A Scheme for the Settlement of the Egyptian Question-Russia and Afghanistan-An Attack on the French Forces in Annam-Fresh Complications with China-The Reassembling of Parliament-Lord Salisbury's Address, &c.

[By Cable to the Morning Star.] LONDON, July 6 .- The Telegraph publishes a scheme for the settlement of the Egyptian question, originally proposed by Earl Northbrook, First Lord of the Ad-miralty in the late Cabinet, and says it was favorably considered at a Cabinet council held last Saturday. It provides for the oc-cupation of the Soudan by Turkish troops, under British officers, until the country is pacified; the abolition of slave raids and the export trade in slaves; the protection of legitimate trade; the payment of tribute by Egypt to the Sultan, and recognition of his right of suzereignty over both Upper and Lower Egypt.

ST. PETERSBURG, July 6.-Advices from the Russian front on the Murghab state that the Afghans are massing troops on the frontier. This movement leads the Russians to believe it is the intention of the Ameer of Afghanistan to attempt an attack on the Russian forces, in order to revenge the defeat of his troops in the battle of Penjdeh. The same advices say that the Sariks are also excited at the movements of Afghan troops. It seems likely these movements will end in Russian interference, should the Afghans go to the length of justifying the Russians in re-garding their actions as insolent challenges. LONDON, July 6.—The Pall Mall Gazette devotes five pages to showing that the trade in young girls for immoral purposes has increased alarmingly of late years. It claims that the growth in this traffic is due to the utter worthlessness of the law in relation to the matter. The names of several wealthy men holding prominent positions in society are mentioned in connection with the business. The Gazette states that it still has details of a large number of other cases which were omitted to day, owing to a lack of space, but they will be given to the public in a few days.

PARIS, July 6.-Gen. Courcy, com-mander of the French forces, telegraphs further from Hue, in regard to the attack made upon him by the Annamite garrison the night after his arrival at the Capitol. He gives the loss in killed and wounded of both sides as follows: French 60, Annamite 1,500. After this engagement Gen. upied the citadel, which he

WASHINGTON.

Death of Chief Engineer Zelgier-Advices from Panama-The Indian Troubles-Secretary Lamar Unwell.

(By Telegraph to the Morning Star.) WASHINGTON, July 6.—Chief Engineer J. O. A. Zeigler died at Philadelphia last night. In 1868 he succeeded in relaunching the Monongahela, which during the earthquake the previous year was carried by a tidal wave into a street of St. Thomas. A cablegram dated Colon, July 4th, re-ceived at the Navy Department from Admiral Jouett, reports the withdrawal of the entire revolutionary force from Barranquilla and the coast to a position sixty miles up the Magdelena river, where the

government forces are entrenched. Gen. Schofield has forwarded to the War Department a dispatch from Col. Bradley, in which the latter says: The Mescalaro Apaches in the vicinity of South-eastern New Mexico are becoming restless, eastern New mexico are becoming resides, because their supplies are giving out. At the present time they have noth-ing but beef and short rations. In communicating the above dispatch Gen. Schofield said as there are as many Indian difficulties as the troops were able to handle, he thought if the Indian bureau could not furnish supplies to these Indians the army had better feed them out of their stores, and charge the amount to the Indian bureau. Secretary Lamar consented to this proposition and Gen. Schofield was directed to issue rations from the military stores at the post where trouble is threat-

ened. A prominent officer here says all the Indians are restless, and the truth is the government is not half feeding them and they must do something or starve. Besides, they are cheated out of half they do get by collusion between dealers and agents. Secretary Lamar has been confined to his

home several days by a severe cold, but has so far improved, he expects to be at his desk to-morrow.

Senor Jorge Holquin, Envoy Extraordi-nary and Minister Plenipotentiary from the United States of Colombia to this Government, who is charged with a special mission, has presented his credentials to the President. Senor Holquin said in his speech to the President that "the principal object of his mission was to convey to this Government the especial thanks of Colombis for the generous and loyal interpreta-tion of existing treaties between the two countries." In his reply President Cleve-land expressed the good will this country had always borne towards Colombia, which it had had an opportunity to put in practi-cal form during the recent disturbances on the Isthmus. Vice President Hendricks arrived in this city this morning, from Atlantic City,

found to contain one thousand guns. He has also ordered reinforcements to be sent

him from Haiphong. The press of Paris, speaking of the at-tack, insist that severe and striking punishment should be administered to the Annamites. They also express the belief that the attack was the result of conspiracy, fomented by China. M. De Freycinet, Minister for Foreign Affairs, has ordered Gen. Courcy to exact from the government at Hue immediate reparation for the at-· tack.

It is stated that the loss of the French in the fight at Hue was much greater than Gen. Courcy reported it. It is also said the position of Gen. Courcy's force is a critical one, and that strong reinforcements have been sent him from Tonquin. It i considered very probable that another campaign will have to be undertaken by the French, as the Annamites are resolved to oppose French protection.

In the Chamber of Deputies to-day three telegrams from Gen. Courcy were read by M. De Freycinet. These stated that thirty thousand Annamites had attacked the French troops at Hue and burned the straw huts in which the French were quartered. Gen. Campenon, Minister of War, said the French forces in Tonquin numbered 35,-000. Of these 3,000 were available to be dispatched to any point. He begged the House to feel reassured.

Monsignor Treffel said the events at Hue had modified the situation in relation to China, and he therefore moved an adjournment of the debate on the Chinese peace treaty.

M. De Freycinet opposed the motion and the Chamber sustained his objection.

LONDON, July 6 .- Parliament reassembled to day. In the House of Commons, Mr. Bradlaugh, escorted by Messrs. Labouchere and Burt, both Radicals, advanced to the table with the purpose of taking the oath. To this Sir Michael Hicks-Beach, Chancellor of the Exchequer, interposed objection. He said the House was strongly of the feeling that Mr. Bradlaugh should not be allowed to go through the form of taking the oath. He then moved that Mr. Bradlaugh be refused permission to swear, and that the Sergeant-at-Arms be directed to exclude him from the precincts of the House, unless he engaged not to disturb the proceedings. The motion was adopted-263 to 219.

In the House of Lords the Marquis of Salisbury said he would continue the policy adopted by Mr. Gladstone in regard to the convention with Russia for the settlement of the Afghan frontier question.

The Marquis of Salisbury, in moving an adjournment of the House, said it would be convenient to explain the condition of one or two important questions which greatly affected foreign affairs and the position of England. The matter of greatest importance, he said, was the recent negotiations with Russia in regard to the frontier of Afghanistan. The business of the Government was not now to consider or comment on the past. It was their business to take up the policy of their predecessors and conduct it to an issue consistent with public interests. Then it was not their business to enter into any controversy regarding that policy. It must be observed, he said, that there were very clear restrictions upon the action of the present Government. arising from the fact that they had assumed office at a time when certain matters were drawing near an end; the result being that many pledges were given; and the first duty of any government was to see that the pledges which an English government had given should be observed. Continu-Salisbury said, that as far as he had had an opportunity of judging, the negotiations between Russia and England VIRGINIA.

Fatalities Attending the Burning of a Dwelling in Woodbridge - Several Lives Lost.

(By Telegraph to the Morning Star,)

WASHINGTON, D. C., July 6.—A report received here to-day from Woodbridge, Va., regarding the fatal fire which occurred near there on last Saturday morning, says there were eight persons in the house at the time: Joseph Harrison, his wife and two children, Samuel Harrison, and a Mrs. Bailey and eister, and a Miss Bailey. Mrs. Harrison got up during the night to get her oldest child a drink of water, and does not remember whether she afterwards blew the light out or not. She afterwards discovered the house on fire and called her hus-band, who got up and took his two chil-dren and called his brother Samuel. Then he and his wife and Mrs. Bailey and the baby and Miss Bailey started down stairs. Samuel came down and started to the front door. When he entered the front room the smoke and heat were so great he fell, but finally succeeded in crawling across to the other room and got out of the back door. He could not find any of the others nor hear anything of them, and he called the neighbors, who soon arrived and knocked the front door in with an axe and got Mrs. Harrison and the two children out. The heat was so intense they could not go back after the rest. Another neighbor had gone in and pulled Jo-seph Harrison and Mrs. Bailey out of a window, but did not know Mrs. Bailey's baby was still there, so it burned to death. The others were carried to a neighboring house, where Harrison's youngest child died about 11 a. m. Saturday. Joseph Harrison and his other child have since died. The other injured ones are still alive, but the doctors have little hope of Mrs. Harrison's recovery.

THE INDIANS.

Sloux Chief ;Thinks a Big War Probable.

(By Telegraph to the Morning Star.) LEAVENWORTH, KANSAS, July 6 .- Roman Nose, the renegade Sioux, says the complaints of the Indians are chiefly against cattle companies which have leased lands from the Cheyennes and Arapahoes. He believes that before long there will be a general Indian war, and that the Indians might as well die fighting as to be driven about and hemmed in and starved by the whites. The war, he says, will begin with the Cheyennes and Arapahoes and then the Comanches, Apaches and Kiowas and other tribes will join them, and fight even to extermination. He says that the cowboys, when drunk, murder the Indians.
