MORNING EDITION.

OUTLINES.

There were nearly six thousand new cases of cholera in Spain Sunday, and 1,950 deaths from the disease; fifty deaths in Toulouse and 160 deaths in Marseilles in two days. The congregation of a Roman Catholic church in Shenandoah, Pa., are in open revolt against their priest and demand his removal. Two cattle men were murdered while asleep in camp, in Indian Territory. President Cleveland's brother-in-law says there is no foundation for the statement that the President will visit Ohio during the campaign. There was a killing frost yesterday over the greater portion of Northwest Territory extending northward to the northern part of Minnesota. The lowest temperature noted was 25 degrees below zero. Republican meetings were held in many places in Italy Sunday, to denounce the government's foreign policy; resolutions were passed demanding the removal of the Italian army from Egypt. Demonstrations were held throughout Spain Sunday. A proposed treaty between a lieutenant and a prominent politician in New York, was frustrated by the general who refused to let the lieutenant accompany him. Fred Berkeley, Jr., son of a leading citizen of Salem, Ind., while drunk, shot four persons, one fatally, and committed suicide. The Indians in New Mexico are starting and threaten to open the war path unless food is furnished. The government will discontinue the transportation of gold through the mails. A negro man was shot and instantly killed by two drunken white men on a railroad train near Jellico, Ky. The yacht Puritan has won the right to defend the American cup against the English cutter Geuzeta. New York market: Money 10 1/4 per cent; cotton steady at 1 1/2-10 1/2-10 1/2-10 1/2; wheat ungraded at 75c-94c; Southern flour dull and declining; spirits turpentine dull at 25c; rosin quiet at \$1.10 @ 1 1/4.

The silver question will be hotly discussed when the Congress meets. The Washington special to the Richmond Star says: 'Mr. Carlisle is studying the silver question with all his might, and evidently expects to take a prominent part in the contest. The civil service is the burthen of the season, and many big Democrats are already cooked and primed, ready to assail the sham reformers. On the other hand, there is a strong conservative feeling among a large class of Congressmen that tends to let the policy of the President alone to deal with this question and settle it.'

The Atlanta Constitution admits that Atlanta has been overdone. There are too many houses for the inhabitants. There are a great many empty stores and dwellings. The Savannah News, on the other hand, claims that there is very solid growth in that town and without excessive house-blowing. It says an empty house of any kind would be hard to find.

The Savannah News tells of a certain Southern State that spent \$8,000 in securing foreign immigrants and got one woman. North Carolina, we believe, has had more experience in the past, that if not so bad as this was not successful enough to make the State overflow with new arrivals from Europe.

Spirits Turpentine

The Oxford & Henderson Telegraph Company has declared another dividend of 12 per cent. Reidsville Times: The wife of Mr. John Hubbard, residing in the Mayfield neighborhood, this county, was bitten by a mad dog last Saturday.

Goldboro Messenger: And still no rain; and the crop prospects grow darker, and the brows of the farmers and the merchants knit closer in consequence every day.

Shelby News Era: Mr. W. L. Damon, the efficient mayor of Shelby, while on the streets early this morning, was suddenly attacked with something like apoplexy.

Louisburg Times: Good reports come from nearly all the tobacco farms. Franklin is going it pretty heavy for a beginning, as there are now about 1,000 acres in cultivation.

Reidsville Weekly: A negro woman from Dan River township was jailed in Yanceyville last week, charged with poisoning one of George Daniels' children. She is a quicksilver.

Goldboro Argus: We have read Miss Cleveland's book, and are now enjoying the good fortune and commending the wisdom of our prudent and valued contemporary, the Wilmington Star, in its not having done so.

Wadesboro Intelligencer: Our people, for the most part, are rather blue, in consequence of the continued dry weather. Their bodies have been high, and the sudden down almost knocked the breath out of some of them.

Rockingham Spirit: Sheriff M. B. Lassiter, of Montgomery county, lost his store house and entire stock of goods by fire at Mt. Gilead, last Saturday morning. The loss, we understand, will amount to \$5,000, with a small insurance. The fire was thought to have been of incendiary origin.

Salisbury Watchman: Six hundred and ninety-six tons of ore, milled in July, at the Hoover Hill gold mines, yielded \$6,400. This product was obtained at an expense a little in excess of \$1,000. There are many other mines in the State that will give the same ratio with like management.

Asheville Citizen: Governor Seales, accompanied by Mrs. Seales, went down to Warm Springs to-day. On their return they will stop at Alexander's for a few days. Asheville can claim over 8,112 souls, and a good many who have no souls. Our city keeps ahead of all the towns in the State. The Wilmington Star makes judicious comments on the more formidable but very illogical and inefficient mode of settling labor troubles. They are of Northern growth and practice. We know little or nothing of them at the South. But all evils are contagious.

Raleigh Visitor: At 3 o'clock yesterday afternoon the residence of Mr. A. H. Adams, in Swift Creek township, was destroyed by fire, together with its entire furniture, &c. There was no insurance and his loss will be about \$1,500. As the guards in the penitentiary were accompanying a squad of convicts to work at Cooke's brick yard, near Walnut creek, on the North Carolina Railroad, this morning about 6.30 o'clock, two colored men who had recently been imprisoned, broke and ran while in the yard, and the bar from the guards fired upon them, wounding one, but the other made his escape. The wounded man was taken back to prison, and the guards are in hot pursuit of the other.

Asheville Advance: Died, near Marshall, August 19th, Mr. Levi Jervis, one of the oldest and most respected citizens of Madison county. He was 85 years of age. He was a native of South Carolina, and died of paralysis last Monday. He was 85 years old. Tuesday Grant McElrath, colored, charged with the killing of David Lowery, another colored man, in February last, at a dance on Mr. Curtis' farm, near Alexander, was sent to the penitentiary for eight years. Judge Clark has instituted some hard rules, which he is rigidly enforcing. Among them is one which forbids members of the bar from putting their feet on the tables while his court is in session. Judge Shepherd makes the lawyers behave themselves. At Granite court he had the best order and most decorous behavior. This was quite an improvement on Sam Watts when no order or courtesy was observed. (Star.)

Raleigh News-Observer: Mr. Early Harper, 70 years old, died at his home in Elevation township, Johnston county, Tuesday. He was a member of the Masonic fraternity, a good citizen and highly respected. Mr. David Scott, of Greensboro, N. C., has invented a cotton picker, which he claims to be a success. He says that with three hands to operate it the work of ninety men can be done. The extremely hot weather of the past few days is having a most disastrous effect upon

the crops in this section, particularly upon the cotton. The mercury crept up to 85 yesterday. Eugene T. Jones, Esq., of Little River township, gives very discouraging news of the crops in that part of Wake. They are literally being ruined by the drought. Early cotton is the worst hurt. A gentleman writing from Oxford says he has himself observed the phenomenon of a great number of worms crawling themselves into a cylindrical body and moving as a whole alluded to in the News and Observer by Mr. Bagley, of Warren, some time ago. The fact being established, who can explain it? The mention made of Col. Blackwell's latest defence of the celebrated Durham Bull brand which he bought of Mr. Green, suggested further inquiry, and in an interview with him some very interesting facts were gathered. He has had between 300 and 400 units in defence of the brand, having had twenty-seven of them at one time in Richmond. He has been successful in all of them, and he has had to expend \$128,800 in litigation. He has succeeded in obtaining a judgment against the defendant, \$128,800, originally cost \$1,375. The litigation has of course indirectly advertised the brand, but there has been a direct cash outlay for advertising by Col. Blackwell and his successors of the enormous sum of \$1,100,000.

Charlotte Observer: The traffic in railroad freights is already very heavy, and is larger than it was at this time last year. We regret to learn that the case of burning at Mooresville reported in yesterday's Observer, has proved fatal. Miss Annie Harris, the victim, died within seven hours after the accident, and they were seven hours of untold torture to her. She was only 14 years of age and the only daughter of Capt. J. S. Harris, the mayor of the town. Mr. J. L. Rodman, a very prominent citizen of the Charlotte store vicinity, met with a sad accident last Thursday, by which he lost one of his legs. Mr. Rodman had gone on a visit to Eichburg, S. C., and while there came to a saw mill, saw a friend. While walking about the mill, he accidentally came in contact with the circular saw, which was revolving at a high rate of speed, and before he could be extricated one of his legs was very badly lacerated. Early Wednesday morning an old colored woman, who lives near the oil mills, was stirring about near her house, when her attention was attracted by the cries of a baby. She instituted a search and soon found a newly born infant lying at the bottom of a gully. The child had evidently been born during the night, and though badly mutilated it was still alive. At the meeting of the directors and stockholders of the Yadkin railroad, at Salisbury, Wednesday, there was a considerable amount of lively feeling and interest shown in the enterprise, and everybody seemed anxious that the project should be a success. No definite action, however, was taken. Directors were elected for the ensuing year. At the directors' meeting, after the adjournment of the body, the following officers were elected: Hon. John S. Henderson, president; V. Mauney, treasurer; A. H. Doylen, secretary. A special committee was appointed to employ a corps of engineers to make a new survey of the line at once. A committee was selected to try Dr. Hendren, and Rev. G. W. Ivry was appointed to prosecute the accused. Dr. W. M. Bebery, of this city, was appointed to conduct the defense for Dr. Hendren. It was decided to hold the trial at Mooresville, in Iredell county, and at that place the court of inquiry assembled last Thursday. Rev. Dr. Bobbitt was chairman of the court of inquiry, and presided at its session. The work of trying Dr. Hendren occupied 36 hours, and when it was concluded Friday evening, a verdict of 'guilty of the charges upon the specifications,' was entered against him. Dr. Hendren's defense was ordered and the court of inquiry stood adjourned. Dr. Hendren did not appear before the committee, but the young lady, accompanied by her mother, was there, and both gave testimony against the accused. The charge against Dr. Hendren was grossly immoral conduct. The young lady in the case, after giving her testimony against Dr. Hendren, and describing his conduct towards her, succeeded in establishing proof of her innocence and purity to the satisfaction of all. There were seven witnesses in all examined, and the evidence against the accused was overwhelming.

Local Notes. Look out for a cold wave. Full moon to-night at 11 o'clock. One bale of cotton received yesterday. This section was visited by a fine rain yesterday. Turner's Almanac says heavy rains for to-day. A colored excursion went to Lake Waccamaw yesterday morning. The STAR thermometer registered 89 degrees as the highest yesterday. The Oak City Blues, a colored military company, leave Raleigh for this city to-day. The schooner Isaac L. Clark will be shipped by the U. S. Marshal at Capt. Skinner's shipyard at 11.30 to-day. John Melton, a well known colored man of this city, died on Sunday, his disease being consumption. The box sheet will be opened this morning at Heinsberger's for the sale of seats to McIntyre & Heath's minstrel show. The 'Silver Lights' and 'Hard-to-Beats' had a game of base ball yesterday which resulted in a score of 6 to 10 in favor of the 'Silver Lights.' The Carolina Central announces a series of excursions from the West to Wilmington from August 24th to 28th. The fare from Charlotte and return will be \$5. The grand family excursion under the auspices of the Howard Relief Fire Engine Company No. 1, takes place on THURSDAY, the 27th, instead of on Wednesday, as appeared by advertisement in our last. The German barque Frederick Wilhelm IV, Capt. Ahrens, was cleared from this port for Fleetwood, England, yesterday, by Messrs. Alex. Sprunt & Son, with 275 casks of spirits of turpentine and 3,300 barrels of rosin, valued at \$8,250.

Death of Capt. J. C. Borden. The sad but not altogether unexpected announcement was received here Sunday morning of the death, from paralysis, of Capt. James C. Borden, so well and favorably known in this community, which occurred at Goldsboro between 8 and 9 a. m. He had been in very poor health for some months past, but recently it was thought that his condition was becoming more improved. It was only a few days ago that news was received here to the effect that he was better. But the intelligence on Saturday was such as to preclude all hope, and all knew that his demise must of necessity prove a question of a very short time. Capt. Borden was a native of Wayne county and was 56 years old. He acted as a mail route agent on the W. & W. Railroad just previous to and during the late war; but finally resigned to join a cavalry company under Capt. (afterwards Col.) Thos. Ruffin. Having obtained his discharge from the army he was next elected as Sheriff of Wayne county, which position he held until a short time after the war, when he was appointed as passenger conductor on the W. & W. Railroad, which he held, with duty faithfully performed, until his death. Deceased was a masonic member of St. John's Lodge, of the United Beneficial Society (in which he held a life policy for \$5,000, and of the Knights of Honor, in which he had a policy for \$3,000. He leaves a wife and eight children, and a name and reputation above reproach.

Murder in Columbus. On Saturday evening last a colored man, named John Jones, was cut and mortally wounded near Lake Waccamaw, on the W. & C. A. Railroad, in Columbus county, by a colored man named Campbell Gaddins. It appears that Jones, Campbell Gaddins and Cross Gaddins had been at Lake Waccamaw together and had imbibed a considerable amount of cider, though none of the party was intoxicated. In the evening they started home together, as they lived in sight of each other, about two miles and a half from the Lake, and on the way Jones and Campbell Gaddins got into a dispute about some old matter of difference between them; Cross Gaddins in the meantime being in advance of them. Suddenly a collision occurred between them, during which, and before Cross Gaddins could interfere to prevent it, Jones drew his knife and cut Campbell Gaddins across the lower part of the stomach, inflicting a terrible wound. The injured man was conveyed to his home, and Dr. Harrell sent for, who sewed up the wound. It was not then thought to be fatal, but Sunday night Gaddins suddenly fell back in bed and died; the knife, it is stated, having penetrated a vital part. Both parties have families, Jones having married Gaddins' sister, and they are each about thirty years of age. At last accounts a party were scouring the neighborhood in search of the murderer, and there was very little doubt that he would be found.

Colored Boy Drowned. A number of colored boys were in bathing in the neighborhood of the Wilmington & Weldon Railroad wharves, on Sunday afternoon, when one of them, named James Wesley, aged 13 years, got beyond his depth and was drowned. The body was recovered yesterday afternoon, about 3 o'clock, near the place where it went down. The coroner was notified, but held no inquest. Dr. F. W. Potter examined the body, which was taken to the home of the deceased, on Fifth, between Brunswick and Bladen streets.

Magistrate's Court. Cambridge Hines, colored, was arrested and carried before J. C. Hill, J. P., yesterday, on the charge of committing an assault upon Lewis LeGrand, colored. Defendant was adjudged guilty and required to pay one penny and the costs. The same defendant was arraigned on a peace warrant, sworn out by Lewis LeGrand, who swore that Hines threatened his life, followed him around with rocks in his hands and announced his intention of destroying his property. He was ordered to give bond in the sum of \$25 to keep the peace for three months.

The First to Cross It. Capt. J. H. Savage, superintendent of the County Poor House, yesterday passed over the new iron bridge across Smith's creek with his horse and cart, being the first person to cross the bridge in any kind of vehicle. The necessary filling in at the two ends of the bridge is very nearly completed and travel over it will now begin regularly. A good many persons have been out to look at and admire the new structure.

Mayor's Court. James Mills and Elijah Merrick, two colored boys, indulged in a scuffle near the foot of Princess street, Saturday night, about 9 o'clock, when they were taken in by Officer Turlington and carried to the guard house. After hearing the evidence the Mayor sent Mills below for five days and discharged Merrick.

Narrow Escape. A colored man named Noah Gregory fell off a lighter at the foot of Princess street yesterday morning, and was about to sink the last time, when a man on the steamer Neceess reached him a pole, which he seized and held on to firmly until he was rescued.

For the Star. DARTINGTON, S. C. Cotton and Other Crops Injured by Drought. TIMMONSVILLE, S. C., Aug. 24, 1885. Dear Star:—Supposing a short sketch of the news in Darlington county, S. C., would not be uninteresting to your readers, I will give you some account of our crops. Cotton, up to two weeks ago, bid fair to make the best crop ever produced since Columbus discovered America, but alas! for the fond hopes of the farmer, the hot sun and dry weather have caused it to shed its young bolls and offers, while the green bolls are dwarfed by the sun and dry spell, and we now predict a short crop of cotton. It is opening prematurely, and up to date 49 bales of the new crop of cotton have been shipped from this depot. Corn that was forward matured well, but peas, rice and potatoes, along with the cotton, will be cut far short of the agricultural report. We have a good deal of fever. Money is very scarce, though goods and groceries are low, and those who are out of debt can get along very well. J. E. B.

PERSONAL. Dr. W. C. Green, formerly of this city, but for a number of years a resident of St. Louis, arrived here Saturday night on a visit to friends and relatives. Dr. Green has had opportunities for extended observation recently, and he says the indications are favorable for a decided improvement in business early in the fall.

War Department, Signal Service, U. S. Army. Division of Telegrams and Reports for the Benefit of Commerce and Agriculture. COTTON-BELT BULLETIN. The following table shows the average maximum and minimum temperatures and average amount of rainfall at the districts named. Each district includes from ten to twenty stations of observation, and the figures given below are the means calculated of all reports sent to each centre of district. Observations taken daily at 6 P. M., 75th meridian time. August 24, 1885—6 P. M.

Table with columns: DISTRICTS, Max. Temp., Min. Temp., Rain Fall. Rows include Wilmington, Charleston, Augusta, Savannah, Atlanta, Montgomery, Mobile, New Orleans, Galveston, Little Rock, Memphis.

Our Home Temperature. The following shows the range of the thermometer, yesterday, in this city, as furnished by the Signal Service: 7 a. m., 80; 11 a. m., 83.5; 3 p. m., 88.5; 7 p. m., 84.2; 10 p. m., 82.7.

Weather Indications. The following are the indications to-day: For the South Atlantic States, local rains, and severe local storms, winds shifting to easterly in northern part and becoming variable, and variable winds in southern part, slight fall in temperature in northern portion, nearly stationary temperature in southern portion.

Base Ball. The Eureka's played the Seaside's yesterday afternoon, at the grounds of the latter club. The game was called at the end of the seventh inning on account of the growing darkness, resulting in a tie, the score being seven to seven, as follows:

Table with columns: Innings, Eureka's, Seaside's. Rows 1 through 7.

There will be a match game of base ball this afternoon, at half-past four o'clock, on the Seaside Grounds, between the Electric and Amateurs, two juvenile clubs of this city. We hope our young friends will have a 'rousing' crowd and wish them a pleasant game. Remember, the admission is only ten cents for grown people and five cents for children.

Cornet Concert Club Excursion. To-morrow the Cornet Concert Club will give another of their pleasant excursions on the steamer Passport. A trip down the river is of itself a great pleasure, but in this instance there will be the addition of an important attraction in the shape of the band, which will discourse sweet music for the benefit of the excursionists filling their souls full of melody, as their hearts will be filled with admiration for all that is beautiful and inviting in nature by the 'sad sea waves.'

Quarterly Meetings. Fourth Round for the Wilmington District of the Methodist E. Church, South Bladen Circuit, Windsor, August 29th and 30th. Elizabeth Circuit, Elizabethtown, September 5th and 6th. Only a Few Days. THIS NOT MONTHS, NOR WEEKS, BUT A few more days, that we have left to blow about clothing out SUMMER CLOTHING. We have not had to sacrifice any of our Goods this entire season, because every garment was well bought. The Style was correct, the Fit the finest, and the Prices always reasonable. These made our Goods popular, and we have had the Best Summer trade this season we have ever had. Now we are making big preparations for OUR FALL TRADE, feeling confident it will be greater than usual, and we have left on our tables a few Goods that must go. MUST GO. Yes, they must, and if any one reading this advertisement wishes to buy any thing in the way of Wearing Apparel, for Men, Youths or Boys, we assure them we can make it to their interest to give us a call. A. DAVID, CLOTHIER.
