DR. JAMES L. CABELL.

Professor of Physiology and Surgery in the Med-ical Department of the University of Virginia and President of the National Board of Health, and former Resident Physician, Hot Springs,

The water of Spring No. 2 contains in notable quantities two of the Alkalies, which are accredited as extremely valuable in the treatment of Gout, Lithiasis, and Liver Affections. I refer to the Carbonates of Potash and Lithia. It is now well known that both of these alkaline carbonates have an ascertained value in cases of Uric Acid Diathesis connected with Gravel, and in cases of Chronic Gout, because of their affinity for Uric Acid, and the great solubility of the salts which are formed by their union with that acid."

DR. ALGERNON S. GARNETT,

ADVANCED THOUGHT. Men don't believe in the devil new

As their fathers used to do;

They've forced the door of the broadest To let his Majesty through.

There isn't a print of his gloven feet, Or a flery dart from his bow. To be found in earth or air to day, For the world has voted so.

But who is it mixes the fatal draught.
That palsies heart and brain,
And loads the hier of each passing year.
With ten hundred the sand slain?

Who blights the bloom of the land to-day
With the flery breath of hell?
If the devil isn't, and never was,
Won't somebody rise and tell? Who dogs the steps of the toiling saint?
Who digs the pit for his feet?
Who sows the tares in the fields of time
Whereever God sows his wheat?

The devil is voted not to be.

And of course the thing is true,
But who is doing the kind of work
The devil alone can do?

They say he does not go around Like a roaring lion now. But who shall we hold responsible For the everlasting row, To be heard in home, and Church, ar

State.
To the earth's remotest bound, If the devil, by a unanimous vote, Is nowhere to be found? Won't somebody come to the front forth-

And make his bow and show How the frauds and crimes of a single day Spring up? we want to know.

The devil is voted not to be, So of course the devil's gone But simple people would like to know Who carries his business on.

A Strong Endowment

The Zig-Zag Methods Employed by Mercenary Men.

It is a notable fact that the people of Atlanta and elsewhere are beginning to be thoroughly onvinced that worthless compounds become "shaky" at all new innovations, while an honest preparation never fears opposition. We do not propose to "wipe out" others, as the field for operation is large, and we accord to one and all the same privileges we enjoy. We are not so far lost to business principles as to denounce any remedy as a fraud, or imitation, or as containing vegetable poison, the effects of which are horrible to contemplate. The alarm need not be sounded, for there is ample room for all declining anti-potash, pine-top slop-water compounds.; If one bottle of B. B. B. is more valuable in efects than half a dozan of any other preparation we won't get mad about it. If ten bottles of B.

20,000 Bottles

is far the best medicine.

B. B. cure a case of blood poison which others

ould not cure at all, it only proves that B. B. B.

of B. B. B. bave been sold to parties living inside the corporation of Atlanta since it was started two years ago! Why this wonderful sale of a new remedy in so

short a time with so little advertising? It must be confessed that it is because B. B. B. has proven itself to possess merit in the cure of blood, skin and kidney diseases. Hundreds of home certificates attest the fact of our claim that in Atlanta and many other points B. B. B. is "on top," and will stay there. Many persons desire to know how the B. B. B. acts on the system. By entering the circulation it modifies the vitiated blood globules, increases the red corpuscles, antagonizes all poison, vitalizes and regenerates the flagging forces, furnishes the pab-ulum for rich new blood, eliminates all poison through the secretions, and increases the appetite, while, by its wonderful action upon the pores of the skin, the kidneys, liver and glandular system, all effete and impure matter is speed ily conducted from the body, leaving the blood

pure, fresh and healthy. By its magical alterative powers, B. B. B. unloads the blood of all impurities, unlocks the liver, arouses all secretions, restores nature to its normal condition, unclouds the troubled brain, clears and beautifies the complexion cheers the despondent, strengthens the feeble, and peaceful slumbers. It has been in use over twenty-five years as a private prescription in

the South It is no far-fetched, foreign found or dreamdiscovered subterranean wonder, but is a scien tific and happy combination of recognized vegetable blood poison agents, effected after many years of constant use and experiment in the treatment of thousands of some of the most appalling cases of scrofulous, syphilicie and cuaneons blood polsons ever known in the State, resulting in complete and unparalleled cures of pronounced incurable cases.

WARD'S WOES.

His Desperate Struggle and How it

Ended.

Just twenty-seven miles from the classic city of Athens, Ga., is located the thriving little town of Maxey's, the residence of Mr. Robert Ward, who has just been released from a most perilous predicament, the particulars of which he has consented to give to the public. He writes as

MAXEY'S, OGLETHORPE Co., GA.,

July 9th, 1885. For twelve or in orteen years I have been a great sufferer from a terrible form of blood ne son, which ran into the secondary, and finally was pronounced a tertiary form. My head, face and shoulders became almost a man of

corruption, and finally the disease compact eating away my skull bones. I became so nor ribly repulsive that for three years i absolutery refused to let people see me. I used large quantitles of most noted blood remedies and applied to nearly all physicians near me, but my condition continued to grow worse, and all said tha t must surely die. My bones became the seat of exeruciating aches and pains; my nights were passed in misery: I was reduced in flesh and strength; my kidneys were terribly deranged, and life became a burden to me.

1 chanced to see an advertisement of B. B. B. and sent one dollar to W. C. Birchmore & Co., merchants of our place, and they procured one bottle for me. It was used with decided benefit, and when eight or ten bottles had been used I

was pronounced sound and well. Hundreds of scars can now be seen on me, looking like a man who had been burned and then restored. My case was well known in this county, and for the benefit of others who may be similarly affected, I think it my duty to give the facts to the public, and to extend my heartfelt thanks for so valuable a remedy. I have been well over twelve months, and no return of the disease has occurred. ROBERT WARD. Maxey's, Ga., July 1, 1885 .- We, the undersigned[know Mr. Robert Ward, and take pleasure in saying that the facts above stated by him are true, and that his was one of the worst cases of Blood Poison we ever knew in our county,

MOTHERS

FRIEND

MAKES CHILD-BIRTH BASY. The time has come at last when the terrible agony incl-dent to this very critical period

dent to this very or tical period in a woman's life can be avoided. A distinguished physician, who passed the greater portion of his life (forty-four years) in this branch of practice, left to child-bearing woman this priceless legacy and man this priceless legacy and life-saving appliance, "THE MOTHERS' FRIEND," and to-day there are thousands of the having used this wonderful remedy before confinement, rise up and call his name blessed.

We receive letters from every section of the country thanking us for placing this preparation in the reach of suffering woman. One lady from North Carolina writes us that she would like to thank the proprietors on her knees for brivging it to her notice, as in her previous confinement she had two doctors, and they were compelled to use chloroform, instruments, etc, and she suffered almost death; but this time she used "MOTHER'S FRIEND," and her labor was short, quick, and almost like magio. Now, why should a woman suffer when she can evoid it? We can prove all we claim by lixing prove all we claim by living witnesses, and any one interest-ed can call, or have their husbands do so, at our office, and see the original letters, which we cannot publish.

This remedy is one about which we cannot publish certificates, but it is a most wonderful liniment to be used after the first two or three months. Send for our book containing valuable infor-

mation to women. It will be mailed free to applicants. Address The Bradfield Regulator Co.,
