death. The funeral services will take place from the residence of Mr. George Chadbourn this afternoon, at 8 o'clock.

The funeral of the late Wm. Hankins took place from the Front Street Methodist Church yesterday morning, Rev. Dr. Yates officiating, and the remains were taken to Oakdale Cemetery for interment. The pall bearers were as follows: Dr. J. D. Bellamy, Alfred Alderman, Dr. W. W. Harriss, J. W. Thompson and John Yopp.

MR. EDITOR:-What was the point of your correspondent's extraordinary article on "Astronomy" in vesterday morning's He savs: "When Prof. Proctor comes he

will doubtless tell us how the Philadelphia Record came to make the mistake in saying that the diameter of the sun is one hundred times greater than that of the earth." Since the diameter of the sun is a little more than 800,000 miles and that of the earth a little ess than 8,000 miles, is not the diameter of the sun one hundred times greater than that of the earth? Again: what does he mean by intimating

that the nebular hypothesis requires that the planets should have been thrown off by the sun?" Ne real astronomer ever suggested this. Then, let me add, the mass of the planets, asteroids, &c., is about 750 times less than that of the sun, not 600, as your correspondent suggests. SCHOOL-BOY.

MOTHERS! MOTHERS!—Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the poor little sufferer immediately—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it who will not tall you at once who has ever used it who will not tell you at once that it will regulate the bowels and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and is the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere. 25 cents a bottle.

MRS. WINSLOW'S SOOTHING SYRUP.-RE MRS. WINSLOW'S SOOTHING SYRUP.—RE V SYLVANUS COEB thus writes in the Boston Christian Freeman:— We would by no means recommend any kind of medicine which we did not know to be good—particularly to infants. But of Mrs Winslow's Soothing Syrup we can speak from knowledge; in our own family it has proved a blessing indeed, by giving an infant troubled with colic pains, quiet sleep and the parents unbroken rest at night. Most parents can appreciate these blessings. Here is an article which ciate these blessings. Here is an article which works to perfection, and which is harmless; for the sleep which it affords the infant is perfectly the sleep which it affords the infant is perfectly natural, and the little cherub awakes as "bright as a button." And during the process of teething its value is incalculable. We have frequently heard mothers say that they would not be without it from the birth of the child till it had finished with the teething slege, on any consideration whatever.
