

MORNING EDITION.

OUTLINES.

Victims of the recent riots in Belfast were buried yesterday; there was no violence or disorder. — The Shah of Persia has granted to Ex-U. S. Minister Winston concessions for the construction of railways in the empire. — Bullion in the Bank of England on balance is \$38,000. — The Secretary of the Navy is anxious to secure lists of steamers of the merchant marine that in case of need may be used for cruisers, or transports or special service. — There have been heavy storms and floods in France, and three shocks of earthquake. — A fire was raging in Muscatine, Iowa, yesterday; the Mayor telegraphed to Davenport for help. — A severe earthquake shock at Asbury Park, N. J., was accompanied by a rumbling noise. — At the convention of delegates of the Telegraphers Brotherhood, it was resolved to unite with the Knights of Labor. — It is stated that the British Government has issued orders to make no more seizures of American vessels except where the violation of the treaty is open and flagrant. — New York market: Money 1@2 per cent; cotton weak at 9 3/16@9 1/2; wheat 1c lower, No. 2 red 83c; corn 1@1c higher; southern flour unchanged; rosin dull at \$1.00; spirits turpentine quiet at 83c.

It is said the President knows how to fish with a fly.

Grandpapa Folsom's pile was \$400,000. Everybody seems to be rich in the North except the laborers.

All of the teachers of "the light fantastic step" are now in session in New York. "Balance all; turn your partner."

A great plot to rob is said to have been discovered at St. Louis. The magnitude of the conspiracy is reported "immense." The sheriff has the matter in charge.

Lord Carnarvan was the Tory who made the large promises to Mr. Parnell, but he now says he did it "unofficially." Mr. Parnell did not so understand "my Lord." It is too thin at this late day. The dodge will not do.

The Wilson Advance says of the address of the gifted editor of the Mirror before Mt. Olive High School:

"His speech was filled with beautiful thoughts elegantly clothed in the best of English."

Brother Blount knows how to adorn any subject he treats.

Miss Cleveland's second literary venture is a novel. She calls it "The Long Row." But what is it all about? Is it the long row that her brother has to weed out in getting rid of the Republican teat-suckers, or is it a row that will come off in the White House the first time he forgets that he is only Vice President now?

Some of the Southern members in Congress are very, very sorrowful, and its all about a probable failure to get that seventy-nine million grab that old Blair so generously proffered. Between grief because fruit brandy is taxed and the grab cannot be secured some of their hearts are in great danger of breaking. Alas! alas! "T was ever thus from childhood's hour, &c." For remainder see Tom Moore.

There are some curious features about the recent election in Oregon. The Democrats elect the Governor by some 1,500 majority. They also elect the Secretary of State and Supreme Court Judge. The Republicans elect the Congressman by nearly 1,000 majority, and two of the minor State officers by small majorities. This is the latest we have seen. On the whole, the Democrats have won a victory. Blaine carried Oregon by 2,256 majority.

Great crowds attend upon the proceedings of Sam Jones at Indianapolis just as they did in Baltimore and elsewhere. The Baltimore American says:

"Dr. Renben Jeffrey, pastor of the First Baptist Church, sternly denounced the methods of brother Jones, and called him a moral scavenger—though what that may be is not easy to say. Dr. E. J. Gantz preached three sermons against the evangelist last Sunday. Nevertheless, it is reported that six of the churches of Indianapolis were closed on last Sunday night, by reason of the counter attraction of Sam Small. The crowds that go to hear him are immense. When brother Jones can empty the churches of his critics, and preach them bare to the very sexton, he might as well not try to reply to their harsh criticisms upon him."

We are really pleased to see it announced that Gen. Marcus J. Wright of Tennessee and A. L. Long of Virginia are engaged upon and will

THE MORNING STAR.

shortly bring out a popular life of General Robert E. Lee. We hope they will make it readable and thorough, and that special attention will be given to the actual number of Confederates engaged in the main battles. This is important. The Northern writers, Generals included, are doing all they can to misrepresent the numbers. They forget that 2,800,000 men were in the Northern army and 600,000 were in the Southern.

We have received a very neatly printed catalogue of Charlotte Female Institute. It is gotten up upon an unusually elaborate plan. There are eleven teachers connected with the school. The graduates of the class of 1886 number eight, four of whom are from North Carolina. There are 159 pupils, representing five States and Switzerland and Siam. The expenses are \$112 50 for twenty weeks. This includes board, tuition, &c. Music, drawing, piano, &c., are extra. Dr. Atkinson has built up a most flourishing institution and he is doing an important work for North Carolina and other States.

In 1854, the eminent Charles Gayarre, of Louisiana, published a pamphlet in which he wrote "a Government of the people and by the people." So Mr. Lincoln's famous saying—"A Government of the people and by the people and for the people" was only original as to the last clause—"for the people." See Hayne's biographical article in *Southern Bivouac* for June.

Death of Capt. E. B. Wiggins.
 Capt. Eugene B. Wiggins died at his residence in this city yesterday afternoon. For some time before his death Capt. Wiggins had been an invalid, having been seriously injured by an explosion of gun powder on a turpentine farm in South Carolina several years ago, and from the effects of which he never fully recovered. He was aged about 38 years, and was a native of Halifax county, N. C.

Capt. Wiggins was a gallant Confederate soldier, was wounded three times during the war and served until the surrender at Appomattox. He came to Wilmington in 1875, and a few years thereafter married the only daughter of Hon. A. H. VanBokke len, who, with three children, survive him. His funeral takes place to-day at 4 p. m. from St. James' Church.

The Fish Market.
 The fish market was abundantly supplied yesterday afternoon with fresh and salt-water trout and perch, black-fish, pig-fish, snappers, sheep head, etc. Prices for them were very low. At the lower end of the market there were piles of sturgeon, which fish finds ready sale, principally with colored people. It is about the cheapest article of food that can be purchased, a "chuck" weighing some five pounds being sold for ten cents. Properly cooked, it is said to be a healthy and nutritious food, and very palatable. In the Northern cities sturgeon sell in ten and fifteen cents a pound.

Cape Fear S. F. E. Co.
 At the regular meeting of the Cape Fear Steam Fire Engine Company, held on the 7th inst., the following officers were elected for the ensuing year:
 Foreman—Robert Morrissy.
 First Assistant—J. M. McDuffie.
 Second Assistant—Isaac Brinkley.
 Treasurer—Stephen Jones.
 Corresponding Secretary—John L. Bowden.
 President—Valentine Howe.
 Vice President—John Jackson.
 Recording Secret'y—Godfrey Willis, Jr.

Cotton Receipts.
 The receipts of cotton at Wilmington during the past week were 285 bales, against 26 bales the corresponding week last year. For the crop year, from Sept. 1st to June 12th, the receipts were 101,342, against 93,851 bales for the same period last year—an increase of 7,491 bales.

Local Notes.
 — County Register Sampson issued five marriage licenses the past week—three for white and two for colored people.
 — The Carolina Oil and Creosoting Company are preparing a large number of treated cross-ties for a railroad in South America.
 — The Young Ladies' Guild of St. James' Church will give a musicale Wednesday, at Miss Annie Hart's school room, on Third street.

Complaint is made that the street lamp at the corner of Front and Walnut streets gives little or no light. Probably the trouble is with the burner.

The rectory of St. Thomas' Catholic Church, recently finished, shows some beautiful specimens of the new art of polishing natural wood, as practiced by R. L. Hutchins, the painter.

The following interments are reported in the different cemeteries during the past week: Bellvue—three adults and two children; Oakdale—one adult and two children; Pine Forest (colored)—one adult and seven children.

Messrs. Fowler & Green started the machinery in their stove and shuttle-block factory yesterday and turned out a few thousand staves. Everything was found to be in order. It is the intention of the proprietors to begin regular work Monday.

Base Ball—Sumter vs. Seaside.
 On Tuesday and Wednesday, probably, will be played the best game of ball that a Wilmington audience has yet had the pleasure of witnessing. Sumter will put in the field a strong team, composed, report says, of players of reputation and skill. The Seaside will oppose them, with the finest, best practiced team ever spread on their diamond; players who are determined to win, if playing can bring about that desirable result. We understand the Seaside will appear in a new uniform, made and given to them by some of the ladies of our town who admire the game and desire our boys to make an appearance on the field equal to their playing ability. It is a compliment to be appreciated, and if they never played ball before, this should nerve them to an exhibition of all the talent there if in them. It is a remarkable fact, however, and one known and weighed by superstitious bell-players, that a new uniform is invariably a "Jonah," and the club that dons it meets inevitable defeat. But the Seaside prize their gift so highly they are determined to defy the fates and try to change the current of tradition, and win the game, regardless of contingencies—"when first they put their uniforms on."

Excursions AHEAD.
 An excursion to Lake Waccamaw on Tuesday is advertised by the Committee of the Second Presbyterian Church Sunday School—Messrs. J. R. Chasten, J. D. Mallard and W. C. VonGlahn. It will be a pleasant affair, no doubt.
 The "Gamma Theta Eta" literary society, an organization of some of the most clever young men in the city, will give an excursion, to Smithville and the Forts on Thursday, the 17th instant. As this excursion is given for the purpose of securing a library for the society, it is to be hoped that the young men will be encouraged in their laudable undertaking of acquiring knowledge, by a large and liberal patronage.
 On Wednesday night there will be an excursion to the Rocks, on the *Passport*, under the management of Mr. George N. Harris. There will be vocal and instrumental music on board, furnished by the Harpers and the Asph Club.

A "Wobber."
 A very dark colored man with a very big stick, was indignantly pounding the sidewalks and lamp posts in the neighborhood of Front and Nun streets Friday night. He said he was trying to attract the attention of a policeman; that a "wobber" had got into some white woman's house in the neighborhood of the Cotton Factory, and that people in the vicinity had hurriedly dispatched him for one of the "guardians of the night." Upon inquiry yesterday morning it was ascertained that the so-called "wobber" was simply an unwelcome and untimely visitor at the house of a Mrs. Franklin, and who refused to leave the premises when requested to do so.

Religious Notices.
 Rev. Dr. Yates has returned and will preach to the congregation of Front Street M. E. Church to-day.
 Rev. A. M. Conaway, pastor of the First Baptist Church, (colored), will baptize a number of persons this afternoon at five o'clock, in the river at the foot of Princess street.
 Rev. D. J. Sanders will preach at Chesnut Street Presbyterian Church, (colored) this evening. Services to begin at a quarter past 8 o'clock.

Electric Lights.
 The contract of the Electric Lighting Company with the city for lighting the streets begins July 1st. The poles and wires are all up and the hoods for the lamps are in position. The company expected to have everything ready for lighting about the 15th of this month, but delay in the arrival of some of the plant will prevent the completion of all the necessary arrangements by that date.
