VOL. XXXVII.---NO. 27.

At the Episcopal Church Congress, in session at New Haven, Conn., on Wednesday there were two lively sessions. Church unity was discussed in the morning with much spirit. Canon Farrar was among the speakers. At night there was an exciting discussion on the "Ethics of the Tariff." The following is a part of the resume of debate:

"Bishop Dudley, of Kentucky, advocated free trade, because he believed it to be God's law. He treated the question from a moral standpoint. "Prof. Wm. G. Summer, of Yale Col

lege, was the first volunteer speaker. The ethics of the tariff were based, he said, on a simple statement: "Thou shalt not steal." The Professor severely criticised the Protectionist theory, and at the conclusion of his address received a perfect ovation. "The Rev. Dr. Courtney, of Boston, an tagonized the theory (Mr. Clark's) that free trade in Ireland and India was responsible

for the calamitous situation in those countries. In the conrse of his remarks he intimated that a person making such a statement was breaking the Ninth Commandment. Mr. Clark was given permission to make a personal explanation. This resulted in a lively tilt between himself and Dr. Courtney.'

- Elizabeth City Falcon: Mr. Lowe, a venerable old gentleman who was well and favorably known to almost every man, woman and child in this section, died at his home in Pasquotank county on Tues-day, the 8th day of October, 1885, at the age of 89 years and six months. Mr. Lowe has always lived at the place he settled when a boy, has worn the same pair of boots for 27 years, and they are yet good, never bought a bushel of corn or a pound of meat in his life, and has always had his pantry well filled with boney. He has the first and only set of dishes he ever bought, used the same horse and cart for 55 years, and the old wooden mould plow that he cultivated his crop this year with, though leeds. The time for registration will expire the first of January, 1886. - Don't forget the entertainment

- Sol Smith Russell, an old Wilmington favorite, is now delighting the Texans with his new comedy, "Felix Me-Kusick."

- The colored man Anderson, who escaped from the officers Wednesday, was captured late on the evening of the same

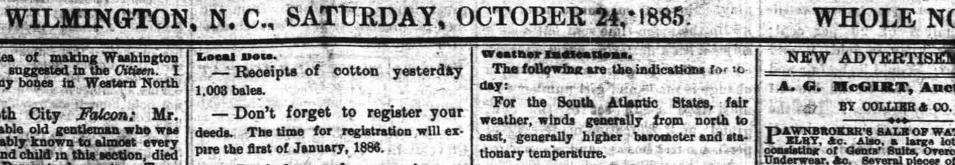

day, and is now in jail. - Our Mayor pro tem. is not half so rough on criminals as his name would indicate. On the contrary, he seems to believe in the old motto, "bear and forbear."

- "S. G. W." in the Raleigh Register, compliments very highly, and very justly, Rev. Robert Strange, who will assume the rectorship of the Church of the Good Shepherd, at Raleigh, in November.

- The English sparrow is a growing "institution" in Wilmington, and we fear that in a few years we shall have 'enough and to spare." At first they were considered a great acquisition to a city, but latterly they have very generally been voted a nuisance."

- The prevailing impression that Archbishop Gibbons will be made a Cardinal is very gratifying to his many admirers in Wilmington, where he is so well known, and where his charming personal manners made him hosts of friends regardless of religious predilection.

Our Home Temperature.

The following shows the range of the thermometer, yesterday, in this city, as furnished by the Signal Service office: 7 a. m., 46.0; 11 a. m., 57.8; 3 p. m., 62.1; 7 p. m., 58.2; 10 p. m., 58.2.

River and Harbor Improvements. Capt. Bixby, who is in charge of the

rivers and harbors of Southern North Carolina and Northern South Capolina, sends us a circular, from which we glean the following information:

"The Cape Fear River below Wilmington, when placed under governmental im-provement in 1829, had 8 bar entrances with least depths as follows: About 9 feet at the Baldhead Channel, 9 feet at the Western and Rip Channel, and 10 feet at New Inlet Channel, the two former bars being 8 miles and the latter, 2 miles, from the point of junction of their channels near Federal Point. From Federal Point 20 miles up to Wilmington there were several shoals with a least depth of 7.5 feet at low water.

"\$1,991,859.98 have been spent in all up to 20th June, 1885, upon the proposed improvements of 1827 to 1882 with complete success, obtaining a 14-foot least depth of water at the main bar entrance, and completing to partial width a 16-foot channel 28 miles to Wilmington. The foreign commerce has increased from about \$1,500,-000 exports (see official statistics in annual report of 1874) in 1871, to about \$5,000,-000 exports in 1885. The total commerce, exports and imports, foreign and coastwise,

is now about \$18,000,000 per year. "It was recommended in July, 1885, that oc 24 1m the above improvements be continued by completing the unfinished dike south of Zeke's Island, so as to thoroughly secure Smith's Island from further erosion by the ocean; and by widening and deepening the existing river channels to their full dimensions of 270 feet width and 16 feet least depth, at low water; and by further protecting them against subsequent deterioration by submerged stone dikes where necessary, at a total expense of \$380,000 next Bar: and iurther that the Da Sausage, Liver Pudding. deepened later on to at least 16 feet least depth, at low water. The commerce of this harbor, as above shown, is regarded as sufficient to justify an expenditure of several hundred thousand dollars for this purpose in yearly instalments of at least \$300.-We guarantee as FINE MEATS as an **0**00. Attorney General Garland does not propose to interfere in the removal of Chief Justice Vincent, of New Mexico. A dispatch says:

A call for a State Convention in South Carolina has been issued. It is to meet on the 31st inst. Hapid Delivery.

The rapid delivery letters ought to be very popular the first day of April. Imagine the feelings of a fellow who is aroused from his slumbers about 11 p. m. by a special messenger of the P. O. D., who in great haste delivers a letter marked "Im-

portant." The letter is opened with trembling hands, and the "important" words "April Fool" meet the eyes of the excited holder. It is not difficult to conclude that with decided emphasis he will declare that the special delivery system is an unmitigated humbug and ought to be abolished immediately. We charge the Wilmington

boys nothing, for posting them in this important matter. Important Case Decided.

An action of ejectment was brought by the Carolina Central Railroad Company against Mr. J. C. McCaskell, of Shoe Heel, the latter being charged with building a brick store house on the company's right of way, within 100 feet from the centre of the track way. The case was decided day before yesterday at Lumberton, in

favor of the company. Mayor's Court. The following cases were disposed of yes-

- The Gun and Kennel Club having decided to have a glass ball shoot, our field editor is industriously practicing at balloons of the regular size. As a starter, he has hired a boy to hold the balloons by a cord. To avoid possible accidents, the boy is incased in a suit of cast iron armor. Otherwise there might be a case of "seek dead."

- Some one who has found an umbrella advertises for its owner in the Asheville Citizen. We are inclined to doubt his sanity. We have never before known a lost umbrella to be given the least chance of getting back home. If the finder of one in Wilmington should advertise for the owner, Dr. Potter would immediately institute a commission de lugatico inquirendo.

- The appearance of "Jack Frost" will suggest to the charitable the propriety of doing something substantial fer the Ladies' Benevolent Society, an organization that has done so much to alleviate the sufferings of the poor of Wilmington. It will be well, too, to replenish its purse before old Winter in all his severity is upon us. Much money that is wasted by the charitable on unworthy objects would be properly disbursed if placed at the disposal of the Ladies' Benevolent Society.

As the cultivation of tobacco is attracting unusual attention throughout the State, extending even to the section tributary to Wilmington, we copy from the Fayetteville Ob server and Gazette a paragraph showing some remarkable results attained in Cumherland county:

"Mr. W. L. Williams, of this county, of whose tobacco we made such deservedly favorable mention last week, carried a small lot of it to Raleigh a few days since, and his success at the warehouse was very gratifying. The prices he obtained per pound were, \$1 00, 76 cents, 65 cents and 35 cents—making an average of about 70 cents. His tobacco was critically examined by connoisseurs from Wake, Granville and other counties, and was pronounced equal in texture, quality and appearance to the best. A sample of a quantity which had been cut and cured without the application of the heat of fire attracted much attention, though some doubt was expressed as to its keeping qualities."

Horse and Buggy Recovered. Mr. Robert C. Orrell returned from Edenton last night where he recovered the horse and buggy stolen from him some time ago. One Luther Wright went to his stables on October 3rd and hired a team on disorderly conduct, was required to pay a the plea that he was going to Masonboro
