A piano has been brought to this

country that is a novel innovation in

musical instruments. A discription

"The piano is made to utter sounds and

words more or less intelligibly by mechanical contrivances in imitation of all the

separate organs of speech in man. A bellows from behind sends the force of air into

the larynx, where the primal sound is pro-duced by the vibrations of a thin piece of

bone. The sound coming from here is modified at will. The lips and tongue are

made of India rubber and the lower jaw

and tongue are movable and thus able to control the sounds which are produced.

"To supply the place of a nose, directly underneath the mouth and in connection

with it, is a lemon-shaped chamber to

which a rubber tube curved upward forms

an outlet. When the air is driven through, the nasal sounds of the instrument are pro-

front of the vocal cords in the larynx, and

under the control of the operator by pedals, regulate the pitch of the sound. The key

board by which it is operated consists of

fourteen keys representing fourteen distinct letters or sounds."

Big Row at Point Caswell-The Ringleader Arrested and Sets Fire to his Prison-His Final Escape.

There was a drunken row among the colored people at Point Caswell on Saturday last that almost assumed the proportions of a riot. Finally Capt. R. P. Paddison succeeded in arresting Noah Powell, one of the ringleaders of the disturbance, and put him in the guard house, when the remainder of the crowd cooled down somewhat. Soon afterwards Powell, who is a desperate fellow, managed somehow to set fire to the prison in which he was confined, and he would certainly have perished but for promptness on the part of those who went to his rescue, who broke the lock to the door and took the badly frightened criminal out. Capt. Paddison then had a preliminary examination before him as a justice of the peace and made out a commitment against Powell on the charge of arson, in having set fire to the guard house, and dispatched Deputy Calvin Blizzard with him, under instructions to confine him in the county prison of New Hanover, without benefit of bail, until the next term of the Superior Court for Pender county; but on the way to Wilmington he succeeded in effecting his escape from the officer and is supposed to have made his way to South Carolina.

Fire Yesterday Morning.

Yesterday morning, about 9 o'clock, fire was discovered in the northwestern corner of the residence of Mrs. James Dawson, corner of Chesnut and Front streets. The alarm was sounded for the third district and the department were quickly on hand, the flames being finally extinguished before they could get under good headway. The fire originated somewhere under the roof and extended from the northwest towards the northeast corner of the building, but how it originated is a mystery difficult to solve, as the family say there has been no fire in that particular part of the building in several months. It is thought that the damage from fire and water together will amount to from \$600 to \$800. The most of the furniture was removed. The loss was covered by insurance with Messrs. Magistrate's Court. Rosa Carter, colored, was arraigned before Justice Millis, yesterday, charged with the larceny of a watch, the property of Mr. Henry A. Westermann, Jr. It appeared from the evidence that Mr. Westermann lost the watch on the occasion of a procession during the late political campaign and that a daughter of Rosa Carter found it, and the two, when it was traced to their possession, refused to give it up. As the evidence did not sustain the charge of larceny the case was dismissed, but Mr. Westermann afterwards recovered his watch from a man into whose hands it had been entrusted by Ross Carter, and who surren-

The Revival. The congregations at Fifth Street Methodist church continue very large and the interest is unabated. Since Sunday twelve have presented themselves as candidates for membership, making 46 up to Monday night. Last night the altar and adjacent benches were crowded with seekers of the religion of the Lord Jesus Christ. The services last for two or three hours. Short. clear, pointed sermons are best in revivals The meeting will continue for several nights longer. Prayer meetings are held every afternoon at 34 o'clock.

MRS. WINSLOW'S SOOTHING SYRUP.—Rev. SYLVANUS COEB thus writes in the Boston Christian Freeman:— We would by no means recommend any kind of medicine which we did not know to be good—particularly to infants. But of Mrs Winslow's Soothing Syrup we can speak from knowledge; in our own family it has proved a blessing indeed, by giving an infant troubled with colic pains, quiet sleep and the parents unbroken rest at night. Most parents can appreciate these blessings. Here is an article which works to perfection, and which is harmless; for the sleep which it affords the infant is perfectly natural and the little cherub awakes as "bright as a button." And during the process of teething its value is incalculable. We have frequently heard mothers say that they would not be without it from the birth of the child till it had finished with the teething siege, on any consideration whatever. Sold by all druggists. 25 cents a bottle.
