"There can be no question that so long as we have a Civil Service Commission its. members, the majority of them at least, should be in sympathy with the prevailing Administration. As a business man should not employ a bookkeeper who was working against my interest and praying that I should fail. The same rule applies to administering the affairs of the Government. Those Chicago Girls. The newspapers have had a great deal to say about the average understanding of Chicago femininity. In other words the girls of that progressive northwestern city have been accorded the widespread reputation of being the possessors of very large feet. Heretofore we have felt that they had been made the innocent victims of a relentless persecution on the part of wouldbe humorous paragraphists. We have changed our opinion. Yesterday we saw a shoe made expressly for a Chicago lady, and shipped by mistake by the Boston manufacturers to Messrs. Geo. R. French & Sons, of this city, and it was a number nineteen, measuring four and five-eighths inches across the bottom and fourteen and one half inches around the ankle. The Messrs. French have since ascertained that the lady in question is the mother of five daughters, and that the old lady and two of the daughters wear number nineteens; two others of the daughters wear sixteens and the most petite and delicate of the feminine portion of the family sports a number sixteen. The pair of shoes will be on exhibition at the Messrs. French's for a

CHAMBER OF COMMERCE.

Meeting of the Executive Council Resignation of President Van Bokke

A called meeting of the Executive Council of the Chamber of Commerce was held at the rooms of the Produce Exchange yesterday, at 12 o'clock.

The President, A. H. VanBokkelen, Esq. called the meeting to order, when, after a few preliminary motions, he reported verbally that the unexpended funds from the last Congressional appropriation would give a width of 110 feet over the Brunswick shoal, 150 feet over the Log shoal, 110 to 150 feet over the Lilliput shoal, also dredging at Snow's Marsh; giving a depth of 16 feet at low water to Smithville, 18 feet at ordinary high water, and on spring tides 20 feet can be carried from Wilmington to the sea.

President VanBokkelen then read the following announcement of his resignation of the important office he has so long and faithfully filled:

WILMINGTON, N. C., Sept. 17th, 1885. To the Executive Council of Chamber of Commerce, Wilmington, N. C. GENTLEMEN:-I tender my resignation as President of this Chamber of Commerce, to take effect at the annual meeting, which will be held Thursday, October 8th next. Said position has been held by me the past nine years, during which time I have endeavored to advance the commercial interests of this city and State, and regret that greater increase of commerce and

general prosperity have not resulted. Uncertainty as to my future, renders my resignation at this time proper. Whether located here or elsewhere, or in what employment I may be engaged, portion of my own time will ever be at the service of "dear old Wilmington" and her interests always considered.

I am, dear sirs, Respectfully yours,
A. H. VANBOKKELEN. On motion of Vice President Donald

MacRae, it was unanimously R.solved. That the Executive Committee of the Chamber of Commerce of the city of Wilmington, N. C., receive with feelings of deep regret the resignation of their President, A. H. VanBokkelen, to take effect from and after the annual meeting on the 8th of October next, who has so long and usefully served in that office and who has done so much to enhance the progress and prosperity of our city, and that we wish him every success and happiness in the

PAUL J. CARRAWAY, Presiding Elder, THE FLORENCE NIGHTINGALE OF THE NURSERY.—The following is an extract from a letter written to the German Reformed Messenger, at Chambersburgh, Penn.: A Benefacterss. Just open the door for her, and Mrs. Winslow will prove the American Florence Nightingale of the Nursery. Of this we are so sure, that we will teach our "Susy" to say, "A blessing on Mrs. Winslow" for helping her to survive and escape the griping, colleking, and teething siege. Mrs. Winslow's Soothing Syrup relieves the child from pain, and cures dysentery and diarrheea. It softens the gums, reduces inflammation, cureswind colle, and carries the infant safely through the teething period. It performs precisely what it professes to perform, every part of it—nothing less. We have never seen Mrs. Winslow—know her only through the preparation of her "Soothing Syrup for Children Teething." If we had the power we would make her, as she is, a physical saviour to the infant race. Sold by all druggists. 25 cents a bottle.
