Sir Charles Gavan Duffy has written a letter to the Lord Lieutenant of Ireland in which he states what will satisfy the people. Ireland must have control of her own local matters and enjoy the same independence enjoyed by the other British colonies and the restoration of the Irish Legislature. If the Tories will agree to this then indeed have the persecutors become the friends and patrons of Ireland. But will they do this?

- Greensboro Workman: John Pritchett, Jr. had his thumb and fore inger of his right hand blown off and several of his other fingers badly hurt by a cap, which is used to fire off dynamite cartridges, exploding in his hand yesterday.

- Asheville Advance: It is made our sad and painful duty to announce the death of Maj. Rossell, which occurred at his residence in the southern suburbs of the city at ten o'clock Monday night, after an illness of only four days. Maj. Rossell was a retired officer of the U. S. A. and a native of New Jersey. He located in this community about twelve years ago.

- Weldon News: We regret to announce the death of Capt. J. G. Lockhart, of Northampton county, which took place at the residence of Wm. Gray, Esq. about five miles from Garysburg, on Monday afternoon, in the 50th year of his age. — The wheat crop, which is now being threshed, is short. Mr. E. J. Lilly, Jr., a prominent business man of this place, and until recently of the firm of P. Cumming & Co., left here yesterday and will probably locate in Fayetteville. Mr. Lilly, accompanied by Mr. C. B. Wright, will spend a few days at Morehead City and will then go to his old home at Fayetteville. Our best wishes follow you Ed, and we with numerous other friends wish you much happiness, and assure you we will miss you.

The Crops

Mr. W. T. Wade, of Wadeville, Montgomery county, N. C., writes to the STAR. under date of July 23rd, as follows: "The crops in this section of the State were never more promising than now. We have delightful seasons. Our farmers have used a great deal of energy this year in farming, and the prospect now is that they will be liberally rewarded. Wheat and oat crop far below an average."

Durham Victorious After a Hard Fight-Score 3 to 5-Another Game

No prettier game has been played lately than the one which took place yesterday. It was close, exciting, lively. The home team did some fine work, and Durham with its six professionals had all it desired of hard playing to win the game. They made wo runs on the third inning and shut out the Seaside six innings in succession. The home boys then batted four or five balls in fine style, and succeeded in making three runs. The excitement here was high. Durham then went to the bat, and by some excellent batting brought three men over the home plate. The Seaside never scored af-

Shaw pitched one of his best games and struck out our boys with more rapidity than was pleasant. Drummey gave him excellent support. Neal caught all the balls that went to right field and batted well. Miles did his duty at first, and made two splendid hits. Childs played "short" in fine style.

On the Seaside, Robinson did the best as an outfielder; one catch he made was worthy the applause he received. Rosenthal, though suffering from a sore ankle, which prevented him moving about with his accustomed quickness, held the first bag well. Kurtz pitched a good game. when we consider that he has been in the box for three days without any relief his game yesterday was remarkable. Litz caught as well as could be expected, considering he was facing a new pitcher for the first time, and captured two or three foul tips gracefully.

Moore did the best batting of the nine. There will be another game to-day. Durham will have a new battery. The Seasides are to be congratulated for their playing of vesterday. They held down a score against a club which is without doubt the strongest team that has ever been here. The grounds will be open to-day to all ladies free of charge, and we hope they will take advantage of this opportunity to see a fine game. With Shaw and Drummey not playing as a battery there is a good chance for the Seasides to win. We predicted that the home boys would play good ball yesterday, and they did it; we hope to-day they will play not only good but successful ball. Let the ladies turn out in force.

Below is the score: DURHAM. Drummy, c. Shaw, p, Neal, r.f. 1 2 Chapman, 3b. Linthicum c. f..... 0 Andrews, 2b. 2 0 Miles, 1b. 1 1 12

Rev. C. M. Pepper, of the Fayetteville District, was introduced to the Conference. The most interesting feature of yesterday's proceedings was the discussion of the question of a division of the Conference. It was participated in by several of the members and proved decided lively. The sentiment of the District seems to be about equally divided on this important question, but some think the chances are that the District will finally vote against division. Dr. S. S. Satchwell read a very interesting essay yesterday, on "Ministerial Diet and Health in Eastern North Carolina," in which he argued against the prevalent belief that if a minister is called upon to change his location from the Western to the Eastern part of the State he will necessarily be unhealthy. He has given the matter a good deal of thought and investigation, and is of the opinion that such a change will not of necessity be to the detriment of the minister so changing his location, and gave reasons for the faith that is

in him. The work of the Conference will be finished to day.

Attempted Incendiarism. Wm. Halsey, colored, living on the south side of Castle, next to the corner of Eighth street, was awakened about 3 o'clock yesterday morning by a roaring noise, and jumped from his bed to find his back door on fire. He extinguished the flames as quick as possible, when, upon examination, he discovered that an old basket, with pieces of bagging and chips of kindling wood had been placed on the upper step, saturated with kerosene oil and fire set to it. The flames had communicated to the doorfacings and shutter and were getting under good headway when discovered. The side of Castle, next to the corner of Eighth

house is the property of John Mandix, col ored. Halsey says he found a large track near the door.

Shark Fishing.

Messrs. Maffitt and Corbitt had quite an adventure with sharks on Thursday. We mentioned that they had taken one huge fellow in out of the wet. They were fishing for sharks, and the monster seized the hook about one hundred yards from the boat. He was then drawn in near the boat and had to be shot eleven or twelve times before he finally "keeled over." They had previously hooked one of the same size, and he had been shot six times with the rifle, when he succeeded in cutting the chain used for a line and went off with the hook in his mouth. The sharks struggled and floundered terribly after being hooked, and great excitement existed among the men, especialy when the mad dened monsters would dart back and forth under the boat, threatening every moment to overturn it and throw the inmates into the water, where they would have become an easy prey to their sharkships. There are plenty of the monsters in the neighborhood of where Messrs. Maffitt and Corbett were fishing, but they are not inclined, we believe, to try their luck any further in

- Our Front Street Methodist friends had a goodly number on their excursion yesterday, and a fine day for a trip.

A CARD. In reply to the card published in the Wilmington STAR by one of the engine companies lately receiving us as their guests, we have only a word to say. After the generous hospitality extended to us by the people of Wilmington, that noblest of Southern cities, we are not going to be drawn into a controversy with the Adrian Fire Company. We will not accept an invitation to a gentleman's house, partake of his gracious entertainment, and then quarrel with him. We understand the decency and propriety of life too well for this. We were awarded the prizes by the judges of the contest, and the intelligent and fair minded citizens of Wilmington are fully informed of the facts. We believe that they can and will take care of our reputation and interest in this matter.
