MORNING EDITION.

OUTLINES.

There were 3,943 new cases of cholera and 919 deaths in Spain on Sunday; the contagion continues to spread. Services in Westminster Abbey August 4th. At the meeting of Southern cotton mills representatives, at Augusta, Ga., a resolution was adopted recommending a suspension of work for at least thirty days between August and November; in point of numbers the convention was rather a failure. Indian depredations are reported in Arizona. Many of the New York city churches are draped in mourning in memory of Gen. Grant. Whiskey and cigarettes caused J. F. Hensberger to kill himself in Cleveland, O., Saturday. Wash Roberts, white, shot and killed Tobe Rivers, colored, in Twiggs county, Ga. A box shipped by express from Black River Falls, Wis., to Chicago, was opened because of suspicion aroused, and inside was found a man armed with a revolver, a razor and a bottle of chloroform; two other men supposed to be confederates have also been arrested; it is supposed they had planned to rob the express car. A telegram from Rome says that Lord Salisbury declares that Kharoum must be retaken. New York markets: Money 10 1/2 per cent; cotton steady at 10 1/4 to 10 1/2; wheat, ungraded red 75 1/2 to 76 1/2; southern flour dull and heavy at 83 7/8 to 85; corn, ungraded 50 1/2 to 51; rosin firm at 17 1/4 to 18; spirits turpentine steady at 37c.

The rice question will be again reopened this week by Collector Hadden.

The British Tories now express themselves as confident of carrying the country in November.

There is probably no doubt that Gen. Grant's remains will be buried at Central Park, New York.

Gen. J. B. Gordon, of Georgia, delivered an eulogy on Grant at Berkeley, N. J., on Saturday night.

Gen. Gordon having lost his fortune in Wall Street, is now talked off as a Democratic candidate for Governor of Georgia.

Americans in London have asked permission to celebrate services over Gen. Grant in the great British manse, Westminster Abbey.

Mr. Oliver Dalrymple, the largest wheat grower in the Northwest, estimates that every bushel of wheat he makes costs him 33 cents a bushel.

Davitt refuses to again hold a seat in Parliament after his treatment, and denies that he wrote to Chamberlain agreeing to stump Ireland for the Radicals.

Last Friday the Tories were defeated on a clause in the medical relief bill. The vote was 180 to 130. But this will not drive them from power, we may suppose.

Gen. Grant's real name is Hiram Ulysses. When he went to West Point his name was somehow wrongly entered as Ulysses S. This became his military name, which he made famous.

The "eminent" men of England are said to discountenance the agitation of the *Pull Mall Gazette's* scandal. Cholera is probably too near to venture upon the turning up of so much filth as an investigation would cause.

Edison is not a poor man. He has an annual royalty from the Western Union Telegraph Company of \$60,000, and he has hundreds of thousands invested in companies of various kinds. He does not seem to be inventing anything within a few years past.

Rev. T. B. Reeks has struck a very old person in Bladen. He died at 123 years of age. Hunt up the record. If he can show that there is a genuine, reliable record of birth and can make it certain that the old fellow was 123 years old at death, he will have found the oldest man in probably five hundred years.

The thermometer recorded on yesterday as the highest but 89 degrees, and yet it was the most oppressive day we have felt in nine years if we except the "hot Saturday." The weather has been very unusually oppressive for much of the past fortnight, and still the mercury has not been as high as 91 degrees but once in that time. From 87 to 90 has been the record, but the heat has

been intense and of the furnace kind. The extreme humidity of the atmosphere is the cause of the extraordinary heat.

The campaign in Great Britain is expected to be the hottest since that of 1836. A dispatch from London, dated the 25th inst., says:

"At present it would be hazardous to give odds on either side. The Tory political agents in the provinces continue to send in promising reports of their party's prospects. Nearly every report received from these gentry by the Central Association contains confident assurance of victory in the farming districts and minor boroughs over the Radicals, as the Liberals are called. The Whigs have been too largely superseded in the management of the affairs of the Gladstone party. The Conservatives have decided to contest every constituency in Great Britain where there is the shadow of a chance for success."

Bradstreet reports 215 failures in the United States last week, as against 185 for the week preceding. For some weeks there has been a steady increase. The South furnished as follows: Florida and Mississippi furnished 2 each; Tennessee and West Virginia 3 each, and Maryland 5.

The meeting of Southern cotton manufacturers at Augusta, Ga., is not a success. There is but one mill from North Carolina, and even Augusta mills do not send delegates. This looks as if the manufacturers had but little confidence in the deliberations and preferred to remain unhampered by any pledges.

Spirits Turpentine.

A fire at Greensboro Sunday morning destroyed four stores and a church building. No particulars.

We believe we have received but one copy of brother Shotwell's paper since the two were united.

Raleigh Visitor: "Judge Walter Clark, who has been in the Superior Court bench in Wake county since the war," said a gentleman capable of judging yesterday afternoon. "And Capt. Swift Galloway, the Solicitor, is the best I have ever seen."

Roxboro Courier: Real estate has greatly advanced in Roxboro. The proposed railroad cannot pass it. Mr. John W. Cunningham planted this year over one million and a half hills of tobacco or about 350 acres. This is by far the largest crop we have heard of. It will require about one hundred hands to cultivate it.

Beaufort Telephone: The highest point of temperature reached and recorded by the thermometer at the custom house so far this season has been 84 degrees. In some parts of the town it is said to have reached 90 degrees. Harlowe Items: The crops are about laid by and are looking fine. The result of the Rev. Mr. Betts' meetings were ten accessions to the church.

New Berne Journal: A drummer in the city yesterday assaulted one of our most respectable citizens. The defendant was fined \$30 and cost and bound over to the next term of the Superior Court. Mr. A. L. Follett, of this city, while sitting at the market dock on Thursday evening, enjoying the cool and breezy of a southern breeze, had 'em pitched into him. A heavy ball came from a giant pitcher, who was practicing with others on the dock, and took him between the eyes, coming at an angle of about 45 degrees, breaking his nose and giving him a horrible black eye.

Goldsboro Argus: A right bloody and serious, though not thought to be fatal, cutting affair took place in a barroom in "Little Washington," this city, late Friday night, between two white men. One of them only was cut, and he is said to have been too badly hurt to be carried off. If any one doubts that the bed spring business is on the rampage in this city, we are prepared to show that the Horse-shoe wing of it has since its advent here about six weeks ago, disposed of four tons of wire in fabricating a downward spiral, royal-grand-top-round about specimen of the "just the thing you need." It's a fact.

Greensboro Workman: Mr. John W. Stafford, who went up as one of the Winston troop to the encampment at Asheville, was at the depot this morning on his return home. He said that he had seen a man in the crowd who was supposed to have been worse wounded than any other in the railroad accident, turned out who it be so badly hurt as some others, who it is feared, received serious internal injuries. Mr. Stafford, N. C., July 22. John W. Stafford, farmer living about two miles from this place, was killed by lightning in his field this afternoon. His son was standing within three feet of him at the time and was terribly shocked, but it is thought that he will recover.

Asheville Advance: All the members of the Goldsboro Rifles have reported for duty except seven. Only two are severely wounded. Five of the Goldsboro Rifles who were injured in the recent railroad wreck, left for home on the 6 o'clock train last evening. The Grand Review of the military by the Governor and the address by Mr. Leach will take place next Wednesday. The rail call finished, breakfast was served, and the programme of Battalion Drills proceeded, witnessed by several hundred highly interested spectators. In the evening came the grand dress parade, in which every company showed to the very greatest advantage, and it would be hard to say which company acquitted itself with the most credit.

Asheville Citizen: The guards are enforcing very rigid military rule, and woe to the stranger who tries to enter the lines without a pass. This is right, but sometimes awkward for the trespasser. Engineer Low reports that the first apprehension he felt, just a few days before the accident, was upon the discovery that he had lost control of his train on account of the air-brakes having been put on by some one pulling the cord on one of the cars, exhausting the drum at the engine, and throwing the entire force of the brake on the rear car, which, while the engine was in motion under full headway, necessarily caused the rear car to be jerked apart from the track. Very many of the soldiers insist that the speed was reckless,

and created great anxiety among the passengers. The pulling of the danger signal—the cord which threw the whole force of the air-brakes on—is admitted, but there is a difference of opinion as to the exact time at which this was done.

Charlotte Observer: Mr. Nat Gray, who has long been engaged as local theatre agent, has completed arrangements for the erection of a new building in this city to be dedicated to the opera. Mr. C. H. DeJarnette, a former citizen of Oshkosh county, but now a resident of Estelline, Hamlin county, Dakota, is still at work out there on his perpetual motor machine, a partly completed model of which we saw at his little cross roads shop in Cabarrus, a number of years ago. As intimated in yesterday's Observer, the storm of last Thursday evening was very destructive in the section of country southeast of the city. Mr. W. C. Graham, of the surface, was in town yesterday, and gave a report of the ravages of the storm. Its greatest severity was through a narrow section of country, four miles from the city. The wind was strong and blew down whole fields of corn, but what survived the wind was ruined by the flood that followed. Mr. Graham lost by wind and water fully one half of his corn crop.

Raleigh News-Observer: The Rev. J. M. Atkinson, D. D., of this city, has been suggested for president of Davidson College. We heartily second the suggestion. No better man than Dr. Atkinson can be had within the State or out of it. Senator Ransom, we say, has been designated by Vice President Hendricks as one of the committee to represent the Senate at the funeral of Gen. Grant.

There are about 800 men in camp. The failure of companies at Fayetteville, Reidsville, Durham and Smithville to attend reduced the force over 200. The Washington, D. C., correspondent of the Washington, N. C., Gazette, in a letter dated the 20th inst., says: "It is highly probable that Hon. D. C. Fowle will be honored by this administration in some signal way which I shall not now name." And it is about time the thing was done. The flag on the capital have been placed and will be kept at half mast in respect to the memory of ex-President Grant. A body of men from Mark's Creek township reached Raleigh last evening hunting one George Devereux, colored, for attempted rape on Mrs. J. Q. Pierce. George ought to be captured. The following is a synopsis of the business transacted at this term: The grand jury passed upon fifty-three bills, finding forty-seven of them true. They also made ten presentments. The court disposed of eighty cases, of which six were sentenced to the penitentiary, seven to the work house and five to jail; seven were put upon eight, aggregating \$300, thirty-four were adjudged to pay costs upon submission, \$20. Two prosecutors were taxed with costs; there were two appeals to the Supreme Court.

THE CITY.

LOCAL NEWS.

We had some fine rains here yesterday.

Mayor Hall had no cases before him yesterday morning.

The magistrates for New Hanover county, recently appointed by the Governor, have all qualified.

Unity Tent No. 60, Independent Order of Rechabites, will give another excursion on the 11th of August.

Mr. H. Huttaff has opened a soda water establishment in the building northwest corner of Second and Princess streets.

At 12 M. yesterday the STAR thermometer registered 87 degrees; at 1 p. m. 88, and at 5 p. m. 82 degrees. The showers cooled the atmosphere materially.

Capt. S. W. Collier has received the appointment of night postal agent between this city and Richmond, Va., and was expected to make his first trip last night.

A Wilmington couple were united in the bonds of holy matrimony at Smithville on Sunday night. We have promised not to tell on them, as the young man is very bashful.

Don't forget the moonlight excursion to the "Rocks" this evening on the steamer *Passport*, under the auspices of Capt. Harper and Mr. Geo. N. Harris. The arrangements are ample to insure a good time to all who go.

Yesterday G. P. Rourke, one of the colored city aldermen elected from the First Ward, was appointed a magistrate by the Clerk of the Superior Court, to fill the vacancy occasioned by the resignation of Collector Robinson.

The Criminal Court met in final session for a short time yesterday morning. Among other business done, preparatory to the closing of the term, Sam Reese, colored, charged with assault and battery, was sentenced to pay a fine of \$25 and the costs.

The Goldsboro Argus says: "Quite a large body of State convicts passed through this city yesterday evening en route for Fender county, to work on the Angola Bay improvements, as recommended by our townsman Gen. W. G. Lewis, in his recent civil engineer report."

The most of the delegates and visitors in attendance upon the District Conference at Smithville, returned to this city on their way to their respective homes on Monday morning. They express themselves in the highest terms of the hospitality extended them by the citizens of Smithville, as well as the excursions to sea given on the steamer *Italian* by Capt. J. T. Harper, and the attention and courtesies of Capt. J. W. Harper, of the steamer *Passport*.

Personal.
A letter received by a friend in this city announces the safe arrival in Philadelphia of Mr. R. J. Scarborough and family.

Mr. Wilkin Roddick has returned from his trip to Canada and the Northern States. He had a glorious time catching nine-pound salmon, and we are glad to say the sport seems to have been healthful and invigorating, as the old man is looking as strong and hearty as a base ball professional.

Mr. B. W. Cobb, of the Goldsboro Messenger, was here a day or two ago in the interest of that progressive journal. Col. John D. Taylor, who has been laid up with sciatica for some months, has very much improved and hopes soon to be out.

Mr. James Colville, formerly a useful and enterprising resident of this city, but now of Savannah, spent Sunday with his old friends here. He is on his way to New York and will return in about two weeks. His old friends will be glad to learn that he contemplates returning to his old home permanently in about a year from now.

Col. K. M. Murchison, who has been here two or three days, left this morning for his woodland retreat in Yancey county, where he will spend a fortnight in hunting and fishing. We hope to be able to accept the Colonel's invitation to accompany him to that lovely country next summer.

Hon. R. T. Bennett did not arrive here Sunday, though he was expected. Mr. Bradley Jewett, formerly of this city, but now of Savannah, Ga., where he represents Messrs. Alex. Sprunt & Son of this city, has been on a visit to his friends and relatives here for several days past.

Mr. K. K. Council, of Columbus county, was among the visitors here yesterday. Ex-Mayor James Wilson, who alternates between this city and New York, in each of which places he is a large owner of real estate, is here looking after his possessions.

Mr. George Wilson, Solicitor of the Mecklenburg Criminal Court, was in the city yesterday.

We are sorry to learn that Capt. W. M. Parker suffered greatly from the effects of the heat while in New York on Saturday last, en route to his brother's residence in Connecticut.

WILMINGTON DISTRICT CONFERENCE.

Sunday Morning Session.
The resolution memorializing the annual Conference not to divide the Conference was again taken up and after a lively discussion was adopted—the eyes and ears being called—a majority of the ministers in the district favor division.

The following gentlemen were elected as lay delegates to the next Annual Conference, which meets in the city of Charlotte in December next; viz.: W. M. Parker, J. B. Mercer, A. J. Johnson, D. B. Nicholson. Resolutions recommending the Raleigh Christian Advocate, Newville Advocate and Methodist Advance to the patronage of the Church were unanimously adopted.

The mission work of the district was next discussed. It was determined to raise Waccamaw mission to a circuit, as it was now of sufficient strength to support a minister. It was also determined to create a mission field along the line of the W. & W. R. R., at points between Wilmington and Faison's.

Fair Play was selected as the place for holding the next session of the Conference. By a rising vote resolutions were adopted thanking the good people of Smithville for their generous entertainment of the Conference—also to Capt. Harper for reduced fare on the steam boats to ministers and delegates, and to our Baptist friends for the use of their church during the Conference.

Sabbath preaching at Methodist and Baptist churches as follows: 1. Morning at M. E. Church, Rev. L. C. Carraway; at night, Rev. Prof. Heitman, of Trinity College, Baptist Church, morning, Rev. C. M. Pepper; at night, Rev. Herndon Tuttle. Sunday evening, S. S. mass meeting of M. E. Church.

CITY ITEMS.

MRS. WINSLOW'S SOOTHING SYRUP.—REV. SYLVESTER COKE thus writes in the Boston Christian: "We would by no means recommend any kind of medicine which we did not know to be good—particularly to infants. But from knowledge in our own family I have proved a blessing, by giving an infant troubled with cold, pains, quiet sleep, and the parents' broken rest at night. Most parents can appreciate these blessings. Here is an article which works to perfection, and which is harmless; for the sleep which it affords the infant is perfectly natural, and the little child awakes as 'bright as a button.' And during the process of teething, it is invaluable. I have frequently heard mothers say that they would not be without it from the birth of the child till it had finished with the teething stage, on any consideration whatever. Sold by all druggists. 25 cents a bottle."

NEW ADVERTISEMENTS.

Stolen.

A LARGED VALISE WAS STOLEN BY A negro boy, who was hired to carry it to the King Boarding House, at the W. & W. Depot, yesterday. A liberal reward will be paid to any one leaving it with the contents at the STRAN Office, and no questions asked.

Only Till Wednesday.

PROFITS TO PATRONS ON SUITINGS AND FANT GOODS.

Cutter's vacation. Come right along.

MUNSON, Merchant Tailor, &c.

Weather Indications.

The following are the indications for today:
For the South Atlantic States, occasional local rains, except in southern portion, southerly winds, fair weather, nearly stationary temperature.

Encampment Notes.

From private letters received in this city we learn that the Second Regiment, N. C. S. G., of which Col. W. C. Jones, of this city, is commander, and to which the Wilmington Light Infantry is attached, won the first prize at Asheville Saturday for being the best drilled regiment in the Guard. Our friends will also be gratified to learn that the Cornet Concert Club won the first prize for proficiency in music.

From the Asheville papers we get the following items:
"All who witnessed the battalion drills this morning agree that nothing finer was ever witnessed. Each battalion went through the manual of arms with an ease and grace which made this exercise one of the most interesting features of the occasion."

"The early morning drills get the men to work at 7 o'clock in the morning. They are relieved from hard work until the afternoon, except such as they choose to impose on themselves. Such was the case this morning in the drill of the Mulligan Guards, where all sorts of outlandish uniforms, extravagant movements, odd weapons, and a broad burlesque on the brilliant drum major of the 8d Regiment furnished fun for men and lookers-on. The men with the soldier's intuition, find abundant material for amusement. Mock courts-martial are one source. Others find their pleasure in singing and music, of which there is rich material in the camp."

There is pleasant interchange of courtesies, and men and officers are forming close and agreeable acquaintance. "All the officers and men are hard at work. It is a true school of instruction, and all are eager to avail themselves of the opportunity."

"Throughout the camp everything is in perfect order. The cooking and eating arrangements are good, and the tents are made more agreeable by the presence and use of the sun by booths erected in front of the tents made of boughs cut from the adjacent woods. The men take advantage of the proximity of the river to bathe therein."

"The ladies honor the headquarters and other points with their presence and are, and will be, most courteously and eagerly welcomed. They are always welcomed to witness the drills and parades."

Fall of a Piazza.

The upper piazza of the old Koonce house, north side of Market, between Eighth and Ninth streets, fell down with a crash yesterday morning, alarming the neighborhood. It has long presented a very unsafe appearance. Fortunately, nobody was hurt.

WILMINGTON DISTRICT CONFERENCE.
