MORNING EDITION

OUTLINES. The U. S. Senate was not in session yesterday; the House adjourned at 12.30 until Monday. -The revolutionary Governor of Monterey, Mexico, surrendered and has been imprisoned. - The Presidential Succession bill will be reported to the Senate Monday. - The Importing Company, of Charleston, S. C., organized for the development of direct trade between that city and South America, begins operations by ordering 5,000 bags of coffee from Rio. - Cotton crop in sight 3,764,848 bales. - The will of the late Wm. H. Vanderbilt provides liberally for his poor relations. - The Supreme Court of Obio decides in York Star says:

favor of the Democratic candidates in the contested election cases. - New York markets: Money 11@2 per cent.; cotton quiet at 91@9 7-16c; wheat, ungraded red 87@984c; corn, No. 2 December 504@514c; southern flour weak; spirits turpentine steady at 371c; rosin steady at \$1 021@1 10.

What do the Mormons think of the President's message?

John W. Daniel makes remarkable time for a lame man on crutches.

Why is Servia like a bad boy who receives his deserts? It gets licked

At this time Parnell is a "biger man" than either "old" Gladstone "Jd" Salisbury.

The President failed to say anyby about the bankruptcy act in is long-winded say.

The Grand Army of the Republic has resolved to erect a monument to Grant in Washington.

After Sam Jones has stirred up St. Louis he will next tackle Cincinnati. Beware of too much hog and hominy.

Railroad accidents are very common in the South. Georgia had two in one day recently. North Carolina has its share.

There is one thing even a Crossus cannot do. He cannot carry his riches with him. He must go but they must remain.

The income of the late Mr. Vanderbilt was nineteen dollars a minute. Ours is less than that and we are comparatively happy.

The Pennsylvania miners along the Monongahela river are on the rampage. They are waylaying and beating inoffensive workingmen.

Queen Victoria has eighteen palaces at her disposal. This beats Secretary Endicott. He has only

three residences, we believe. Randell gives his nights and days, it is said, to studying the rules of the House. He is not an apt student and he is afraid Reed will get ahead

of him in Parliamentary dodges. There is nothing at this time so touching in politics as to witness the untempered zeal of certain Southern Democratic papers throwing their shields in front of Protectionist Ran-

Our bright and newsy contemporary, the Philadelphia News, is informed that tar does not grow on vines and is not a product of the tobacco plant, and is not peculiar to the mountainous section of Carolina.

London news of the 10th represents that the Tories and Liberals are bidding for the Irish vote. It is also reported that both Mr. Gladstone and Lord Salisbury are anxious to be Premier. The party leaders are now holding conferences.

Secretary Lamar wants a grand National University at Washington; the Attorney General wants a huge National Penitentiary at Washington; Senator Blair wants the General Government to become the Great School Teacher in the States. Whither are we drifting?

There is a great deal of unmixed meanness and deviltry in this world and it is not confined to races, countries or sections. One of the lowest and most diabolical manifestations of natural depravity occurred at Bakersville, Pa., on the 8th inst. Rev. W. F. Yates was set upon by a gang of rowdies and stoned until he fell senseless in the street. He is beheved to be fatally injured. No arboasted "higher civilization?"

THE MORNING STAR.

VOL. XXXVII.--NO. 69.

WILMINGTON, N. C., SUNDAY, DECEMBER 13, 1885.

The Democrats in the recent elections not only gained in the cities but in the rural districts. In Connecticut they gained in cities 1,119, and outside 2,813. In New York they gained 5,701 in the cities and outside 16,379. In New Jersey they gained 52 in cities and 2,350 outside. In the three States they gained 6,872 in cities and 21,542 outside. So this looks as if the Democrats gained where heretofore they have not been strongest. That means something. Does it not show that the people outside of cities are looking with more favor upon Democratic methods if not Democratic principles. The New

But we now have a Democratic President and a Democratic House. The rural voters have had time to see that nothing dreadful has happened. They are quite satisfied that the country is safe. They see that they have been lied to and deceived. The more intelligent among them have for a long time been more or less dissatisfied with Republican rule. They were disposed to make a change, provided it could be made without danger. They now see that this is possible, and they will assist in making the change complete. The current with them is turned toward Democratic as-

Trouble About a Jug. A colored woman was in Magistrates' row yesterday "in a peck of trouble." Her husband, she said, in anticipation of the Christmas festivities bought a jug of wine(?) and carried it home. But the joy thereat had been turned to sorrow. Her husband had since purloined the jug and taken it to a store down town, and all her bright anticipations for the future had been rudely smashed. She wanted a search warrant issued to find the jug, and was inconsolable when told that she could not

THE FLORENCE NIGHTINGALE OF THE NURSERY.—The following is an extract from a letter written to the German Reformed Messenger, at Chambersburgh, Penn.: A BENEFACTRESS. Just open the door for her, and Mrs. Winslow will prove the American Florence Nightingale of the Nursery. Of this we are so sure, that we will teach our "Susy" to say, "A blessing on Mrs. Winslow" for helping her to survive and escape the griping, colicking, and teething siege. Mrs. Winslow's Soothing Syrup relieves the child from pain, and cures dysentery and diarrhea. It softens the gums, reduces inflammation, cures wind colle, and carries the infant safely through the teething period. It performs precisely what it professes to perform, every part of it—nothing less. We have never seen Mrs. Winslow—know her only through the preparation of her "Soothing Syrup for Children Teething." If we had the power we would make her, as she is, a physical saviour to the infant race. Sold by all druggists. 25 cents a bottle.
