It is to be feared that the South is again overdoing the buying business in the New York markets. The reports are that the South is buying largely. Over-trading has hurt the South very much. Remember that prices are sure to rule low. Recuperation is bound to be slow.

How is it that so many of the West Point cadets fall by the way and are never graduated? It is stated that of the applicants some fifty failed to obtain admission. Too many badly trained and poorly educated boys are applying. The North leads the South badly at the public lustitutions and because of far better preparation. Let us amend this

Farming has fallen off very much in Ireland, and this has been going on for several years. The New York Commercial Bulletin gives the following figures which are quite sug-

"Irish agricultural statistics for 1884 state that the area under crop, compared with 1892 th 1883, howed a decrease of 63.957 acres. Cereal showed a decrease of 89,072 wheat taying decreased 26,800 644 88 470 acres, barley 16,230 acres, bere and rye 71 acres, and beans and peas 2,461 arres There was a decrease also in green crops of 3,870 acres."

Charleston's commerce is steadily increasing. According to the annual report in the Charleston News and Courier there was "20 per cent. increase in the receipts of cotton, and also an increase in the foreign trade. The wholesale trade is over \$20,000,-000, being a considerable increase overthat of last year, and is due to the extension of business into other States. The phosphate and fertilizer statistics show that the value of fer-

tilizers manufactured in Charleston was nearly \$3,000,000; and the value of phosphate rock mined in and around the city was over \$2,500,000. The total business of the port was nearly \$68,000,000, being an increase of over \$3,000,000 over last year."

Looking at our vital statistics in July we find there was a typographical error that made the deaths 37, whereas there were but 27. This added to the 181 for the preceding six months made the total 208 for seven months. For August there were but 33 deaths, after deducting drowned and still-born. Add to 208, makes 241 for eight months. The deaths for August were divided -whites 8, and colored 25-or more than three to one, whereas in population it is but 11 to 1. This death rate for eight months is equal to 18 in 1,000 inhabitants upon a calculation for one year. The white death rate is thus far for the current year not more than 13 in the 1,000 inhabitants, but we have not the figures at hand. This is a great 1mprovement on 1884, when there were 526 deaths.

Rev. J. F. Shultz, a Lutheran, was delivering an eulogy on Grant at Winterstown, Pa., when he was ordered to stop by Mr. J. H. Fulton. A dispatch says:

"The preacher continued his discourse and Mr. Fulton advanced up the aisle. Great confusion prevailed, which reached a crisis, when the angry member sprang into the pulpit and violently assaulted the min-ister, knocking him down. A rush was made by the congregation to defend the pastor, and in the melee one man received blow from Mr. Fulton's fist aud anothe had his clothing badly torn. Order was finally restored and the sermon finished. Mr. Fulton will probably be prosecuted. It is stated that he has left the place."

This is SeptembeR. This is the time for the appearance of the ovsteR. And all this reminds us of the enthusiastic Philadelphian caterer who sings in the papers:

"Hail I brightest day of all the year; The bounding oyster now is here. Refreshed by rest since April's close, Pinguid and sweet the bivalve grows. For seventeen long and weary weeks We've mourned as those whose sorrow

In quivering voice and moistening eye, His absence from the 'stew' and 'fry.' The social 'steam,' the 'broiled on toast' We've missed, how sad ly let this voice, Trembling, attest. We now rejolce.'

- Davidson Dispatch: Some are cutting their tobacco, and early tobacco is generally good; but that planted late has suffered from dry weather.

-- Mr. Howard W. Boyken, a native of Sampson county, died recently at Pannasoffkee, Fla., aged 29. His remains will be brought to Sampson for interment

- Salisbury Watchman: Jethro Almond was arrested on last Monday at Albemarle, in Stanly county, and committed to jail, being accused of the systematic robbery of the U.S. mail between Salisbury and Albemarle.

- Hickory Press: Hon. Thos. Ruffin, who came to the Piedmont country some weeks ago, is now in Lincolnton, using the water from the Burton springs near that town. We are glad to learn that he is improving rapidly.

Warrenton Gazette: Mr. J. M. Nicholson died at his farm on James river, below Petersburg, on Thursday of last week of dropsy and consumption. He was a splendid soldier and highly esteemed by hundreds of people in this, his native

- Lumberton Robesonian: The potato and pea crop of this section are really superb. — We are pained to announce the death of Mrs. Laura Dick, wife of Dr. J. G. A. Dick, which occurred at the residence of her husband (near Alfordsville) on the evening of the 28th ult.

- Greensboro Watchman: The protracted meeting at Moriah, which closed last week, was attended with encouraging results. Quite a number united with the church. — We learn that pupils are coming into the College very finely. The prospect is good for a prosperous session.

- Pittsboro Home: Mr. J. Q. A. Leach, while feeding a cider mill, had the fore finger of his right hand caught between the rollers. With a tremendous effort he jerked his hand away, leaving a good portion of his crushed finger. The muscle of the finger was torn loose high up in the arm and was pulled out.

- Louisburg Times: We are sor ry to learn of the burning of Mr. J. F. Wilson's dwelling which occurred in Hayesvilles township on Sunday last. Our informant says that when the fire was discovered, it was too late to save the contents of the house, and nothing but two or three beds, and Mrs. Wilson's piano was saved.

-Goldsboro Argus; We learn that that Mrs. Nancy M. Bass, of this county, sister of our townsman, ex Gov. C. H. Brogden, and widow of the late William Bass, who was a soldier in the war of 1812. has just been allowed a pension of eight dollars per month, beginning from 1877 and running for the remainder of her life.

- Statesville Landmark: The present promise is that the tobacco crop of this year in this county will be a good deal better than the best that has ever been known, and it is pretty certain that there will be two or three times as much of it. The Richmond & Danville Railroad ompany is looking forward to possible fects to induce immigration to North Caroling, and to that end is collecting speci-

mens of farm products to be put on exhibition in New York. — Asheboro Courier: Mr. John Parker's store, at Gray's X Roads in this county, was burned last Saturday night; loss \$600. The fire is supposed to have been of incendiary origin.

Randleman factory is to be rebuilt. Work has already begun and will be pushed with vigor. By the 1st of December everything will be complete and the factory ready to run. — High Point is to have a new tobacco warehouse. — Eighty-five boys at Trinity and more coming daily.

- Raleigh News Observer: The following gentlemen were granted license by the State Board of Medical Examiners. at Asheville, to practice medicine in North Carolina: I. A. Harris, Joseph H. Way, Buncombe; R. L. Allen, Haywood; J. Tilson, Madison; J. R. Anderson, C. Rosselle, Lincoln; A. M. Bennett, J. H. Teague, Jackson: George Daughton, Alleghany; R. B. Killian, Alexander; J. R. Straw, Ashe; J. W. Patton, J. F. Abernethy, Cherokee; G. E. Young, Rutherford. The Board next meets at New Berne, in May, 1886. — We learn from Chapel Hill letters that the new professors make a very fine impression as able, ac-complished and agreeable men.

- Salisbury Watchman: The many friends of David Barringer, Esq., will be pained to learn of a very serious accident sustained by that gentleman on last Sunday morning. He had started to church and had gotten only a short way from home when the filly he was driving took fright and ran away. Mr. Barringer was thrown out and his thigh bone (femur) was broken near the end, and his ankle put out of joint. The old gentleman was in an unfrequented road and was obliged to lie in the sun until the congregation left the church in the evening. when he was found and taken home. He is severely hurt. Mr. Barringer is well known in the State, having served several terms in the Legislature from this county.

- Lincolnton Press: Last Sunday was the hottest day of the year. The Press thermometer in the open air registered, at 3 p. m., 100; at 8 p. m., 94; at 9 p. m., 86. --- A negro baby fell from the second story window of the house of Pink Hoke, colored, last Thursday and strange to say was but little hurt. An infant of Pink's fell from the same window last year and was not hurt. - The crowd at Ball's Creek camp meeting last Sunday is said to have been the largest that ever attended in one day. Good order was observed throughout the camp. ——Corn and cotton in the vicinity of Lewesville and Triangle have been badly injured in the last three weeks by the continued dry weather.

- Shelby Aurora: Gaston and Catawba will soon enjoy the blessings of stock law, as both counties voted for the protection of every man's land from the depredations of roving cattle belonging to his neighbors. It is not right to compel me to fence up my land to keep other men's animals from depredations on my crops. —Columbus Watters, who killed Wall in a drunken fight in the road in up per Cleveland, has not yet been arrested. He is still in Cleveland county, dodging the officers, and his friends think that at our next court Watters will surrender himself and stand trial for the homicide. Wall cut Watters with a knife, inflicting a slight wound across the breast. The two men were drunk and the witness, John Hunt, was also intoxicated. It is said that a lady standing in her yard happened to witness Columbus Watters hitting Wall with a large rock.

- Monroe Enquirer-Express: We saw on Tuesday four acres of corn that had been killed by the chinch bugs that weredepredating upon it from an adjacent wheat field. — In travelling over the - In travelling over the country we are decidedly of the opinion that our farmers have too much cotton and corn growing on their lands. If they had thinned out these crops more carefully they would have made better corn and cotton and more of each. There have been several deaths recently in the neighborhood of Faulk's Church, from a very virulent form of typhoid fever. The last death was that of Mr. John Pounds, son of Mr. Benjamin Pounds, aged 21 years. His mother died with the same disease a few weeks ago. — Young Frank Lowery, son of Dr. Thomas Lowery, deceased, of this county, shot and killed a man named Vandermark, in Florida, last February. It seems that after leaving Monroe Lowery made his way to the western part of the State, and engaged in farming near Ashe-ville. While the State Guard was in encampment last month some persons from Monroe saw Lowery in Asheville, and returning home reported the fact, which was taken hold of by some interested parties and his arrest was thus effected.

Mr. N. H. Parker, formerly of this city. but now representing the wholesale grocery house of S. Burkhalter & Co., of New York, in North and South Carolina, was in the city, yesterday.

Mr. Adam Latta, formerly of Wilming, ton, but now a resident of New York, is here on a visit to his relatives and friends. Mr. T. B. Henderson has just returned from a trip to Newbern and some of the surrounding counties. He speaks quite favorably of the appearance of the crops. The family of Mr. W. B. Turlington are

visiting in South Carolina. Dr. W. J. H. Bellamy, who has been absent from the city for several weeks, returned home Tuesday night.

Dr. W. W. Harriss went home yesterday morning with a chill on him. Hope he will

be all right to-day. The advices from Capt. W. M. Parker represent him as improving. Col. L. A. Powell, of Sampson, was in

the city yesterday. Thanks to Dr. W. C. Green for late files of the St. Louis Post-Dispatch.

We regret to hear that Capt. Henry Savage is again very low. He became partially paralyzed a day or two ago. The latest accounts yesterday represented him as slightly improved.

Foreign Exports. The German barque Eintracht, Capt. Muswick, was cleared from this port for London, yesterday, by Messrs. Paterson, Downing & Co., with 2,474 casks spirits turpentine and 250 barrels of rosin, valued at \$39,220.91; also, the German barque Texas, Capt. Loof, for Hamburg, by Messrs. Paterson; Downing & Co., with 4,774 barrels of rosin, valued at \$5,265.

- Poultry plentiful in market.

- Receipts of cotton yesterday 75 bales.

- Scuppernong grapes are beginning to come into market. - Eggs were selling out of the

carts yesterday at 18 cents. - No cases for the Mayor's consideration yesterday morning.

- A cool northeasterly breeze prevailed yesterday and the weather looked unsettled.

- The excursion of the Cornet Concert Club yesterday was not as well patronized as it should have been. The coolness of the weather was the great draw-

- In our mortuary report, published yesterday, the difference between August, 1885, and August, 1884, leaving out still borns, should have been 20-not 26, as it appeared.

- On account of the easterly winds and the cool weather, the ladies of the Front Street Methodist church will not have their proposed excursion on the steamer Passport this morning.

-- A match game of base ball was played this afternoon at the Seaside Grounds, between the Ameteurs and Somersets, juvenile clubs, resulting in 16 runs for the former and 15 for the latter.

- An unfortunate stranger, unable to walk, and who propelled himself along the streets altogether with his hands, which were padded, drawing his feet after him, attracted much attention on Market street vesterday morning.

- Talk about cotton, Mr. James Sprunt has quite a promising looking crop in the front yard of his residence on Market street, though there is not enough of it to add materially to the anxiety in regard to a threatened over-production.

Snakes on the Street.

A boy was exhibiting a live snake in a box on Market street vesterday. Officer Bender, who has a very strong antipathy for snakes in general, but especially to live snakes in a box, soon impressed the boy with the conviction that most anywhere else would be a more preferable locality in which to exhibit snakes than on his beat. He also made him understand how ridiculous it was to expect people to look at a snake who would go all the way around a square to keep from seeing one.

Stricken With Paralysis. Amos Bullard, a well-to do farmer near Owensville, Sampson county, was stricken with paralysis last Sunday. Mr. L. J. Warren informs us that he is improving. Mr. Bullard is a son of Thomas Bullard, who was attacked with the same disease on board the stear r D. Murchison seven years ago, fr hhe died in this city.

OPERA HOUSE.

The Two Orphans, The Standard Dramatic Company played "The Two Orphans" at the Opera House last night, and were applauded most continuously throughout the performance, and deservedly so, for it is the best thing of the kind that has been here. Mr. Clark, as the Chevalier and Miss Irving and Miss Ritchie as the Two Orphans, acted their parts with force, and undoubtedly deserved the praise

they received. The support of the company is good, and the cheapness of the entertainment as well as the merit of the company should receive from the public even more grateful acknowledgments than have been previous-

CITY ITEMS.

MRS. WINSLOW'S SOOTHING SYRUP.—Rev. Sylvanus Cobe thus writes in the Boston Christian Freeman:—We would by no means recommend any kind of medicine which we did not know to be good—particularly to infants. But of Mrs. Winslow's Soothing Syrup we can speak from knowledge; in our own family it has proved a blessing indeed, by giving an infant troubled with colic pains, quiet sleep, and the parents unbroken rest at night. Most parents can appreciate these blessings. Here is an article which works to perfection, and which is harmless; for the sleep which it affords the infant is perfectly natural, and the little cherub awakes as "bright as a button." And during the process of teething its value is incalculable. We have frequently heard mothers say that they would not be without it from the birth of the child till it, had finished with the teething stege, on any consideration whatever. Sold by all druggists. 25 cents a bottle.
