Entered at the Post Office at Wilmington, N. C. as Second Class Matter.

MORNING EDITION.

OUTLINES.

Chinese are being driven out of Seattle, by Knights of Labor; the Chief Justice of the Territory has asked the department to send troops; it is believed there will be serious trouble.

Mr. Sam Randall is anxious to be Governor of Pennsylvania. Atlanta, Ga., has an artesian well that yields 200,000 gallons daily.

Lynchburg will celebrate its centennial during 1886—probably in October next.

First, Dakota, and then Montana and Washington, Texas would make six big Democratic States.

The Florida freeze destroyed \$1,035,000 of oranges according to an estimate of the Jacksonville Times-Union.

The Northern widows are flooding Washington with letters and they are all about that increase of pension they are to get.

Etelker Gerster, now lying very ill in London, is a Hungarian, as is Jansaucek. She was born in 1856. She is a very fine singer and is married to Signor Gardini, an Italian.

B. L. Farjour, a clever English novelist, married the only daughter of the famous Joe Jefferson. If she is as good a wife as her father is an actor she is a jewel of the first water.

The New Bern Journal is informed that Dr. Thomas F. Wood, of this city, has a copy of John Brickell's history of North Carolina and Lawson's work. They could hardly be borrowed, however.

Geronimo is a very famous Indian chief and he has surrendered to the pale faces. Gen. Crook has him and the warrior will now smoke his pipe in peace provided the whites do not give him too much rum.

All the United States Senators are natives but five. England furnished 1, Scotland 1 and Ireland 3. All the Southern Senators were born South and all the Northern ones are of the North, except Senator Hawley, of Connecticut, who claims North Carolina as his place of nativity.

The Indiana of Montana have painted themselves red again and are hunting for white scalps. There are very grave apprehensions felt as to what deviltry they are in search of as they are known to be securing with suspicious avidity arms, ammunition and horses.

The bright and newy Goldsboro Argus is also opposed to the Blair bill. We would like to know all that are opposed. We are almost certain that the Elizabeth City Falcon and possibly the Economist also, is opposed to the dangerous, unconstitutional bill.

Mr. Morrison is reported as preparing a very moderate Tariff measure. There ought to be a scientific reduction, and on the commodities of life it ought to be heroic. Mr. Hewitt's plan is meeting with favor, but he is a Protectionist. The duties will be specific instead of ad valorem.

J. D. B., in Raleigh Recorder, tells of a very strange baptism that is fit companion to the marriage mentioned in the Star of Sunday. A live woman was married to a dead man in New York. In North Carolina a dead young woman was baptised in her coffin after she had been dead

THE MORNING STAR.

VOL. XXXVII.—NO. 117. WILMINGTON, N. C. TUESDAY, FEBRUARY 9, 1886. WHOLE NO. 6048

two days. A Rev. Mr. Austin on Sulphur Springs Circuit, Buncombe county, Holston Conference, administered this very remarkable rite. This is the first instance of baptising the dead we have heard of in modern times.

The Augusta Chronicle, of Sunday, publishes a special from Columbia, S. C., in which an ex-State Senator told how Tilden came within one hour of being President in 1876. He said:

"Tilden was within one hour of being President of the United States. The South Carolina Republican electors were for sale but they came high. The Democrats wanted them, however, although their price was a little exorbitant. The State Committee had a position to purchase their votes, and had little interest in or desire to do so, as Hampton had been elected Governor, and the people were so rejoiced over this that national matters were regarded as of small consequence. The National Committee had information of the condition of the electoral ticket, and was somewhat more inclined to invest."

The gist is that \$60,000 was to have been paid for the vote of South Carolina, but in the last moment this arrangement miscarried.

Edward Payson Weston on the 6th of February finished at Chicago his walk of 2,500 miles. He is a teetotaler whilst O'Leary crooks the elbow. A special says:

"Weston has been walking 54 days and averaged 46 1/2 miles per day. O'Leary did not appear on the track until he collapsed Tuesday from too free use of stimulants. The final score for O'Leary was 2,329 miles. It was agreed in making the match that the contestants were to walk 12 hours daily, the man who covered 2,500 miles first to be the winner. The walk was for a purse of \$3,000, offered by New York advocates of temperance."

There appears to be but little doubt that Mr. Edmunds is losing his power with his party in the Senate. The following Washington special of the 6th looks that way:

"Mr. Edmunds and the Republican party do not appear to have any course in regard to the President's nominations found that the opposition to hold a caucus to-day was so strong among the minority of the Republican Senators that they abandoned their purpose to call one. They found that a respectable minority of the Republican Senators were opposed to any attempt to bind the Republicans of the Senate to support Mr. Edmunds."

Mr. Speer, the Washington correspondent of the Atlanta Capital, a very handsome weekly, says of Black Jack Logan:

"No statesman of the period has more audacity and bounce than John Alexander Logan. To see him lay off his jacket, flourish his resplendent pocket-handkerchief and skip into the debate with a sort of prairie whoop, is worth going a long way to see."

Spirits Turpentine.

There were fifteen deaths at Charlotte in January. In Richmond county the no fence law goes into effect on the 26th inst.

Louisville is to have another newspaper, of which Mr. W. B. Green will be the publisher. An invitation has been extended Rev. Dwight L. Moody, the famous revivalist, to visit Raleigh while on his Southern tour.

Lenoir Topic: Eight hundred crates of cabbage and three thousand crates of apples have been shipped by rail from Lenoir, Caldwell county, this season.

In 1872 Reidsville had a population of 100, with property valued at \$10,000 to day it has 3,000 inhabitants, taxable property amounting to \$1,850,000. Rev. Edward Wooten, late rector of the Episcopal Church at Statesville, and County Superintendent of Instruction, left with his family, Tuesday evening, for their home in Delaware.

Gen. Cox's bill, introduced in Congress last Monday, gives Raleigh district as an circuit one of the United States, and transfers Obaham, Orange, Warren, Durham and Person from the Western to the Eastern district.

Monroe Enquirer-Express: Jno. A. Helms, who was charged with committing a rape upon a colored girl, near Monroe, last spring, and who has been awaiting trial in an out-house, where they had been fifty-four days without anything to eat or drink. The boys were very thin when found, but now they are fat and healthy.

Hillsboro Observer: Mr. O. B. Cates, who lives near Cole's store, in this county, missed two of his hogs some time last year. After Christmas the hogs were found, shut up in an out-house, where they had been fifty-four days without anything to eat or drink. The hogs were very thin when found, but now they are fat and healthy.

The 23d instant there will be a meeting at Washington, D. C., of the National Department of Superintendents of Schools. This is composed of the various State superintendents of public instruction and prominent educators. The programme is an interesting one. Many important questions will be discussed. Major E. M. Fieger will deliver an address on the "Educational and Religious needs of the Colored People of the South." Col. Robert Bingham will discuss the need of "Manual Training for the South." The attendees will be very large and a number of teachers will go from this State.

New Bern Journal: It is with much regret we hear that Captain Appleton Oaksmith had another attack of paralysis last evening and was in a critical condition at last accounts from him. Among the confirmations of Executive appointments in the Revenue service, by the Senate, on the 2d instant, we notice that of Engineer Charles W. Beckwith, of Connecticut, to be first assistant. Lieut. Beckwith is now, and has been for some time, on duty on board the cutter Stevens. As we stated before, disbursing funds in Owen county for improper purposes is not a

CITY AFFAIRS.

Meeting of the Board of Aldermen and Board of Audit and Finance—A Contract Made for a New Fire-Alarm Service.

The Board of Aldermen met in called session yesterday afternoon at 4 o'clock to hear the report of the committee on Fire Department in the matter of the proposition of the Gamewell Fire-Alarm Company. There were present Mayor Hall and Aldermen Bear, Boney, Giles, Worth, Dudley and Darby.

Alderman Bear, from the Committee on Fire Department, submitted the contract which it was proposed to make with the Gamewell Company, by which the latter agreed for an annual rental of \$775 to furnish fifteen fire-alarm telegraph boxes to be located in different parts of the city, as follows: Corner of Fourth and Dock streets; Fourth and Princess; Water and Market; Mulberry and Nutt; Harnett and Love's Alley; Fourth and Hanover; Seventh and Market; Fourth and Howard; Sixth and Red Cross; Anderson and Miller; Kidder's Mill; Castle and Surry; Seventh and Castle; Church and Fourth; Cape Fear engine house. Also, one tapper at the Water Works, one tapper at the residence of the Chief of the Fire Department, one gong in Cape Fear engine house, one gong in the Little Giant engine house, one gong in the Hook and Ladder house, one gong in the Adriaan engine house, a striker in the Fourth street tower to replace the one now in use there, and all the lines, batteries and other apparatus requisite for a complete and perfect system; and to keep the same in good condition until the city desires to purchase.

Alderman Boney moved to strike out a clause in the contract that provides for giving the striker now in use in the tower to the Gamewell Company, on the ground that the instrument cost the city \$350, and he thought that it should not be surrendered for nothing. This matter was debated at some length. Alderman Dudley said that the striker would not work properly and was useless in case of fire. Alderman Bear did not consider it of sufficient importance to stand in the way of the contract being at once consummated. The motion was finally put to a vote and was lost, only Aldermen Worth and Boney voting for its adoption.

The contract as submitted was adopted. Mayor Hall then suggested that the bell in the tower was too small; that to make the whole fire alarm system perfect he would advise the purchase of a 1,500-pound bell to replace the one now in use, which weighs about 850 pounds. It would cost the city \$300, less \$50, for which sum the old bell could be sold.

Alderman Darby submitted a resolution that the Committee on Fire Department be instructed to purchase a fire-alarm bell weighing not less than fifteen hundred pounds, to replace the one now in use; and on motion of Alderman Dudley the matter was referred to the Committee on Fire Department, with power to act.

After the adjournment of the Board, which then took place, the Board of Audit and Finance convened, and approved the contract made with the Gamewell Company.

For "Jack" Savage. The many friends of Mr. John W. Savage, formerly of this city, but for the past five years a resident of Alexandria, Va., will regret to learn of his death, which occurred in that city on Saturday morning last.

Mr. Savage gained some knowledge of telegraphy at the Western Union office in this city, while connected with the Telephone Exchange, and through the influence of friends was employed by the B. & P. R. R. Co., about five years ago, and stationed on the "Long Bridge" near Washington, D. C. From there he went to Belleville, Md., where by close application and steady habits he soon fitted himself for a more responsible position, and was placed in charge of the B. & P. R. R. Co.'s office at Alexandria, Va., where he remained until last July, when he had the misfortune to get his leg broken. Although he recovered sufficiently to get out he never regained sufficient strength to enable him to discharge the duties of his office, and shortly after a partial recovery he gradually grew weaker, until compelled to take his bed, some weeks ago. "Jack," as he was familiarly called there, as well as here, had many warm friends in Alexandria, who rendered him all possible aid during his long suffering, which he bore patiently. Deceased was about 58 years of age, and a widower—his wife having died in February of last year, leaving two bright children, a girl and a boy; the latter being too young to realize his loss.

The Gamewell Fire Alarm. The City Council and Board of Audit and Finance yesterday afternoon ratified the contract made by the Fire Committee with the Gamewell Fire Alarm Company, which action insures to our city the Gamewell system on and after April 1st. There are to be fifteen alarm boxes located in different sections of Wilmington. Should a fire break out, the nearest box will be opened and a lever pulled down, this action will simultaneously strike four times the number of the box from which the alarm was started, in each of the engine, hose reel and hook and ladder houses, also at the house of the Chief of the Fire Department and the Superintendent of the Water Works; and the citizens generally will be notified of the location of a fire by the alarm being struck from the bell in the Fourth street tower. Cards will be
