MORNING EDITION.

OUTLINES.

Afghan troops are massing at Herat. At Marseilles, France, cholera is steadily increasing, and the disease is unusually fatal. In Spain, Wednesday, there were 4,433 new cases of cholera, and 1,648 deaths from the disease. Fire in a lumber yard at Cleveland, Ohio, caused a loss of \$100,000. George Turner, ex-U. S. District Court Judge, of Virginia, killed himself with a revolver at the Lick House in San Francisco. A cyclone at Norwood, N. Y., damaged or destroyed over one hundred residences; two persons were killed and seven or eight injured. James H. Jones was hanged for the murder of his wife at Troy, N. Y. A water-spout near Schenectady, N. Y., washed away entire fields of rye and hay and damaged railroad property. Small pox is declared epidemic at Montreal, Canada. W. H. Jones and his son have been hanged in jail at Asheville, N. C., charged with the murder of the Joyce family near that place in April last. Fire originating in a barrel factory at Jersey City, N. J., spread to a number of tenement houses and a furniture factory; all were destroyed; some of the inmates of the burned building were barely escaped with their lives. New York markets: Money 1/2 per cent; cotton quiet at 10 7/16-10 9/16; wheat, ungraded red 93c-94c; southern flour steady at 87 5/8-90; corn, ungraded 52 3/4-54 1/2; rosin dull at 1 1/2-1 3/4; spirits turpentine steady at 36c. The undertaker's bill in the Grant obsequies will amount to \$20,000. Virginia expended \$2,500 in burying Grant. That is what her military, &c., cost. The cholera is steadily spreading in Spain, and the panic becomes greater every day. The Government has arranged to have completed the Roach cruisers, but John will not have the job. A report comes from London that city agents to kill King Alfonso and are now in France. The South will be glad if Mr. Bayard should provide for Mr. Keiley in the State Department, of which rumor says there is good prospect. The growing rice crop of South Carolina and Georgia is reported most promising. These two States, it is estimated, will make a million bushels. We would like for some one to examine the catalogues at Chapel Hill and see if Prof. Kerr's name was Watson as published. Our impression that it was Washington clings to us. The late Gen. Barrios is thought to have been the greatest man yet produced by Central America. He was a man of splendid courage and was something of a Napoleon in his ideas of war. The Philadelphia Times says to the Northern boys "Go South." "Wherefore and why?" There are thousands of Southern young men now out of work and anxiously looking for some thing to do. Johnny Wise thinks it is a pity that Wade Hampton and such men were not killed in the war. We suspect that some of Henry A. Wise's friends have had the same regrets concerning the blowing son. That clever poem in yesterday's STAR was by a man of genius. A Wilmington friend has been reading Gen. Gordon's excessive rhetoric on Grant and after hearing the poem read, he said, it ought to be "Grant, Gash, Glory and Gordon by Gammon."

will be glad to aid it, and refer it to sources where important information can be derived.

The venerable and scholarly editor of the Elizabeth City Economist thinks we are not entitled to give an opinion on military matters because we spell Colonel with a K. That is done only when men of the peace establishment are trotted out. He forgets that we had two years at a military academy. Not content, he then makes fun of our Latin, and says we write it peccavit instead of peccavit. He ought not to hit us in that way, for we once truthfully declared that we knew "little Latin and less Greek," as one great poet said of a greater. But is peccavit correct? Here is what Zeller's Cyclopaedia says, the only authority at hand as we write: "Peccavit [Lat. I have sinned.] A colloquialism, implying an express acknowledgment of an offence."

Now what do you cry?

Asheville Advance. The damage to tobacco crops by the recent hail storm in Madison county, is even greater than was at first reported. Asheville Citizen. Prof. Kerr was widely known as a scientist throughout the United States. To the State his reputation has been great service. Raleigh Visitor. The revival at Macedonia Church, four miles southwest of this city continues with unabated interest. Eight or ten persons have been converted. Kinston Free Press. A negro, Alexander Simmons, was found murdered by the roadside near Fessons in Jones county, on last Monday morning. The body, we are informed, was horribly mutilated, having been cut and shot. New Bern Journal. The cotton crops near this city are looking very promising. Jones county dotes: The watermelon crop is a failure with us. Our county jail is fast filling up. Nine boarders are there now, all colored, but one. Shelby Aurora. The cotton and corn crops promise to be the best ever known in Cleveland county. Cleveland Springs, noted for a century for its curative properties, is now for sale; price \$50,000 for the Springs and 540 acres of land. The Wilson Mirror feels much encouraged over the information that "only one woman in a thousand can whistle." It says: "Every once in a while during the heated term, and when the whole world looks dismal and dreary, some bright ray of hope descends to cheer the hearts of men." Greenville Reflector. A handsome tablet will be placed in the Methodist Church in Greenville in memory of late B. W. Brown. Greenville is soon to have a steam laundry. Rev. Fred McLawhorn baptised sixteen persons in Forbes' mill pond, four miles from town, on last Sunday. Oxford Torchlight. Died, Friday morning, August 7th, at the home of Mrs. F. K. Kay, in the city of Raleigh, Mr. Henry Hicks, son of Mr. Nelson Hicks, aged about 25 years. Why is the newspaper business the most unpleasant of all occupations, especially the closing hours of the week? Because a devil is to pay every Saturday night. Graham Gleaner. Miss Bettie Warrington died at the residence of Mr. Stephen G. McLean, Wednesday night. She, her mother and sister arrived here from Texas early in the Spring. Henry Patton, aged about 43 years, died at the residence of Mr. J. C. Collier, at Haw River Saturday night, aged about 21 years. The latter leaves a young bride of two weeks. Pittsboro Record. The unusual occurrence of water flowing up stream recently took place in this county. About a mile and a half below Ferrington's mill on New Hope, the creek ceases to flow, and the water backs up and heaves in such volume and with so much force as almost to wash the mill-dam up stream. Raleigh Register. In the death of Dr. Kerr the State has lost a good citizen, whose labors have been to it of infinite value. Many men thought him idle and careless of his duty, because to them it seemed that the delay in making his report or in publishing his Map could only come of idleness or carelessness. On the contrary, Dr. Kerr night and morning collected man known to the Register, and his work by day and by night was for North Carolina, and was effective. Raleigh News-Observer. New Bern had a \$2,000 fire yesterday. A singular murder has taken out at Jonesboro. Nineteen years ago, in 1866, three white men, McDonald, McCallie and Spivey, killed a negro boy. All three of them are Republicans, died in the wool. The first two were arrested last week. Spivey was arrested Saturday, and Saturday night Judge Walter Clark en route to Harnett county, was met at Stanford by Spivey's frightened and began to run. He became frightened and began to run off. The wood slipping forward threw Mr. Patterson down behind the horses in a very precarious position. In his efforts to free himself his left leg was caught beneath the wheel of the wagon and horribly crushed just above the ankle. He is but 19 years old. On Monday evening, at the factory, Mr. Charlie Russell and James Cook, son of Mr. Frank Cook, were engaged in a friendly scuffle, when Cook threw Russell on the ground with such force as to break his leg. Fayetteville Sun. At Wheeler's mill pond a short distance from Cedar Creek church, on Sunday last, fourteen

Proposed Flag Drill by Young Ladies.

We understand that steps are being taken to organize a company of twenty or thirty young ladies for a flag drill, somewhat similar to the recent beautiful exhibition drill by the young ladies of Asheville, which was so highly complimented by the papers. It is intended that the company shall be arrayed in handsome costumes of red, white and blue, with stars and other ornamentalations. The money to be derived from the drill is to be expended for drums for the Wilmington Light Infantry, who are ambitious to have the finest drum corps in the State. The young ladies will be drilled by Lieut. F. L. Meares, of the Wilmington Light Infantry. Mr. W. T. Johnson is also taking a deep interest in the matter and will act as drummer.

A meeting for the organization of the proposed company will probably be held next Tuesday night, the 18th inst., in the armory of the Wilmington Light Infantry. The Asheville papers alluded in glowing terms to the flag drill at that place, and it is not at all likely that the young ladies of our seaside city are going to let themselves be outdone by the mountain girls. The name of the company will be decided upon at the meeting. The cause is a good and worthy one, and we hope the young ladies and their assistants will receive every encouragement.

Wanted to Separate.

Standing in front of Justice Mills' office, yesterday morning, we overheard a conversation carried on between the magistrate and a colored man and his wife. It seems the two latter had come to the conclusion that they could not live together peaceably and happy and had therefore determined to separate. The trouble was how to go to work about it. Something was said about an agreement being drawn up by a lawyer for the two to sign. The husband said he would readily sign such a document, but the wife would have to pay for drawing it up. The wife was anxious to accommodate her hedge lord in the matter of the separation, but positively declined to go to any more expense on his account; "because," said she, "haven't I taken care of you ever since we were married; fed you, paid the rents and done everything I could for you?" The husband did not deny the soft impeachment, and at last accounts the wife was in consultation with a legal gentleman with reference to the easiest way of getting her head out of the noose-matrimonial. The magistrates have a great many such applications from colored people anxious to have the knot untied.

Yesterday fourteen badgeless dogs were captured and killed by the city dog catchers.

Why not get up a rowing match on the river? Let's make things a little livelier. It will do us good.

Rev. D. H. Tuttle will preach at the Front Street Methodist Church on Sunday morning, and Riv. B. R. Hall Sunday night.

The Howard Relief Fire Engine Co. No. 1 will give one of their popular excursions next Wednesday, the 19th inst., on the steamer Passport.

The Eureka and Excelstor Base Ball Clubs will play at the Seaside grounds this afternoon, and promise a good game. It will cost you only ten cents to encourage the boys with your presence and see the fun.

There will be an excursion to Wilmington and Smithville from Rocking ham, Richmond county, and intermediate points, starting on the night of the 19th inst., and returning on the night of the 21st. A large crowd is expected, as the rates are very cheap.

A friend endorses our proposition for open air musical concerts, and says: "As we have two bands, each might give one open air musical concert a week during the heated term for the benefit of our citizens, which might take the place of their regular band practice."

There was a match game of base ball yesterday between the juvenile clubs known as the "Nationals" and the "Rosebuds," the former commanded by Capt. Lewis Adrian and the latter by Capt. Albert Greenberg, which resulted in a score of 7 for the "Nationals" and 14 for the "Rosebuds."

Mr. John Ottaway showed us Wednesday a piece of rock, having the appearance of gray granite, made in the shape of an axe, except that in the place of an "eye," there is an indentation near the upper part, by which it would seem the handle was attached. It was found under the dwelling of Mr. E. G. Barker, on Front street, which is undergoing extensive improvements.

The Iron Bridge Over Smith's Creek.

The new iron bridge over Smith's Creek, on the county road, to take the place of what has heretofore been known as "Little Bridge," a wooden structure, is about completed, as it will receive the finishing touches by Monday, if not before. H. A. Bagg, Esq., Chairman of the Board of County Commissioners, and Dr. W. W. Harris, Chairman of the Board of County Magistrates, who paid a visit to the bridge on Wednesday, report that the iron joists were being placed in position on that day.

The bridge is of 160 feet span, has 16 feet of roadway and measures 24 feet from the bottom of the floor beams to the top of the structure. It is known as a double-intersection bridge, and was put up by the King Iron Bridge Company, of Ohio, under the direct superintendence of Mr. H. P. Graham, a veteran bridge builder. Mr. Bagg also visited and inspected the work from time to time during its progress. The piling for the foundation of the superstructure were driven under the direction of Messrs. Hanby & Russell, and Mr. P. Lineham did the masonry. It is expected that the work will be tendered to the county by the contractors on Monday.
