Robert L. Taylor is the Democratic nominee for Governor of Tennessee, and his brother, Alf Taylor, is to be his Republican opponent. They are sorry brothers if they oppose each other.

After seventeen months of Democratic rule the Democrats of Savannah are cheered by having two offensive partisans ousted and two Democrats put in charge of the Postoffice and Custom House, Great 18 the Civil Service humbug, but it will not do in cases like this. Bah !

The Northern Mugwump papers are delighted at the favor the Civil Service fraud meets with in South Carolina. Curious Democrats those who believe that to the vanquished belong the offices. Calhoun, the elder Butler, the elder Hampton, McDuffie and Rhetl never taught any such flapdoodle politics as that.

The Indiana Democrats did not think enough of Mr. Cleveland's hobby, the "monumental humbug of the century," Civil Service, to indorse it. They ignored it altogether. How can Democratic Conventions indorse the Administration without indorsing its Civil Service record, its war upon silver and its oleomargarine record?

We are really glad to see Mr. A. M. Keiley honored in spite of Austria and Italy and his defamers. He has received the appointment of Cairo, Egypt. This court is com- taken by a woman.

The papers are beginning to touch up Mr. James H. Merrimon for volunteering to prosecute the Asheville Citizen. We would like to hear what he has to say in defence or explanation. He is a candidate for Superior Court Judge and this matter may assume a very serious aspect. The papers always call a man "Hon." as soon as he is a candidate. Of course it should be "Judge" Merrimon, although he may not be elec-

Carolina Central Railroad.

The bridge on the Carolina Central over the First Broad river, three miles west of Shelby, has been completed and trains have been running over it for several days. The bridge over Brushy Creek, one mile beyond the First Broad river, was completed Wednesday morning last. The track will now be laid rapidly for a distance of eight miles, until it reaches a bridge over Sandy Creek, which is now under course of construction. All the bridges between Rutherfordton and Shelby, five in number, are built of wrought iron upon the most improved plan, by the Phœnix Bridge Company, which would indicate that the Caro lina Central intends to stay up in that part of the country.

High Temperatures,

The Signal Service observer reports the maximum temperature in Wilmington yes terday at 91 degrees, between twelve and one o'clock. At other places in this cotton belt the maximum was higher, being 98 degrees at Wadesboro, 96 at Weldon and Cheraw, 95 at Lumberton and Florence, 93 at Newbern and Raleigh, 92 at Charlotte, 91 at Goldsboro, and 98 at Salisbury.

The Watch Stealing Case.

Abe Schriver, the white man charged with stealing a watch from a young man at the "Dew Drop" saloon on South Water street, was discharged from arrest by Justice Millis, the evidence brought out in the Judge of the International Court at examination showing that the watch was

The Bribery Case. City Detective Mayer, Mr. M. Schloss and Lewis Stork, arrested on Thursday last on the charge of attempting to bribe an officer, and placed under bond of \$100 each for their appearance before Justice Millis, were present at the preliminary examination which took place yesterday morning before the Justice. After the hearing Messrs. Schloss and Stork were discharged from arrest, the evidence against them not being sufficient to warrant their detention. The Justice reserved his decision in the case of Detective Mayer until Monday morning at 10 o'clock. The only witness for the State. Deputy Sheriff Strode, stated that he went to the Commercial Hotel on Thursday last to arrest Stork, on a warrant charging him with drumming without a State license. He was approached by Detective Mayer who offered to give him \$2.50 to go off and let the man alone. He agreed to the proposition and was invited into the bar-room of the hotel, where the detective asked Mr. Schloss to give the deputy sheriff the sum of money mentioned. It was given to him, when he

returned to the magistrate's office and pro-

cured warrants for the arrest of the parties.

The defendants were represented by coun-

sel but offered no testimony.

The Suicide. Very little additional light has been thrown upon the mysterious suicide of the unknown man supposed to be one "W. G. R. Frazor" from papers found on his person. He could not have been in the city long, for of the great number of persons, boarding-house keepers, policemen and others who looked at the body, not one remembered ever seeing him in the city before the day of the suicide. It'is known. however, that he called at Mr. Yates' photograph gallery and asked for work, about 9 o'clock Friday morning. Mr. Orr, in charge of the gallery, told him that he had nothing that he could give him, and sent him across the street to Cronenberg's gallery, where he was also unsuccessful in his application for work. The conductor who came in on the W., C. & A. R. R. road Friday morning says that from the description he thinks the man was a passenger on

his train that morning.

A fire broke out about half-past one o'clock yesterday morning in the Oil Works of the Carolina Oil and Creosote Company, at the foot of Church street. The fire originated from sparks falling on the shingle roof of the shed over the retorts. It spread rapidly and soon enveloped the whole shed in flames. Beyond the destruction of this and a few cords of lightwood, the damage was slight. There was no insurance on the property. All the fire engines were soon on the ground and together extinguished the flames. The hose cart of the Cape Fear Company was the first to arrive, and prevented the fire spreading until the remainder of the department got to work. The shed will be rebuilt at once and work con-

A DOWN TOWN MERCHANT, having passed several sleepless nights, disturbed by the agonies and cries of a suffering child, and becoming convinced that Mrs. Winslow's Soothing Syrup was just the article needed, procured a supply for the child. On reaching home and acquainting his wife with what he had done, she refused to have it administered to the child, as she was strongly in favor of Homœopathy. That night the child passed in suffering, and the parents without sleep. Returning home the day following, the father found the baby still suffering; and while contemplating another sleepless night, the mother stepped from the room to attend to some domestic duties and left the father with the child. During her absence he administered a portion of the Soothing Syrup to the baby, and said nothing. That night all hands slept well, and the little fellow awoke in the morning bright and happy. The mother was delighted with the wonderful change, and although at first offended at the deception practiced upon her, has continued to use the Syrup, and suffering crying babies and restless nights have disappeared. A single trial of the Syrup never yet failed to relieve the baby, and overcome the prejudices of the mother. Sold by all Druggists. 25 cents a bottle.

Mr. Editor:—In your report of the pro-ceedings of the Board of Aldermen held on the 12th inst., you quote me as favoring the resolutions proposing to appoint the Cape Fear & Yadkin Valley Railroad commission on account of discrimination of rates to this place by the Wilmington & Weldon Railroad, &c. I think my brother Aldermen will bear me out in the statement that my position at that and former meetings, was that while I was not prepared, with information before me, to favor a subscription to the railroad, yet I deemed the matter of such importance as to require great consideration at our hands, and thought it advisable to appoint the commission that they might treat with the Cape Fear & Yadkin Valley people and be in position to encourage the road to be built here if it could be done on terms tha
