WILSON It is pleasant to visit old friends at any time. It had been more than four years since we had seen Wilson, This is one of the growing, thrifty, pleasant, handsome towns of North Carolina. It is situate in the very centre of a very fine farming section, On every side the lands are fertile and cultivation is excellent. There is a rich country around to sustain 3 thriving town, Green, Wilson Wayne, Nash, and other counties possibly, contribute to the growth and prosperity of this attractive town. Some of the best farms in the State lie not far from Wilson. Since we visited Wilson in 1881, of which we still have pleasant memories, the town has spread out still wider and some fine dwellings and excellent

stores have been erected.

The Normal School was in session on Saturday. Professor Branson was in charge. He is a young man of decided promise. He is very bright, is full of zeal and enthusiasm for education and is in the right place. We were agreeably surprised in him. He is intellectual and scholarly and apt to teach. There were other well known educators and lecturers present, among them Dr. Shepherd, Prof. Southwick, of Baltimore, Prof. Claxton, Prof. Thompson and others. The number of teachers attending is something over one hundred and sixty. We heard several short addresses from the Professors, and at night President Shepherd gave us one of his highly finished, elegant, rich lectures that always gratify people of sense and cultivation. He does not write his lectures, and they are remarkable specimens of elaborate, elegant English. It is a long time since we have heard any one in conversation or on his feet employ such exquisite English as the vehicle of reflection. He goes this week to Martha's Vineyard, Mass., where he lectures on History.

On Sunday morning we heard a sermon from Rev. John R. Brooks, pastor of the Methodist church. He is one of the intellectual men of the North Carolina Conference. He is a strong man, and preaches sermons worthy of the attention of the best disciplined minds of our State. There is nothing meritricious or fanciful or glittering in his pulpit efforts. He is a solid man who understands logic and can reason. He makes knowledge a hand-maid of religion, and preaches the Gospel and not science

FOURTH OF JULY.

The Excursion on the Steamer Passport-How the Day was Spent at the Mouth of the River-The Annual Regatta of the Carolina Yacht Club at Wrightsville.

In Wilmington the Fourth of July was very quiet day. Business as a general thing was suspended on the wharves, but not many stores were closed. Some of the merchants say they had a good day's trade. A large proportion of the white population left the city. The extent of the demand for vehicles was unprecedented, and all sorts of substitutes for comfortable conveyances were improvised, even to the using of goods boxes on wheels, while old worn-out wagons were patched up and brought into requisition, and in some instances a mule and a horse worked side by side in the effort to conduce to the pleasure of the nation's holiday.

This writer took his chances on the steamer Passport, on which our contemporaries the Review and Presbyterian also had representatives. There was a large crowd on board, the day was delightful, and everybody seemed to enjoy the trip to the fullest extent. A few of the ezcursionists got off at the "Rocks," where quite a crowd had preceded them on the steamer Susie. The fishing there was very good. We saw some very fine sheephead. At Smithville a few more left the boat, but more got on, including a number of the Sumter (S. C.) visitors, some of whom wanted to go out on the ocean and others to participate in the dance at the pavilion. There was a fine breeze, but the ocean was comparative ly smooth, notwithstanding which quite a number were constrained to pay the usual tribute to Neptune.

Returning, an hour or so was spent very pleasantly at Smithville. Considerable improvements are going on there, including a number of new buildings in course of erection, among which may be mentioned those of Messrs. Julius Newton and Walker Newton (side by side), James B Rouark and S. P. Thorpe, all on Bay street; while Mr. Wm. Spencer and one or two others are preparing to build. W explored this seaside town more fully than ever before, and were impressed (with others) as to its wonderful capacity and susceptibility of being transformed into one of the most attractive and delightful summer resorts on the whole Atlantic coast. All that is wanted is to have the attention of capitalists properly directed to its capabilities as a watering place, and it is to the interest of Wilmington as well as Smithville to see that this is done.

Our Wilson friends caught another shark on the 4th, which attracted considerable attention, although measuring only four

The trip both up and down was enlivened by very pretty music rendered by Pascucci's string band. Everybody thought their "Climbing up the golden stairs" "just too awful sweet for anything."

It has been resolved that a blank page be left in our record to commemorate the disappointment of the unfortunate ones who "got left" on the wharf, and more especially of the gentleman whose wife was among the happy number on the boat, which pushed off while he was talking base ball to an appreciative auditor on an adjacent sidewalk.

The revenue cutter Colfax, which was anchored off Smithville, was duly decked out with flags, as was also the Signal office

We are glad to learn that there are quit large number of visitors at Smithville just now-some say two or three hundred THE REGATTA AT WRIGHTSVILLE.

There was a large crowd of people of both sexes present to witness the first re gatta of the Carolina Yacht Club for this season, which took place over the Wrights ville course. There was a stiff breeze blowing, and the accidents in consequence prevented as successful a race as would otherwise have resulted. As it was, there was an abundance of excitement and some little apprehension. The following yachts

Lillian Florence, Capt. H. M. Bowden. Rosa, Capt. W. L. Smith, Jr. Mist, Capt. John H. Daniel. Phantom, Capt. D. M. Williams. Ripple, Capt. Norwood Giles. Idler, Capt. Pembroke Jones. The time of starting, the time of those

which sailed to the finish, and the actua running time of those that came out without accident, was as follows: Rubble started at 12:30; Mabel started at 12:30.50; Glide started at 12:31.55; Restless started at 12:32; Loulie started at 12:32.10; Frolin started at 12:32.45: Lillian Florence

started at 12:32.55; Rosa started at 12:33.40; Mist started at 12:34; Phantom started at 12:34.35; Ripple started at 12:35.10, and finished at 2:26.02; actual running time 1:50.52; Idler started at 12:36.45, and finished at 2:28.13; actual running time 1:51.

The Ripple and the Idler were the only oats that sailed to the finish without accident, except the Phantom, which came in too late to be counted. The Bubble, the Mabel, the Glide, the Loulie, the Restless, and the Rosa all capsized at different stages of the race. The Lillian Florence fouled the Idler and withdrew from the race. The Mist parted her jibstay and was compelled to withdraw, and the Frolic was

count of the breaking of her mast. During this most exciting race an incident happened that threatened to throw an effectual camper upon the

good pleasures of the day. This was the narrow escape of Mr. Walter Smallbones from drowning. He was one of the crew of the Glide, and when she capsized he became entangled in the sail. Mr. Gilbert Greene went down to his assistance. and succeeded with some difficulty in rescuing him from his dangerous position.

Petition of W. A. Hudson, agent, for permission to sell books by subscription; granted, and the license fixed at \$2 per month for each man employed.

Petition of Mrs. James Alderman to refund \$25 paid for inspector's license by her husband just before his death, was granted.

Mayor 'Hall introduced the following resolution:

Resolved. That the Finance committee be instructed to fix a suitable tax for hucksters

of all marketable products. Resolution adopted.

Mr. J. H. Currie appeared before the Board and made a statement in reference to an act of the last General Assembly to allow the city of Wilmington 10 aid the Cape Fear and Yadkin Yalley Railroad Company to extend their road to this place, which provides for the appointment of a commission of five citizens of Wilmington by the Board of Aldermen, approved by the Board of Audit and Finance, to confer with the said company in reference to the said proposition. Mr. Currie's paper further stated that he had attached the names of 229 persons who had expressed an opinion in favor of extending aid, and that they pay \$20,652.39 in taxes; 24 names of persons opposed to extending aid, who pay \$2,-929.86 in taxes, and 15 names of persons refusing to express an opinion, and they pay \$1,545.36 in taxes. Total 258 names paying \$25,128.51. The two hundred and sixtyeight names represent the leading business of the city in all its branches, and pay the principal part of the city taxes. Mr.

Currie goes on further to say: "We deem it unessential to urge the importance of this enterprise to the favor of your honorable Board, for to every unprejudiced mind there can be but one opinion as to the future of Wilmington if the said road is extended here. Success will crown the efforts of the new energy that will be inspired into all our business by the completion of the Cape Fear & Yadkin Valley Railroad from the northeastern border of our own State to our 'City by the Sea.' to say nothing of the immense products of the great Northwest, beyond our own borders, that ultimately will seek the highway of the world through our own capacious harbor." In conclusion, Mr. Currie asked the Board to appoint the five Commissioners

in accordance with the act. Alderman Worth offered the following

resolution, which was adopted: Resolved. That the bill entitled an act to authorize the city of Wilmington to sub scribe to the capital stock and purchase bonds of the Cape Fear & Yadkin Valley Railway Company, together with the writ-ten statement or petition presented to the Board this day by J. H. Currie, be referred to a committee of five, to be appointed by the Mayor, who shall report to either called or the next regular meeting of the Board, as to the advisability of the city making a subscription, and to what amount. And be it further resolved. That if said report be favorable to a subscription, that he committee recommend to this Board from ten to twenty names of suitable persons from whom the commission of five cit-

Petitions of B. H. J. Ahrens and W. E. Worth & Co. were referred to the Market committee with power to act. These were in reference to the erection of refrigerators in the market house. The Board then adjourned.

The Seasides Win Another Victory Over the Columbias-Score 7 to 0-A Game with Goldsboro To-day.

Our boys played one of their fielding

games last Saturday, and did it so well they "shut out" their opponents and allowed only two of their men to reach second base during nine innings. The Co lumbin boys deserve credit for the manner in which they kept down the score of the Sessides. Their team was composed of home material entirely, and we doubt if the Wilmington nine could have coped with them successfully without the aid of their professionals. Fetner is the finest amateur pitcher that has ever opposed the Seasides, and Parks supported him well on Saturday. McDougall, at short, did some pretty work, but he was not well supported at first, and the effect of his playing was lost. Smithers caught a high fly and led his nine

The Seasides played almost without an error, and all deserve credit for the manner in which they guarded their positions.

Mr. Ray umpired, and pushed the game through rapidly. His decisions were so fair and consistent the grand stand was satisfied, and when we say that we have paid him the highest compliment possible. He was hurt on the seventh inning and Mr. Emerson took his place, and as is the case when he is in command, every thing moved on smoothly and entirely satisfactorily.

The Goldsboro boys, with eight profes sionals, will cross bats with the Seaside this afternoon. The club that wins will have some hard work ahead of it. Kurtz and Koockey will be the battery, and some lively playing is in store for somebody. If the Seasides field like they have been doing Goldsboro may go home defeated.

Give the boys a good crowd, and if they defeat the Goldsboro nine, cheer them, for they will deserve it.
