Dr. Holmes is very bright and witty and gifted, but we confess we broke down in reading his last work and turned to more inviting fields.

There is very little doubt we suppose as to the changing of the rules of the House. In the Committee there were four votes to one. Randall was that one. He is always opposing the wishes of his party.

The New York World's advertising sheet for Sunday beat anything the globe has seen. It actually had 173 columns. On December 14, 1884, 1t had 109; and on December 15, 1883. it had 31. Was there ever such a growth before ?

Mr. Thomas M. Alfriend, one of the best known citizens of Richmond, Va., died on the 11th inst., in his 75th year. He was the father of Mr. Frank H. Alfriend, at one time connected with the editorial staff of the STAR.

Miss Lenore Gordon Hussey, pretty, eighteen-year-old Southern girl, has just appeared as Leah. The Times lets her down as easily as possible by saying that "for an amateur her performance last night was not remarkably bad."

Rev. M. L. Ferris, pastor of Tivoli Baptist church, N. Y., is in hot water. He has been proposing marriage to several of his members although he is married himself. Parson Downs, of the same church, has gone down in Boston because of love making to another man's wife.

Gen. William Tecumseh Sherman has prepared a second and carefully revised edition of his memoirs.-Northern Exchange.

He ought to "carefully revise" that huge lie he told on Wade Hampton and about the burning of Columbia. He ought also to tell the truth about the burning of Atlanta, and he ought to incorporate his famous order organizing a Corps of Bummers. Draper gives it in his history of the "Rebellion."

Dr. Deems says W. H. Vanderbilt sent for him a few weeks before his death and conversed with him freely about religion. He says his distinguishing trait was honor. His word

supposed that Representative Reid would have supported him.

> The results of the English elec tions are said to have satisfied the Continental Powers, however doubtful they may be regarded at home. A London special of the 12th to the N. Y. Times says:

"So far as Europe is concerned, Lord Salisbury has sustained a practical defeat, and accordingly Russia and Austria are getting ready for a partition of the Balkan Peninsula between them. With a working majority at his back, Lord Salisbury might have prevented this, as thus far he has prevented it, but both empires feel justified in leaving England out of account at a moment when the even division between the two parties seems to them likely to lead to nerveless foreign policy.

Spirits Turpentin:

- Raleigh's receipts of cotton thus far are 18,533 bales-a falling off of 6,623

- Three negro boys in Wake county, brothers, were fooling with a pis-tol when it exploded, and the younger one was badly wounded.

- The venerable Daniel Stone, of Vance county, is dead, aged 84. We have known him for nearly fifty years and he was an honest man and a good citizen.

- The Henderson Gold Leaf has completed its fourth volume. It strikes us that it has improved during the last year. It is perhaps the best paper in its section. - Greensboro Workman: It is said that the readiest way to insult a Raleigh man is to insinuate that there is some defect in the electric light lately introduced.

- Greenville Standard: Two negro men were arrested in town this morning for horse stealing. They each stole a horse from Bath, Beaufort county, last night and strived here early this morning. The horses stolen are at Baker's stables and the negroes are in jail.

- Hickory Press: Mr. Jacob Little, of Cline's township, raised on a quarter of an acre of land 200 bushels of fine sweet polatees. --- Our tobacco buyers and manufacturers tell us that 2,500,000 pounds of leaf tobacco will be required to fill their demands this season. — Several Northern gentlemen are here looking after timbers. They will perhaps establish man-

spent Thursday last at Washington, Beau-fort county. A prominent farmer told us that the rice fell at least 300,000 bushels short of what the prospect promised at midseason. An Agricultural Fair, to be loca-ted at Washington, is being agitated. A 14 year old daughter of S. B. Sawyer, of Bath, was so terribly burned by her clothing taking fire on the 27th ult., that she died on the 80th. - Geo. Wolford, a butcher in Washington, committed suicide on the 25th ult., by taking laudanum. Do-mestic trouble and dissipation were the cause. - Four trials for murder at this term of Court, to wit: Israel Eborn, for hooting a colored man; R. C. Mr. Beattie had heard the voice of a child crying and determined to make a rescue He boldly entered the house and in a corner which the flames had not quite reached pulled a child three years old from under a table where it had crawled and safely made his way with it to the open air. It was such a close work that Mr. Beattie's hair and whiskers were badly singed by the fire. The parents had gone off to spend the day.

- Raleigh News-Observer: Maj. W. H. Bagley, Clerk of the Supreme Court, who has been taken to Baltimore for special treatment, was accompanied by Dr. E Burke Haywood and Mrs. Bagley. — Mr. Holt, deputy revenue collector for Johnston and Harnett, in company with Mr. A. H. Temple, made a raid into Harnett Wednesday and destroyed 500 gallons of beer, turned over four tanks and burned the still house. They did not get the operators. ---- for the fiscal year ending November 30, 1883, the drummers' licenses issued brought into the State treasury \$61, For the year ending November 30 400. 1884, the State realized \$63,000 from their sale. For the year ending November 30, 1885, the number of licenses issued was the greatest on record, and the receipts from this source were \$86,700, an increase of \$23,700 over the previous twelve months. - TARBORO, Dec. 12.-The Wilmington & Weldon Railroad has bought out the Albemarle & Raleigh Railroad, and is in full possession. From the opinions expressed, I am led to believe that few of them favor the stopping of silver coinage. — GREENSBORO, N. C., Dec. 10.—At 10 o'clock this morning Benbow Hall was filled to its utmost capacity by the delegates to the Prohibition Convention, which was organized with Prof. F. S. Blair, of Summerfield, as chairman pro tem., and Mr. W. R. Odell, of Concord, as secretary. After some preliminary matters had been discussed and arranged the chairman announced that the object of the meeting was to discuss the propriety of forming a third political party in North Carolina-a Prohibition party. After con-

siderable discussion, both for and against the formation of the party, the matter was postponed to a later hour. Mr. T. L. Vail, of Charlotte, was elected permanent president, and Messrs. W. F. Steele, of Greensboro, and W. R. Odell, of Concord, were elected permanent secretaries. Professor Hopkins addressed the convention for half an hour, after which the meeting adjourned until 2 o'clock.

Colored Masons.

The Most Worthy Grand Lodge of col ored Masons met in annual communication in the town of Warrenton on the 8th inst. and closed its labors on the 10th. Much business was transacted; more especially on account of the widows and orphans' endowment department, a medium through which eight thousand dollars has been raised and distributed for the relief of over fifty widows and their children during the past four years. The members of the Grand Lodge were highly complimented by the people of Warrenton, and the use of the court house was granted them free of charge by the county commissioners, as a place of meeting. The following officers were elected for the ensuing year: Grand Master-Rev. J. W. Telfair. Deputy G. M.-D. B. Yancey. Grand S. W .- Stewart Ellison. Grand J. W .- J. M. Williams. Grand Secretary-Jos.
