The peanut crop for 1885 is very short as compared with the crop of 1884. It is estimated at 2,400,000 bushels, a falling off of 1,150,000 bushels. The North Carolina crep is given at 200,000, or 100,000 bushels less than in 1884. We quote from the Cincinnati Price Current:

The Catholic Visitor, of Rich mond, Va., has an editorial on Dr. Curry, and a discourse he is credited with preaching at Richmond in 1876 A dispatch from Richmond to the Baltimore Sun, dated 18th, says:

"He is represented as saying that the dif ficulties in Italy of converting the Roman Catholics to Christianity, and distinctively to the Baptist Church, are even greater than were those in the South Sea Islands, or even China; that Romanism has been incorpora ted into the very life of the people of Europe; had been a corroding canker, eating the public conscience and emasculating everything like spiritual life."

It is said that the President will be urged not to send him to Spain.

In the recent election in Ohio the frauds upon the ballot rivalled anything that has been hitherto known. Cincinnati and Columbus were the scenes of the most barefaced rascalities. Ballot boxes were literally stuffed by wholesale. Such frauds were never equalled at any time in any part of the South. The returns were carried about wrapped in paper like so much soft soap. This is the State that undertakes to rebuke the south and to drag out the ald bloody-shirt in the light of day.

Here is an item for philanthropists and religious people to consider. A dispatch to the New York Herald from Chattanooga, dated the 17th

"Elder John Morgan, President of the Mormon church in the South, to day received information that 30 additional elders had left Utah for this city, and would be distributed throughout the South to propagate the doctrines of the polygamous church. For the benefit of our theatre-goers, we copy the following fearful warning from the Petersburg Index-Appeal:

"Male theatre-goers should immediately take time by the forelock. Indeed, it may become necessary to take the girls by the forelock, for the hats this season are three stories high and have a mansard roof and several Queen Anne turrets besides. A fel-low seated behind one of the dear creatures with such a monstrosity on top of a high coiffure, would have to balance himself on the back of his seat if he wanted to see any of the proceedings on the stage."

Festival. The ladies of the Fifth Street Methodist Church will give a festival to-night at the parsonage, on Fifth street, between Nun and Church, for the benefit of the chandelier fund, and promise that all sorts of nice things will be served in the most tempting manner.

- It was suggested in this department of the STAR, a day or two since, that the whipping-post for wife-beaters would be a good thing for Wilmington. Now we see that the Cincinnati Society for the Prevention of Cruelty to Animals has unanimously adopted a resolution in favor of that same thing.

About Grapes and Wine.

We see it announced that a colony of wine producers, having considerated tal, will leave France about the first of January to settle in Greenville county, S. C. And this reminds us that the superior advantages offered by the Cape Fear section for the successful culture of the grape

are still neglected. To say nothing of this section generally, there are thousands of acres of land peculiarly adapted to the grape within a few miles of Wilmington; and, as an additional inducement, it may be mentioned that this and may be bought at prices that would doubtless strike the aforementioned wineproducers of France as being extraordina-

Von Kampen, and several bills were audited during the meeting. The action of the Board of Aldermen in allowing a harness to the Hook & Ladder Company No. 1, to be used when working the wagon, was concurred in-the price of harness not to ex ceed \$45.

Mr. Jones offered the following resolu-

Resolved, That the Chairman of the Board is hereby authorized to countersign thirty bonds, each of the denomination of one thousand dollars, to be exchanged for a like amount of notes outstanding, which were issued for the purchase of the Markets on Front and Fourth streets; bonds authorized by an act of the General Assembly of North Carolina, and ratified the 26th day of February, 1885. William Davenport, colored, who lives on Campbell street between 7th and 8th, was arrested about a week ago, and discharged as there did not seem to be sufficient proof of his insanity. On Tuesday while his father was at work he attempted oburn the house, but was prevented by some of the neighbors. A handsome gold medal will be the prize for the best score, and a goose egg medal for the poorest, for which latter there are many contestants.

Wilmington Lends.

Wilmington still sustains her supremacy over her Southern competitors as a cotton market. Tuesday, the price of middling cotton was as follows at the points named: Savannah, 93-16; Cearleston, 91; Wilmington, 9 5-16.

Nor is this uncommon. We have noticed the quotations eversince the opening of the cotton season, and almost without exception the figures have been in favor of Wilmington. Producers should bear these facts in mind.

Magistrate's Court. Sam Gardner, colored, was brought before Justice J. C. Millis for abandonment of his wife Cely, and found guilty and required to pay \$2 00 per month for her

In view of the fact that with a Telephone Fire Alarm System, all of the existing Telephone Exchange Stations become suxil-liary Fire Alarm Stations without any expense to the city whatever, and in view of the further fact that the adoption of the Gamewell System would involve the necessity for additional lines of poles on many of the streets, I do not think it will be to the interests of the city to make the change
