There are but seven States that have solid Democratic delegations, viz: Alabama, Arkansas, Delaware (one member,) Florida, Georgia, Mississippi and Texas. West Virginia, North Carolina, South Carolina, Louisiana and Tennessee have one Republican Representative each.

The Syracuse (N.Y.) Standard is a Republican paper, but it has a very proper view of a marked difference between the two parties. It says:

"It must be remembered that, while the Democratic is a permanent party, because it shelters most of the political conservatism of the country, which is a permanent fac-tor, the Republican party can only live by moving ahead."

To the best of our knowledge there is not now a town or village in the State. So rapidly have they grown within a few years that now they are all cities. For cities, 'possums, old folks, "Kurnels," big "punkins" and "big taters" the old North State has no equal on

Blaine is talking. He says the Republicans will have to nominate him again. He says there is a chance for the Senate to be Democratic before 1887. Blaine's figures are as follows,

had given another view: "With the elections in Ohio, Virginia, Maryland and Mississippi counted upon, there are 27 Republicans and 28 Democrats who are sure of their seat after March 4, 1887. Of the States electing Senators through next year's elections the Republicans will certainly carry Massachusetts, Minnesota, Nebraska, Pennsylvania, Rhode Island and Vermont. The Democrats will as certainly carry Delaware, Florida, Missouri, Tennessee, Texas and West Virginia This will give the Republicans thirty-three and the Democrats thirty-four Senators, with nine States debatable. They are California, Connecticut, Maine, Michigan, Newada, New Jersey, New York and Wisconsin. All have Republican Senators now except Nevada. If the Democrats can add any four of these States to the totals already given, Vice President Hendricks will become in 1877 'a bigger man than old Cleveland' by the grace of the tie and his casting vote."

The crop reports of the Department of Agriculture show that there is more cotton in 1885 than in 1884 but less than in 1882. The following might be studied with profit by cotton planters: The rate of yield by States is as follows: Virginia, 152 pounds per acre, North Carolina 157, South Carolina 142, Georgia 150, Florida 105, Alabama 145, Mississippi 165, Louisiana 223, Texas 182, Arkansas 200, Tenneesee 155. Take North Carolina-an average of 157 pounds to the acre, which is \$15 70 at 10 cents a pound. There is not an acre of land in Granville in any fair year that is planted in tobacco that can be coal cured that will not produce \$50 to the acre. The best will make from \$250 to \$500.

We are a little careful how we trust the statements of the New York World. As it is not friendly to the Administration probably it may be trusted in what it says of the Administration and the Tariff. Its Washington correspondent professes to get its information from "a high official." The purport of the matter is that the Administration will favor a revision and reduction of the Tariff, bringing it down to a strictly revenue basis. We fear this is almost too good to be true. But that is the right key. In fact the party cannot agree to do less. The President and Cabinet are said to be a unit in this matter. Excellent if

- Greensboro Workman; Messrs. Hinshaw & Bynum, of Winston, according to the Twin City Daily, shipped last week eight car loads of dried fruit, making 175,000 pounds.

- Oxford Torchlight: Oxford needs more dwellings and more business houses. There is a lively demand for them. —Quite a number of farmers of northern Granville have agreed to take down their fences enclosing crops and fence in their stock, beginning on the 15th inst.

- Greenville Reflector: At the session of the Board of County Commissioners on last Tuesday a petition was pre-sented asking that the people be allowed to vote upon the question of Pitt county's taking \$30,000 stock in the Goldsboro, Snow Hill and Greenville Railroad, and an election was ordered to be held on the 15th of December.

- Goldsboro Argus: The chief marshal of the Rocky Mount Fair, W. T. Dortch, Jr., writes us that there is a large crowd in attendance. — On Monday night as the north bound midnight train was leaving this city, a colored man from Toisnot, named Burrill Harrison, attempted to cross the track just in front of Cog-dell & Barnes' bakery; his foot caught in the iron and he fell. Before he could ex-tricate himself the train passed over him, horribly mangling his legs and rendering amputation necessary.

- Charlotte Observer : Baptismal services will be conducted at the Baptist church to night. There were eight accessions to this church last night, — The passenger train for Columbia which left this city yesterday afternoon, was composed of eight cars, to accommodate peo-ple going to the Columbia fair. The rail-road rate to Columbia and return is \$3.05, less than one single fare. — A stranger named Bates, who has been an inmate of the Home and Hospital in this city for eight weeks past, died in that institution on the evening of the 9th, and was buried

We understand that the Supreme Court has decided that this is unconstitutional, so it is a dead letter. — The tobacco crop of Caldwell is booming this year, a much larger acreage has been planted and what was raised having been nicely cured. Mr. W. D. Hickman, at Granite, with a ferce consisting of his three little boys and himself has made 14 barns of tobacco, which he thinks will bring him in \$1,200 (outside of his own and his sons' labor he has not paid out more than \$25 for labor on the tobacco crop), besides raising 600 bushels of corn and 400 bushels of wheat.

- Asheville Citizen : Our countryman, Mr. S. E. Penland, brought to our office a mammoth radish, which weighs over 10 pounds. — About 9 o'clock last night several groans were heard in the room occupied by Gen. Robert M. Henry at the Grand Central hotel. The clerk and others hastened up, and finding him suffer-ing, sent hurriedly for Dr. Williams, who responded at once, and rendered assistance but the General breathed his last in about ave minutes after the arrival of the doctor. Dr. W. pronounced his illness heart dis-This will be a great shock to General Henry's many friends throughout this section, for he was esteemed wherever known. He was about 60 years of age, and never married. He was a brothero the late Judge Henry. The bar and citizens will take suitable action to-day, preparatory to his obsequies.

- Raleigh News-Observer: Next Wednesday the Christian Church, on Hillsboro street, of which Rev. Dr. Jas. Maple is pastor, will be formally dedicated. -There are about half a dozen new tobacco markets in the State this season, and next season there will be a dozen more. —Mr. Ashley says his factory could afford to pay carpenters \$3 a day who now only get \$1.50 and \$2 if they had the skill and speed at work that the same class of mechanics have at the North. —Bishop Lyman will hold ordination services at the Church of the Good Shepherd next Sunday morning, on which occasion one or more deacons, including the rector of that church, Rev. Robert Strange, will be advanced to the priesthood. Many visiting clergy will be present.

—The Colored Teachers' Association met at the Congregational Church yesterday, the attendance being the largest on record. The meeting organized by re-electing the following officers: B. B. Goines, president; S. G. Adkins, secretary. In the morning Mr. Eugene G. Harrell addressed the teach-His remarks were pertinent and were well received. An excellent paper was read by S. A. - Rockingham Rocket: heard that Cyrus J. Knight, Esq., late Editor of the Tar Heel, published at Troy, N. C., was the possessor of a gold mine. Now we learn with equal pleasure that he has received \$12,000 in cash for the property. — Three car loads of colored people, numbering, all told, probably 600, left Laurinburg on Monday night for Arkan-This big shipment of flesh seems to have been engineered by a man named Williams, employed for the purpose by some combination of men out West. Captain Leggett, of Laurinburg, is said to have acted as agent also in the matter. One hundred and twenty tickets were sold by the R. R. Agent at Laurinburg, children under twelve passing free. The parties interested in the emigration pay expenses of transportation. — It is a cheering sign of improvement in the times that each one of the mills in and around Rockingham is now working up to its full complement of machinery. The Roberdel, being new and having greater disadvantages to struggle against, is now operating about one hun-dred looms. The goods being turned out are tip top, and its facilities for smoothing and folding the cloth, all by machinery, are capital; and to stand by and look at the process affords interest to the inexpert visitor. Hundreds of our population may well congratulate themselves that these mills now promise uninterupted employment for the future.

Mayor Hall disposed of the following cases vesterday morning:

Hiram Moore, a white man, charged with using insulting language to a police officer in the discharge of his duty; case dismissed.

David Kelly, colored, charged with sault and battery with a deadly weapon on Robert Jackson, also colored. The evidence was to the effect that Wednesday night, about 11 o'clock, during the progress of a dance in a house on the corner of Nutt and Mulberry streets, Jackson, having occasion to go to the front door, was assaulted by Kelly, who dealt him two blows with a large slung shot, one striking him on the left arm as he attempted to ward the lick off, and the other on the head, inflicting an ugly though not dangerous wound. Jack son testified that he had never seen the prisoner before, and no words had passed between them prior to the assault. After striking Jackson the prisoner ran, and a crowd of colored men immedately started in pursuit of him. Their cries of "stop thief," etc., brought officer Turlington upon the scene, who forthwith joined in the chase. Kelly was pursued up Front street to Walnut, up Walnut to Second, and up Second to the ice factory, where he fell into a hole and was captured by the officer. After hearing the evidence of two witnesses in the case the Mayor bound the

"A little more than three years ago the in Richmond, with a membership of about forty, and located on Grace street in the extreme western portion of the city. Rev Peyton H. Hoge was unanimously called to the pastorate of this new enterprise, he having just been ordained to the ministry. During this brief pastoral charge the church has grown and prospered continually, and new numbers about 130. The pastor has been untiring in his labors among his people, winning the warm affec-tion of all; and when the announcement was made a few .days since that he had accepted a call from the First Presbyterian church in Wilmington, N. C., sorrow brooded over his audience. But the die was cast and his decision was unalterable. This is not merely a loss to his late flock, but to the city of Richmond and the Synod

Mr. Hoge goes to a new and wider field, the First Presbyterian church of Wilming tou being one of the largest and most influential in the South, and bears with him the deep regrets, the warm love, and the best wishes not only of his recent church, but the entire community, and the prayer will follow him that the abundant blessings of a covenant-keeping God may abide with him and all his labors in his new home. The First Presbyterian church in Wilmington has a membership of about 300, and is looking with great hope and pleasure for the coming of their new pas-

On to-morrow night the Madison Square Theatre Company will present, at the Opera House, Bronson Howard's "Young Mrs. Winthrop." The New York Star says of the play:

'Bronson Howard's new play is entirely too good to be subjected to the battle-field surgery of mid-night criticism. A few words of warm commendation must suffice to convey the information that it was not only a great success, but a worthy one. The work is one of which no man writing for the stage to-day need feel ashamed. It is a story of every-day life, but does not preach a sermon; only points a moral daintily and acceptably. It is thoroughly interesting, without being either eventful or essentially dramatic. From beginning to end it does not require in a single sentence the emphasis of violent declamation. The sentiment of the play is pure, wholesome, and delicious. Thoroughly charming and marvellously refined. * * The play has a vein of comedy which is never coarse or farcical, and is as natural and enjoyable as the more serious element is life-like and sympathetic."

New Engine. The Goldsboro Daily Argus says of a arge and handsome new engine just put in service on the Wilmington & Weldon Railroad: "A large and magnificent new engine, No. 122, has just been put in service on the Wilmington & Weldon Railroad for passenger-train work. It passed through this city yesterday on its second trip, and is said to be the most powerful engine on the road. It is presided over by that trusted and eminently competent engineer, Mr. John Hessenger, who has been in the active employment of the W. & W. for more than twenty years, and who has during all those years never faltered once at the post of duty. He has many friends in this city.',

Pirst Practice of the Cun Club. A large crowd went over the river yes-

terday afternoon to witness the first shoot of the Wilmington Gun Club. The shooting was not very good, though this may be accounted for in part from the fact that many of the gunners had never before practiced at targets thrown from a trap. It is generally believed, however, that the next shoot will result in a much better score. Following is the result of yesterday, each participant being entitled to seven

The target used is constructed of clay and somewhat resembles a saucer, being about 1 inch in depth and 44 inches in diameter, and is thrown from a spring trap in various directions.

After the practice some very good shooting was done by Messrs. G. J. Boney and J. T. Anthony, the latter being also a member of the Club, but not arriving in time to take part in the shoot.

The Catholic Fair Last Night.

There was a large attendance at the Catholic fair last night, the interest in the success of this worthy object being, if any thing, on the increase. The contests between the fire companies for the silver pitcher; the bands for the handsome gold. medal; the members of the Light Infantry for the military smoking stand, and for the conductor's lantern, are fraught with no little interest and excitement to the friends and partisans of the different contestants. Several handsome and valuable articles were raffled off, and the lucky ones were the envy of all. To-night the Cornet Concert Club will be on hand, and some fine music may be expected, which, added to the other attractions of the fair. will make it one of the most interesting nights of the week.

The Road Through Angola Bay.

A correspondent (writing on the 9th inst.) who has visited the work being carried on by the convict force, under Capt. J. H. Mclver, in cutting a road through Angola bay, says it will be completed in about three days. The force will then leave to work on the Warsaw & Clinton Railroad; and when spring opens they will return and cut the branch road. In cutting these roads through the bay, our correspondent adds, a vast amount of good land will be opened up for cultivation.

Our correspondent also says that "times are hard in Pender, and money scarce, but we have hog and hominy a plenty and
