A great Methodist revival is progressing in Berks county, Pa., and hundreds have professed a change of heart. At Morgantown, a small villige, eighty have made a profession of faith and only one lonesome infidel is left out in the cold.

Grant's account of the battle of Shiloh is very inferior to the account of Col. W. Preston Johnston in the same number of The Century. It is far less lucid and graphic. You can understand the fight as described by Col. Johnston, but Grant's account is without method and is unsatisfying. By the way, who writes Grant's articles for him now?

A bill has passed its second reading in the Senate and after much discussion, that is of great importance to debtors, creditors and newspaper men. If it passes the third reading and goes to the House, we will publish the bill. It is a bill to regulate the sales of land under mortgage and deeds of trust. It contemplates advertising sales of real property for four weeks in the county newspaper, besides advertising in five places for thirty days. Property is often sacrificed because it is not sufficiently advertised. Penny wise sometimes ends in being pound foolish. The bill ought to become a

Illinois Democratic State Senator who is paralyzed, will not secure the election of a Republican Senator. A Springfield special to the Philadelphia Times, dated the

27th inst., says: "Inasmuch as the law requires that the two houses shall vote for Senator on the second Tuesday after their organization, it is not possible for the Democratic majority. in the House to postpone the time for the ballot, except by delaying the organization of the House, but after they have exhausted this means of delay they will still have a very effective method of keeping off a vote on the Senatorship. The law says that a majority of both houses must be present in the joint session when balloting for Senator. The Democratic majority in the House will refuse to answer to their names on roll call and thus present and on roll call and thus prevent a quorum and an election. They can pursue this course until either the absent Senator or his successor appears."

VOL. XXXV.--NO. 110.

WILMINGTON, N. C., FRIDAY, JANUARY 30, 1885.

Last year was a very sickly year for Wilmington, and the mortal ty was very excessive. The total of deaths around and seeing the positions of the two men, smote Blackwell on the head with a rake, fracturing the akull, from the effects of which he died in ten hours. was 526. In 1883 the deaths numbered 361, an increase of 165. The deaths in 1884 were—whites 154, colored 372. Upon a basis of 20,000 this is a death rate of 26.3 in the 1,000 inhabitants. The death rate among whites (8,000) was 19.2; among negroes (12,000) 31. In twenty years Wilmington has had no such experience. In 1883 the death rate for whites was about 15 in the 1,000, and the total was 18 in the 1.000. What was the cause of the

great sickness and mortality in 1884? The physicians ought to make a scrutiny. There ought not to exist any local cause for such unwonted sickness as existed last year. In October there were 70 deaths. Two or three years ago the total of deaths for one year was but 286, we think it was.

- Greensboro Workman: The Statesville Landmark says that Solicitor Dobson "has become disqualified to discharge the duties of his office, and he owes it to the people who elected him to resign We do not know how long the Solicitor has been disqualified, but guess it may have been at the time when he began to be the foulest mouthed stump speaker that we ever listened to or ever heard of. - The black man is surrounded by an atmosphere of superstition from which it is to be feared he nor his posterity will ever wholly emerge. Mr. R. B. Joyner, the keeper of Iredell jail, says that in searching darkies who are brought to him for incarceration, he finds a coon foot in the pockets of three fourths of them. This is carried for luck-to protect them from witches and their spells, from conjurers and their enchantments. The foregoing is from the Statesville Landmark. The coon foot is a new "wrinkle" in this section, but the rabbit foot is not. However, it is but just to say that the rabbit foot is a white

It is said that the "red sky" has been seen several times at night. The many friends of Dr. Rountree, of the General Assembly, will regret to learn that he has not improved since his return home. A letter from him yesterday stated that he was quite feeble. — Dr. H. C. Willey, the oldest practicing physician in Gates county, died Friday, of acute pneumonia. Hes was an excellent man and had a very large practice. — Winston dots: Like every other place, there will be quite a number of applicants for the Winston postoffice. If Cleveland makes a change, there are many friends of James A. Robinson, editor of the Leader, who would like to see him appointed to the position.

 Charlotte Observer: Abe Tor-rence, a colored man of Sharon township, is now nursing a gunshot wound in his scalp, inflicted in a very curious manner by a calf. Abe's intention was to slaughter the calf and procuring a double barreled shot gun he fired and missed. The calf plunged about at such a rate as to make shooting at it again impracticable, so Abe laid his gun on the ground anp went for an The young man caught the calf by the tail in the endeavor to hold it so that Abe could dispatch it with the axe, but as the executioner approached the calf lunged around and gave the gun an accidental-kick. The weapon was discharged and the load perforated Abe's scalp. Great progress continues to be made in the working of the various gold mines that abound in and around Charlotte, and the fact that the mines pay has been settled beyond a doubt. Some important mining transactions have recently been made and among them is the lease of the celebrated Rudisill mine by a party of capitalists from Boston, who come prepared to work the mine during the term of their lease upon a newly discovered principal in which electricity is brought into use. The lessees of the Budisill are Messrs. Thos. C. Dunn and E. Howard, and their lease is for eighteen months. --- As a freight train on the Western North Carolina Railroad was doing some shifting yesterday at Icard station, a colored brakeman named Thomas Greene attempted to jump on the passenger coach which was attached to the rear of the train, but sprained his ankle and fell to the platform of the car. In his fall he twisted himself in such a manner as to break his thigh. The train was mov ing backward and Greene rolled from the platform to the track, his head lying on the rail, but in an instant the car wheel struck his bead and knocked him clear off the track, the train passing on and leaving him uninjured, save the fracture of his thigh received in his first fall. His head was scalped by the friction of the car wheel, but

The opinion seems to prevail that the court will be established. Thirteen years ago Mr. Marcus Garris, s citizen of Mallard Creek township, this county, fell from a horse and broke his back. He was put to bed and of course was expected to die, but he lingered until it finally developed that he would live a helpless cripple. Last Saturday he died, after having lain upon his bed continuously through thirteen long weary years. -The burning of the milling property in Cabarrus, of Jacob Dove & Co., as related in Sunday's Observer, has created considerable feeling among the people of that county, and the man who is supposed to have fired the mill has been arrested. He is a white man named Whitfield Dry, and he was arrested at his home near Mount Pleasant, on Saturday evening. — Mr. William Barnett, of Pineville, is lying in a critical condition from the effects of a wound accidentally received while out hunting one day last week with his cousin, a young man named Will Johnston. Messrs. Barnett and Johnston were walking through a field, about twenty-five feet apart when a rabbit jumped up between them. Johnston brought his gun around to shoot the rabbit, but the weapon was prematurely discharged, the entire load striking Barnett squarely in the head. — Mr. Isaac A. Number of Beaths During the Year 1884.

Below we give the number of deaths in the city of Wilmington for the year ending December 81st, 1884, as compiled from the monthly reports of Dr. F. W. Potter, Superintendent of Health:

MONTHS.	White.	Colored.	White.		Colored.	
			Adults.	Ohildren.	Adults.	Children.

total deaths for the year footed up 526. Of these there were 24 still-born, 1 killed by railroad, 6 drowned, 1 killed by accidental shooting, 1 found dead in the woods, 1 burned, and 5 died outside the city limits; making a total of 89, which leaves 487 as the number that died from actual disease. We have grouped the diseases as follows: Consumption 59, of which 14 were whites and 45 colored; debility 23; heart disease 25; typhoid fever 25; malarial fever 27; congestive fever 36; old age 7.

The Fire Districts.

We have done what we could to get our people in the habit, when walking or riding, to turn to the right, and we are now endeavoring to have the fire districts sounded correctly. Notwithstanding our efforts heretofore in this direction, one bell struck the first district Wednesday night, and another the third, when the fire was in the second district. The districts are as follows: First, all that part of the city north of the W. & W. Railroad. Second. all that part of the city north of Market street, south of the railroad and east of Fifth street. Third, all that part of the city north of Market street, south of the railroad and west of Fifth street. Fourth, all that part of the city south of Market street and east of Fifth. Fifth, all that part of the city south of Market street and west of Fifth. Sixth, all that part of the city

on the west side of the Cape Fear river. Rev. W. I. Hull. The many friends in this city of Rev W. I. Hull, late pastor of the Fifth Street M. E. Church, will be pained at reading the following, which we take from this week's Christian Advocate: "Rev. W. I. Hull, who was superanuated on account of feeble health, at our late Conference, is residing at King's Mountain, N. C. and is tu very oritical state of health. He has an abscess on the spine, and is suffering from blood poisoning. On last Wednesday he was very low; and, unless some change takes place for the better he cannot long survive. He is a most excellent, sweetspirited, talented young minister, and we bespeak earnest prayer for his recovery and warm sympathy for him and his."

Criminal Court.

In stating in our last that the Criminal Court would meet next Monday we were misled by the misapprehension of another, and did not give the matter a thought. Else, we should have remembered that, while this Court convenes five times in the year on the first Monday in the month, the February terms have never convened until the second Monday. This was made a provision in the law creating the Court, for the reason that at that time there was a four weeks term of the Superior Court commencing in January, which was liable to run into February.

The next term of the Criminal Court, therefore, will not meet until one week from next Monday.

Prof. Proctor's Lecture.

Prof. Proctor, the distinguished English astronomer, delivered a lecture last night at the Opera House which was full of interesting information and showed him to be well entitled to his world wide reputation. His theme was the "Life of a World," which was illustrated during the course of the lecture by stereoptic views of the sun and moon and other heavenly bodies. The Opera House was well filled with an intelligent audience.

Poreign Exports. The German barque Auguste Jeannette, Capt. Jurgens, was cleared from this port for Rigs, Russis, yesterday, by Mesars DeRosset & Co., with 4,516 barrels of rosin, valued at \$4,926; also the Norwegian barque Condor, Capt. Syvertsen, for London, by Messrs. Paterson, Downing & Co., with 8.192 barrels of rosin, valued at \$4.288. Total \$9,164.

The Insurance. The building on Red Cross street, near its intersection with McRae street, which was partially destroyed by fire yesterday morning, a brief account of which appeared in yesterday's STAR, was insured for \$900 in the Connecticut Fire Insurance Company, of Hartford, of which Messrs. W. L. Smith & Co. are the agents here, and which will more than cover the loss.

Magistrate's Court. Candace Dunstan, colored, was arraigned before Justice Millis yesterday on a peace warrant sworn out by Martha Walker, and she was required to pay the costs and give bond in the sum of \$50 to | keep the peace for sixty days.

Weather Indications. The following are the indications for to

For the South Atlantic States, fair weather in the northern portion and partly cloudy weather and local rains in the southern portion, variable winds, generally east-

Warren, on Second, be tween Princess and Chesnut streets, was entered by a bold thief and robbed of a few dollars in change left in the moneydrawer. Entrance was effected through one of the front doors, the glass of which had been shattered by a rock; after which it was an easy matter for the thief to put a hand through the opening thus made and

Cos.," ostensibly to get up an historical description of Eastern North Carolina, in the interest of emigration. Said Adams is a low, stout man, with light moustache; tolerably well dressed. Please tell the public that he is a fraud of the first water, and is only bent on emigrating when he beats you out of all that he can. Look out for him and give him a kick."

Locked Up. Jere Pascall, colored, charged with committing assault and battery upon a colored woman by the name of Manning, and also with drawing a pistol upon and threatening to shoot her, had a hearing before Justice Millis, yesterday, and was ordered to give bond for his appearance at Court in the sum of \$50 in the assault and battery case and \$50 in the matter of carrying a concealed weapon, failing in which he was sent to jail.

Capt. Frank Clark has been quite sick. For the benefit of all concerned we would state that Alderman Bear will be back from New York in time to attend the regular meeting of the Board of Aldermen next Monday evening.

Mr. Thos. Badger, General Freight Agen Raleigh and Augusta Air Line Road, was in the city vesterday.

A CASE NOT BEYOND HELP.—Dr. M H. Hins dale, Kenawee, III., advises us of a remarkable cure of Consumption. He says: "A neighbor's wife was attacked with violent lung disease, and pronounced beyond help from Quick Consumption. As a last resort the family were persuaded to try DR. WM. HALL'S BALSAM BUR THE LUNGS. To the astonishment of all, by the time she had used one half dezen bottles she was about the house doing her work. I saw her as a worst, and had no idea she could recover.
