pon each other with a deadly weapon. It appears that Richardson was on his way home from Minnie's Hall, between 12 and

1 o'clock yesterday morning, accompanied by a female whom he was seeing home from an entertainment, when Brown suddenly approached, snatched a paling from a fence near by and dealt him several blows, cutting open his nose and bruising him somewhat about the face. In the meantime Richardson had snatched a razor from his pocket and made several lurches at Brown, but only succeeded in cutting his clothing in a few spots. At this stage of the difficulty the parties separated, Brown going one way and Richardson the other, with his companion, who had been an involuntary and alarmed witness of the exciting conflict. Yesterday cach got a warrant out against the other and the case will be heard this morning, at 10 o'clock, by Justice Millis, each being required to give bond for his appearance at the appointed hour. New Waltz.

"Ocean Breeze," a new waltz for the piano, by Mr. I. H. Greenewald, of this city, and published by Mr. P. Heinsberger, was placed on our table Monday. We confess to a very limited knowledge of written music, while at the same time we lay claim to a great fondness for it, practically speaking. The contribution before us is stylishly gotten up, and the music 1s pronounced by competent critics as a fine composition. It is, we believe, Mr. Greenewald's first effort as a composer, and we hope that its success will encourage him to extend his labors.in that direction. The waltz can be had at Heinsberger's "Live Bookstore."
