The Herald says Mr. Bayard has been tendered the portfolio of State, and he is thus saluted by his brother Senators. The latest is that Mr. Lamar will be probably in the Interior Department. If this is so Mr. Thurman will be ruled out.

There is a report now that Gen. Gordon was shot dead while attempting to blow up the magazine. Gen. Buller has abandoned Gubat and gone to Abu-Klea, a better strategic point. He may retire to Korti where Gen. Wolseley is.

Horrible! At Newtown, Long Island, a prominent colored man, named Samuel Cornulus, attempted to enter a fashionable Presbyterian Church and was not allowed to do so, although he escorted a Mrs. Lewis to the door. Ku Klux! Ku Klux!!

It is positively asserted that Daniel Manning, of New York, will be in the Cabinet. Very likely. Dan is the man that made Cleveland Governor and he engineered his cause at Chicago. The Herald says he has been offered and has accepted the Secretaryship of the Treasury.

"At the time of the American war with Mexico, in 1846, Gen. Uraga distinguished himself at Monterey as a brave and dashing soldier. He was the organizer of the army which brought Juarez to power during the reform war which lasted from 1857 to 1861. At the time of the French invasion, in 1861, he was at variance with the Government on account of leave being given the French to pass the forts between Vera Cruz and Cuernavaca Being the Commander-in-Chief of the army he was removed from Vera Cruz and placed to command of the reserve forces. Being a strong disciplinarian he found small favor with the army, and was removed by Juarez, another General being placed in his stead. He then retired to private life. Subsequently, however in 1861, he recognized the Maximilian Empire. After the victory of the republic in 1866 he was exiled by

Now and then a Southern woman goes to Washington and attracts attention by her beauty. The staff correspondent of the Augusta Chronicle at Washington writes of a young Virginian woman as follows:

"A distinguished Georgian, recently returned from London, pronounced Miss Annie Cabell, daughter of the Virginia Congressman, a most lovely and startling likeness of Mary Anderson in her supplest mood. Miss Cabell is a beautiful representative of Virginia's daughters, who, like those of Georgia, are deservedly famous.'

at the station house Thursday night, - The storm flag was flying yesterday, and the weather was quite blustery

- A stone wall, about two feet thick, is being erected on the north side of Mulberry, between Front and Second streets, where the lot is about six feet lower than the sidewalk.

- We hear of a great deal of suffering and destitution in the community There is much of it, too, where it is not at all suspected. There should be a systematic effort to search out and relieve those in need of help.

Rev. Dr. Pritchard had sufficiently recovered from his late illness to be in attendance at the prayer meeting Thursday night. But he is not well.

Rev. N. M. Woods, pastor of the Second Presbyterian church of Charlotte, was in the city yesterday, being en route to Florida, where he is to deliver a lecture.

Capt. W. L. Harlowe, who has been through freight conductor on the W. & W. Railroad for a number of years, has been promoted to the position of passenger conductor, lately vacated by Capt. Dolly Browning, and left on his first through run to Richmond Wednesday night. Capt. Harlowe will make a popular conductor. Mr. Edward Kidder has been quite in-

here yesterday morning in his elegant Pullman palace car, accompanied by his wife and several children and one or two ladies. He visited the Signal office several times, accompanied by his son, in order to hear from his yacht, which was expected inside. Finally it was ascertained that she passed Smithville about 8.80 o'clock, and was on her way up the river, though she did not reach here until about 12 o'clock, in consequence of having to wait for the tide. The Atalanta, said to be the handsomest and staunchest yacht ever built, was launched at Philadelphia in 1883 and registers '254 tons. Upon her arrival a great many of our citizens went down on the wharves to get a look at her, but as she was anchored in the stream the inspection was a very imperfect one. She is a splendid looking craft, with three rakish masts and is said to be possessed of great speed.

Soon after she dropped anchor a steam launch left the yacht and darted rapidly up the river to the W. & W. Railroad wharf, where she received Mr. Gould and party and conveyed them to the yacht, which soon afterwards weighed anchor and proceeded down the river, her destination being unknown.

The famous millionaire is a very ordinary man in appearance, being of small stature, with a pale cast of features and dark hair and whiskers. In his travels on the streets he was accompanied by his son, a youth of apparently about twelve or thirteen years of age. Mr. Gould made but few acquaintances in our city.

A Reckless Rockster.

On Thursday night, about 8 o'clock, a young gentleman was passing in the vicinity of Third and Red Cross streets, on his way to the Second Presbyterian church, when he was suddenly startled by a crash and saw a boy, apparently colored and nearly grown, making his way rapidly down Red Cross street in the direction of Second. Several ladies and gentlemen appeared in the doorway of St. John's church, and it was found that several glass in the windows of the sacred edifice had been shattered by the rock which was evidently thrown by the boy. Some of the males who came out joined our young friend in the effort to capture the reckless boy, but, after stopping for a moment between Second and Third streets, and finding he was about being pursued, he continned to run rapidly down Red Cross, rocking windows as he went, until he disappeared around a corner and was lost to view. The young gentleman says he could have caught the boy if he bad known at first what he had done. When he first heard the crash made by the collision of the rock with the window of the church he didn't know what to think of it.

Pomological. We alluded a few days since to a number of our farmers who have turned their attention to peach culture. Their example will doubtless be followed by others who have become convinced of the adaptability of our soil and climate to the production of peaches and other fruits. While others are moving in the matter of peaches, strawberries, etc., Capt. W. S. Noble is making important additions to his vineyard, which has been gradually spreading itself since he commenced operations about four years ago. The first year he set out one thousand vines; the next two years twenty thousand more, and this year he will add an-

other twenty thousand, making a total of forty-one or forty-two thousand vines, producing a large number of different varieties of grapes, which he has under cultivation. Besides which he has a large number of fruit trees of various kinds either bearing or about ready to bear. He has ordered grape vines from California and from Europe, and is determined to have all the choice varieties which he can secure.

Theatrical.

The St. Louis Post Dispatch thus alludes to Mr. W. J. Scanlan and his new play, "The Irish Minstrel," which is to be put upon our boards on the evening of Wednesday. February 25th:

"The play is a first-class one. It is an old-school Irish play, where the rich landlord and the scheming agent, who is attired in deep black, walks with bent knees and ruhs his hands nervously, are the villains, and an old Irish gentleman, his daughter, his foolish son, and the Irish minstrel are the persecuted ones.

"The Irish Minstrel, Larry O'Lynn, by his shrewdness defeats the ends of the schemers, saves the Irish gentleman from ruin and marries the daughter. "Mr. Scanlan does some very meritorious comedy work in the play, while his songs and dances are a charming addition

to his part. The dialogue is Irish to the core; full of sharp hits and witty repartee, and the dramatic situations are not strained."

The last Raleigh News and Observer reports that a bill "to allow Wilmington to issue bonds to the amount of \$100,000 for street improvements, &c.," had passed its second reading in the House. This is news to us down here, where it was thought that an unanimous protest of the citizens would have some effect in preventing any serious consideration of the proposition. There must, of course, be some mistake.

B'rai B'rith. District Grand Lodge No. 5, I. O. B. B. is to meet in Washington, D. C., on Tuesday next, the 24th inst. The Representatives from North State Lodge No. 222, of this city, are Messrs. CITY ITEMS.

WHO IS MRS. WINSLOW?—As this question is frequently asked, we will simply say that she is a lady who for upwards of thirty years has untiringly devoted by time and talents as a female Physician and norse, principally among children. She has especially studied the constitution and wants of this numerous class, and, as a result of this effort, and practical knowledge, obtained in a lifetime spent as a nurse and physiciau, she has compounded a Soothing Syrup for children teething. It operates like magic—giving rest and health, and is, moreover, sure to regulate the bowels. In consequence of this article Mrs. Winslow is becoming world-renowned as a benefactor of her race; children certainly do rise up and bless her; especially is this the case in this city. Vast quantities of the Soothing Syrup are DAILY sold and used here. We think Mrs. Winslow has immortalized her name by this invaluable at timely use, and that millions yet unborn will share its benefits, and unite in calling her blessed. No Mother has discharged her duty to her suffering little one, in our opinion, until she has given it the benefit of Mrs. Winslow's Soothing Syrup' Try it, mothers—try it now.—Ladies' Visitor, New York City.
