Powderly's plan for the government of the Knights of Labor is to have national, state, district and local assemblies.

In New York a shameful act of deviltry was perpetrated. Some strikers weighted down a safety valve to cause an explosion.

Does the Wilson Advance brother prefer a name for a great denomination that cannot be parsed to a name that is grammatical? We pause in deep anxiety for a reply.

Rev. Charles Spurgeon has written a letter against Home Rule. Charles ought not to meddle with politics, and ought not to work against a people striving for their rights.

At Girard, Ga., a 9-year old boy killed a 7-year old boy by striking him on the head in a fit of anger. He has been arrested for murder. His name is John Linneham. His victim was George Howard.

North and West Texas are suffering from a very long and severe drought. In forty counties the crops are almost an entire failure. In North Carolina this would be probably regarded as a splendid instance of success in farming.

There were 250 members of Parliament present at the Liberal meeting on Thursday night. Mr. Gladstone outlined his plans. There is a brightening prospect for Home Rule. The bill will be amended and postponed until October. Mr. O'Connor, M. P., says the postponement is a shrewd stroke of policy.

President Darby, of Columbia Female College, S. C., took his girls to Jacksonville, Fla., on an excursion. A reporter of the Herald got up a bogus interview with one of the girls. An apology was demanded and promised. Here was the end:

"As Dr. Frank Darby was on his way to the train he was accosted by the reporter with some insulting words, when he promptly struck him, and as the reporter drew a pistol, Dr. Darby knocked him down, when his friends carried him off, and Dr. Darby joined his party at the depot in time to take the train.

It is said that all the Democratio delegation in Virginia will be reelected with the exception of Maj. John W. Daniel who goes to the Senate in place of little Mahone. It will be remembered that both Mr. Tucker and Mr. Barbour declined reelection. It seems that everyone who has as yet been mentioned as the successor of either of these gen, tlemen has declined in favor of the present members. Both of these gentlemen are useful, able, influential members. Mr. Tucker is equal to any man in the House in ability.

Talk about uniting the Northern and Southern Methodist Churches is absurd. You cannot mix oil and water. There can be no heart affiliation between two organizations composed as they are. Another generation must come on. Here is a recent specimen of how rabid, how wicked, how devilish a Northern Methodist preacher can be when he spits on his hands, pulls off his coat and goes for

- Railroad fare has been reduced for the benefit of those visiting the University Commencement. The rates are 2; cents a mile each way and hold good from May 27th to June 7th.

-Oxford Orphan's Friend; Among other distinguished speakers who will be with us on the 24th of June, is Hon. R. B. Vance. From various sections of the State the brethren are notifying us of their intention to be present.

vival at the Methodist church continues with increasing interest. Rev. A. R. Raven expects assistance from Revs. T. J. Gattis and J. N. Cole. Eight have been added to the membership so far.

-- Advices received by the Department of Agriculture are that in some of the eastern counties the cut worms are troubling the farmers beyond precedent. In some instances they have literally destroyed the corn and melons,

- Clinton Caucasian: Rev. Dr B. F. Marable occupied his pulpit at the Presbyterian church Sunday morning and evening. He has recovered from his injuries received by a fall from a buggy a few weeks ago, and his general health seems improved.

- Tarboro Southerner: William Cook, colored, Sunday lost quite a fine mule. It was in a pasture with a cow and a young calf. The mule was after the calf. so the cow attacked the mule and gored it, actually disemboweling it. — Last Friday Charles Killebrew a colored lad about sixteen years old went into a store in Princeville and asked to look at a pistol. James Bryan, colored, the clerk, at first refused, but afterwards took it out of the show case and shoved it to Killebrew, remarking, "Here, take it." In this act it was discharged, the ball striking Killebrew in the forehead and entering the brain.

- Wadesbo Intelligencer: The jujudicial convention of this the Seventh District will meet in Fayetteville on the 29th of July, for the purpose of nominating a solicitor. — The freshet is reported to have done immense damage along the Rocky and Pee Dee rivers to land and growing crops. In Steele township, Richmond county, the damage is estimated at \$20,000. We have only heard of two men who were benefite 1 by the freshet—Mr. George B. Dunfap and Mr. John D. Pemberton. A three-inch deposit was left on Mr. Dunlap's land on Rocky river, and Mr. Pemberton's Richmond county plantation is reported to have received a deposit worth at least a thousand dollars.

- Weldon News: Yesterday just pefore the arrival of the Raleigh & Gaston train a telegram was received from the authorities at Raleigh requesting the arrest of F. M. Carll and wife and describing them. The pair were arrested but there was some delay in precuring a warrant and the legality of holding them without one was doubtful. They got away and went across the bridge. — We learn from our Ringwood correspondent that the barn of Mr. C. W. Garrett, at the Vineyard, was burned Monday together with 1,500 bushels cotton seed and a large quantity of corn, fodder and guano. His silos and ensilage were also destroyed. — The Rev. Mr. Rhodes, principal of Central Institute, Littleton, has begun the erection of a new wing to the building, known as the east front. It will be three stories high and will contain twelve rooms. When the main front is finished it will be 116 feet

Truck Farms Damaged by Hatt.

The storm that passed Wilmington Friday afternoon, going in the direction of Wrightsville Sound, did little or no damage in that section, so far as could be learned. The storm that came up later in the evening is reported to have been very destructive along the line of the Carolina Central Railroad, but particulars could not be gathered. In the neighborhood of Castle Hayne and at Rock Hill, in Cape Fear Township, hail fell in great quantities and caused incalculable damage to the truck farms in the vicinity. James K. Davis, who lives at Rock Hill, says that the storm passed over his place about 8 o'clock, coming from the northeast, and the ground was covered with hailstones in a very short time. He had two acres of cantaloupes and two acres of watermelons completely destroyed, and his corn crop cut down and ruined. Nearer the city the rain was heavy and some hail fell, but caused no damage-

Bishop Northrop, of Charleston, S. C., is

the guest of Col. F. W. Kerchner. Prof. Edward, Cantwell, formerly Wilmington, will have charge for three weeks, from the 21st of June next, of the elocution class of the North Carolina Normal Institute, at Wilson, N. C., before proceeding North to his other appointments for the summer.

Among the arrivals at the Orton yesterday were W. F. McKall, Washington, N. C.; J. L. Memory, Whiteville, N. C.; W. H. Thorton, J. A. Euston, New York; M. M. Davis, A. R. Meek, J. J. Hill, Charleston: Geo. Crabtree, Balto.; L. D. Brewneck, Charleston; N. J. Keecher, N. J.

The Change of Gauge. The change of gauge on the Southern railroads that is now in progress is expected to have a stimulating effect on the lumber trade. Mill men along the lines of roads who send their lumber to Wilmington for shipment think that it will result in lowering the rates of freight by sailing vessels to Northern ports. A railway paper published at the North says it is expected that temporarily, at least, the Southern scaports will lose business, lecause Southern freights can be sent North here-

For the Star. PUBLIC IMPROVEMENTS.

EDITOR STAR: I will esteem it a courtesy

you will print in your valuable paper the following reflections concerning the business interests of our community. At the meeting of citizens held in the Opera Honse on Tuesday evening last was developed unmistakably a disposition on the part of our people to put in motion some plan of action which will put new

life into the arteries of commerce and internal improvement. The factions also devel-oped that the affairs of our county are in such excellent condition (thanks to the honesty and frugality of our indefatigable Board of County Commissioners) that we can well afford to make a venture of one or two hundred thousand dollars in a manner that will insure an indirect return in the shape of increased population and appreciation in the value of property and

There are three projects of inestimable value and pressing necessity to revive the dormant energies of our people. First: The ferries across the river and the enormous charges necessary to keep them up amount almost to a prohibition to farmers living on the west side of the river to bring their produce to the city, consequently, having no encouragement they make little or no effort to improve their condition, but are seemingly content to eke out a miserable existence, under the ban of ferry charges. But with free ferries, carts and wagons would come from the extreme ends of Brunswick and Columbus to our market. Project No. 2 is the extension of the C. F. & Y. V. R. R. to our city. I have understood that with an investment of \$100,000 in second mortgage bonds, the road will be immediately brought here, which will give us another competing line to the great markets of the West and open up to our trade a portion of the most thrifty part of our State. Now for the last, but not least proposition—the Onslow Railroad With the expenditure of \$100,000, a syndicate can be formed to build a road to New River, a distance of a little over 40 miles, which will skirt our sounds and open up trade that cannot fail to be remunerative and which cannot be diverted. It will add to the value and attractiveness of our sound property; and people from all parts of the State will flock to our coast. Now, supposing for argument, that the money would be lost that was put into these schemes; can any one deny but that the material interest will be advanced in a much larger ratio than would be necessary to pay for the outlay? One effect of an appropriation for one or all of these projects would be instantaneous—the money would not leave the community, laborers would be employed, supplies would be bought to carry on the work, our population would be immediately increased, the value of real estate would be enhanced: and we would enter upon an era of prosperity that nothing could hinder. Can the county do this? Undoubtedly. She has no debt not provided for, her credit is A1, she can negotivided for, her credit is A1, she can negoti-ate her bonds at par at a low rate of interest, and the increase in the taxable values will pay off the debt by the time it is due and everybody will be better off. It is to the interest of all classes of our citizens to do this. It will undoubtedly create a demand for mechanics and laborers; it will increase the avenues of trade for our mer-

that our city, with its improved shipping facilities, shall be one of the principal outlets to foreign markets of the produce of the West. Now let us do this; let us go at it in earnest, talk it to our neighbors and friends and keep the public mind thoroughly informed as to its great importance, and then formulate a plan for putting it into effect.
When these things are done, and all of our material interests are "blossoming as the rose," and our city has inaugurated a system of sewage which will rid our town of a possible plague on account of the fil-thy cess pools all over it then the cry for parks and ornaments will be of such a character as not to be mistaken, and they will be built of such proportions as will be commensurate with the dignity of our

chants; it will make business for lawyers; it

will enhance the value of real estate and

other property, and will make it possible
