# THE MORNING STAR.

VOL. XXXVI.--NO. 29.

WILMINGTON, N. C., SATURDAY, APRIL 25, 1885.

John Talbot, a Chicago student, prepared an infernal machine with which to blow up his sweetheart, He dug a mine after the fashion of a Russian Nihilist and then to make the parallel complete was caught. Will the parallel be extended by his hanging or banishment? An account

"Talbot explained that this trench was to have been extended to the observatory, 240 feet distant, where a pit was already dug. The trench was to contain a wire running from the pit to infernal machines in the 'death traps.' When all was prepared it was his plan to secrete himself in the pit, watch for the coming of his sweetheart, and just as she passed over the trap to pull the wire and explode the machines. The preparations thus far completed showed a marvellous amount of elaboration, the utmost care being taken to prevent discov-

In reply to a letter from Senator Morgan, asking for certain changes in Alabama: Postmaster General Vilas writes as follows:

"I am quite willing to assure you that just as fast as it is possible the cases will be considered. \* \* It is, however, to be remembered, however, that a great many other considerations than the narrow views of individuals who are simply seeking a change must be regarded. The administration must act upon sound policy. And think it would occur to the South above all sections of the Union that nothing could be more desirable to them than that this administration should meet with approval in the North, because if the administration is going to benefit the South by securing for them for the future fair appointments where they have been abused, it will be of little avail unless it be in such a manner as to meet also the approval of the whole

Cocoaine is a new therapeutic agent of much value and as a local anæsthetic is remarkable. It will certainly paralyze the respiratory organs if given in sufficient quantity. It is thus described:

"It is the alkaloid of the leaves of a shrub, originally wild but now largely cul-tivated, known as the erythroxylon coca. It grows in South America, principally in Peru and Bolivia, and looks much like the ordinary tea-leaf. Dr. A. Neimann, of Goslar, Germany, gave it its present name in 1860. But little was then known of the properties of the drugs."

Here is what purports to be the ultimatum of Russia. It is in the Herald's cable dated Vienna, 22nd

"Information which has been received here from St. Petersburg political circles creates a great sensation. It is to the effect that the only condition on which peace can be assured is that England shall acknowledge the complete neutrality of Afghanistan and the extinction of English influence on the Ameer's country. In this case only, it is said, is a peaceful understanding be tween England and Russia possible."

Mr. A. M. Keiley has not declined the Mission to Italy but will go to his post. Such is the latest. But the New . York Times says the Italian Government will not receive him.

### Spirits Turpentine

- Dr. Theodore Martine, a native

of Fayetteville, died recently. - Clinton Caucasian: One physician in this county informs us that he has attended 100 cases of pneumonia since

winter began. - Asheville Citizen: On Sunday there was discovered in Mill creek, near Old Fort, the body of a negro man named Chas, Spencer, with his neck broken and his skull crushed. There is little or no doubt but that the negro came to his death by vio-

- Raleigh News-Observer: Dr. Edward Warren, Bey, is seeking the posiof consul at Paris. — Judge John L.
T. Sneed, of Tennessee, seeks the Judgeship at Washington, which Judge Wylie
has resigned. Judge Sneed was born in
Raleigh, and is a first class man as well as a most excellent Judge.

- Fayetteville Observer: There are at present about twenty-three new houses being built in Campbellton and its immediate vicinity. Some of these houses are small and others large. — DEATH OF MR. TOMLINSON.—On Thursday night last, after a long and painful illness, this worthy citizen passed away. Mr. Tomlinson was in his 62d year, was a man of decided traits of character, straightforward and honest in all his relations with his fellow men.

- Henderson Gold Leaf: We very much regret to learn of the sad and sudden death of Mr. Ed. D. Mason, son of Capt James Mason, of Henderson, which occurred near Buffalo Springs, Mecklenburg county, Va., last Thursday. Mr. Mason was in the woods engaged in getting out some timbers. A large tree had been felled and while the men were engaged in hewing the log out, a limb which had evidently been broken from a neighboring tree by the falling one, fell on him inflicting injuries from which he died next day. Deceased was about 30 years old and un-

- Charlotte Observer; Several of our citizens who were driving out by Mr. Walter Miller's farm yesterday afternoon, witnessed the somewhat unusual spectacle of a colored woman ploughing her husband, a la George L. Cox. — J. S. Prince, the champion bicycle rider of the world, with his manager W. J. Morgan, the champion of Canada, will be in Charlotte week after next and will give an exhibition of their skill and endurance as riders on the race track at the fair grounds. Mr. Prince, on his bicycle, will run a five mile race against the fastest trotting horse that can be matched against him, and Mr. Morgan will

run a half mile race against the same horse. - Raleigh Visitor: Master Ashley, the little son of Mr. and Mrs. Theo. N. Ramsay, fell from a porch yesterday and badly fractured his left arm. — Mr. Willis Holding, of Wake Forest township, has killed 600 hawks up to the present time. The ladies of that township can now raise chickens with impunity. — We learn from a passenger who came through on the fast freight train from Portsmouth this morning that it was run into on the I terested should be present.

high bridge at Weldon last night by the regular night train from Petersburg, and came near causing a serious accident. Some of the windows of the sleeper attached to the Portsmouth train were shattered, and the passengers were badly shaken up and alarmed.

- Rockingham Rocket: The fruit crop has suffered injury to some extent, but we hope for enough still to satisfy moderate wants. — One day last week some of the hands on the plantation of Mr. T. E. Diggs, having occasion to cross the river, found, at the mouth of Jones' creek, on the Anson side, the carcass of an alligator nine and a half feet long. The strange visitor by some means had become inextricably entangled in a net-work of vines near the water's edge and thus perished. The won-der is, where he came from. — On Friday, the 17th, a horrible fate was visited upon two colored children just across the river in Anson county. Emma Sullivan, a tenant on Mrs. Catherine Livingston's place, was going from home and left her two children in the bed asleep. To see that they were properly protected with covering she went to the bed before going out, and, it is supposed, accidentally drop-ped some fire upon the bed from the pipe which she was smoking. On her return, at any rate, the house was in flames and the helpless children were beyond the hope of rescue. The frantic mother, in her efforts to save them, took fire herself and was badly burned.

- Weldon News: There was to

be an excursion train on the Seaboard &

Roanoke Railroad on Saturday to this

place. Tom Ramsay, colored, wanted to come but his wife opposed it and they had quarrel concerning it on Saturday night, luring which Tom was shot with a pistol in the lower part of the abdomen and he died. His wife was arrested on a charge of murdering her husband, but after investigating the matter the jury of inquest came to the conclusion that the shooting was accidental. The woman said the man had the pistol and it fired in the struggle caused by her attempt to get possession of it. Ramsay was about 25 years old and his wife is younger. — The protracted meeting continues at the M. E. church. There have been several accessions to the church and the interest is still great. - On Tuesday the North bound train from Wilmington had on board an old gentleman and his two daughters. There was a drunken brute in the car and he made an mproper proposal to one of the ladies who sought her father for protection. The old gentleman had his double-barrel shot gun long and levelled at the scoundrel and would have killed him on the spot but very unfortunately the other passengers inter-

- Raleigh Farmer & Mechanic: Duplin county regrets to loose two of her best citizens, Rev. Wm. M. Kennedy and son, David M. Kennedy, who propose removing to Littleton in this State, the former to continue his ministerial labor, and the latter to engage in teaching. - There was a railroad meeting in this place on Saturday. Ex-Gov. T. J. Jarvis, our new Minister to Brazil, was present.—Snow Hill Gazette. You bet! "The ruling passion is strong even in death." Lott Humphrey was also there. He is reported as asserting that Tom is the greatest man this State ever produced. — Rockingham county is in luck this year. It has the Governor, a member of Congress, the U. S. Collector, the U. S. Marshalship, the Chief Clerkship, two flourishing manufacturing towns, and plenty of pretty girls. — Gen. Clingman's Tobacco Cure Company has begun operating at Durham, and prepared packages are sent by mail for 25 cents. The picture of Gen. Clingman is very good, we think, and the testimonials to the cures by simply wetted tobacco leaves are surprising. That blatherskite, "Chaplain George W. Pepper," who at one time cut up many monkey shines at Raleigh while the Yankee garrison was here, and has since figured on a par with "Private Dalzell," "Sergeant Bates," "Bishop O'Connor" and the Fenian Rossa—has printed a three column letter, pretending to give the utterances of Gen. R. E. Lee in relation to Grant, Sherman, Mr. Davis, and the conduct of the war. It is abominable! — We did not have much hopes of living to see it, but at length there are some small, slim, slantindicular, smoky signs of a railroad to Rutherfordton. Rutherford county, forty years ago, voted money to help the Wilmington, Charlotte & Rutherford Railroad (now the Carolina Central) to enter its gates. Judge George W. Logan got control of the county "railroad fund," and for twenty years the road has not crawled a foot beyond Shelby. Then came strangers from Cape Cod, seeking to start a line and print — Bonds! And so it has gone, year upon year.
