The fight in Virginia waxeth more bitter and fiercer day by day. The campaign has opened in the Southwest, the main battle-ground. His letter is too full of capital errors to be credited for a moment.

If North Carolina patrons and school committeemen do demand ten or twelve hours a day for teachers, it is no sign that they cannot get ahead of the Connecticut school managers both in spelling and composition. We clip the following from the Philadelphia Press:

"The Duchess" has been heard from. She is Irish, as we said, and has written a letter to her American publishers, Lippincotts of Philadelphia, which appears in the Press of that city. Referring to the attempt of a New York impostor to steal her laurels she says:

"I authorize you to expose these pretensions. I do not belong to your country, but to Ireland, and have never as yet had the pleasure of visiting America. I had a newspaper from America this morning, which tells of a New York lady who likes to think she is I. I am fast losing my identity, and shall have to apply to you and one or two others presently to tell me who I am."

When not in use it is carried over the right shoulder, the hand resting over the pit of the stomach.

Barning Brush.

The burning of a lot of brush on the truck farm of Mr. J. W. New Public Building.

We have been shown the plans and specifications for a surgeon's cottage, at the Marine Hospitai grounds, which, upon the recommendation of Dr.C. T. Peckham, Past Assistant United States Surgeon, located at this port, the government has decided to erect. The plans and specifications indicate an unique and handsome design, It will be a two-story cottage, of wood, containing eight rooms, with detached kitchen, the rooms to be high pitched and 14 feet square, with the exception of the parlor, which will be 184 by 14 feet. The cottage will front to the west, as the Hospital now fronts, and will have verandas on south and west sides. It is to be lighted by gas, heated by grates, provided with hot and cold water and all modern conveniences. The cottage will be surrounded by a lawn and beautiful grounds. The erection of this building supplies a recognized want. The quarters of the surgeon being removed from the Hospital, the entire space of that building remains for accommodating the seamen, and the cottage itself may be utilized for a like purpose whenever necessary. We congratulate Dr. Peckham upon the success of his recommendation. It is pleasant to record, in this connection, that while comparatively a stranger in our community, Dr. Peckham is held in high esteem among our people for his abilities and character.

Hand Crushed. Mr. Jos. Kennedy, employed in the publishing department of this office, met with quite a serious accident yesterday morning. He was feeding a Gordon press, upon which was being printed a quantity of business envelopes, and attempted to straighten one of them after the press was in motion, when his hand was caught between the platen and the quadrats and furniture around the type on the bed of the press, but fortunately escaping contact with the type itself. Tally Ho." This play, which will be presented here on Tuesday night next, by Downing's Tally Ho Company, is a story of frontier life when that country was in its infancy. The interest centres around Hank Monk, the stage driver. It is full of pathos and sentiment, and yet the humorous element is sufficiently prominent to relieve it of undue sombreness. The National Republican, Washington, D. C., in speaking of the performance in that city, says: "Mr. Downing made a capital Hank Monk. His magnificent stage presence, fine voice and excellent method fit him for the part, and in it he made a decided hit. The company was all that could be desired. The star

Bonitz, of the Goldsboro Memenger, contradicts a report prevalent in that town, to the effect that the insurance rates of Wilmington had not been reduced any on account of the establishment of water works here, saying: 'Since the water works were established in this city, I have been informed by a reliable gentleman who is engaged in the insurance business, that a reduction of 20 per cent, had been made both on dwelling and business houses in consequence."

A DOWN TOWN MERCHANT, having passed several steepless nights, disturbed by the agonies and cries of a suffering child, and becoming convinced that Mrs. Winslow's Soothing Syrup was just the article needed, procured a supply for the child. On reaching home and acquainting his wife with what he had done, she refused to have it wife with what he had done, she refused to have it administered to the child, as she was strongly in favor of Homeopathy. That night the child passed in suffering, and the parents without sleep. Returning home the day following, the father found the baby still suffering; and while contemplating another sleepless night, the mother stepped from the room to attend to some domestic duties and left the father with the child. During her absence he administered a portion of the Scothing and left the father with the child. During her absence he administered a portion of the Soothing Syrup to the baby, and said nothing. That night all hands slept well, and the little fellow awoke in the morning bright and happy. The mother was delighted with the wonderful change, and although at first offended at the deception practiced upon her, has continued to use the Syrup, and suffering crying babies and restless nights have disappeared. A single trial of the Syrup never yet failed to relieve the baby, and overcome the prejudices of the mother. Sold by all Druggists. 25 cents a bottle.
