The Protectionists in the House are bragging that they will slaughter the Morrison Tariff bill by twenty majority and by the aid of Southern Democrats,

Gen. Wheeler has asked for a committee to revise his speech on Stanton and to strike out all that is not true, That is a good move. If it is an hosest committee they will let the record remain.

The best specimen of reasoning thus far developed by the friends of the Blair bill is, that it is a Democratic measure because so many Southern Democrats favor it. Jess so! There is hope for the country

That was a prompt reply a young Wilmingtonian made to another young man of an inquiring turn of mind. Queried A: "Where were artesian wells first dug?" The response was: "In Artesia." The answer was every way satisfactory.

New Orleans is to have a Sunday law. So the Legislature has decreed. Well it was badly needed, and we hope it will be rigidly enforced. It is time the people of New Orleans had heard that there was a day to be kept holy and in which labor was to cease, including theatres and circases and rum mills.

Probably before the year 1886 ends there will be war in Europe. If not that, then grave social disturbances. W. H. Hurlbert writes from London to the New York Sun:

"The summer promises to be stormy, not only in England but in France, which is profoundly disturbed, not so much by the expulsion of the Princes as by Socialist and Communist movements, of which the expulsion is only a symptom."

The fight on the Tariff bill begins to-day. Washington correspondents are about agreed that it has but little showing. The New York Democratic delegation is divided. It seems to be composed of goodly number of Protection advocates. They will vote against the Morrison bill. Randall of course is opposing. It is said that the delegations from the Carolinas, from Georgia and Alabama are solid for a consideration of the bill.

Lord Garmoyle, (Earl Cairns) is the young buck who had the suit with Miss Fortescue and had to pay \$450,000 for breach of promise. He has been or is ingaged now to Miss Adele Grant, wealthy, of New York. His income is said to be \$50,000. A report is he tried to borrow money from the bride's mother and in consequence the engagement is broken. Now it is his time to sue. He might possibly get back some of that \$450,-

# The Small Boy's New Wrinkle.

The small boy's craze for collecting post, age stamps, bird eggs, etc., bas taken s new turn. Some of the youngsters are getting up cabinets containing selections of earth, stones, etc., from foreign countries, gathered along the wharves and on some of

the streets about the city. With little trouble and paine, very interesting collections might be made. Vessels are arriving here almost daily laden with ballast-soil, rocks, stones or shells-from the different quarters of the globe. Specimens of iron and copper ores are occasionally found in these and pretty pieces of coral from West India and other islands. Some handsome specimens of granite from Brazil have been gathered, chalks and flints from England, and infusorial earth from the west coast of Africa.

The Lottery Prize. The lucky holder in this city of the ticket in the Louisiana Lottery, drawing a tenth of the \$20,000 prize, did not come forward yesterday-as it was expected he wouldand "set 'em up for the boys." Conjecture was rife all day as to the identity of the fortunate individual. Rumor had it that dealer on Market street, and another report was that an agent of one of the beer breweries represented in Wilmington was the man. It was currently reported, also, that was not the fact, unless some one had without his knowledge purchased a ticket in his name-something entirely improbable. He was not the holder of a ticket.

Seasides vs. Sumter—The Home Team

Again Win. The Seasides scored another victory yesterday, but they had a hard battle and a close one. The game was exciting from its commencement and grew in interest as it progressed. Sumter played well and improved wonderfully on the playing of the day before. The Seasides went to pieces in the fifth inning, and the visitors scored two runs, but these were all they made during

The Sumter boys have proved themselves courteous and gentlemanly in all their transactions and playing here. Their manager has the thanks of the umpires and marshals for the excellent manner in which he seconded their efforts to preserve order and carry on the games with decorum and in a gentlemanly spirit. We have had few clubs here who have taken defeat so gracefully and with such good spirit, and the Seasides will welcome them here at any time, and hope they may have the pleasure of meeting more clubs composed of such men as play and manage the Sumter nine.
