OUTLINES.

The House Committee on Foreign Affairs adopted resolutions to be laid before the House, requesting the President to renew the demand for the release of A. K. Cutting, imprisoned by the authorities in Mexico.

Mrs. Cleveland is a member of the Presbyterian Church. The death rate in Charleston for last week had fallen to 33.80 in the 1,000 upon an annual basis.

Mr. D. S. Henderson declines to be a candidate for the nomination of Lieut. Governor of South Carolina.

Gen. Gordon finds no enemy in the field to oppose his election as Governor of Georgia. Thus far not even a hungry or impecunious independent has been scared up.

The Galatea is safe in port. She was so long out fears were held that she had been lost. She is the English cutter that is to make the race with some Northern craft.

The numerous office-seekers in Washington are greatly shocked at the announcement that the President will leave Washington for a vacation as soon as Congress adjourns.

The Bulletin of North Carolina Board of Health has been received for July. Of 210 prisoners in the jails 82 can read and write; of 483 in the poor houses reported, 94 can read and write.

According to Mr. O'Connor the following is probably the best distribution of party strength as shown by the English elections: Tories, 322; Gladstonians, 198; Parnellites, 86; Unionists, 65.

Dr. Henry E. Shepherd has a large class at Martha's Vineyard to whom he is delivering a long course of lectures every day. He will spend two weeks in his native North Carolina on his return to the Presidency of the College of Charleston.

We publish the main portions of a needed and excellent editorial taken from the Richmond Advocate. Judges, Solicitors, Governors and citizens generally might read and inwardly digest with profit. There is too much sympathy with rascals among officials. Dr. Lafferty knows the vulnerable spots and just where to put his cayenne.

Thus far there are four independent speakers for Congress. Three—Jones, Linney and Malone—have announced themselves. It is as good a year as could happen for the slaughtering of all bolters. The white people of North Carolina know how to estimate bolters and kickers at their proper worth. They know that Democratic independents only mean Republican trickery.

News from London is that the Tories are anxious to postpone Irish affairs and to occupy the time of Parliament with foreign questions. This increases Mr. Gladstone's influence. Mr. O'Connor cables on 1st to N. Y. Star:

"Mr. Gladstone has sent messengers to make inquiries of the Nationalists as to their disposition to act with him in the matter, and has received the encouraging answer that Nationalists are resolved to recover the question of home rule and are, for that reason, strongly opposed to the delay asked for by the party now in power."

THE MORNING STAR.

The voice of Texas is for war with Mexico. Gov. Ireland sent Secretary Bayard a document that reads like a war message. He demands satisfaction from Mexico and says Texas will redress her own wrongs if the United States Government does not protect her from Mexican outrages. The cry is "Remember the Alamo," and with this slogan the war fever increases. The Democratic Congressional Convention at San Antonio demanded that the murder of an American citizen be avenged. A special to the N. Y. Times from Dallas of 1st Aug. says:

"Meetings in approval of the Governor's action were held to-night in various parts of the State. In this city at noon yesterday a file and drum band, followed by a crowd bearing the United States flag, paraded the streets. Thousands of men, white and black, turned out and for nearly an hour the city presented the appearance of being in the hands of a mob. Last night inflammatory addresses were delivered on Main street by the Mayor and half a dozen other speakers who exhibited here to-day from a well known ex-Confederate officer who says that he only awaits the moral backing of Gov. Ireland before taking the field with a force which he believes can in a few days be swelled to 10,000."

There are a set of ghouls and vampires in the North who live by lying and by sucking the life-blood of character and fame. One of these has begun his work in slandering the pure and lovely and gifted Hayne. The Philadelphia Times says:

"Paul Hayne's son, William H. Hayne, writes to the Chicago News to deny pretty much everything written to that journal about the dead poet by J. L. Martin. The letter gave the impression that the senior Hayne was imprudent and cranky, and concluded by saying Martin lived two years near him. Young Hayne says, however, that neither his mother nor himself has the remotest recollection of Martin."

The Charleston correspondent of the News and Courier, referring to the present incompetent, inefficient Congress, writes on 1st August:

"The long session of the 49th Congress is nearly over, and yet there is practically nothing but the general appropriation bills to show that our lawmakers have been at the Capitol since last December. This has been a do-nothing session, and because the Democratic party has been divided, and the Republican minority has outgeneraled its political opponents and prevented the majority from accomplishing several important measures which would have done credit upon Congress and the Democratic party."

Spirits Turpentine.

The State Democratic Convention will meet in Raleigh on the 25th of August.

Warrenton Gazette: And now our friend and fellow-citizen, the Rev. J. A. Pritchard, has "gone and done it." Not content with serving the Lord as a minister of the gospel, he is a candidate for the Legislature at the hands of the Radicals.

Raleigh Visitor: \$10,200 was realized by the State Treasurer from the sale of drummers' license during the month of July. Departed this life, on Sunday afternoon, Aug. 1st, 1886, at 3 o'clock, Miss Millard M. Gorman, aged 36 years.

Asheville Advance: Misses T. I. VanGilder and E. C. Carver of this city, have contracted with Mr. E. J. Armstrong for the building of a magnificent brick hotel at the famous White Sulphur Springs, situated four miles west of Raleigh. It will cost \$35,000.

Reidsville Times: From private and public sources we hear that Mr. Webster of the Weekly proposes running as an independent against Mr. Reid. Judge McEae, acted as mayor of Wentworth, after the fight was over. One man was fined \$50 for contempt of court.

Raleigh News-Observer: The engineer named Pat King who was killed on the Louisville & Nashville Railroad last week, turns out to have been the man who for years ran on the North Carolina Railroad. The latter has relatives here and his home is near Asbury. He is now running on the Atlantic Coast Line road and is in excellent health.

Elizabeth City Falcon: The Tyrrel county Democratic Convention, held at Columbia on the 29th, endorsed Mr. Moon, Strong and Pruden for the Supreme Court, and Skinner for Congress.

Farmers who were in town this week spoke much more hopefully of the crops in Pasquotank. It is very evident that after careful examination the damage done by the rains is not so great as was popularly supposed. It has been no little, however, to crops on low undrained lands.

Charleston News and Courier: The ordination of Mr. W. S. Royall to the Christian ministry yesterday attracted a large number of friends of the candidate from Mount Pleasant and the congregations of the city Baptist churches to the Citadel Square Baptist Church. Mr. Royall was graduated at Wake Forest College, North Carolina, and has been called for the last two years. He has been called to the pastorate of the Baptist Church at Appomattox Courthouse, Va.

Goldsboro Messenger: The conduct and bearing of Lieut. Gov. Stedman, after the result at Wadesboro, furnishes an example which might well be followed by all Democrats in North Carolina. When told of the result at 2:30 in the morning, he was lying in bed at the hotel, but immediately sent a message about as follows: "Give my regards and congratulations to Col. Rowland, and tell him I wish to make one speech for him during the canvass which I wish him to hear personally. Tell him it may not be as great a speech as others that may be delivered in his behalf, but none will be more honest and sincere."

Hickory Carolinian: Will G. Means, of Concord, writes to the Charlotte Chronicle that Judge Montgomery has promised to resign his judgeship in case a certain suit was to be brought, which Mr. Means says must be brought for claimants to recover. The way Mr. Means looks at matters the Judge is putting himself in a position we had not expected of him and hope he will be able to explain to the satisfaction of his many friends. We have known Judge Montgomery from our student days, and have always considered him a man of good sense, sound honor, and unassailable character.

SMITHVILLE.

The Railroad Project—Public Meeting—Propositions Submitted by the Syndicate, &c.

A meeting of the citizens of Brunswick county was held at Smithville Monday last, in the interest of the proposed railroad from that place to London, Ky. Hon. D. L. Russell, as attorney for the Railroad Company, submitted a proposition to the County Commissioners, the substance of which was that the county subscribe \$100,000 in bonds to the road, drawing 6 per cent interest and payable in forty years. The bonds to be deposited in any bank which the Commissioners may select until the completion of the road from Smithville to the South Carolina line—a distance of thirty-eight miles—and the bonds then to be delivered to the Railroad Company. It was suggested that this proposition be submitted to the qualified voters of the county, as authorized by the charter which has already been procured.

The Commissioners agreed to submit the matter to the voters of the county, provided the Railroad Company would amend the proposition so that the bonds should be delivered only when the road is completed to Bennettsville, S. C. This would give Smithville an outlet to the West—by connection with the Cape Fear & Yadkin Valley Railroad—even if the proposed road were completed no further. It was also conditioned that interest on the bonds should not begin until the time of delivery of the same. It is believed that the company will agree to this amendment to their proposition, when the matter will at once be submitted to the people of the county. We understand that there is a strong sentiment in favor of the road throughout the county, and there seems to be little doubt that the subscription will be voted by a large majority.

The name of the corporation which proposes to build the road is the Northwestern & Southeastern Railroad Company. They have a surveying party now in the field, running a line from Smithville to Conwayboro—sixty five miles—and thence to Bennettsville, S. C.—seventy-five miles—where the road will strike the C. F. & Y. V. R. R.; thence it is proposed to build the road to Hamlet and Salisbury, N. C., and to the coal and iron fields of Tennessee and Kentucky.

The prospect of the road being built has already started a small boom in Smithville, and real estate has considerably enhanced in value.

Mortality Report for July.

The report of Dr. Potter, City Physician and County Superintendent of Health, for the month of July, gives the aggregate number of deaths in the city as 46—four whites and forty two colored. In his report, Dr. Potter says: "I do not think it necessary to comment further upon the causes of the so-much greater mortality amongst the colored inhabitants. As there are twenty-six young children and sixteen adults in the list of colored; the fault to a great extent is due to the constitutional condition of their parents. I do not pretend to intimate that there is no imprudence in eating, sleeping, etc., on the part of the colored people—thus lowering their vital standard; but judging from the nature of their diseases, we do not think these causes are by any means the prime factors in their case. The rapid drainage of water off the streets and lots after the heavy rains and the thorough application of lime and copperas has done much towards allaying our fears as regards disease. I would be glad that weeds, grass, &c., gathered in private lots, should be placed so that the city carts can reach them and all other like material. Much sickness may be avoided by an observance of the city ordinance bearing on the subject. I am glad to be able to state that whooping cough has nearly subsided." The classification and causes of death are as follows: Whites—Heart disease, 1 male adult; inanition, one male adult; laryngitis, 1 male adult; paralysis, 1 female adult. Total 4. Colored—Cancer, 2 females, 1 adult and 1 child; cholera infantum, 4 male children; convulsions, 1 male child; consumption, 3 male and 2 female adults; diarrhoea, 1 female child; debility, 2 male adults, 1 female child; dysentery, 1 male and 1 female child; drowned, 1 male child; eclampsia, 1 female adult; congestive fever, 1 male child; malarial fever, 3 male adults, 3 female children; typhoid fever, 1 female adult; remittent fever, 1 male child; heart disease, 1 male and 2 female adults; still-born, 2 males and 2 females; stomatitis, 1 female child; teething, 1 female child; trismus nascentium, 1 female child; tetanus, mesentericus, 1 male and 1 female child; whooping cough, 1 male child. Total 42.

Local News: Col. Chas. R. Jones, of the Charlotte Observer, was in the city yesterday.

Capt. F. M. James reports twenty-one interments in the county cemetery—Oak Grove—during the past month.

Mr. J. Q. Holt, late teacher in the Dead and Dumb Asylum at Raleigh, died yesterday afternoon, at that place, of typhoid fever.

St. Thomas' Church will give one of their delightful excursions on the Passport Thursday. Dinner and refreshments will be served on board by the ladies.

Messrs. J. H. Chadbourne & Co. cleared yesterday the schooner W. B. Mackie for Cape Hayti, W. I., with 159,418 feet of pitch pine lumber and 101,500 shingles, valued at 2,705.79.

Dr. J. F. Newell, of Onslow county, died very suddenly on Sunday last at Soco's Ferry. He was a brother of Capt. W. H. Newell, conductor on the Wilmington & Weldon Railroad.

The monthly meteorological summary issued from the Signal station in this city shows that the total rainfall during July was 31.12 inches; the highest temperature was 94.5, on the 28th; the lowest, 66 degrees, on the 10th.

BASE BALL.

A Strictly Amateur Game—Mechanics vs. Acme.

The game of ball yesterday was purely an amateur one. It was well patronized. The principal features of the game were the sharp fielding and heavy batting.

Of the Acme those specially worthy of mention were Kingsbury, who made a brilliant catch of a high thrown ball, and Munroe, who caught two high flies to left. Curoe sustained his reputation as a good short stop. The battery of the Acme also deserve credit.

Of the Mechanics, Thompson made a beautiful catch of a difficult fly, making a double play unassisted. The battery of the Mechanics played well.

Double play—Thompson, unassisted. Umpire—Keley. Passed bases—Rice 3, Riley 2. Time of game—9 hours. Batters hit—Hendrick 3, Grant 0.

Sudden Death in Montgomery County.

A correspondent at Wadeville, Montgomery county, says: "Our community was startled on last Thursday evening at the finding of the dead body of Mr. John M. Byrd in the road near his mother's home, four miles south of this place. Mr. Byrd had eaten a hearty dinner at a neighbor's house, and was found dead at about 5 o'clock p. m. of the same day. The cause is unknown, but as there were no signs visible of foul play on his person, it is supposed he died of apoplexy or heart disease. He was a member of the First regiment of Junior Reserves during the late war, a man of fine character, gentle and amiable in disposition."

Onslow Democratic Convention.

A telegram to the STAR says that the Democratic Convention of Onslow county instructed for Hon. George V. Strong for Supreme Court Judge. Hon. W. J. Green was the first choice of the Convention for Congress, and Hon. W. T. Dorset second choice.

SEVEN AND MARINE.

PAUL J. CARRAWAY, Presiding Elder.

HOW THE SOUTHERN IMPROVEMENTS ARE MADE.—The Louisiana State Lottery Lighting struck on Madison Street, Memphis, at the last fair, drawing \$1,000,000. The prize was \$100,000. Postmaster Hon. J. H. Smith, who won in a dollar apiece together, drew \$100,000, or \$50,000 each. It is reported that they will add to the fund for protecting the South Memphis river front.—Memphis Appeal, June 18th, 1886.

MRS. WINSLOW'S SOOTHING SYRUP.—Rev. HAN FRENCH writes in the Boston Christian Freeman: "We would by no means recommend any kind of medicine which we did not know to be good—particularly to infants. But of Mrs. Winslow's Soothing Syrup we can speak from knowledge in our own family. It is a blessing indeed, by giving an infant troubled with colic pains, quiet sleep, and the parents unbroken rest at night. Most parents can appreciate these blessings. Here is an article which works to perfection, and which is harmless to the child. It is the infant's friend, and is perfectly natural, and the little cherub awakes as bright as a beacon." And during the process of teething its value is incalculable. We have frequently heard mothers say that they would not be without it from the birth of the child till it had finished with the teething stage, on any consideration whatever. Sold by all druggists, 25 cents a bottle.
