GOUT, RHEUMATISM, AND DISEASES GENE-RALLY OF URIC ACID DIATHESIS.

DR. JAMES L. CABELL Professor of Physiology and Surgery in the Med-ical Department of the University of Virginia and President of the National Board of Health, and former Resident Physiolan, Hot Springs,

Virginia.

'The water of Spring No. 2 contains in notable quantities two of the Alkalies, which are accredited as extremely valuable in the treatment of Gout, Lithiasis, and Liver Affections. I refer to the Carbonates of Potash and Lithia. It is now well known that both of these alkaline carbonates have an ascertained value in cases of Uric Acid Diathesis connected with Gravel, and in cases of Chronic Gout, because of their affinity for Uric Acid, and the great solubility of the salts which are formed by their union with that acid."

DR. ALGERNON S. GARNETT, argeon (Retired) U. S. Navy, Resident Physician

Hot Springs, Ark. Hot Springs, Ark.

"My experience in the use of Buffalo Lithia Water is limited to the treatment of Gout, Rheumatism, and that hybrid disease 'Rheumatic Gout' (so called), which is in contradistinction to the Rheumatoid Arthritis of Garrod.

"have had excellent results from this Water in these affections, both in my own person and in the trainment of patients for whom I have prescribed it. Of course the remedial agent is its contained Alkalies and their solvent properties. "Hence, it is a prophylactic as well as a remedy in Nephritic Colic and forming Calculi, when due to a redundancy of Lithic Acid."

DR. W. B. TOWLES,

Member Medical Society of Virginia, Resident Physician Hot Springs, Va. "I feel no hesitancy whatever in saying that in Gout Rheumatic Gout, Rheumatism, Stone in the Biadder. and all diseases of Uric Acid Diathesis, I know of no remedy at all comparable to Buffalo Lithia Water, Spring No. 2. In a single case of Bright's Disease of the Kidneys I witnessed very marked beneficial results from its use, and from its action in this particular case, I should have great confidence in it in this disease?"

> DR. T. B. BUCHANAN, Resident Physician, Hot Springs, Ark.

"Send me five cases Buffalo Lithia Water, spring No. 2, I have made use of this Water for fout in my own case, and prescribed it for padents similarly suffering, with the most decided Americal results. I take pleasure in advising Gouty patients to these Springs."

COL. BOB'S GIFT.

It was a gray and grizzled band-Survivors they of twenty years, Who wore the blue and saved the land, And found the laurel drenched in tears; For vict'ry's wreath was dearly bought— The emty sleeve, the crutch, the scar, Bore living witness how they fought, These comrades of the G. A. R.

ro-day they come with sweet intent, For them a task of holy love-To help to raise a monument Where lay the comrades called above; When, as they talked, the white-haired

Arose, and, with a husky sob. Said: "Comrades all, 'tis my belief You'd like to hear from Colonel Bob."

He held a letter in his hand. And read it through with trembling tone: 'Comrades," he read, "I want to stand A share in that great pile o' stone, An' though I hain't got much to send, You won't despise my humble aid, For every brave man is my friend— I was in Stonewall's old Brigade!

I want to add- though lackin' space We all were comrades through that job, Some side by side—some face to face— And them's my feelin's—Colonel Bob." The reader paused—a tender look Across each rugged visage played, And then a cheer the rafters shook For Colonel Bob and his Brigade.

THE THREE GREAT CROPS.

Tradesman.

The corn crop is the greatest and most valuable raised by our farmers. At least 40 per cent. of all cultivated land in the United States is planted in corn. The crop this year will reach the enormous total of 2,000,000,000 bushels, 56,000,000 net tons, or more than a ton to each man, woman and child in the contry. The value of this crop, estimating it at 25 cents per bushel, to the farmers, reaches the grand total of \$500,000,000.

The next in importance and value to its producers is the cotton crop. If this year's product reaches the maximum estimate, 8,000,000 bales, it will be worth to the planters, at 8 cent a pound, \$320,000,000. But cotton has a national value as an export that no two crops, combined, will equal. We pay at least \$30,-000,000 of our foreign bills in exported raw cotton, while not more than \$40,000,000 or \$50,000,000 worth of wheat, and perhaps half that much value in corn, are sold

The wheat crop of the United States is one of great value, and the largest grown by any one country. The last crop amounts to about 320,-000,000 bushels, and is worth to the producers about \$165,000,000. Being the basis of fully one-half the luxuries of the tables of the rich and the staff of life of the well to do of our 56,000,000 people, its importance as a food article is greater than that of any other grown in this or any other part of the world. Wheat is eaten by civilized and half-civilized men everywhere, and therefore its mere money value by no means corresponds with its actual importance in human economy.

#### OUR STATE CONTEMPORABIES.

Some simpletons say that Cleveland and the Democrats have made hard times. Do they ever consider the question, How? For not a law has been passed nor one changed since Cleveland became President. He has only been enforcing Republican laws, as his oath of office required him to do. Do they think of this, or do they think at all ?-Reidsville Times.

Democrats in their platforms, and especially in the platform upon which the present Administration was elected, have pledged the party to give the people a revision of the tariff. The people expect a complete reform of the present tariff system. No doubt an effort, and a successful one too, will be made by the Democrats of the House to revise the tariff.—Scotland Neck Democrat.

During our last Superior Court a weakminded man was caught on a trial of some length. The jury hung and were kept in the jury room all night. The agreed next day, rendered a verdict and were discharged. But the mental and physical strain was too much for poor Mr. Clarida. He started for home with some neighbors. During the night he ran off from the camp and was not seen for several days, though diligent search was made by his friends and distressed family. His mind had become unhinged and he was terribly afraid of his fellows. He has partially recovered .-

The Wilmington Mornine Star has entered upon the thirteenth year of its existence, and we take this opportunity to congratulate it upon its prosperity and deserved popularity. Dr. J. BRADFIELD'S Female Regulator!

ATLANTA, GA , Feb. 20, 1884. DR. J. BRADFIELD: Dear Sir-Some fifteen years ago I examined the recipe of Female Regulator, and carefully studied authorities in regard to its components, and then (as well as now) pronounced it to be the most scientific and skilful combination of the really reliable vegetable agents known to science, to act directly on the womb and uterine organs, and the organs and parts sympathizing directly with these; and therefore providing a specific remedy for all diseases of the womb, and of the adjacent organs and parts. Yours, truly,

JESSE BORING, M. D., D. D. CAUTION!

The country is flooded with quack nostrums, containing IRON and other injurious ingredients, which claim to cure everything-even FEMALE COMyour life, BEWARE OF ALL SUCH !

Bradfield's Female Regulator is a purely vegetable compound, and is only intended for the FEMALESEX. For their peculiar diseases it is an absolute
