THE FLORENCE NIGHTINGALE OF THE NURSERY.—The following is an extract from a letter written to the German Reformed Messenger, at Chambersburgh, Penn.: A Brandeness Just open the door for her, and Mrs. Winslow will prove the American Florence Nightingale of the Nursery. Of this we are so sure, that we will teach our "Susy" to say, "A blessing on Mrs. Winslow" for helping her to survive and escape the griping, colicking, and teething slege. Mrs. Winslow's Soothing Syrur relieves the child from pain, and cures dysentery and diarrhesa. It softens the gums, reduces inflammation, cures wind colic, and carries the infant safely through the teething period. It performs precisely what it professes to perform, every part of it—nothing less. We have never seen Mrs. Winslow—know her only through the preparation of her "Soothing Syrup for Children Teething." If we had the power we would make her, as she is, a physical saviour to the infant race. Sold by all druggists.
